Part IV

Department of the Interior

National Park Service

National Park System Units in Alaska; Description of Boundaries; Notice

DEPARTMENT OF THE INTERIOR

National Park Service

National Park System Units in Alaska; Description of Boundaries

AGENCY: National Park Service, Interior.

ACTION: Notice.

SUMMARY: This notice sets out the legal descriptions of the external boundaries of national parks, monuments and preserves (hereinafter parklands) established or expanded in Alaska under sections 201 and 202 of the Alaska National Interest Lands Conservation Act (ANILCA). Also described are the external boundaries of units of the National Wilderness Preservation System established within these parklands under section 701 of ANILCA. Limited descriptions are included for wild rivers established on parklands under section 601. Publication of these legal descriptions is required by section 103 of ANILCA. Generalized location maps are included also.

DATES: Pursuant to section 103(b) of ANILCA these boundary descriptions are effective as of December 2, 1980.

FOR FURTHER INFORMATION CONTACT: Regional Director, National Park Service (Attn: Land Resources Division), 2525 Gambell Street, room 107, Anchorage, Alaska 99503 (Phone: 907–257–2584), or Director, National Park Service (Attn: Land Resources Division), P.O. Box 37127, Washington, DC 20013–7127 (Phone: 202–343–4828).

SUPPLEMENTARY INFORMATION: Under section 103(b) of the Alaska National Interest Lands Conservation Act (ANILCA), Public Law 96–487 (94 Stat. 2371) the Secretary of the Interior was directed to publish legal descriptions and boundary maps for the land status changes effected by ANILCA, including national parklands and their wilderness areas. The official legal descriptions for parklands, and wilderness areas and wild rivers designated therein, are included in this notice. While generalized location maps for these areas are also included in this notice, the 1:250,000 scale maps developed for public use under section 103(b), whose official names and dates are listed below, are incorporated by this notice and are available for inspection at U.S. Geological Survey offices in Alaska, in Denver, Colorado and in Reston, Virginia, and at the National Park Service Regional Office in Anchorage, Alaska (see below for addresses). Limited descriptions of wild and study rivers within parklands are included also, although they are not depicted on the 1:250,000 scale maps.

Twenty-one national parkland units in Alaska were established or expanded by ANILCA, consisting of 8 parks, 2 monuments, 10 preserves and one wild river. Included in these 21 units is one previously existing national park that was expanded and renamed, and two previously existing national monuments that were expanded and redesignated as parks and preserves.

The parklands established or expanded by ANILCA and administered by the National Park Service, with the date of their official maps noted in parentheses, are as follows:

Alagnak Wild River (December, 1983)
Aniakchak National Monument and Preserve (October 1978)
Bering Land Bridge National Preserve (October 1978)
Cape Krusenstern National Monument (October 1979)
Denali National Park and Preserve (July 1980)
Gates of the Arctic National Park and Preserve (July 1980)
Glacier Bay National Park and Preserve (October 1978)
Katmai National Park and Preserve (July 1980)
Kenai Fjords National Park (October 1978)
Kobuk Valley National Park (October 1979)
Lake Clark National Park and Preserve (October 1978)
Noatak National Preserve (July 1980)
Wrangell-St. Elias National Park and Preserve (August 1980)
Yukon-Charley Rivers National Preserve (October 1978)

Use of National Park System Lands

The legal descriptions that follow are those of external boundaries of the above-listed parklands. State and private land holdings within these boundaries are not identified in the legal descriptions. Inclusion of these lands within the described boundaries should not be interpreted as authorizing public use of such lands. Uses of the public lands within the described boundaries are controlled by the laws and regulations governing administration of units of the National Park System and provisions of ANILCA. Persons desiring information on land status within the described boundaries may contact the Land Resources Division of the Alaska Regional Office of the National Park Service or individual park offices in Alaska.

The term "public lands" as used throughout this Notice is defined by ANILCA as those lands, waters, and interests therein, the title to which is in the United States after December 2, 1980, except:

(A) Land selections of the State of Alaska which have been tentatively approved or validly selected under the Alaska Statehood Act and lands which have been confirmed to, validly selected by, or granted to the Territory of Alaska or the State under any other provision of Federal law;

(B) Land selections of a Native Corporation made under the Alaska Native Claims Settlement Act, Public Law 92–203 (85 Stat. 688), as amended, which have not been conveyed to a Native Corporation, unless any such selection is determined to be invalid or is relinquished; and

(C) Lands referred to in section 19(b) of the Alaska Native Claims Settlement Act.

Those lands selected by the State or a Native Corporation within the external boundaries of the national parklands are to be administered by the National Park Service under applicable laws until conveyed by interim conveyance, tentative approval or patent. Those lands selected by, but not ultimately conveyed to, the State or a Native Corporation within the external boundaries of a national parkland, shall become part of that unit.

Many of the boundaries described for Alaska parklands follow natural features, such as ocean coastline, hydrographic divides, banks of rivers, or lakeshores. Where a water body forms a portion of the boundary, general riparian law shall apply to that boundary.

Section 103(a) of ANILCA provides that coastal boundaries of National Park Service units created or expanded by ANILCA do not extend seaward beyond the line of mean high tide to include lands owned by the State of Alaska. However, the official maps of the above-listed parklands depict portions of the ANILCA boundaries as including bays, inlets and other tidal areas within such parklands. The following legal descriptions for each of the parklands, and subsequent map revisions for these parklands, clarify this matter by respectively describing and illustrating that the ANILCA boundaries in coastal areas follow the line of mean high tide. Lands above mean high tide on islands, islets, rocks, reefs or spires in the above-mentioned bays, inlets and other tidal areas are part of the parklands, and are so described and illustrated. The State of Alaska owns the beds of inland navigable water bodies, tidelands and submerged marine lands, except such beds, tidelands and marine lands that were reserved to the United States at the time of Statehood.

All public lands within Federal reservations for defense, navigation, communications and other purposes within the external boundaries of any parkland described are part of that parkland. Rights of holding agencies are set forth in section 1310 of ANILCA.

Wilderness Units Described

In this notice, legal descriptions of the external boundaries of units of the National Wilderness Preservation System established by ANILCA within national parklands in Alaska can be found after the boundary description for the parkland in which they are located. The wilderness units established by ANILCA, with the date of their official maps noted in parentheses, are as follows:

Denali Wilderness (July 1980)—in Denali National Park
Gates of the Arctic Wilderness (July 1980)—in Gates of the Arctic National Park
Glacier Bay Wilderness (October 1978)—in Glacier Bay National Park
Katmai Wilderness (July 1980)—in Katmai National Park and Preserve
Kobuk Valley Wilderness (October 1979)—in Kobuk Valley National Park
Lake Clark Wilderness (October 1978)—in Lake Clark National Park and Preserve
Noatak Wilderness (July 1980)—in Noatak National Preserve
Wrangell-St. Elias Wilderness (August 1980)—in Wrangell-St. Elias National Park and Preserve

Use of Wilderness Units

In addition to the laws and regulations governing the use of national parklands, described above, the use of wilderness units is governed by provisions of the Wilderness Act (16 U.S.C. 1131 et seq.) and ANILCA.

National Wild and Scenic Rivers

ANILCA designated the following national wild rivers in national parklands in Alaska: Aniakchak Wild River in Aniakchak National Monument and Preserve; Alatna, John, Kobuk, Noatak (upper), North Fork of the Koyukuk and Tinayguk Wild Rivers in Gates of the Arctic National Park and Preserve; a portion of the Alagnak Wild River within Katmai National Preserve; the Salmon Wild River in Kobuk Valley National Park; Chilikadrotna, Mulchatna and Tlikakila Wild Rivers in Lake Clark National Park and Preserve; Noatak Wild River in Noatak National Preserve; and Charley Wild River in Yukon-Charley Rivers National Preserve.

The ANILCA descriptions of national wild rivers within national parklands are included in this notice, but they are not depicted on the 1:250,000 scale maps. These limited descriptions can be found following the description of the parkland in which they occur. The rivers and any need for river corridor boundaries have been addressed in the general management plan for each parkland.

In addition to regulations governing use of national parklands, use of these river areas is governed by the Wild and Scenic Rivers Act (16 U.S.C. 1271–1287), as amended by ANILCA.

Availability of Maps

The maps of the Alaska national parklands included in this notice are generalized depictions of the lands described. Maps at this scale cannot accurately depict the actual boundaries and should be used only as general location references. Persons desiring more detailed information on parkland and wilderness boundaries are directed to maps, at the scale of 1:250,000, which are available for review at the following locations:

National Park Service, Land Resources Division, Room 201, 2525 Gambell Street, Anchorage, Alaska 99503
U.S. Geological Survey, Library—Cartographic Information Center, 952 National Center, Reston, Virginia 22092.

Additionally, these 1:250,000 scale maps are available for sale and review at the following U.S. Geological Survey offices:

U.S. Geological Survey, Alaska, Distribution Section, 4230 University Drive, room 101, Anchorage, Alaska 99503
U.S. Geological Survey, Alaska, Distribution Section, 101 12th Avenue, Fairbanks, Alaska 99701
U.S. Geological Survey, Distribution Branch, Box 25285–0046, Federal Center, Denver, Colorado 80226.

The maps from which the legal descriptions in this notice were written are at the 1:63,360 scale, where available, and reflect greater detail and accuracy than that depicted on the 1:250,000 scale maps prepared for public use. These maps are available for review in the National Park Service Alaska Regional Office in Anchorage, Alaska at the address noted above. A list of the specific maps used to develop these legal descriptions follows the description for each parkland.

The large number of maps (approximately 579) necessary to depict the Alaska national parklands at the 1:63,360 scale precludes their simultaneous immediate reproduction for public use. However, as the U.S. Geological Survey revises individual maps at this scale, the new boundary lines are depicted. These revised maps are available through normal U.S. Geological Survey sales outlets.

Dated: September 4, 1992.

John M. Morehead,

Regional Director, Alaska Region, National Park Service.

Conservation System Units Established in Alaska Within the National Park System

Aniakchak National Monument and Preserve

Section 201(1), Public Law 96–487 (ANILCA):

Aniakchak National Monument

Aniakchak National Monument as generally depicted on a map numbered ANIA–90,005, dated October 1978, consists of approximately one hundred and thirty-eight thousand acres of public lands, as defined by the ANILCA, within the following described boundary:

Beginning at the corner of sections 7, 8, 17 and 18, T. 39 S., R. 54 W., Seward Meridian;

Thence northerly, between sections 7 and 8, 5 and 6, along a common boundary with the Aniakchak National Preserve, to the corner of sections 5, 6, 31 and 32, Tps. 38 and 39 S., R. 54 W., Seward Meridian;

Thence easterly between Tps. 38 and 39 S., to the corner of sections 3, 4, 33 and 34, Tps. 38 and 39 S., R. 54 W., Seward Meridian;

Thence northerly, between sections 33 and 34, 27 and 28, to the summit of a ridge, between sections 27 and 28, T. 38 S., R. 54 W., Seward Meridian, approximate elevation 2,060 feet;

Thence on an approximate forward bearing of N. 77° E., to the northerly end of the summit of a mountain, located in section 27, T. 38 S., R. 54 W., Seward Meridian, approximate elevation 2,200 feet;

Thence on an approximate forward bearing of N. 26° E., to the summit of a small mountain, located in section 22, T. 38 S., R. 54 W., Seward Meridian, approximate elevation 1,650 feet;

Thence on an approximate forward bearing of N. 68° W., to the summit of a mountain, located in section 21, T. 38 S., R. 54 W., Seward Meridian, approximate elevation 1,800 feet;

Thence on an approximate forward bearing of N. 55° W., to the summit of a mountain, located in Section 18, T. 38 S., R. 54 W., Seward Meridian, approximate elevation 2,285 feet;

Thence on an approximate forward bearing of N. 65° W., to the summit of a mountain, located in section 12, T. 38 S., R. 55 W., Seward Meridian, approximate elevation 2,400 feet;

Thence on an approximate forward bearing of N. 23° E., to the summit of a mountain, located in section 1, T. 38 S., R. 55 W., Seward Meridian, approximate elevation 2,585 feet;

Thence on an approximate forward bearing of N. 31° W., to the junction of the forks of High Creek, located in the easterly ½ of section 25, T. 37 S., R. 55 W., Seward Meridian;

Thence northerly, along the right bank of High Creek, to the intersection with the Ninth Standard Parallel South, on the south boundary of section 33, T. 36 S., R. 54 W., Seward Meridian;

Thence westerly on the Ninth Standard Parallel South, to the standard corner of T. 36 S., Rs. 54 and 55 W., Seward Meridian;

Thence westerly, departing from the common boundary with the Aniakchak National Preserve, on the Ninth Standard Parallel South, to the closing corner of T. 37 S., Rs. 56 and 57 W., Seward Meridian;

Thence southerly, between Rs. 56 and 57 W., to the corner of Ts. 37 and 38 S., Rs. 56 and 57 W., Seward Meridian;

Thence southerly, along a common boundary with the Alaska Peninsula National Wildlife Refuge, between Rs. 56 and 57 W., to the corner of section 13, 18, 19 and 24, T. 38 S., Rs. 56 and 57 W., Seward Meridian;

Thence westerly, between sections 13 and 24, 14 and 23, 15 and 22, to the corner of sections 15, 16, 21 and 22, T. 38 S., R. 57 W., Seward Meridian;

Thence southerly, between sections 21 and 22, 27 and 28, 33 and 34, 3 and 4, 9 and 10, 15 and 16, to the corner of sections 15, 16, 21 and 22, T. 39 S., R. 57 W., Seward Meridian;

Thence easterly, between sections 15 and 22, 14 and 23, 13 and 24, to the corner of sections 13, 18, 19 and 24, T. 39 S., Rs. 56 and 57 W., Seward Meridian;

Thence southerly, between Rs. 56 and 57 W., to the corner of sections 19, 24, 25 and 30, T. 39 S., Rs. 56 and 57 W., Seward Meridian;

Thence easterly, departing from the common boundary with the Alaska Peninsula National Wildlife Refuge, between sections 19 and 30, 20 and 29, 21 and 28, 22 and 27, 23 and 26, 24 and 25, 19 and 30, 20 and 29, 21 and 28, to the corner of sections 21, 22, 27 and 28, T. 39 S., R. 55 W., Seward Meridian;

Thence northerly, between sections 21 and 22, 15 and 16, to the corner of sections 9, 10, 15 and 16, T. 39 S., R. 55 W., Seward Meridian;

Thence easterly, between sections 10 and 15, 11 and 14, 12 and 13, 7 and 18, to the corner of sections 7, 8, 17 and 18, T. 39 S., R. 54 W., Seward Meridian, the place of beginning.

Aniakchak National Preserve

Aniakchak National Preserve as generally depicted on a map numbered ANIA–90,005, dated October 1978, consists of approximately three hundred and seventy-six thousand acres of public lands, as defined by the ANILCA, within the following described boundary:

Beginning at the meander corner of sections 29 and 30, at the line of mean high tide of the Pacific Ocean, T. 39 S., Rs. 49 and 50 W., Seward Meridian;

Thence northerly, along a common boundary with the Alaska Peninsula National Wildlife Refuge, between Rs. 49 and 50 W., to the corner of sections 19, 24, 25 and 30, T. 39 S., Rs. 49 and 50 W., Seward Meridian;

Thence westerly, between sections 24 and 25, 23 and 26, to the ¼ section corner of sections 23 and 26, T. 39 S., R. 50 W., Seward Meridian;

Thence northerly, on the north and south centerline of section 23, to the ¼ section corner of sections 14 and 23, T. 39 S., R. 50 W., Seward Meridian;

Thence westerly, between sections 14 and 23, to the corner of sections 14, 15, 22 and 23, T. 39 S., R. 50 W., Seward Meridian;

Thence northerly, between sections 14 and 15, to the corner of sections 10, 11, 14 and 15, T. 39 S., R. 50 W., Seward Meridian;

Thence westerly, between sections 10 and 15, to the ¼ section corner of sections 10 and 15, T. 39 S., R. 50 W., Seward Meridian;

Thence northerly, on the north and south centerline of section 10, to the ¼ section corner of sections 3 and 10, T. 39 S., R. 50 W., Seward Meridian;

Thence westerly, between sections 3 and 10, to the corner of sections 3, 4, 9 and 10, T. 39 S., R. 50 W., Seward Meridian;

Thence northerly, between sections 3 and 4, to the ¼ section corner of sections 3 and 4, T. 39 S., R. 50 W., Seward Meridian;

Thence westerly, on the east and west centerline of section 4, to the center ¼ section corner of section 4, T. 39 S., R. 50 W., Seward Meridian;

Thence approximately due North, to the summit of a mountain, located in the southerly portion of section 28, T. 38 S., R. 50 W., Seward Meridian, approximate elevation 3,271 feet;

Thence northwesterly, along the crest of a ridge between the drainages of Yantarni Creek and Northeast Creek, to the intersection of the section line between sections 7 and 12, T. 38 S., Rs. 50 and 51 W., Seward Meridian;

Thence northerly, between Rs. 50 and 51 W., to a point between sections 31 and 36, T. 37 S., Rs. 50 and 51 W., Seward Meridian, on the crest of a ridge between the drainages of Yantarni Creek and Northeast Creek, approximate elevation 700 feet;

Thence northwesterly, along the crest of a ridge between the drainages of Yantarni Creek, Northeast Creek, Main Creek and Painter Creek to a point between sections 6 and 34, Tps. 36 and 37 S., R. 51 W., Seward Meridian;

Thence northerly and northwesterly, departing from the common boundary with the Alaska Peninsula National Wildlife Refuge, along the crest of a ridge between the drainages of Painter Creek, Old Creek and Pumice Creek, to a point between sections 3 and 34, Tps. 35 and 36 S., R. 52 W., Seward Meridian;

Thence westerly, between Tps. 35 and 36 S., to the corner of Tps. 35 and 36 S., Rs. 54 and 55 W., Seward Meridian;

Thence southerly, between Rs. 54 and 55 W., to the standard corner of T. 36 S., Rs. 54 and 55 W., Seward Meridian;

Thence easterly, on the Ninth Standard Parallel South, along a common boundary with the Aniakchak National Monument, to a point on the right bank of High Creek, on the south of section 33, T. 36 S., R. 54 W., Seward Meridian;

Thence southerly, along the right bank of High Creek, to the junction of the forks of High Creek, located in the easterly ½ of section 35, T. 37 S., R. 55 W., Seward Meridian;

Thence on an approximate forward bearing of S. 31° E., to the summit of a mountain located in section 1, T. 38 S., R. 55 W., Seward Meridian, approximate elevation 2,565 feet;

Thence on an approximate forward bearing of S. 23° W., to the summit of a mountain located in section 12, T. 38 S., R. 55 W., Seward Meridian, approximate elevation 2,400 feet;

Thence on an approximate forward bearing of S. 65° E., to the summit of a mountain located in section 18, T. 38 S., R. 54 W., Seward Meridian, approximate elevation 2,285 feet;

Thence on an approximate forward bearing of S. 55° E., to the summit of a mountain located in section 21, T. 38 S., R. 54 W., Seward Meridian, approximate elevation 1,800 feet;

Thence on an approximate forward bearing of S. 68° E., to the summit of a small mountain located in section 22, T. 38 S., R. 54 W., Seward Meridian, approximate elevation 1,650 feet;

Thence on an approximate forward bearing of S. 26° W., to the northerly end of the summit of a mountain located in section 27, T. 38 S., R. 54 W., Seward Meridian, approximate elevation 2,200 feet;

Thence on an approximate forward bearing of S. 77° W., to the summit of a ridge between sections 27 and 28, T. 38 S., R. 54 W., Seward Meridian, approximate elevation 2,060 feet;

Thence southerly, between sections 27 and 28, 33 and 34, to the corner of sections 3, 4, 33 and 34, Tps. 38 and 39 S., R. 54 W., Seward Meridian;

Thence westerly, between Tps. 38 and 39 S., to the corner of sections 5, 6, 31 and 32, Tps. 38 and 39 S., R. 54 W., Seward Meridian;

Thence southerly, between sections 5 and 6, 7 and 8, to the corner of sections 7, 8, 17 and 18, T. 39 S., R. 54 W., Seward Meridian;

Thence westerly, between sections 7 and 18, 12 and 13, 11 and 14, 10 and 15, to the corner of sections 9, 10, 15 and 16, T. 39 S., R. 55 W., Seward Meridian;

Thence southerly, between sections 15 and 16, 21 and 22, to the corner of sections 21, 22, 27 and 28, T. 39 S., R. 55 W., Seward Meridian;

Thence westerly, between sections 21 and 28, 20 and 29, 19 and 30, 24 and 25, 23 and 26, 22 and 27, 21 and 28, 20 and 29, 19 and 30, to the corner of sections 19, 24, 25 and 30, T. 39 S., Rs. 56 and 57 W., Seward Meridian;

Thence southerly, departing from a common boundary with the Aniakchak National Monument, along a common boundary with the Alaska Peninsula National Wildlife Refuge, between Rs. 56 and 57 W., to the corner of sections 13, 18, 19 and 24, T. 40 S., Rs. 56 and 57 W., Seward Meridian;

Thence easterly, between sections 18 and 19, 17 and 20, 16 and 21, 15 and 22, 14 and 23, 13 and 24, to the corner of sections 13, 18, 19 and 24, T. 40 S., Rs. 55 and 56 W., Seward Meridian;

Thence southerly, between Rs. 55 and 56 W., to the standard corner of T. 40 S., Rs. 55 and 56 W., Seward Meridian;

Thence easterly, on the Tenth Standard Parallel South, to the closing corner of T. 41 S., Rs. 54 and 55 W., Seward Meridian;

Thence southerly, between Rs. 54 and 55 W., to the meander corner of sections 7 and

12, T. 41 S., Rs. 54 and 55 W., Seward Meridian, at the line of mean high tide of Kujulik Bay;

Thence departing from the common boundary with the Alaska Peninsula National Wildlife Refuge, easterly, northerly and southeasterly, along the line of mean high tide of Kujulik Bay, Pacific Ocean, Aniakchak Bay and Amber Bay, to the meander corner of sections 25 and 30, T. 39 S., Rs. 49 and 50 W., Seward Meridian, the place of beginning.

Units of the National Wild and Scenic Rivers Systems Within the Aniakchak National Monument and Preserve

Section 601, Public Law 96–487 (ANILCA):

"Aniakchak, Alaska. That portion of the river, including its major tributaries, Hidden Creek, Mystery Creek, Albert Johnson Creek, and North Fork Aniakchak River, within the Aniakchak National Monument and Preserve; to be administered by the Secretary of the Interior."

Note: Pursuant to section 605(d) of ANILCA and as provided for under section 3(b) of the Wild and Scenic Rivers Act, the necessity for any river corridor boundaries for the Aniakchak Wild River and its tributaries within the Aniakchak National Monument and Preserve has been considered during the comprehensive conservation planning process for the monument and preserve. In accordance with the General Management Plan for Aniakchak National Monument and Preserve, approved November 7, 1986, no specific river corridor boundaries are deemed necessary for the Aniakchak River in order to protect the river and its immediate environments. Proposed management of the monument and preserve meets and is compatible with management standards established by the Wild and Scenic Rivers Act.

The following U.S. Geological Survey 1:63,360 Series (Topographic) Quadrangle maps were used in preparing the legal boundary descriptions for Aniakchak National Monument and Preserve:

Bristol Bay, Alaska: (A–1) 1963.

Chignik, Alaska: (C–1) 1963; (D–1) 1963; (D–2) 1963.

Sutwik Island, Alaska: (C–5) 1963; (C–6) 1963; (D–4) 1963; (D–5) 1963; (D–6) 1963.

Ugashik, Alaska: (A–5) 1963; (A–6) 1963.

Bering Land Bridge National Preserve

Section 201(2), Public Law 96–487 (ANILCA):

Bering Land Bridge National Preserve as generally depicted on a map numbered BELA–90,005, dated October 1978, consists of approximately two million four hundred and fifty-seven thousand acres of public lands, as defined by the ANILCA, within the following described boundary:

Beginning at a point between sections 21 and 22, T. 2 S., R. 20 W., Kateel River Meridian, on the crest of a ridge, approximate elevation 2,550 feet;

Thence northerly, between sections 21 and 22, 15 and 16, 9 and 10, 3 and 4, to the corner of sections 3, 4, 33 and 34, Tps. 1 and 2 S., R. 20 W., Kateel River Meridian;

Thence westerly, between Tps. 1 and 2 S., to the corner of sections 1, 2, 35 and 36, Tps. 1 and 2 S., R. 21 W., Kateel River Meridian;

Thence northerly, between sections 35 and 36, to the corner of sections 25, 26, 35 and 36, T. 1 S., R. 21 W., Kateel River Meridian;

Thence easterly, between sections 25 and 36, to the corner of sections 25, 30, 31 and 36, T. 1 S., Rs. 20 and 21 W., Kateel River Meridian;

Thence northerly, between Rs. 20 and 21 W., to the corner of sections 19, 24, 25 and 30, T. 1 S., Rs. 20 and 21 W., Kateel River Meridian;

Thence easterly, between sections 19 and 30, to the corner of sections 19, 20, 29 and 30, T. 1 S., R. 20 W., Kateel River Meridian;

Thence northerly, between sections 19 and 20, to the corner of sections 17, 18, 19 and 20, T. 1 S., R. 20 W., Kateel River Meridian;

Thence easterly, between sections 17 and 20, 16 and 21, to the corner of sections 15, 16, 21 and 22, T. 1 S., R. 20 W., Kateel River Meridian;

Thence northerly, between sections 15 and 16, 9 and 10, 3 and 4, to the closing corner of sections 3 and 4, T. 1 S., R. 20 W., Kateel River Meridian;

Thence westerly, along the Kateel River Base Line, to the standard corner of sections 33 and 34, T. 1 N., R. 20 W., Kateel River Meridian;

Thence northerly, between sections 33 and 34, 27 and 28, 21 and 22, 15 and 16, to the corner of sections 9, 10, 15 and 16, T. 1 N., R. 20 W., Kateel River Meridian;

Thence westerly, between sections 9 and 16, 8 and 17, to the corner of sections 7, 8, 17 and 18, T. 1 N., R. 20 W., Kateel River Meridian;

Thence northerly, between sections 7 and 8, 5 and 6, 31 and 32, 29 and 30, to the corner of sections 19, 20, 29 and 30, T. 2 N., R. 20 W., Kateel River Meridian;

Thence westerly, between sections 19 and 30, to the corner of sections 19, 24, 25 and 30, T. 2 N., Rs. 20 and 21 W., Kateel River Meridian;

Thence northerly, between Rs. 20 and 21., to the corner of sections 7, 12, 13 and 18, T. 2 N., Rs. 20 and 21 W., Kateel River Meridian;

Thence easterly, between sections 7 and 18, to the corner of sections 7, 8, 17 and 18, T. 2 N., R. 20 W., Kateel River Meridian;

Thence northerly, between sections 7 and 8, to the corner of sections 5, 6, 7 and 8, T. 2 N., R. 20 W., Kateel River Meridian;

Thence easterly, between sections 5 and 8, to the corner of sections 4, 5, 8 and 9, T. 2 N., R. 20 W., Kateel River Meridian;

Thence northerly, between sections 4 and 5, to the corner of sections 4, 5, 32 and 33, Tps. 2 and 3 N., R. 20 W., Kateel River Meridian;

Thence easterly, between Tps. 2 and 3 N., to the ¼ section corner of sections 4 and 33, Tps. 2 and 3 N. R. 20 W., Kateel River Meridian;

Thence northerly, on the north and south centerline of section 33, to the ¼ section corner of sections 28 and 33, T. 3 N., R. 20 W., Kateel River Meridian;

Thence easterly, between sections 28 and 33, 27 and 34, to the ¼ section corner of sections 27 and 34, T. 3 N., R. 20 W., Kateel River Meridian;

Thence northerly, on the north and south centerline of section 27, to the ¼ section corner of sections 22 and 27, T. 3 N., R. 20 W., Kateel River Meridian;

Thence easterly, between sections 22 and 27, 23 and 26, to the ¼ section corner of section 23 and 26, T. 3 N., R. 20 W., Kateel River Meridian;

Thence northerly, on the north and south centerline of section 23, to the ¼ section corner of sections 14 and 23, T. 3 N., R. 20 W., Kateel River Meridian;

Thence easterly, between sections 14 and 23, to the corner of sections 13, 14, 23 and 24, T. 3 N., R. 20 W., Kateel River Meridian;

Thence northerly, between sections 13 and 14, 11 and 12, to the ¼ section corner of sections 11 and 12, T. 3 N., R. 20 W., Kateel River Meridian;

Thence easterly, on the east and west centerline of section 12, to the ¼ section corner of sections 7 and 12, T. 3 N., Rs. 19 and 20 W., Kateel River Meridian;

Thence northerly, between Rs. 19 and 20 W., to the closing corner of T. 4 N., Rs. 19 and 20 W., Kateel River Meridian;

Thence westerly, along the First Standard Parallel North, to the standard corner of sections 31 and 32, T. 5 N., R. 19 W., Kateel River Meridian;

Thence northerly, between sections 31 and 32, 29 and 30, 19 and 20, to the corner of sections 17, 18, 19 and 20, T. 5 N., R. 19 W., Kateel River Meridian;

Thence westerly, between sections 18 and 19, 13 and 24, 14 and 23, 15 and 22, 16 and 21, 17 and 20, 18 and 19, to the corner of sections 13, 18, 19 and 24, T. 5 N., Rs. 20 and 21 W., Kateel River Meridian;

Thence southerly, between Rs. 20 and 21 W., to the standard corner of T. 5 N., Rs. 20 and 21 W., Kateel River Meridian;

Thence westerly, along the First Standard Parallel North, to the standard corner of sections 33 and 34, T. 5 N., R. 22 W., Kateel River Meridian;

Thence northerly, between sections 33 and 34, 27 and 28, 21 and 22, to the corner of sections 15, 16, 21 and 22, T. 5 N., R. 22 W., Kateel River Meridian;

Thence westerly, between sections 16 and 21, 17 and 20, 18 and 19, to the corner of sections 13, 18, 19 and 24, T. 5 N., Rs. 22 and 23 W., Kateel River Meridian;

Thence northerly, between Rs. 22 and 23 W., to the corner of Tps. 6 and 7 N., Rs. 22 and 23 W., Kateel River Meridian;

Thence easterly, between Tps. 6 and 7 N., to the corner of Tps. 6 and 7 N., Rs. 21 and 22 W., Kateel River Meridian;

Thence northerly, between Rs. 21 and 22 W., to the meander corner between sections 25 and 30, T. 8 N., Rs. 21 and 22 W., Kateel River Meridian, at the line of mean high tide on the southern shore of Kotzebue Sound;

Thence westerly, northwesterly, westerly to the mouth of the Nugnugaluktuk River, easterly, northerly, westerly, southwesterly into Shishmaref Inlet, northerly, westerly, and southwesterly along the line of mean high tide of Kotzebue Sound, Chukchi Sea, Shishmaref Inlet and Cowpack Inlet, to the meander corner of sections 13 and 18, T. 11 N., Rs. 32 and 33 W., including all lands, barrier and offshore islands including Cape Espenberg, lying above the line of mean high tide within 6 miles of the mainland coast between the eastern range line of T. 8 N., R. 22 W. and the western range line of T. 11 N., R. 32 W., Kateel River Meridian;

Thence southerly, between Rs. 32 and 33 W., to the corner of Tps. 9 and 10 N., Rs. 32 and 33 W., Kateel River Meridian;

Thence easterly, between Tps. 9 and 10 N., to the corner of Tps. 9 and 10 N., Rs. 31 and 32 W., Kateel River Meridian;

Thence southerly, between Rs. 31 and 32 W., to the standard corner of T. 9 N., Rs. 31 and 32 W., Kateel River Meridian;

Thence easterly, along the Second Standard Parallel North, to the closing corner of T. 8 N., Rs. 31 and 32 W., Kateel River Meridian;

Thence southerly, between Rs. 31 and 32 W., to the corner of Tps. 7 and 8 N., Rs. 31 and 32 W., Kateel River Meridian;

Thence westerly, between Tps. 7 and 8 N., to the corner of Tps. 7 and 8 N., Rs. 37 and 38 W., Kateel River Meridian;

Thence northerly, between Rs. 37 and 38 W., to the meander corner between sections 13 and 18, T. 8 N., Rs. 37 and 38 W., at the line of mean high tide of the Arctic Lagoon;

Thence, southwesterly, southeasterly, southwesterly, northwesterly and southwesterly, along the line of mean high tide of Arctic Lagoon, Kugrupaga Inlet, Ikpek Lagoon and Chukchi Sea, including all lands, barrier and offshore islands lying above the line of mean high tide and within 6 miles of the mainland coastline and westerly of the eastern range line of T. 8 N., R. 38 W., to the westernmost point of the spit at the northeasterly end of Lopp Lagoon located in section 21, T. 5 N., R. 42 W., Kateel River Meridian;

Thence, southeasterly and southerly, along the line of mean high tide of Lopp Lagoon and the right bank of an unnamed river, to a point on the first Standard parallel North at its intersection with the right bank of the aforementioned unnamed river, on the south boundary of section 35, T. 5 N., R. 42 W., Kateel River Meridian;

Thence easterly, along the First Standard Parallel North, to the closing corner of T. 4 N., Rs. 41 and 42 W., Kateel River Meridian;

Thence southerly, between Rs. 41 and 42 W., to the corner of sections 13, 18, 19 and 24,

T. 4 N., Rs. 41 and 42 W., Kateel River Meridian;

Thence easterly, between sections 18 and 19, 17 and 20, 16 and 21, 15 and 22, 14 and 23, 13 and 24, 18 and 19, 17 and 20, 16 and 21, to the corner of sections 15, 16, 21 and 22, T. 4 N., R. 40 W., Kateel River Meridian;

Thence northerly, between sections 15 and 16, 9 and 10, 3 and 4, to the closing corner of sections 3 and 4, T. 4 N., R. 40 W., Kateel River Meridian;

Thence westerly, along the First Standard Parallel North, to the standard corner of T. 5 N., Rs. 39 and 40 W., Kateel River Meridian;

Thence northerly, between Rs. 39 and 40 W., to the corner of Tps. 5 and 6 N., Rs. 39 and 40 W., Kateel River Meridian;

Thence easterly, between Tps. 5 and 6 N., to the corner of Tps. 5 and 6 N., Rs. 37 and 38 W., Kateel River Meridian;

Thence northerly, between Rs. 37 and 38 W., to the corner of Tps. 6 and 7 N., Rs. 37 and 38 W., Kateel River Meridian;

Thence easterly, between Tps. 6 and 7 N., to the corner of sections 2, 3, 34 and 35, Tps. 6 and 7 N., R. 30 W., Kateel River Meridian;

Thence southerly, between sections 2 and 3, 10 and 11, 14 and 15, 22 and 23, 26 and 27, 34 and 35, 2 and 3, 10 and 11, 14 and 15, to the corner of sections 14, 15, 22 and 23, T. 5 N., R. 30 W., Kateel River Meridian;

Thence easterly, between sections 14 and 23, 13 and 24, to the corner of sections 13, 18, 19 and 24, T. 5 N., Rs. 29 and 30 W., Kateel River Meridian;

Thence southerly, between Rs. 29 and 30 W., to the standard corner of T. 5 N., Rs. 29 and 30 W., Kateel River Meridian;

Thence easterly, along the First Standard Parallel North, to the ¼ section corner of section 6, T. 4 N., R. 27 W., Kateel River Meridian;

Thence southerly, on the north and south centerline of section 6, to the center ¼ section corner of section 6, T. 4 N., R. 27 W., Kateel River Meridian;

Thence easterly, on the east and west centerlines of sections 5 and 6, to the center ¼ section corner of section 5, T. 4 N., R. 27 W., Kateel River Meridian;

Thence northerly, on the north and south centerline of section 5, to the ¼ section corner of section 5, T. 4 N., R. 27 W., Kateel River Meridian;

Thence easterly, along the First Standard Parallel North, to the ¼ section corner of section 4, T. 4 N., R. 27 W., Kateel River Meridian;

Thence southerly, on the north and south centerline of section 4, to the ¼ section corner of sections 4 and 9, T. 4 N., R. 27 W., Kateel River Meridian;

Thence easterly, between sections 4 and 9, to the corner of sections 3, 4, 9 and 10, T. 4 N., R. 27 W., Kateel River Meridian;

Thence southerly, between sections 9 and 10, to the ¼ section corner of sections 9 and 10, T. 4 N., R. 27 W., Kateel River Meridian;

Thence easterly, on the east and west centerlines of sections 10 and 11, to the center ¼ section corner of section 11, T. 4 N., R. 27 W., Kateel River Meridian;

Thence northerly, on the north and south centerline of section 11 to the ¼ section corner of sections 2 and 11, T. 4 N., R. 27 W., Kateel River Meridian;

Thence easterly, between sections 2 and 11, to the corner of sections 1, 2, 11 and 12, T. 4 N., R. 27 W., Kateel River Meridian;

Thence southerly, between sections 11 and 12, 13 and 14, 23 and 24, to the ¼ section corner of sections 23 and 24, T. 4 N., R. 27 W., Kateel River Meridian;

Thence westerly, on the east and west centerlines of sections 23 and 22, to the ¼ section corner of sections 21 and 22, T. 4 N., R. 27 W., Kateel River Meridian;

Thence southerly, between sections 21 and 22, to the corner of sections 21, 22, 27 and 28, T. 4 N., R. 27 W., Kateel River Meridian;

Thence westerly, between sections 21 and 28, to the corner of sections 20, 21, 28 and 29, T. 4 N., R. 27 W., Kateel River Meridian;

Thence southerly, between sections 28 and 29, 32 and 33, to the ¼ section corner of sections 32 and 33, T. 4 N., R. 27 W., Kateel River Meridian;

Thence westerly, on the east and west centerline of section 32, to the ¼ section corner of sections 31 and 32, T. 4 N., R. 27 W., Kateel River Meridian;

Thence southerly, between sections 31 and 32 to the corner of sections 5, 6, 31 and 32, Tps. 3 and 4 N., R. 27 W., Kateel River Meridian;

Thence westerly, between Tps. 3 and 4 N., to the ¼ section corner of sections 1 and 36, Tps. 3 and 4 N., R. 28 W., Kateel River Meridian;

Thence southerly, on the north and south centerline of section 1, to the ¼ section corner of sections 1 and 12, T. 3 N., R. 28 W., Kateel River Meridian;

Thence easterly, between sections 1 and 12, to the corner of sections 1, 6, 7 and 12, T. 3 N., Rs. 27 and 28 W., Kateel River Meridian;

Thence southerly, between Rs. 27 and 28 W., to the ¼ section corner of sections 7 and 12, T. 3 N., Rs. 27 and 28 W., Kateel River Meridian;

Thence easterly, on the east and west centerline of section 7, to the center ¼ section corner of section 7, T. 3 N., R. 27 W., Kateel River Meridian;

Thence southerly, on the north and south centerlines of sections 7 and 18, to the center ¼ section corner of section 18, T. 3 N., R. 27 W., Kateel River Meridian;

Thence westerly, on the east and west centerline of section 18, to the ¼ section corner of sections 13 and 18, T. 3 N., Rs. 27 and 28 W., Kateel River Meridian;

Thence southerly, between Rs. 27 and 28 W., to the ¼ section corner of sections 31 and 36, T. 3 N., Rs. 27 and 28 W., Kateel River Meridian;

Thence easterly, on the east and west centerline of section 31, to the center ¼ section corner of section 31, T. 3 N., R. 27 W., Kateel River Meridian;

Thence southerly, on the north and south centerline of section 31, to the ¼ section corner of sections 6 and 31, Tps. 2 and 3 N., R. 27 W., Kateel River Meridian;

Thence easterly, between Tps. 2 and 3 N., to the ¼ section corner of sections 5 and 32, Tps. 2 and 3 N., R. 27 W., Kateel River Meridian;

Thence southerly, on the north and south centerline of section 5, to the center ¼ section corner of section 5, T. 2 N., R 27 W., Kateel River Meridian;

Thence easterly, on the east and west centerline of section 5, to the ¼ section corner of sections 4 and 5, T. 2 N., R. 27 W., Kateel River Meridian;

Thence southerly, between sections 4 and 5, 8 and 9, to the ½ section corner of sections 8 and 9, T. 2 N., R. 27 W., Kateel River Meridian;

Thence easterly, on the east and west centerlines of sections 9, 10 and 11, to the center ¼ section corner of section 11, T. 2 N., R. 27 W., Kateel River Meridian;

Thence southerly, on the north and south centerlines of sections 11, 14 and 23, to the center ¼ section corner of section 23, T. 2 N., R. 27 W., Kateel River Meridian;

Thence easterly, on the east and west centerline of section 23 to the ¼ section corner of sections 23 and 24, T. 2 N., R. 27 W., Kateel River Meridian;

*Thence southerly, between sections 23 and 24, to the south-south ⅛₄ corner of sections 23 and 24, T. 2 N., R. 27 W., Kateel River Meridian;

*Thence easterly, on the east and west centerline of the south ½ of the southwest ¼ of section 24 to the south-south center ⅛₄ corner of section 24, T. 2 N., R. 27 W., Kateel River Meridian;

*Thence southerly on the north and south centerline of section 24 to the ¼ section corner of sections 24 and 25, T. 2 N., R. 27 W., Kateel River Meridian;

Thence easterly, between sections 24 and 25, to the corner of sections 19, 24, 25 and 30, T. 2 N., Rs. 26 and 27 W., Kateel River Meridian;

Thence southerly, between Rs. 26 and 27 W., to the standard corner of T. 1 N., Rs. 26 and 27 W., Kateel River Meridian;

Thence on an approximate forward bearing of S. 46½° E., to a small knoll located in the southwesterly portion of section 35, T. 1 S., R. 26 W., Kateel River Meridian, approximate elevation 313 feet;

Thence on an approximate forward bearing of S. 28½° E., to a point on the crest of the ridge located in the southwesterly portion of section 19, T. 2 S., R. 25 W., Kateel River Meridian, approximate elevation 1,790 feet;

Thence southeasterly, northeasterly, easterly, southeasterly and northerly along the crest of the ridge, between the drainages of Ella Creek, Birch Creek, Niukluk River, Pargon River, Minnie Creek, South Fork Kuzitrin River, Boston Creek, Caviar Creek, Fish River, tributaries of the Koyuk River, Wagon Wheel Creek, Lava Creek, and Telephone Creek, to a point between sections 21 and 22, T. 2 S., R. 20 W., Kateel River Meridian, the place of beginning.

* Department of the Interior 1:250,000 scale map issued in 1981, incorrectly depicts this portion of the description.

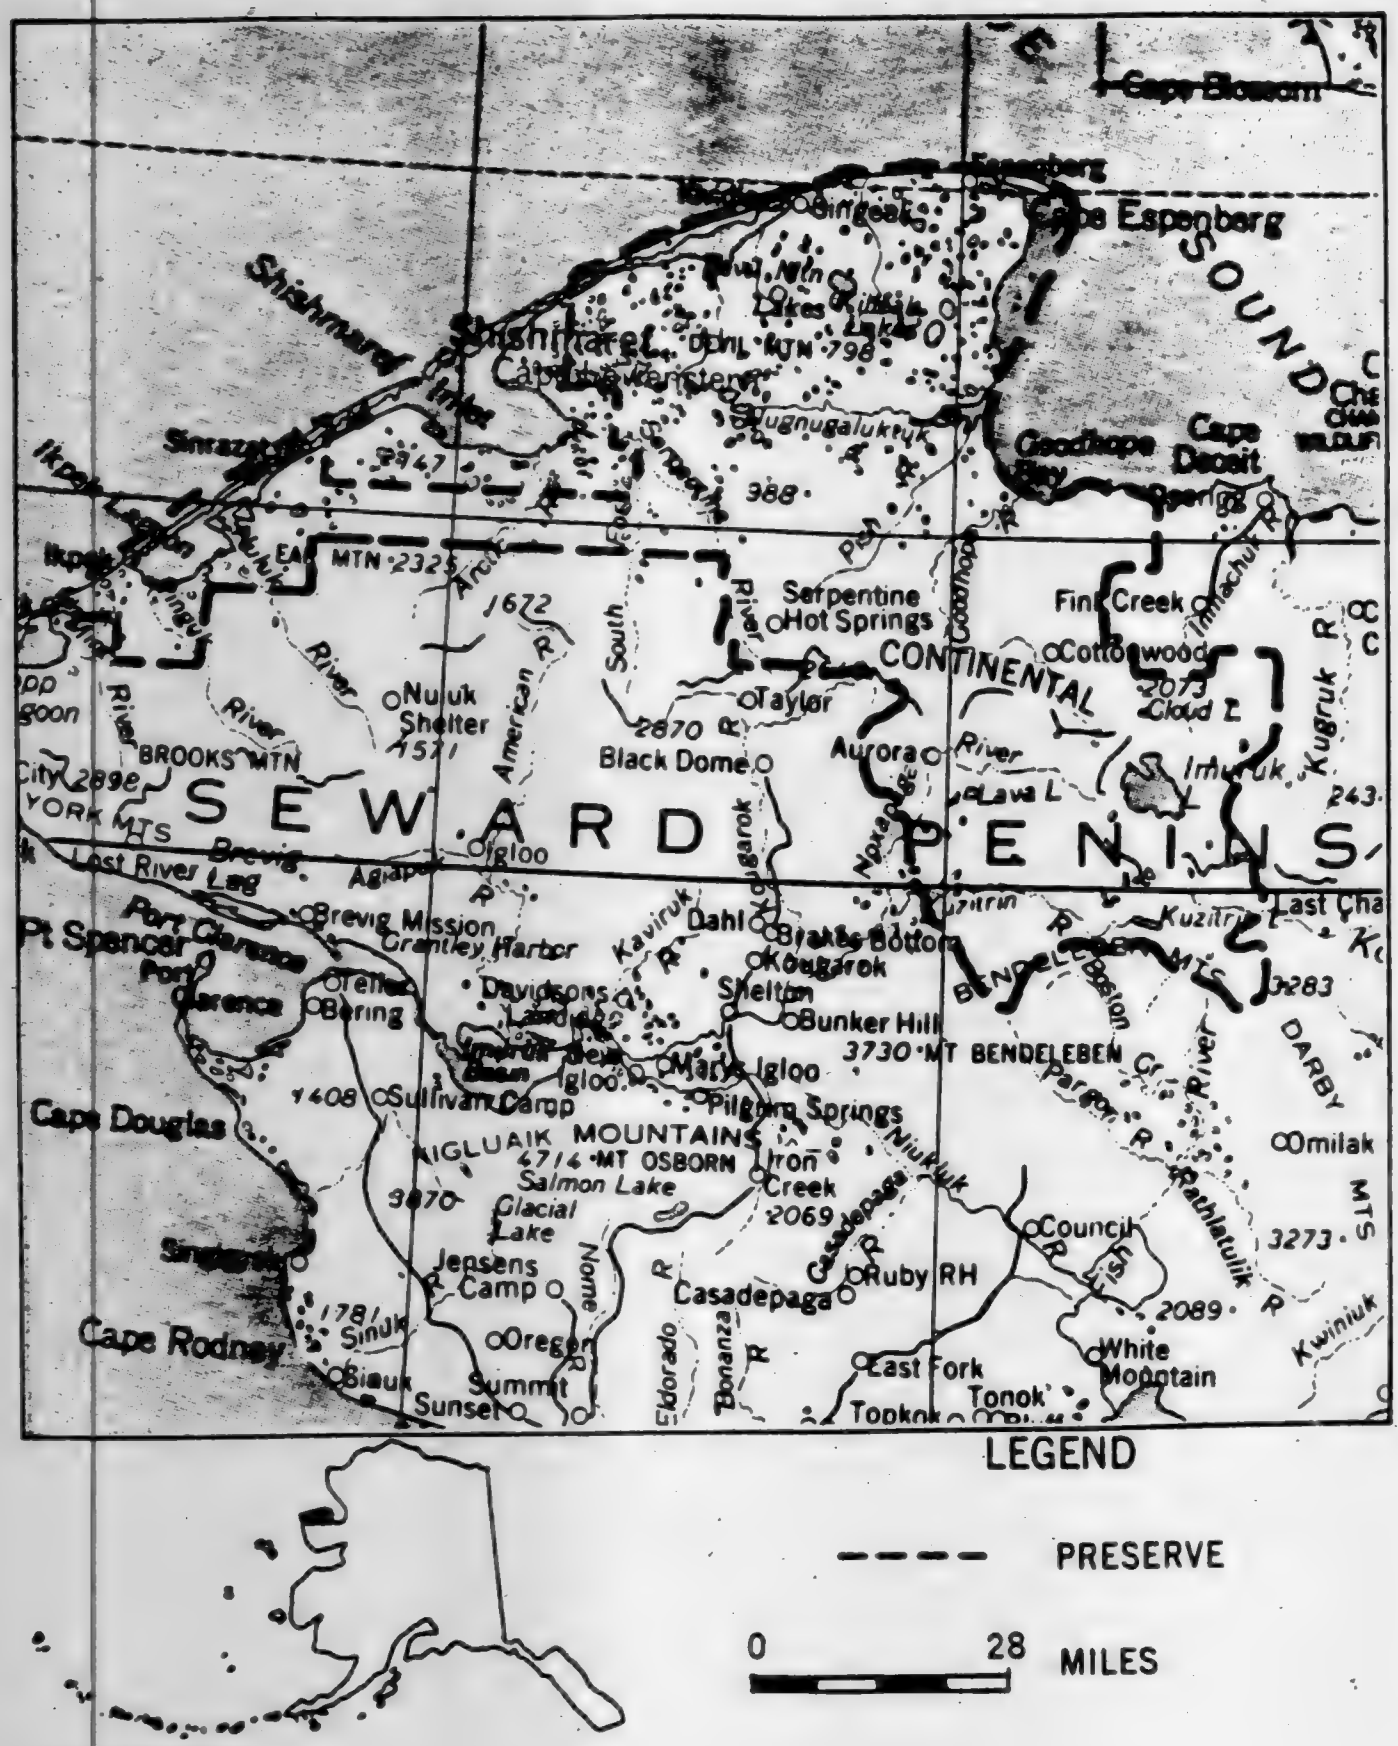
BERING LAND BRIDGE NATIONAL PRESERVE

PUBLIC LAW 96-487



BILLING CODE 4310-70-C

Cape Krusenstern National Monument

Section 201 (3), Public Law 96–487 (ANILCA):

Cape Krusenstern National Monument as generally depicted on a map numbered CAKR–90,007, dated October 1979, consists of approximately five hundred and sixty thousand acres of public lands, as defined by the ANILCA, within the following described boundary:

Beginning at the meander corner of sections 7 and 12, at the line of mean high tide of Kotzebue Sound, T. 19 N., Rs. 18 and 19 W., Kateel River Meridian;

Thence northerly, between Rs. 18 and 19 W., to a point between sections 1 and 6, T. 20 N., Rs. 18 and 19 W., Kateel River Meridian on the right bank of Mamelak Creek;

Thence northwesterly, along the right bank of Mamelak Creek, to an intersection with the Fifth Standard Parallel North, Kateel River Meridian;

Thence westerly, along the Fifth Standard Parallel North, to the standard corner of T. 21 N., Rs. 18 and 19 W., Kateel River Meridian;

Thence northerly, between Rs. 18 and 19 W., to the ¼ section corner of sections 31 and 36, T. 21 N., Rs. 18 and 19 W., Kateel River Meridian;

Thence westerly, on the east and west centerline of section 36, to the center ¼ section corner of section 36, T. 21 N., R. 19 W., Kateel River Meridian;

Thence northerly, on the north and south centerline of section 36, to the ¼ section corner of sections 25 and 36, T. 21 N., R. 19 W., Kateel River Meridian;

Thence westerly, between sections 25 and 36, 26 and 35, to a point on a ridge between sections 26 and 35, T. 21 N., R. 19 W., Kateel River Meridian;

Thence northwesterly, westerly, northerly and northwesterly along a ridge, to an intersection with the east and west centerline of section 22, T. 21 N., R. 19 W., Kateel River Meridian;

Thence westerly, on the east and west centerlines of sections 22 and 21, to the ¼ section corner of sections 20 and 21, T. 21 N., R. 19 W., Kateel River Meridian;

Thence northerly, between sections 20 and 21, to the corner of sections 16, 17, 20 and 21, T. 21 N., R. 19 W., Kateel River Meridian;

Thence westerly, between sections 17 and 20, to the corner of sections 17, 18, 19 and 20, T. 21 N., R. 19 W., Kateel River Meridian;

Thence northerly, between sections 17 and 18, to the top of a hill between sections 17 and 18, T. 21 N., R. 19 W., Kateel River Meridian, approximate elevation 750 feet;

Thence on an approximate forward bearing of N. 72° W., to the top of a hill in the northerly portion of section 13, T. 21 N., R. 20 W., Kateel River Meridian, approximate elevation 1,070 feet;

Thence on an approximate forward bearing of N. 82° W., to the top of a hill in the northwesterly portion of section 14, T. 21 N., R. 20 W., Kateel River Meridian, approximate elevation 1,215 feet;

Thence on an approximate forward bearing of N. 52° W., to a point on top of a ridge between sections 10 and 11, T. 21 N., R. 20 W., Kateel River Meridian, approximate elevation 1,175 feet;

Thence on an approximate forward bearing of N. 87° W., to a saddle in the southerly portion of section 10, T. 21 N., R. 20 W., Kateel River Meridian, approximate elevation 1,080 feet;

Thence on an approximate forward bearing of N. 76° W., to the top of a hill in the southwesterly portion of section 10, T. 21 N., R. 20 W., Kateel River Meridian, approximate elevation 1,120 feet;

Thence on an approximate forward bearing of N. 68° W., to the top of a hill near the center of section 9, T. 21 N., R. 20 W., Kateel River Meridian, approximate elevation 1,060 feet;

Thence on an approximate forward bearing of N. 16° W., to the top of a hill in the southwesterly portion of section 4, T. 21 N., R. 20 W., Kateel River Meridian, approximate elevation 1,175 feet;

Thence on an approximate forward bearing of N. 38° E., to the top of a hill in the northeasterly portion of section 4, T. 21 N., R. 20 W., Kateel River Meridian, approximate elevation 734 feet;

Thence on an approximate forward bearing of N. 35° W., to the ¼ section corner of sections 4 and 33, Tps. 21 and 22 N., R. 20 W., Kateel River Meridian;

Thence westerly, between Tps. 21 and 22 N., to the corner of Tps. 21 and 22 N., Rs. 20 and 21 W., Kateel River Meridian;

Thence northerly, between Rs. 20 and 21 W., to the corner of Tps. 23 and 24 N., Rs. 20 and 21 W., Kateel River Meridian;

Thence westerly, between Tps. 23 and 24 N., to the corner of sections 1, 2, 35 and 36, Tps. 23 and 24 N., R. 21 W., Kateel River Meridian;

Thence northerly, between sections 35 and 36, to a point on a ridge between sections 35 and 36, near the ¼ section corner of sections 35 and 36, T. 24 N., R. 21 W., Kateel River Meridian, approximate elevation 550 feet;

Thence northwesterly, along a ridge to horizontal control station "Mulgrave 1950" in the southwesterly portion of section 26, T. 24 N., R. 21 W., Kateel River Meridian, approximate elevation 1,056 feet;

Thence on an approximate forward bearing of N. 23° E., to the top of a hill in the southerly portion of section 23, T. 24 N., R. 21 W., Kateel River Meridian, approximate elevation 670 feet;

Thence on an approximate forward bearing of N. 35° W., to the top of a hill in the westerly portion of section 4, T. 24 N., R. 21 W., Kateel River Meridian, approximate elevation 960 feet;

Thence on an approximate forward bearing of N. 27° E., to the top of a hill located near the center of section 24, T. 25 N., R. 21 W., Kateel River Meridian, approximate elevation 1,070 feet;

Thence on an approximate forward bearing of N. 11° W., to the top of a hill in the southwesterly portion of section 13, T. 25 N., R. 21 W., Kateel River Meridian, approximate elevation 912 feet;

Thence on an approximate forward bearing of N. 10° E., to the center ¼ section corner of section 12, T. 25 N., R. 21 W., Kateel River Meridian;

Thence on an approximate forward bearing of N. 27° E., to the E. ¼ section corner between sections 1 and 12, T. 25 N., R. 21 W., Kateel River Meridian;

Thence on an approximate forward bearing of N. 28° W., to the top of a hill in the southwesterly portion of section 36, T. 26 N., R. 21 W., Kateel River Meridian, approximate elevation 905 feet;

Thence on an approximate forward bearing of N. 15° E., to the top of a hill in the southwesterly portion of section 25, T. 26 N., R. 21 W., Kateel River Meridian, approximate elevation 980 feet;

Thence on an approximate forward bearing of N. 35° E., to the top of a hill in the northerly portion of section 19, T. 26 N., R. 20 W., Kateel River Meridian, approximate elevation 910 feet;

Thence on an approximate forward bearing of N. 15° W., to the top of a hill in the northwesterly portion of section 18, T. 26 N., R. 20 W., Kateel River Meridian, approximate elevation 1,155 feet;

Thence on an approximate forward bearing of N. 7° W., to the top of a hill in the southwesterly portion of section 7, T. 26 N., R. 20 W., Kateel River Meridian, approximate elevation 1,132 feet;

Thence on an approximate forward bearing of N. 35° E., to the top of a hill in the northeasterly portion of section 7, T. 26 N., R. 20 W., Kateel River Meridian, approximate elevation 1,025 feet;

Thence on an approximate forward bearing of N. 16° W., to the top of a hill near the center of section 6, T. 26 N., R. 20 W., Kateel River Meridian, approximate elevation 965 feet;

Thence on an approximate forward bearing of N. 58° W., to the top of a hill in sections 1 and 36, Tps. 26 and 27 N., R. 21 W., Kateel River Meridian, approximate elevation 875 feet;

Thence on an approximate forward bearing of N. 14° W., to the ¼ section corner of sections 25 and 36, T. 27 N., R. 21 W., Kateel River Meridian;

Thence northerly on the north and south centerline of section 25, to the ¼ section corner of sections 24 and 25, T. 27 N., R. 21 W., Kateel River Meridian;

Thence on an approximate forward bearing of N. 36° W., to the top of a hill in the westerly portion of section 24, T. 27 N., R. 21 W., Kateel River Meridian, approximate elevation 1,043 feet;

Thence on an approximate forward bearing of N. 54° E., to the center ¼ section corner of section 18, T. 27 N., R. 20 W., Kateel River Meridian;

Thence on an approximate forward bearing of N. 12° E., to the top of a hill located in the southeasterly portion of section 6, T. 27 N., R. 20 W., Kateel River Meridian, approximate elevation 1,478 feet;

Thence on an approximate forward bearing of N. 72° E., to the top of a hill located in the northeasterly portion of section 4, T. 27 N., R. 20 W., Kateel River Meridian, approximate elevation 1,947 feet;

Thence on an approximate forward bearing of N. 27° E., to the peak of a mountain in the westerly portion of section 34, T. 28 N., R. 20 W., Kateel River Meridian, approximate elevation 1,975 feet;

Thence on an approximate forward bearing of N. 16° E., to the peak of a mountain and horizontal control station "Mulgrave 1954" in the southwesterly portion of section 27, T. 28 N., R. 20 W., Kateel River Meridian, approximate elevation 2,285 feet;

Thence northwesterly and westerly, along the crest of a ridge, to the peak of a mountain near the center of section 28, T. 28 N., R. 20 W., Kateel River Meridian, approximate elevation 1,973 feet;

Thence on an approximate forward bearing of N. 69° W., to the N. 1/16 section corner between sections 28 and 29, T. 28 N., R. 20 W., Kateel River Meridian;

Thence on an approximate forward bearing of S. 80° W., to the top of a hill located in the northerly portion of section 29, T. 28 N., R. 20 W., Kateel River Meridian, approximate elevation 1,225 feet;

Thence on an approximate forward bearing of S. 73° W., to the top of a hill in the northwesterly portion of section 35, T. 28 N., R. 21 W., Kateel River Meridian, approximate elevation 1,032 feet;

Thence on an approximate forward bearing of S. 71° W., to the top of a hill in the northwesterly portion of section 5, T. 27 N., R. 21 W., Kateel River Meridian, approximate elevation 904 feet;

Thence on an approximate forward bearing of N. 78° W., to the corner of Tps. 27 and 28 N., Rs. 21 and 22 W., Kateel River Meridian;

Thence westerly, between Tps. 27 and 28 N., to the corner of Tps. 27 and 28 N., Rs. 23 and 24 W., Kateel River Meridian;

Thence southerly, between Rs. 23 and 24 W., to the corner of sections 1, 6, 7 and 12, T. 27 N., Rs 23 and 24 W., Kateel River Meridian;

Thence westerly, between sections 1 and 12, 2 and 11, to the corner of sections 2, 3, 10 and 11, T. 27 N., R. 24 W., Kateel River Meridian;

Thence southerly, between sections 10 and 11, to the corner of sections 10, 11, 14, and 15, T. 27 N., R. 24 W., Kateel River Meridian;

Thence westerly, between sections 10 and 15, to the corner of sections 9, 10, 15 and 16, T. 27 N., R. 24 W., Kateel River Meridian;

Thence southerly, between sections 15 and 16, 21 and 22, to the corner of sections 21, 22, 27 and 28, T. 27 N., R. 24 W., Kateel River Meridian;

Thence westerly, between sections 21 and 28, 20 and 29, to the corner of sections 19, 20, 29 and 30, T. 27 N., R. 24 W., Kateel River Meridian;

Thence southerly, between sections 29 and 30, 31 and 32, to the corner of sections 5, 6, 31 and 32, Tps. 26 and 27 N., R. 24 W., Kateel River Meridian;

Thence westerly, between Tps. 26 and 27 N., to the corner of Tps. 26 and 27 N., Rs. 24 and 25 W., Kateel River Meridian;

Thence southerly, between Rs. 24 and 25 W., to the meander corner between sections 19 and 24, T. 26 N., Rs. 24 and 25 W., Kateel River Meridian, at the line of mean high tide of the Chukchi Sea;

Thence southeasterly, southerly, easterly, northwesterly and easterly following the line of mean high tide of the Chukchi Sea and Kotzebue Sound, including all lands and islands above the line of mean high tide within T. 19 N., Rs. 19 and 20 W., Kateel River Meridian, to the meander corner between sections 7 and 12, T. 19 N., Rs. 18 and 19 W., Kateel River Meridian, the place of beginning.

The following U.S. Geological survey 1:63,360 Series (Topographic) quadrangle maps were used in preparing the legal boundary description for the Cape Krusenstern National Monument:

Kotzebue, Alaska: (D–2) 1951.

Noatak, Alaska: (A–2) 1952; (A–3) 1952; (A–4) 1952; (B–3) 1955; (B–4) 1955; (C–3) 1955; (C–4) 1955; (C–5) 1952; (D–3) 1955; (D–4) 1955; (D–5) 1955.

Denali National Park and Preserve

Section 202(3)(a), Public Law 96–487 (ANILCA):

Denali National Park

Denali National Park as generally depicted on a map numbered DENA–90,007, dated July 1980, consists of the former Mount McKinley National Park and an addition of approximately two million four hundred and twenty-six thousand acres of public lands, as defined in the ANILCA, within the following described boundary:

Beginning at the intersection of the northern boundary segment 7–1 or its easterly prolongation, of Mount McKinley National Park as revised by Act of Congress, March 19, 1932 and the line of mean high water of the left bank of the Nenana River, at or near corner No. 7, as described in the official field notes for U.S. Survey 2177, Alaska, located in section 9, T. 19 S., R. 7 W., Fairbanks Meridian;

Thence westerly along the boundary of Mount McKinley National Park as surveyed and described in the official field notes for U.S. Survey No. 2177, Alaska, approximately 26 miles to a point between sections 7 and 12, T. 13 S., Rs. 11 and 12 W., Fairbanks Meridian;

Thence northerly, between Rs. 11 and 12 W., to the closing corner of T. 13 S., Rs. 11 and 12 W., Fairbanks Meridian;

Thence westerly, along the Third Standard Parallel South, to the standard corner of T. 12 S., Rs. 11 and 12 W., Fairbanks Meridian;

Thence northerly, between Rs. 11 and 12 W., to the corner of Tps. 11 and 12 S., Rs. 11 and 12 W., Fairbanks Meridian;

Thence easterly, between Tps. 11 and 12 S., to the corner of Tps. 11 and 12 S., Rs. 8 and 9 W., Fairbanks Meridian;

Thence northerly, between Rs. 8 and 9 W., to the corner of Tps. 10 and 11 S., Rs. 8 and 9 W., Fairbanks Meridian;

Thence westerly, between Tps. 10 and 11 S., to the meander corner of sections 5 and 32, on the right bank of the Kantishna River, Tps., 10 and 11 S., R. 16 W., Fairbanks Meridian;

*Thence southwesterly, on the line of mean high water along the right banks of the Kantishna River, Birch Creek and Hult Creek, along a common boundary with the Denali National Preserve, to a point at the intersection with the east and west line between sections 1 and 12 and 6 and 7, T. 17 S., Rs. 22 and 23 W., Fairbanks Meridian;

*Thence westerly between sections 6 and 7 and 1 and 12 to the summit of a ridge between sections 1 and 12, west of the Foraker River, T. 17 S., R. 23 W., Fairbanks Meridian;

Thence southwesterly, along the crest of a ridge between the Foraker River and tributaries of the Herron River to a summit on the ridge, located in the western half of section 22, T. 17 S., R. 23 W., Fairbanks Meridian, approximate elevation 1,860 feet;

*Thence westerly, southwesterly, westerly and northwesterly along the crest of a ridge to vertical angle benchmark "Castle" located on the summit of a mountain in section 25, T. 17 S., R. 24 W., Fairbanks Meridian, approximate elevation 2,079 feet;

*Thence southerly and southwesterly, along the crest of a ridge between tributaries to Castle Rocks Lake and White Creek to the summit of a mountain located in section 13, T. 18 S., R. 24 W., Fairbanks Meridian, approximate elevation 1,822 feet;

Thence due west to a point at the line of mean high water on the easterly shore of Castle Rocks Lake located in section 15, T. 18 S., R. 24 W., Fairbanks Meridian;

Thence southwesterly, northerly and southwesterly along the line of mean high water of Castle Rocks Lake and the left bank of an unnamed creek, the outlet of Castle Rocks Lake, to a point at the confluence of the unnamed creek and the right bank of the Herron River located in section 20, T. 18 S., R. 24 W., Fairbanks Meridian;

Thence southeasterly, along the right bank of Herron River, to the intersection of line 3–4 of Mount McKinley National Park as surveyed and described in the official field notes for U.S. Survey No. 2177, Alaska, between Mile Posts 40 and 40.943, located in section 10, T. 19 S., R. 24 W., Fairbanks Meridian;

Thence south 68° W., along the boundary of Mount McKinley National Park on line 3–4, approximately 3 miles to corner No. 4 as described in the official field notes for U.S. Survey No. 2177, Alaska, located in section 18, T. 19 S., R. 24 W., Fairbanks Meridian;

Thence S. 17° 48' E., along the boundary of Mount McKinley National Park on line 4–5, approximately 4,400 feet to the summit of a ridge as described in the official field notes for U.S. Survey No. 2177, Alaska, located in section 19, T. 19 S., R. 24 W., Fairbanks Meridian;

Thence on an approximate forward bearing of S. 76° W., to the summit of a mountain, located in section 28, T. 19 S., R. 25 W., Fairbanks Meridian, approximate elevation 1,770 feet;

Thence due west to a point between sections 25 and 30, T. 19 S., Rs. 25 and 26 W., Fairbanks Meridian;

Thence southerly, departing from a common boundary with the Denali National Preserve, between Rs. 25 and 26 W., to the corner of T. 22 S., Rs. 25 and 26 W., Fairbanks Meridian, on the S. boundary of the Fairbanks Meridian;

Thence easterly, along the south boundary of T. 22 S., Fairbanks Meridian, to the corner of sections 15 and 16, T. 33 N., R. 15 W., Seward Meridian;

Thence southerly, between sections 15 and 16, 21 and 22, 27 and 28, 33 and 34, to the standard corner of sections 33 and 34, T. 33 N., R. 15 W., Seward Meridian;

Thence easterly, along the Eighth Standard Parallel North to the closing corner of sections 3 and 4, T. 32 N., R. 15 W., Seward Meridian;

Thence southerly, between sections 3 and 4, 9 and 10, 15 and 16, 21 and 22, 27 and 28, 33 and 34, 3 and 4, 9 and 10, to a point on the divide between Ripsnorter Creek and Dall Glacier, located between sections 9 and 10, T. 31 N., R. 15 W., Seward Meridian, approximate elevation 7,800 feet;

Thence southerly, along the crest of a ridge which divides the drainage of Dall Glacier and Chedotlothna Glacier, along a common boundary with the Denali National Preserve, to the summit of a mountain located in section 23, T. 31 N., R. 15 W., Seward Meridian, approximate elevation 8,900 feet;

Thence southeasterly, descending a spur ridge to a point on the right side of Dall Glacier located in the northern half of section 36, T. 31 N., R. 15 W., Seward Meridian, approximate elevation 4,940 feet;

Thence on an approximate forward bearing of S. 29° E., to a point on the divide between Dall Glacier and Yentna Glacier located in section 7, T. 30 N., R. 14 W., Seward Meridian, approximate elevation 6,210 feet;

Thence northeasterly and southeasterly, along the crest of a ridge which divides the drainages of the Dall Glacier and Yentna Glacier, to the summit of a mountain in the southeastern quarter of section 35, T. 31 N., R. 14 W., Seward Meridian, approximate elevation 7,290 feet;

Thence easterly and southeasterly along a ridge to a summit of a mountain in the eastern portion of section 1, T. 30 N., R. 14 W., Seward Meridian, approximate elevation 6,830 feet;

Thence on an approximate forward bearing of N. 80° E. to a summit of a mountain in the northeast corner of section 5, T. 30 N., R. 13 W., Seward Meridian, approximate elevation 6,600 feet;

Thence northeasterly along the crest of a ridge to a summit of a mountain in the southeastern quarter of section 32, T. 31 N., R. 13 W., Seward Meridian, approximate elevation 7,046 feet;

Thence on an approximate forward bearing of S. 50° E., to a point at the toe of a ridge between Yentna Glacier and Lacuna Glacier located in the southwesterly portion of section 11, T. 30 N., R 13 W., Seward Meridian, approximate elevation 2,600 feet;

Thence on an approximate forward bearing of S. 8° E., to the summit of a mountain located in the northeasterly portion of section 2, T. 29 N., R. 13 W., Seward Meridian, approximate elevation 5,695 feet;

Thence southeasterly and southerly, along the crest of the ridge which divides the drainages of Yentna Glacier and Cripple Creek, to the summit of a mountain located in Section 12, T. 29 N., R. 13 W., Seward Meridian, approximate elevation 5,482 feet;

Thence southerly, along the crest of a ridge which divides the drainages of Cripple Creek, Stern Gulch and Sunflower Creek to a point on the Seventh Standard Parallel North, between sections 6 and 31, Tps. 28 and 29 N., R. 12 W., Seward Meridian;

Thence easterly, departing from a common boundary with the Denali National Preserve, along the Seventh Standard Parallel North, to the closing corner of T. 28 N., Rs. 11 and 12 W., Seward Meridian;

Thence southerly, between Rs. 11 and 12 W., to the corner of Tps. 27 and 28 N., Rs. 11 and 12 W., Seward Meridian;

Thence easterly, between Tps. 27 and 28 N., to the corner of sections 4, 5, 32 and 33, Tps. 27 and 28 N., R. 10 W., Seward Meridian;

Thence northerly, between sections 32 and 33, 28 and 29, 20 and 21, 16 and 17, 8 and 9, 4 and 5, to the closing corner of sections 4 and 5, T. 28 N., R. 10 W., Seward Meridian;

Thence easterly, along the Seventh Standard Parallel North, to the standard ¼ section corner of section 34, T. 29 N., R. 10 W., Seward Meridian;

Thence northerly, along the north and south centerline of section 34, to the center-south ⅛ section corner of section 34, T. 29 N., R. 10 W., Seward Meridian;

Thence easterly, along the east and west centerline of the southeast ¼ of section 34, to the southeast ⅛ section corner of section 34, T. 29 N., R. 10 W., Seward Meridian;

Thence northerly, along the north and south centerline of the southeast ¼ of section 34, to the center-east ⅛ section corner of section 34, T. 29 N., R. 10 W., Seward Meridian;

Thence easterly, along the east and west centerline of section 34, to the ¼ section corner of sections 34 and 35, T. 29 N., R. 10 W., Seward Meridian;

Thence northerly, between sections 34 and 35, to the corner of sections 26, 27, 34 and 35, T. 29 N., R. 10 W., Seward Meridian;

Thence easterly, between sections 26 and 35, to the ¼ section corner of sections 26 and 35, T. 29 N., R. 10 W., Seward Meridian;

Thence northerly, along the north and south centerline of section 26, to the center ¼ section corner of section 26, T. 29 N., R. 10 W., Seward Meridian;

Thence easterly, along the east and west centerline of section 26, to the ¼ section corner of sections 25 and 26, T. 29 N., R. 10 W., Seward Meridian;

Thence northerly, between sections 25 and 26, 23 and 24, to the south ⅛ section corner of sections 23 and 24, T. 29 N., R. 10 W., Seward Meridian;

Thence easterly, along the east and west centerline of the southwest ¼ of section 24, to the center-south ⅛ corner of section 24, T. 29 N., R. 10 W., Seward Meridian;

Thence northerly, along the north and south centerline of section 24, to the center ¼ section corner of section 24, T. 29 N., R. 10 W., Seward Meridian;

Thence easterly, along the east and west centerline of section 24, to the center-east ⅛ section corner of section 24, T. 29 N., R. 10 W., Seward Meridian;

Thence northerly, along the north and south centerline of the northeast ¼ to the northeast ⅛ section corner of section 24, T. 29 N., R. 10 W., Seward Meridian;

Thence easterly, along the east and west centerline of the northeast ¼ to the north ⅛ section corner of sections 19 and 24, T. 29 N., Rs. 9 and 10 W., Seward Meridian;

Thence northerly, between Rs. 9 and 10 W., to the corner of sections 7, 12, 13 and 18, T. 29 N., Rs. 9 and 10 W., Seward Meridian;

Thence easterly, between sections 7 and 18, to the corner of sections 7, 8, 17 and 18, T. 29 N., R. 9 W., Seward Meridian;

Thence northerly, between sections 7 and 8, to the corner of sections 5, 6, 7 and 8, T. 29 N., R. 9 W., Seward Meridian;

Thence easterly, between sections 5 and 8, to the corner of sections 4, 5, 8 and 9, T. 29 N., R. 9 W., Seward Meridian;

Thence northerly, between sections 4 and 5, to the corner of sections 4, 5, 32 and 33, Tps. 29 and 30 N., R. 9 W., Seward Meridian;

Thence easterly, between Tps. 29 and 30 N., to the corner of Tps. 29 and 30 N., Rs. 5 and 6 W., Seward Meridian;

Thence northerly, between Rs. 5 and 6 W., to the corner of Tps. 31 and 32 N., Rs. 5 and 6 W., Seward Meridian;

Thence easterly, between Tps. 31 and 32 N., to the corner of Tps. 31 and 32 N., Rs. 4 and 5 W., Seward Meridian;

Thence northerly, between Rs. 4 and 5 W., to the closing corner of T. 32 N., Rs. 4 and 5 W., Seward Meridian;

Thence westerly, along the Eighth Standard Parallel North, to the standard corner of T. 33 N., Rs. 4 and 5 W., Seward Meridian;

Thence northerly, between Rs. 4 and 5 W., to the corner of T. 33 N., Rs. 4 and 5 W., Seward Meridian;

Thence easterly, along the north boundary of T. 33 N., R. 4 W., Seward Meridian, to the corner of sections 33 and 34, T. 22 S., R. 13 W., Fairbanks Meridian;

Thence northerly, between sections 33 and 34, 27 and 28, 21 and 22, 15 and 16, 9 and 10, 3 and 4, to the summit of a mountain between sections 3 and 4, T. 22 S., R. 13 W., Fairbanks Meridian, approximate elevation 5,643 feet;

Thence northerly, along the crest of the ridge which divides the drainages of Eldridge Glacier, Partin Creek, Shotgun Creek and McCallie Creek, to the summit of a mountain located in section 10, T. 21 S., R. 13 W., Fairbanks Meridian, approximate elevation 6,962 feet;

Thence northeasterly, along the crest of the ridge which divides the drainages of McCallie Creek and Ohio Creek, to the summit of a mountain located in section 1, T. 21 S., R. 13 W., Fairbanks Meridian, approximate elevation 6,208 feet;

Thence northwesterly and northeasterly, descending a spur ridge, to a peak located in the northwest portion of section 31, T. 20 S., R. 12 W., Fairbanks Meridian, approximate elevation 4,930 feet;

Thence northeasterly descending a spur ridge to a point on the east-west centerline of section 29, T. 20 S., R. 12 W., Fairbanks Meridian;

Thence easterly, along the east and west centerline of section 29, to the center ¼ corner of section 29, T. 20 S., R. 12 W., Fairbanks Meridian;

Thence northeasterly, ascending a spur ridge, to the summit of a mountain located in section 16, T. 20 S., R. 12 W., Fairbanks Meridian, approximate elevation 6,500 feet;

Thence northeasterly, along the crest of the ridge which divides the drainages of the West Fork of Chulitna River and Copeland Creek, to the summit of a mountain located in section 12, T. 20 S., R. 12 W., Fairbanks Meridian, approximate elevation 6,100 feet;

Thence easterly, along the crest of the ridge which divides the drainages of the West Fork of Chulitna River and Long Creek, to the summit of a mountain located in section 7, T. 20 S., R. 11 W., Fairbanks Meridian, approximate elevation 5,300 feet;

Thence northeasterly, descending a spur ridge, to the point between sections 6 and 7, T. 20 S., R. 11 W., Fairbanks Meridian;

Thence easterly, between sections 6 and 7, 5 and 8, to a point on the left bank of a ditch located near the ¼ section corner of sections 5 and 8, T. 20 S., R. 11 W., Fairbanks Meridian;

Thence northeasterly, along the left bank of a ditch, to a point between sections 3 and 4, T. 20 S., R. 11 W., Fairbanks Meridian;

Thence northerly, between sections 3 and 4, 33 and 34, 27 and 28, to the meander corner of sections 27 and 28, at the line of mean high water on the right bank of the West Fork of the Chulitna River, T. 19 S., R. 11 W., Fairbanks Meridian;

Thence southeasterly, along the right bank of the West Fork of the Chulitna River, to the meander corner of sections 6 and 31, Tps. 19 and 20 S., R. 10 W., Fairbanks Meridian;

Thence easterly, between Tps. 19 and 20 S., to the closing corner of Tps. 19 and 20 S., Rs. 9 and 10 W., Fairbanks Meridian;

Thence northerly, between Rs. 9 and 10 W., to the corner of Tps. 18 and 19 S., R. 9 W., Fairbanks Meridian;

Thence easterly, between Tps. 18 and 19 S., to the corner of sections 3, 4, 33 and 34, Tps. 18 and 19 S., R. 9 W., Fairbanks Meridian;

Thence northerly, between sections 33 and 34, 27 and 28, to the corner of sections 22 and 27, T. 18 S., R. 9 W., Fairbanks Meridian;

Thence easterly, between sections 22 and 27, to the closing corner of sections 22 and 26, T. 18 S., R. 9 W., Fairbanks Meridian;

Thence northerly, between sections 22 and 26, to the corner of sections 23 and 26, T. 18 S., R. 9 W., Fairbanks Meridian;

Thence easterly, between sections 23 and 26, 24 and 25, to the corner of sections 19, 24, 25 and 30, T. 18 S., Rs. 8 and 9 W., Fairbanks Meridian;

Thence northerly, between Rs. 8 and 9 W., to the corner of sections 13, 18, 19 and 24, T. 18 S., Rs. 8 and 9 W., Fairbanks Meridian;

Thence easterly, between sections 18 and 19, to the corner of sections 17, 18, 19 and 20, T. 18 S., R. 8 W., Fairbanks Meridian;

Thence northerly, between sections 17 and 18, to the corner of sections 7, 8, 17 and 18, T. 18 S., R. 8 W., Fairbanks Meridian;

Thence easterly, between sections 8 and 17, 9 and 16, to the corner of sections 9, 10, 15 and 16, T. 18 S., R. 8 W., Fairbanks Meridian;

Thence northerly, between sections 9 and 10, to the corner of sections 3, 4, 9 and 10, T. 18 S., R. 8 W., Fairbanks Meridian;

Thence easterly, between sections 3 and 10, 2 and 11, to a point 150 feet northwesterly and perpendicular from the centerline of the Alaska Railroad right-of-way, between sections 2 and 11, T. 18 S., R. 8 W., Fairbanks Meridian;

Thence northeasterly, along a line 150 feet north-westerly and perpendicular from the centerline of the Alaska Railroad right-of-way, to a point between sections 1 and 6, T. 18 S., Rs. 7 and 8 W., Fairbanks Meridian;

Thence northerly, between Rs. 7 and 8 W., approximately 2½ miles to an intersection with the north bank of Windy Creek and the southerly boundary of Mount McKinley National Park as surveyed and described in the official field notes for U.S. Survey No. 2177, Alaska, between sections 19 and 24, T. 17 S., Rs. 7 and 8 W., Fairbanks Meridian;

Thence easterly and northerly, along the left banks of Windy Creek, Jack River and Nenana River, at the line of mean high water, to the point at the intersection with the northerly boundary of Mount McKinley National Park, line 7–1 or its easterly prolongation, at or near corner No. 7 as surveyed and described in the official field notes for U.S. Survey No. 2177, Alaska,

located in section 9, T. 13 S., R. 7 W., Fairbanks Meridian, the point of beginning.

*Department of the Interior 1:250,000 scale map issued in 1981, incorrectly depicts this portion of the description.

Denali National Preserve

Denali National Preserve as generally depicted on a map numbered DENA–90,007, dated July 1980, consists of approximately one million three hundred and thirty thousand acres of public lands, as defined in the ANILCA, within the following described boundaries:

North Unit

Beginning at the meander corner of sections 5 and 32, on the right bank of the Kantishna River, Tps. 10 and 11 S., R. 18 W., Fairbanks Meridian;

*Thence southwesterly, on the line of mean high water along the right banks of Kantishna River, Birch Creek and Hult Creek, along a common boundary with the Denali National Park, to a point at the intersection with the east and west line between sections 1 and 12 and 6 and 7, T. 17 S., Rs. 22 and 23 W., Fairbanks Meridian;

Thence westerly, between sections 6 and 7 and 1 and 12, to the crest of a ridge between sections 1 and 12 west of the Foraker River, T. 17 S., R. 23 W., Fairbanks Meridian;

*Thence southwesterly, along the crest of a ridge between the Foraker River and tributaries of the Herron River to a summit on the ridge, located in the western half of section 22, T. 17 S., R. 23 W., Fairbanks Meridian, approximate elevation 1,860 feet;

*Thence westerly, southwesterly, westerly, and northwesterly along the crest of a ridge, to vertical angle benchmark "Castle" located on the summit of a mountain in section 25, T. 17 S., R. 24 W., Fairbanks Meridian, approximate elevation 2,079 feet;

*Thence southerly and southwesterly, along the crest of the ridge between tributaries to Castle Rocks Lake and White Creek, to the summit of a mountain located in section 13, T. 18 S., R. 24 W., Fairbanks Meridian, approximate elevation 1,822 feet;

Thence due west to a point at the line of mean high water on the easterly shore of Castle Rocks Lake located in section 15, T. 18 S., R. 24 W., Fairbanks Meridian;

Thence, southwesterly, northerly and southwesterly along the line of mean high water of Castle Rocks Lake and the left bank of an unnamed creek, the outlet of Castle Rocks Lake, to a point at the confluence of the unnamed creek and the right bank of Herron River located in section 20, T. 18 S., R. 24 W., Fairbanks Meridian;

Thence southeasterly, along the right bank of Herron River, to the intersection of line 3–4 of Mount McKinley National Park as surveyed and described in the official field notes for U.S. Survey No. 2177, Alaska, between Mile Posts 40 and 40.943, located in section 10, T. 19 S., R. 24 W., Fairbanks Meridian;

Thence S. 68° W., along the boundary of Mount McKinley National Park on line 3–4, approximately 3 miles to corner No. 4 as described in the official field notes for U.S. Survey No. 2177, Alaska, located in section 18, T. 19 S., R. 24 W., Fairbanks Meridian;

Thence S. 17° 48' E., along the boundary of Mount McKinley National Park on line 4–5, approximately 4,400 feet to the summit of a ridge as described in the official field notes for U.S. Survey No. 2177, Alaska, located in section 19, T. 19 S., R. 24 W., Fairbanks Meridian;

Thence on an approximate forward bearing of S. 76° W., to the summit of a mountain located in section 28, T. 19 S., R. 25 W., Fairbanks Meridian, approximate elevation 1,770 feet;

Thence due west, to a point between sections 25 and 30, T. 19 S., Rs. 25 and 26 W., Fairbanks Meridian;

Thence northerly, departing from a common boundary with the Denali National Park, between Rs. 25 and 26 W., to the corner of Tps. 18 and 19 S., Rs. 25 and 26 W., Fairbanks Meridian;

Thence westerly, between Tps. 18 and 19 S., to the corner of Tps. 18 and 19 S., Rs. 26 and 27 W., Fairbanks Meridian;

Thence northerly, between Rs. 26 and 27 W., to the corner of sections 13, 18, 19 and 24, T. 18 S., Rs. 26 and 27 W., Fairbanks Meridian;

Thence westerly, between sections 13 and 24, 14 and 23, 15 and 22, 16 and 21, 17 and 20, 18 and 19, to the corner of sections 13, 18, 19 and 24, T. 18 S., Rs. 27 and 28 W., Fairbanks Meridian;

Thence northerly, between Rs. 27 and 28 W., to the closing corner of T. 17 S., Rs. 27 and 28 W., Fairbanks Meridian;

Thence westerly, along the Fourth Standard Parallel South, to the standard corner of T. 16 S., Rs. 27 and 28 W., Fairbanks Meridian;

Thence northerly, between Rs. 27 and 28 W., to the corner of Tps. 14 and 15 S., Rs. 27 and 28 W., Fairbanks Meridian;

Thence easterly, between Tps. 14 and 15 S., to the corner of sections 4, 5, 32 and 33, Tps. 14 and 15 S., R. 24 W., Fairbanks Meridian;

Thence northerly, between sections 32 and 33, 28 and 29, 20 and 21, 16 and 17, 8 and 9, 4 and 5, 32 and 33, 28 and 29, 20 and 21, 16 and 17, 8 and 9, 4 and 5, to the closing corner of sections 4 and 5, T. 13 S., R. 24 W., Fairbanks Meridian;

Thence easterly, along the Third Standard Parallel South, to the standard corner of sections 33 and 34, T. 12 S., R. 23 W., Fairbanks Meridian;

Thence northerly, between sections 33 and 34, 27 and 28, 21 and 22, 15 and 16, 9 and 10, 3 and 4, 33 and 34, 27 and 28, 21 and 22, 15 and 16, 9 and 10, 3 and 4, to the corner of sections 3, 4, 33 and 34, Tps. 10 and 11 S., R. 23 W., Fairbanks Meridian;

Thence easterly, between Tps. 10 and 11 S., to a point on the crest of a ridge between sections 3 and 34, Tps. 10 and 11 S., R. 22 W., Fairbanks Meridian, approximate elevation 900 feet;

Thence on an approximate forward bearing of N. 16° W., to the summit of a ridge between sections 27 and 34, T. 10 S., R. 22 W., Fairbanks Meridian, approximate elevation 1,110 feet;

Thence on an approximate forward bearing of N. 49° W., to the ¼ section corner of sections 27 and 28, T. 10 S., R. 22 W., Fairbanks Meridian;

Thence on an approximate forward bearing of N. 33° E., to the summit of a ridge located in section 22, T. 10 S., R. 22 W., Fairbanks Meridian, approximate elevation 1,045 feet;

Thence on an approximate forward bearing of N. 40° E., to the corner of sections 14, 15, 22 and 23, T. 10 S., R. 22 W., Fairbanks Meridian;

Thence on an approximate forward bearing of N. 27° E., to the corner of sections 1, 2, 11 and 12, T. 10 S., R. 22 W., Fairbanks Meridian;

Thence on an approximate forward bearing of N. 66° E., to the summit of a ridge located in section 1, T. 10 S., R. 22 W., Fairbanks Meridian, approximate elevation 1,515 feet;

Thence on an approximate forward bearing of S. 87° E., to the summit of a ridge located in section 6, T. 10 S., R. 21 W., Fairbanks Meridian, approximate elevation 1,510 feet;

Thence on an approximate forward bearing of S. 56° E., to the corner of sections 5, 6, 7 and 8, T. 10 S., R. 21 W., Fairbanks Meridian;

Thence easterly, between sections 5 and 8, 4 and 9, 3 and 10, 2 and 11, 1 and 12, to the corner of sections 1, 6, 7 and 12, T. 10 S., Rs. 20 and 21 W., Fairbanks Meridian;

Thence southerly, between Rs. 20 and 21 W., to the corner of sections 7, 12, 13 and 18, T. 10 S., Rs. 20 and 21 W., Fairbanks Meridian;

Thence on an approximate forward bearing of S. 66° E., to the summit of a ridge located in section 18, T. 10 S., R. 20 W., Fairbanks Meridian, approximate elevation 852 feet;

Thence on an approximate forward bearing of S. 74° E., to the summit of a ridge located in section 16, T. 10 S., R. 20 W., Fairbanks Meridian, approximate elevation 1,382 feet;

Thence on an approximate forward bearing of S. 27° W., to the summit of a ridge located in section 29, T. 10 S., R. 20 W., Fairbanks Meridian, approximate elevation 1,910 feet;

Thence on an approximate forward bearing of S. 72° E., to vertical angle bench mark "ROOSEVELT" located in section 35, T. 10 S., R. 20 W., Fairbanks Meridian, approximate elevation 1,947 feet;

Thence on an approximate forward bearing of S. 47° E., to the summit of a ridge in section 35, T. 10 S., R. 20 W., Fairbanks Meridian, approximate elevation 1,523 feet;

Thence southeasterly, along the crest of a ridge to a point between sections 2 and 35, Tps. 10 and 11 S., R. 20 W., Fairbanks Meridian;

Thence easterly, between Tps. 10 and 11 S., to the meander corner of sections 5 and 32 on the right bank of the Kantishna River, Tps. 10 and 11 S., R. 18 W., Fairbanks Meridian, the place of beginning.

*Department of the Interior 1:250,000 scale map issued in 1981, incorrectly depicts this portion of the description.

South Unit

Beginning at the standard corner of sections 1 and 6, T. 28 N., Rs. 13 and 14 W., Seward Meridian;

Thence southerly, between Rs. 13 and 14 W., to the corner of Tps. 25 and 26 N., Rs. 13 and 14 W., Seward Meridian;

Thence westerly, between Tps. 25 and 26 N., to the corner of Tps. 25 and 26 N., Rs. 19 and 20 W., Seward Meridian;

Thence northerly, between Rs. 19 and 20 W., to the closing corner of T. 28 N., Rs. 19 and 20 W., Seward Meridian;

Thence easterly, along the Seventh Standard Parallel North, to the standard corner of T. 29 N., Rs. 18 and 19 W., Seward Meridian;

Thence northerly, between Rs. 18 and 19 W., to the corner of Tps. 29 and 30 N., Rs. 18 and 19 W., Seward Meridian;

Thence easterly, between Tps. 29 and 30 N., to the corner of Tps. 29 and 30 N., Rs. 16 and 17 W., Seward Meridian;

Thence northerly, between Rs. 16 and 17 W., to the corner of Tps. 30 and 31 N., Rs. 16 and 17 W., Seward Meridian;

Thence easterly, between Tps. 30 and 31 N., to the corner of Tps. 30 and 31 N., Rs. 15 and 16 W., Seward Meridian;

Thence northerly, between Rs. 15 and 16 W., to the corner of sections 13, 18, 19 and 24, T. 31 N., Rs. 15 and 16 W., Seward Meridian;

Thence easterly, between sections 18 and 19, to the corner of sections 17, 18, 19 and 20, T. 31 N., R. 15 W., Seward Meridian;

Thence northerly, between sections 17 and 18, to the corner of sections 7, 8, 17 and 18, T. 31 N., R. 15 W., Seward Meridian;

Thence easterly, between sections 8 and 17, to the corner of sections 8, 9, 16 and 17, T. 31 N., R. 15 W., Seward Meridian;

Thence northerly, between sections 8 and 9 to the corner of sections 4, 5, 8 and 9, T. 31 N., R. 15 W., Seward Meridian;

Thence easterly, between sections 4 and 9, to the corner of sections 3, 4, 9 and 10, T. 31 N., R. 15 W., Seward Meridian;

Thence southerly, along a common boundary with the Denali National Park, between sections 9 and 10 to a point on the divide between Ripsnorter Creek and Dall Glacier located between sections 9 and 10, T. 31 N., R. 15 W., Seward Meridian, approximate elevation 7,600 feet;

Thence southeasterly, along the crest of a ridge which divides the drainages of Dall Glacier and Chedotlothna Glacier, to the summit of a mountain located in section 23, T. 31 N., R. 15 W., Seward Meridian, approximate elevation 8,900 feet;

Thence southeasterly, descending a spur ridge to a point on the right side of Dall Glacier located in the northern half of section 36, T. 31 N., R. 15 W., Seward Meridian, approximate elevation 4,940 feet;

Thence on an approximate forward bearing of S. 29° E., to a point on the divide between Dall Glacier and Yentna Glacier located in section 7, T. 30 N., R. 14 W., Seward Meridian, approximate elevation 6,210 feet;

Thence northeasterly and southeasterly, along the crest of a ridge which divides the drainages of the Dall Glacier and Yentna Glacier, to the summit of a mountain in the southeastern quarter of section 35, T. 31 N., R. 14 W., Seward Meridian, approximate elevation 7,290 feet;

Thence easterly and southeasterly along a ridge to a summit of a mountain in the northeastern quarter of section 1, T. 30 N., R. 14 W., Seward Meridian, approximate elevation 6,830 feet;

Thence on an approximate forward bearing of N. 80° E., to a summit of a mountain in the northeast corner of section 5, T. 30 N., R. 13 W., Seward Meridian, approximate elevation 6,600 feet;

Thence northeasterly, along the crest of a ridge to a summit of a mountain in the southeastern quarter of section 32, T. 31 W., R. 13 W., Seward Meridian, approximate elevation 7,046 feet;

Thence on an approximate forward bearing of S. 50° E., to a point at the toe of a ridge between Yentna Glacier and Lacuna Glacier located in the southwesterly portion of section 11, T. 30 N., R. 13 W., Seward Meridian, approximate elevation 2,800 feet;

Thence on an approximate forward bearing of S. 8° E., to the summit of a mountain located in the northeasterly portion of section 2, T. 29 N., R. 13 W., Seward Meridian, approximate elevation 5,695 feet;

Thence southeasterly and southerly, along the crest of the ridge which divides the drainages of Yentna Glacier and Cripple Creek, to the summit of a mountain located in section 12, T. 29 N., R. 13 W., Seward Meridian, approximate elevation 5,482 feet;

Thence southerly, along the crest of a ridge which divides the drainages of Cripple Creek, Stern Gulch and Sunflower Creek, to a point on the Seventh Standard Parallel North, between sections 6 and 31, Tps. 28 and 29 N., R. 12 W., Seward Meridian;

Thence westerly, departing from the common boundary with the Denali National Park, along the Seventh Standard Parallel North to the closing corner of sections 1 and 6, T. 28 N., Rs. 13 and 14 W., Seward Meridian, the place of beginning.

Units of the National Wilderness Preservation System Within the Denali National Park

Section 701(1), Public Law 96–487 (ANILCA), as amended by the Alaska Railroad Transfer Act, Public Law 97–468, Title VI:

Denali Wilderness

The Denali Wilderness as generally depicted on a map numbered DENA–90,007, dated July 1980, consists of approximately one million nine hundred thousand acres of public lands, as defined in the ANILCA, within the following described boundaries:

North Unit

Beginning on the Mount McKinley National Park boundary as surveyed and described in the official field notes for U.S. Survey No. 2177, Alaska with its intersection with the line between sections 7 and 12, T. 13 S., Rs. 11 and 12 W., Fairbanks Meridian;

Thence westerly, along line 7-1, as surveyed and described in the official field notes for U.S. Survey No. 2177, Alaska, approximately 16½ miles to Corner No. 1, located in section 8, T. 13 S., R. 14 W., Fairbanks Meridian;

Thence southerly, along line 1-2, as surveyed and described in the official field notes for U.S. Survey No. 2177, Alaska, approximately 23½ miles to Corner No. 2, located in section 23, T. 16 S., R. 15 W., Fairbanks Meridian;

Thence S 84°47' W., along line 2-3, as surveyed and described in the official field notes for U.S. Survey No. 2177, Alaska, approximately 14¼ miles to a point between sections 28 and 29, T. 16 S., R. 17 W., Fairbanks Meridian;

Thence on an approximate forward bearing of S. 56° E., approximately 1¼ miles to the corner of sections 27, 28, 33 and 34, T. 16 S., R. 17 W., Fairbanks Meridian;

Thence southerly, between sections 33 and 34, to the standard corner of sections 33 and 34, T. 16 S., R. 17 W., Fairbanks Meridian;

Thence easterly, along the Fourth Standard Parallel South, to the ¼ section corner of section 4, T. 17 S., R. 17 W., Fairbanks Meridian;

Thence southerly, on the north and south centerline of section 4, to the center ¼ section corner of section 4, T. 17 S., R. 17 W., Fairbanks Meridian;

Thence easterly, on the east and west centerline of section 4, to the ¼ section corner of sections 3 and 4, T. 17 S., R. 17 W., Fairbanks Meridian;

Thence southerly, between sections 3 and 4, 9 and 10, to a point 150 feet northerly of, and on a line perpendicular to, the centerline of the Denali Highway, between sections 9 and 10, T. 17 S., R. 17 W., Fairbanks Meridian;

Thence easterly, on a line 150 feet from, and parallel to, the centerline of the Denali Highway, to a point in the southeasterly portion of section 10, due North of the east-east 1/64 section corner of sections 10 and 15, T. 17 S., R. 17 W., Fairbanks Meridian;

Thence due North, to a point in the southerly portion of section 10, due West of the south-south 1/64 section corner of sections 10 and 11, T. 17 S., R. 17 W., Fairbanks Meridian;

Thence due East, to a point in the southwesterly portion of section 11, due North of the west 1/16 section corner of sections 11 and 14, T. 17 S., R. 17 W., Fairbanks Meridian;

Thence due South, to a point 150 feet northerly from, and on a line perpendicular to, the centerline of the Denali Highway, in the northwesterly portion of section 14, T. 17 S., R. 17 W., Fairbanks Meridian;

Thence easterly on a line 150 feet from, and parallel to, the centerline of the Denali Highway, to a point between sections 15 and 16, T. 17 S., R. 16 W., Fairbanks Meridian;

Thence due North, to the south-north 1/64 section corner of sections 15 and 16, T. 17 S., R. 16 W., Fairbanks Meridian;

Thence due East, to the south-north 1/64 section corner of sections 14 and 15, T. 17 S., R. 16 W., Fairbanks Meridian;

Thence due South, to the ¼ section corner of sections 14 and 15, T. 17 S., R. 16 W., Fairbanks Meridian;

Thence due East, to the center ¼ section corner of section 14, T. 17 S., R. 16 W., Fairbanks Meridian;

Thence due South, to a point 150 feet northerly of, and on a line perpendicular to, the centerline of the Denali Highway, in the central portion of section 14, T. 17 S., R. 16 W., Fairbanks Meridian;

Thence easterly, on a line 150 feet from, and parallel to, the centerline of the Denali Highway, to a point in the northwesterly portion of section 19, 3630 feet due West of the line between sections 19 and 20, T. 17 S., R. 14 W., Fairbanks Meridian;

Thence due North to a point between sections 18 and 19, T. 17 S., R. 14 W., Fairbanks Meridian;

Thence easterly, between sections 18 and 19, 1320 feet to a point between sections 18 and 19, T. 17 S., R. 14 W., Fairbanks Meridian;

Thence due South, to a point 150 feet northerly of, and on a line perpendicular to, the centerline of the Denali Highway, in the northerly portion of section 19, T. 17 S., R. 14 W., Fairbanks Meridian;

Thence northeasterly, on a line 150 feet from, and parallel to, the centerline of the Denali Highway, to a point in the southeasterly portion of section 3, due North of the east 1/16 section corner of sections 3 and 10, T. 17 S., R. 14 W., Fairbanks Meridian;

Thence due North, to a point in the southeasterly portion of section 3, 2310 feet due North of the line between sections 3 and 10, T. 17 S., R. 14 W., Fairbanks Meridian;

Thence due East, 1650 feet to a point in the westerly portion of section 2, T. 17 S., R. 14 W., Fairbanks Meridian;

Thence due South, to a point 150 feet northerly of, and on a line perpendicular to, the centerline of the Denali Highway, in the southwesterly portion of section 2, T. 17 S., R. 14 W., Fairbanks Meridian;

Thence easterly, on a line 150 feet from, and parallel to, the centerline of the Denali Highway, to a point in the southerly portion of section 2, 2,310 feet due East of the line between sections 2 and 3, T. 17 S., R. 14 W., Fairbanks Meridian;

Thence due North, to a point in the southerly portion of section 2, due West of the north-south 1/64 section corner of sections 1 and 2, T. 17 S., R. 14 W., Fairbanks Meridian;

Thence due East, to a point 150 feet northerly of, and on a line perpendicular to the centerline of the Denali Highway, in the southeasterly portion of section 2, T. 17 S., R. 14 W., Fairbanks Meridian;

Thence northeasterly, along a line 150 feet from, and parallel to, the centerline of the Denali Highway, to a point 990 feet due West of the line between sections 1 and 2, in the southeasterly portion of section 2, T. 17 S., R. 14 W., Fairbanks Meridian;

Thence due North, to a point in the northeasterly portion of section 2, due West of the south-north 1/64 section corner of sections 1 and 2, T. 17 S., R. 14 W. Fairbanks Meridian;

Thence due East, to a point 150 feet northwesterly of, and on a line perpendicular to, the centerline of the Denali Highway, in the northwesterly portion of section 1, T. 17 S., R. 14 W., Fairbanks Meridian;

Thence northeasterly, along a line 150 feet from, and parallel to, the centerline of the Denali Highway, to a point in the southerly portion of section 22, due East of the south-south 1/64 section corner of sections 21 and 22, T. 16 S., R. 13 W., Fairbanks Meridian;

Thence due West, to a point 300 feet from, and on a line perpendicular to the centerline of the Denali Highway in the southerly portion of section 22, T. 16 S., R. 13 W., Fairbanks Meridian;

Thence northerly, along a line 300 feet from, and parallel to, the centerline of the Denali Highway, to a point in the northerly portion of section 22, due East of the north 1/16 section corner of sections 21 and 22, T. 16 S., R. 13 W., Fairbanks Meridian;

Thence due West to a point in the northwesterly portion of section 22, due South of the east-west 1/64 section corner of sections 15 and 22, T. 16 S., R. 13 W., Fairbanks Meridian;

Thence due North, to a point in the center portion of section 15, due East of the 1/4 section corner of sections 15 and 16, T. 16 S., R. 13 W., Fairbanks Meridian;

Thence due West, to a point in the westerly portion of section 15, due South of the west 1/16 section corner of sections 10 and 15, T. 16 S., R. 13 W., Fairbanks Meridian;

Thence due North, to the west 1/16 section corner of sections 10 and 15, T. 16 S., R. 13 W., Fairbanks Meridian;

Thence easterly, between sections 10 and 15, to the corner of sections 10, 11, 14, and 15, T. 16 S., R. 13 W., Fairbanks Meridian;

Thence southerly, between sections 14 and 15, 22 and 23, to a point 300 feet northerly of, and on a line perpendicular to, the centerline of the Denali Highway, between sections 22 and 23, T. 16 S., R. 13 W., Fairbanks Meridian;

Thence easterly on a line 300 feet from, and parallel to the centerline of the Denali Highway, to a point in the northeasterly portion of section 23, due South of the east 1/16 section corner of sections 14 and 23, T. 16 S., R. 13 W., Fairbanks Meridian;

Thence due South to a point 150 feet northerly of, and on a line perpendicular to, the centerline of the Denali Highway, in the northeasterly portion of section 23, T. 16 S., R. 13 W., Fairbanks Meridian;

Thence southeasterly and northeasterly, on a line 150 feet from, and parallel to, the centerline of the Denali Highway to a point between sections 13 and 24, T. 15 S., R. 11 W., Fairbanks Meridian;

Thence due West between sections 13 and 24 to a point 1,650 feet due West of the corner of sections 13, 18, 19 and 24, T. 15 S., Rs. 10 and 11 W., Fairbanks Meridian;

Thence due North, approximately 990 feet to a point in the southeasterly portion of section 13, T. 15 S., R. 11 W., Fairbanks Meridian;

Thence due East, to a point on a line 150 feet westerly of, and on a line perpendicular to, the centerline of the Denali Highway, in the southeasterly portion of section 13, T. 15 S., R. 11 W., Fairbanks Meridian;

Thence northerly, easterly, and northwesterly on a line 150 feet from, and parallel to, the centerline of the Denali Highway, to a point between sections 30 and 31, T. 14 S., R. 10 W., Fairbanks Meridian;

Thence westerly, between sections 30 and 31, 25 and 36, T. 14 S., Rs. 10 and 11 W., to a point at the line of mean high water on the right bank of the Teklanika River, between sections 25 and 36, T. 14 S., R. 11 W., Fairbanks Meridian;

Thence northwesterly, along the right bank of the Teklanika River at the line of mean high water, to a point in the northeasterly portion of section 25, T. 14 S., R. 11 W., due West of the south-north 1/64 section corner of sections 25 and 30, T. 14 S., Rs. 10 and 11 W., Fairbanks Meridian;

Thence due East, to a point 150 feet west of, and on a line perpendicular to the centerline of the Denali Highway, in section 30, T. 14 S., R. 10 W., Fairbanks Meridian;

Thence northerly, southeasterly and northeasterly, on a line 150 feet from, and parallel to, the centerline of the Denali Highway, to a point in the northwesterly portion of section 10, due South of the west-west 1/64 section corner of sections 3 and 10, T. 14 S., R. 10 W., Fairbanks Meridian;

Thence due North, to a point in the southwesterly portion of section 3, due East of the south-south 1/64 section corner of sections 3 and 4, T. 14 S., R. 10 W., Fairbanks Meridian;

Thence due East to a point in the southerly portion of section 3, due North of the east-west 1/64 corner of sections 3 and 10, T. 14 S., R. 10 W., Fairbanks Meridian;

Thence due South to a point 150 feet from, and on a line perpendicular to, the centerline of the Denali Highway, in the southwesterly portion of section 3, T. 14 S., R. 10 W., Fairbanks Meridian;

Thence northeasterly on a line 150 feet from, and parallel to, the centerline of the Denali Highway, to a point in the northwesterly portion of section 11, due South of the west-west 1/64 section corner of sections 2 and 11, T. 14 S., R. 9 W., Fairbanks Meridian;

Thence due North to a point between sections 2 and 11, T. 14 S., R. 9 W., Fairbanks Meridian;

Thence easterly, between sections 2 and 11, to the east-west 1/64 section corner of sections 2 and 11, T. 14 S., R. 9 W., Fairbanks Meridian;

Thence due South, to a point 150 feet northerly of, and on a line perpendicular to, the centerline of the Denali Highway, near the center of section 11, T. 14 S., R. 9 W., Fairbanks Meridian;

Thence easterly, on a line 150 feet from, and parallel to, the centerline of the Denali Highway, to a point 330 feet westerly of the center of an unnamed tributary of Jenny Creek, on a line perpendicular to that tributary, in the southeast portion of section 7, T. 14 S., R. 8 W., Fairbanks Meridian;

Thence northwesterly 990 feet on a line 330 feet from, and parallel to the centerline of the unnamed tributary of Jenny Creek, to a point in the central portion of section 7, T. 14 S., R. 8 W., Fairbanks Meridian;

Thence northeasterly 660 feet crossing at right angles the tributary of Jenny Creek to a point on a line perpendicular to the tributary, in the eastern portion of section 7, T. 14 S., R. 8 W., Fairbanks Meridian;

Thence southeasterly on a line 330 feet from and parallel to the centerline of the unnamed tributary of Jenny Creek, to a point 150 feet northerly of, and on a line perpendicular to, the centerline of the Denali Highway, in the southeastern portion of section 7, T. 14 S., R. 8 W., Fairbanks Meridian;

Thence easterly, on a line 150 feet from, and parallel to, the centerline of the Denali Highway, to a point on the east-west centerline of section 10, T. 14 S., R. 8 W., Fairbanks Meridian;

Thence due West to a point due South of the east-west 1/64 section corner of sections 3 and 10, T. 14 S., R. 8 W., Fairbanks Meridian;

Thence due North to a point due East of the north ⅛ section corner of sections 9 and 10, T. 14 S., R. 8 W., Fairbanks Meridian;

Thence due East to a point due South of the west-east ⅛₄ section corner of sections 3 and 10, T. 14 S., R. 8 W., Fairbanks Meridian;

Thence due South to a point 150 feet northerly of, and on a line perpendicular to, the centerline of the Denali Highway, in the northeasterly portion of section 10, T. 14 S., R. 8 W., Fairbanks Meridian;

Thence easterly on a line 150 feet from, and parallel to, the centerline of the Denali Highway, to a point between sections 7 and 12, T. 14 S., Rs. 7 and 8 W., Fairbanks Meridian;

Thence northerly between Rs. 7 and 8 W., to the corner of sections 25, 30, 31 and 36, T. 13 S., Rs. 7 and 8 W., Fairbanks Meridian;

Thence easterly, between sections 30 and 31, 29 and 32, 28 and 33, to a point on the westerly right-of-way of the Alaska Railroad, between sections 28 and 33, T. 13 S., R. 7 W., Fairbanks Meridian;

Thence northerly, along the westerly right-of-way of the Alaska Railroad to a point on the Mt. McKinley National Park boundary, as surveyed and described in the official field notes for U.S. Survey 2177, Alaska, located in section 8, T. 13 S., R. 7 W., Fairbanks Meridian;

Thence westerly, along the boundary of Mt. McKinley National Park as surveyed and described in the official field notes for U.S. Survey No. 2177, Alaska, to a point between sections 7 and 12, T. 13 S., Rs. 11 and 12 W., Fairbanks Meridian, the place of beginning.

Note: Along the existing (on December 2, 1980) highway through the park, the wilderness boundary begins 150 feet on either side of the center line of the road and 150 feet back from the edge of all existing (on December 2, 1980) turnouts and parking areas (Report of the Committee on Energy and Natural Resources, United States Senate, Report No. 96-413, p. 216). This information supplements and amends, as necessary, the foregoing descriptions.

South Unit

Beginning at a point on the old Mt. McKinley National Park boundary on Lake Creek, as described in the Act of Congress dated March 19, 1932, and in the official notes for U.S. Survey No. 2177, located in section 29, T. 16 S., R. 17 W., Fairbanks Meridian;

Thence southwesterly, southeasterly and northeasterly, along the old Mt. McKinley National Park boundary, to a point on the westerly right-of-way of the Alaska Railroad, in the northwesterly portion of section 21, T. 17 S., R. 7 W., Fairbanks Meridian;

Thence northerly along the westerly right-of-way of the Alaska Railroad to the point of intersection with the westerly right-of-way of State Highway 3 between Anchorage and Fairbanks in the southeasterly portion of section 15, T. 14 S., R. 7 W., Fairbanks Meridian;

Thence northwesterly along the westerly right-of-way of State Highway 3 between Anchorage and Fairbanks to the point of intersection with the westerly right-of-way of the Alaska Railroad in the northwesterly portion of section 10, T. 14 S., R. 7 W., Fairbanks Meridian;

Thence northwesterly, along the westerly right-of-way of the Alaska Railroad, to a point at the line of mean high water on the left bank of Hines Creek located in section 4, T. 14 S., R. 7 W., Fairbanks Meridian;

Thence southwesterly, along the line of mean high water on the left bank of Hines Creek, to a point between sections 7 and 12, T. 14 S., Rs. 7 and 8 W., Fairbanks Meridian;

Thence northerly, between Rs. 7 and 8 W., to a point 150 feet southerly of, and on a line perpendicular to, the centerline of the Denali Highway, between sections 7 and 12, T. 14 S., Rs. 7 and 8 W., Fairbanks Meridian;

Thence westerly, on a line 150 feet from, and parallel to, the centerline of the Denali Highway, to a point at the line of mean high water on the left bank of an unnamed creek near the center of section 11, T. 14 S., R. 9 W., Fairbanks Meridian;

Thence southwesterly and northwesterly, along the left bank of the unnamed creek and the right bank of the Savage River, to a point in section 10 due South of the west-east ⅛₄ section corner of sections 3 and 10, T. 14 S., R. 9 W., Fairbanks Meridian;

Thence due North, to a point 150 feet southwesterly of, and on a line perpendicular to, the centerline of the Denali Highway, in the northerly portion of section 10, T. 14 S., R. 9 W., Fairbanks Meridian;

Thence northwesterly, on a line 150 feet from, and parallel to, the centerline of the Denali Highway, to a point at the intersection with the east and west centerlines of the NE ¼ of the NE ¼ of section 4 and the NW ¼ of the NW ¼ of section 3, T. 14 S., R. 9 W., Fairbanks Meridian;

Thence due West, to a point in the northeasterly portion of section 4, T. 14 S., R. 9 W., due South of the east ⅛ section corner of sections 4 and 33, Tps. 13 and 14 S., R. 9 W., Fairbanks Meridian;

Thence due North, to a point between sections 4 and 33, Tps. 13 and 14 S., R. 9 W., Fairbanks Meridian;

Thence westerly, between Tps. 13 and 14 S., to a point 150 feet easterly of, and on a line perpendicular to, the centerline of the Denali Highway, between sections 4 and 33, Tps. 13 and 14 S., R. 9 W., Fairbanks Meridian;

Thence southwesterly, on a line 150 feet from, and parallel to, the centerline of the Denali Highway, to a point in the northwesterly portion of section 10, due South of the east-west ⅛₄ section corner of sections 3 and 10, T. 14 S., R. 10 W., Fairbanks Meridian;

Thence due South, to a point in the northwesterly portion of section 10, due East of the north ⅛ section corner of sections 9 and 10, T. 14 S., R. 10 W., Fairbanks Meridian;

Thence due West, to a point 150 feet easterly of, and on a line perpendicular to, the centerline of the Denali Highway in the northwesterly portion of section 10, T. 14 S., R. 10 W., Fairbanks Meridian;

Thence southwesterly, northwesterly and southerly, on a line 150 feet from, and parallel to, the centerline of the Denali Highway, to a point in the southerly portion of section 18, 1,650 feet due West of the line between sections 17 and 18, T. 14 S., R. 10 W., Fairbanks Meridian;

Thence due South to a point in the northeasterly portion of section 19, 1,650 feet south of the line between sections 18 and 19 T. 14 S., R. 10 W., Fairbanks Meridian;

Thence due West to a point at the line of mean high water on the right bank of an unnamed creek in the northeasterly portion of section 18, T. 14 S., R. 10 W., Fairbanks Meridian;

Thence northwesterly, along the right bank of the unnamed creek to a point 150 feet easterly of, and on a line perpendicular to, the centerline of the Denali Highway, in the northerly portion of section 18, T. 14 S., R. 10 W., Fairbanks Meridian;

Thence southerly, westerly and southerly, on a line 150 feet from, and parallel to, the centerline of the Denali Highway, to a point in the southeasterly portion of section 13, T. 15 S., R. 11 W., due West of the south ⅛ section corner of sections 13 and 18, T. 15 S., Rs. 10 and 11 W., Fairbanks Meridian;

Thence due East to a point at the line of mean high water on the left bank of Igloo Creek in the southeasterly portion of section 13, T. 15 S., R. 11 W., Fairbanks Meridian;

Thence southerly, along the left bank of Igloo Creek, to a point 150 feet easterly of, and on a line perpendicular to, the centerline of the Denali Highway, in the southeasterly portion of section 13, T. 15 S., R. 11 W., Fairbanks Meridian;

Thence southwesterly and westerly, on a line 150 feet from, and parallel to, the centerline of the Denali Highway, to a point between sections 1 and 6, T. 16 S Rs. 11 and 12 W., Fairbanks Meridian;

Thence due South, between sections 1 and 6 to a point at the line of mean high water on the left bank of an unnamed creek, near the center ¼ corner of sections 1 and 6, T. 16 S., Rs. 11 and 12 W., Fairbanks Meridian;

Thence westerly, along the left bank of the unnamed creek to a point in the easterly portion of section 1, T. 16 S., R. 12 W., due North of the east ⅛ section corner of sections 1 and 12, T. 16 S., R. 12 W., Fairbanks Meridian;

Thence due South, to a point in the easterly portion of section 1, T. 16 S., R. 12 W., due West of the north-south ⅛₄ section corner of sections 1 and 6, T. 16 S., Rs. 11 and 12 W., Fairbanks Meridian;

Thence due West to a point 150 feet easterly of, and on a line perpendicular to, the centerline of the Denali Highway, in the southwesterly portion of section 1, T. 16 S., R. 12 W., Fairbanks Meridian;

Thence southerly and southwesterly, on a line 150 feet from, and parallel to, the centerline of the Denali Highway, to a point in the northwesterly portion of section 23, due South of the west ⅛ section corner of sections 14 and 23, T. 16 S., R. 13 W., Fairbanks Meridian;

Thence due South 150 feet to a point 300 feet from the centerline of the Denali Highway, in the northwesterly portion of section 23, T. 16 S., R. 13 W., Fairbanks Meridian;

Thence westerly and southerly, on a line 300 feet from, and parallel to, the centerline of the Denali Highway, to a point in the southerly portion of section 22, due West of the south-south ⅛₄ corner of sections 22 and 23, T. 16 S., R. 13 W., Fairbanks Meridian;

Thence due West to a point 150 feet easterly of, and on a line perpendicular to, the centerline of the Denali Highway, in the southerly portion of section 22, T. 16 S., R. 13 W., Fairbanks Meridian;

Thence southerly and southwesterly, on a line 150 feet from, and parallel to, the centerline of the Denali Highway, to a point in the westerly portion of section 1, T. 17 S., R. 14 W., 990 feet due East of the line between sections 1 and 2, T. 17 S., R. 14 W., Fairbanks Meridian;

Thence due South, to a point in the southwesterly portion of section 1, due East of the north-south 1/64 section corner of sections 1 and 2, T. 17 S., R. 14 W., Fairbanks Meridian;

Thence due West, to a point 150 feet southerly of, and on a line perpendicular to, the centerline of the Denali Highway, in the southeasterly portion of section 2, T. 17 S., R. 14 W., Fairbanks Meridian;

Thence southwesterly, on a line 150 feet from, and parallel to, the centerline of the Denali Highway, to a point in the southeasterly portion of section 2, 990 feet due West of the line between sections 1 and 2, T. 17 S., R. 14 W., Fairbanks Meridian;

Thence due South, to a point in the southeasterly portion of section 2, due West of the south-south 1/64 section corner of sections 1 and 2, T. 17 S., R. 14 W., Fairbanks Meridian;

Thence due West, 1,980 feet to a point in the southern portion of section 2, T. 17 S., R. 14 W., Fairbanks Meridian;

Thence due North, to a point 150 feet southerly of, and on a line perpendicular to, the centerline of the Denali Highway, in the southerly portion of section 2, T. 17 S., R. 14 W., Fairbanks Meridian;

Thence westerly, on a line 150 feet from, and parallel to, the centerline of the Denali Highway, to a point in the southwesterly portion of section 2, 330 feet east of the line between sections 2 and 3, T. 17 S., R. 14 W., Fairbanks Meridian;

Thence due South to a point between sections 2 and 11, T. 17 S., R. 14 W., Fairbanks Meridian;

Thence due West, between sections 2 and 11, and 3 and 10, to the east 1/16 section corner of sections 3 and 10, T. 17 S., R. 14 W., Fairbanks Meridian;

Thence due North, to a point 150 feet southerly of, and on a line perpendicular to, the centerline of the Denali Highway, in the southeasterly portion of section 3, T. 17 S., R. 14 W., Fairbanks Meridian;

Thence westerly and southwesterly, on a line 150 feet from, and parallel to, the centerline of the Denali Highway, to a point in the northerly portion of section 19, 2,310 feet due West of the line between sections 19 and 20, T. 17 S., R. 14 W., Fairbanks Meridian;

Thence due South to a point on the east-west centerline of section 19, T. 17 S., R. 14 W., Fairbanks Meridian;

Thence westerly, 1,320 feet along the east and west centerline of section 19, to a point in the western portion of section 19, T. 17 S., R. 14 W., Fairbanks Meridian;

Thence due North, to a point 150 feet southerly of, and on a line perpendicular to, the centerline of the Denali Highway, in the northwesterly portion of section 19, T. 17 S., R. 14 W., Fairbanks Meridian;

Thence westerly, on a line 150 feet from, and parallel to, the centerline of the Denali Highway, to a point in the easterly portion of section 21, due North of the east-east 1/64 section corner, between sections 21 and 28, T. 17 S., R. 15 W., Fairbanks Meridian;

Thence due South to a point at the line of mean high water on the left bank of an unnamed creek in the southeasterly portion of section 21, T. 17 S., R. 15 W., Fairbanks Meridian;

Thence southwesterly and westerly, along the left bank of the unnamed creek to a point in the southwesterly portion of section 21, due North of the east-west 1/64 section corner of sections 21 and 28, T. 17 S., R. 15 W., Fairbanks Meridian;

Thence due North to a point in the westerly portion of section 21, on the east-west centerline of section 21, T. 17 S., R. 15 W., Fairbanks Meridian;

Thence easterly along the east-west centerline of section 21 to a point 150 feet southwesterly of, and on a line perpendicular to, the centerline of the Denali Highway near the center of section 21, T. 17 S., R. 15 W., Fairbanks Meridian;

Thence westerly, on a line 150 feet from, and parallel to, the centerline of the Denali Highway, to a point due North of the east 1/16 section corner of sections 15 and 22, T. 17 S., R. 16 W., Fairbanks Meridian;

Thence due South to a point due West of the south-south 1/64 section corner of sections 14 and 15, T. 17 S., R. 16 W., Fairbanks Meridian;

Thence due West to the south-south 1/64 section corner of sections 15 and 16, T. 17 S., R. 16 W., Fairbanks Meridian;

Thence northerly between sections 15 and 16 to a point 150 feet southerly of, and on a line perpendicular to, the centerline of the Denali Highway between sections 15 and 16, T. 17 S., R. 16 W., Fairbanks Meridian;

Thence westerly, on a line 150 feet from, and parallel to, the centerline of the Denali Highway, to a point between sections 8 and 9, T. 17 S., R. 17 W., Fairbanks Meridian;

Thence southerly, between sections 8 and 9, to the corner of sections 8 and 9, 16 and 17, T. 17 S., R. 17 W., Fairbanks Meridian;

Thence westerly, between sections 8 and 17, 7 and 18, to the corner of sections 7, 12, 13 and 18, T. 17 S., Rs. 17 and 18 W., Fairbanks Meridian;

Thence northerly, between Rs. 17 and 18 W., to the closing corner of T. 17 S., Rs. 17 and 18 W., Fairbanks Meridian;

Thence easterly, along the Fourth Standard Parallel South, approximately 200 feet to the standard west 1/16 section corner of section 32, T. 16 S., R. 17 W., Fairbanks Meridian;

Thence northerly, along the north and south centerlines of the west 1/2 of sections 32 and 29 to a point at the centerline of Lake Creek, in the westerly portion of section 29, T. 16 S., R. 17 W., Fairbanks Meridian;

Thence northwesterly and northeasterly, along the centerline of Lake Creek, to a point on the old Mt. McKinley National Park boundary, in section 29, T. 16 S., R. 17 W., Fairbanks Meridian, the place of beginning.

Note: Along the existing (on December 2, 1980) highway through the park, the wilderness boundary begins 150 feet on either side of the center line of the road and 150 feet back from the edge of all existing (on December 2, 1980) turnouts and parking areas (Report of the Committee on Energy and Natural Resources, United States Senate, Report No. 96-413, p. 216). This information supplements and amends, as necessary, the foregoing descriptions.

The following U.S. Geological Survey 1:63,360 Series (Topographic) Quadrangle Maps were used in preparing the legal boundary descriptions for the Denali National Park and Preserve and Denali Wilderness:

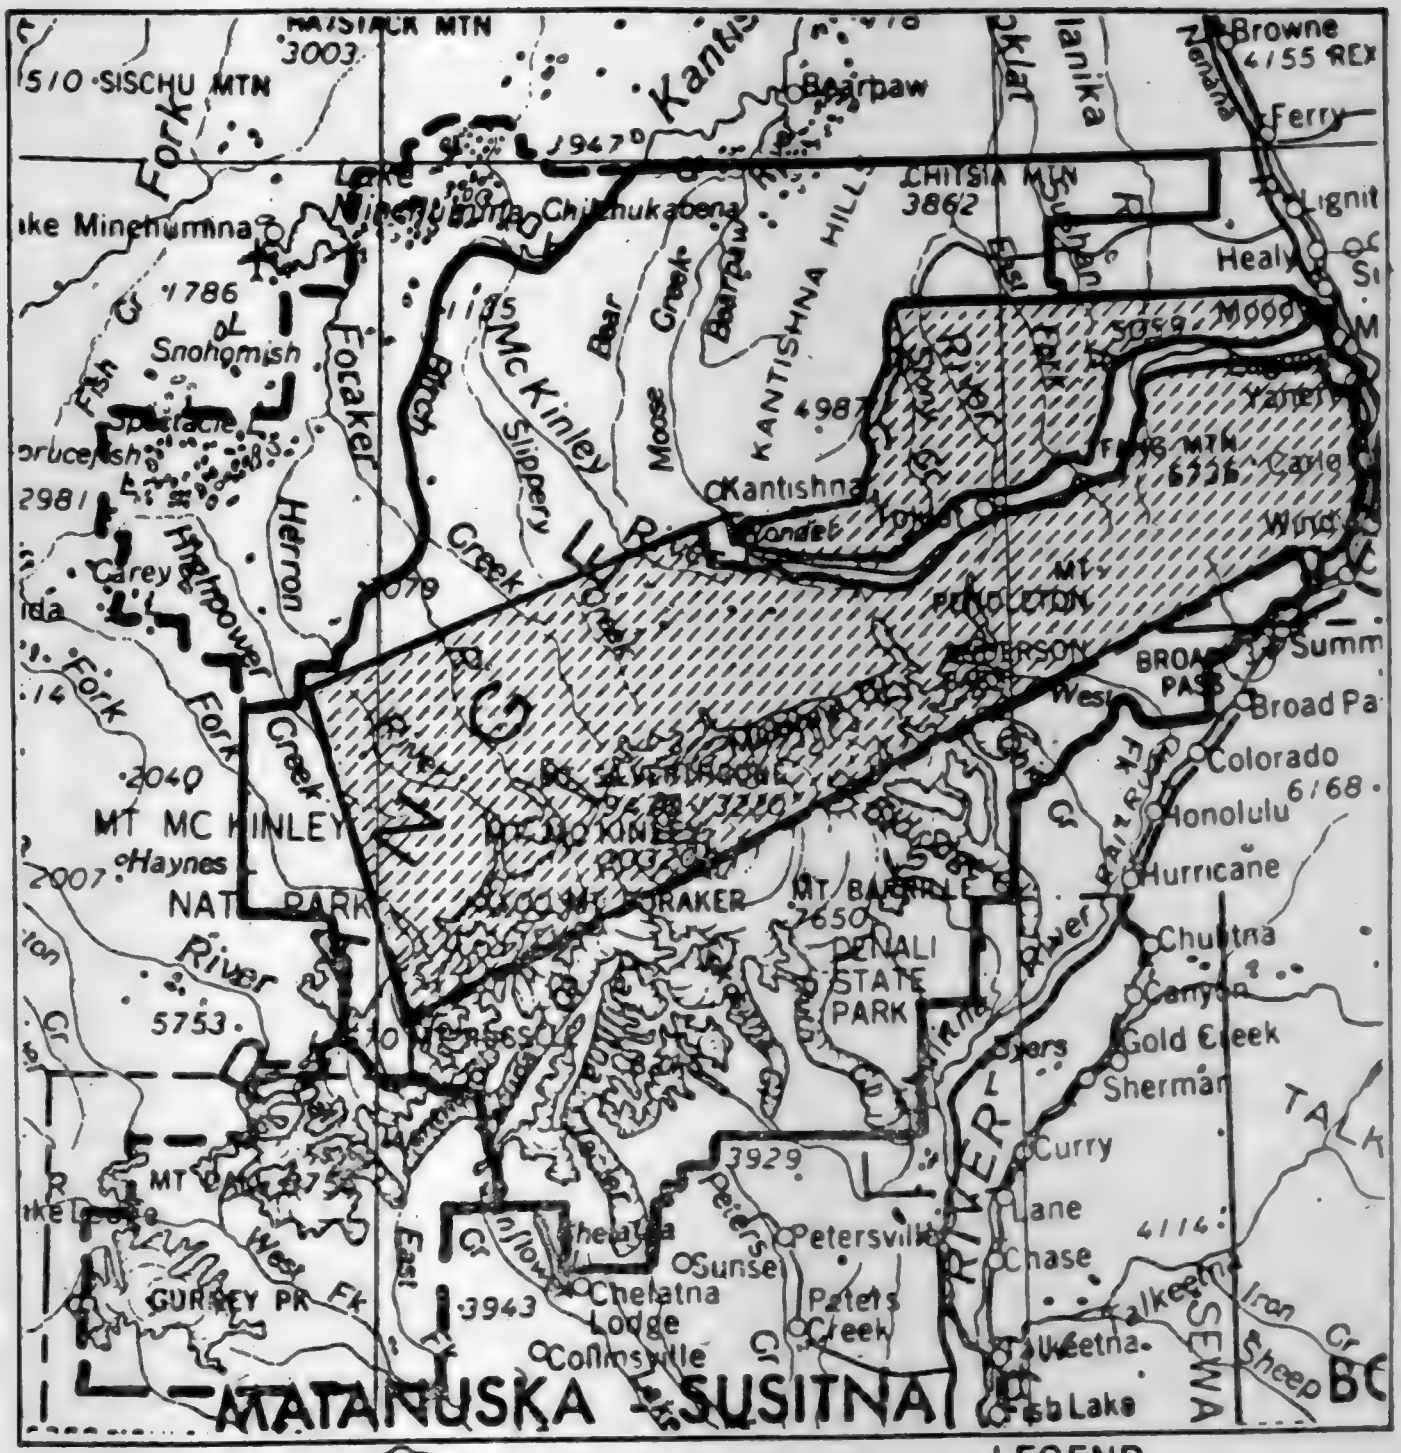
BILLING CODE 4310-70-F

DENALI NATIONAL PARK AND PRESERVE

PUBLIC LAW 96-487



Gates of the Arctic National Park and Preserve

Section 201(4)(a), Public Law 96–487 (GAAR):

Gates of the Arctic National Park

Gates of the Arctic National Park as generally depicted on a map numbered GAAR–90,011, dated July 1980, consists of approximately seven million fifty-two thousand acres of public lands, as defined by the ANILCA, within the following described boundaries:

Unit Number 1

Beginning at the corner of sections 19, 24, 25 and 30, T. 20 N., Rs. 18,and 19 E., Kateel River Meridian;

Thence easterly, between sections 19 and 30, 20 and 29, 21 and 28, 22 and 27, along a common boundary with the Gates of the Arctic National Preserve, to the summit of a ridge located in sections 22 and 27, T. 20 N., R. 19 E., Kateel River Meridian, approximate elevation 4,000 feet;

Thence southeasterly, northeasterly, easterly and southeasterly, along the crest of a ridge, to a high point on the ridge located in the westerly portion of section 5, T. 19 N., R. 20 E., Kateel River Meridian, approximate elevation 2,900 feet;

Thence on an approximate forward bearing of S. 14° E., to the summit of a mountain located in section 17, T. 19 N., R. 20 E., Kateel River Meridian, approximate elevation 2,577 feet;

"Thence on an approximate forward bearing of S. 14° E., to the corner of sections 20, 21, 28 and 29, T. 19 N., R. 20 E., Kateel River Meridian;

"Thence on an approximate forward bearing of east to a point on the left bank of the Kobuk River at the center of the confluence of the outlet stream from Walker Lake with the Kobuk River, in section 19, T. 19 N., R. 21 E., Kateel River Meridian;

Thence northeasterly, along the left bank of the Kobuk River and Kichatnakaka Creek to a point between sections 1 and 36, Tps. 19 and 20 N., R. 22 E., Kateel River Meridian;

Thence easterly between Tps. 19 and 20 N., to the corner of Tps. 19 and 20 N., Rs. 22 and 23 E., Kateel River Meridian;

Thence easterly, departing from the common boundary with the Gates of the Arctic National Preserve, between Tps. 19 and 20 N., to the corner of sections 3, 4, 33 and 34, Tps. 19 and 20 N., R. 23 E., Kateel River Meridian;

Thence northerly between sections 33 and 34, 27 and 28, 21 and 22, 15 and 16, 9 and 10, 3 and 4, to the closing corner of sections 3 and 4, T. 20 N., R. 23 E., Kateel River Meridian;

Thence easterly, along the Fifth Standard Parallel North, to the standard corner of T. 21 N., Rs. 23 and 24 E., Kateel River Meridian;

Thence northerly, between Rs. 23 and 24 E., to the corner of Tps. 21 and 22 N., Rs. 23 and 24 E., Kateel River Meridian;

Thence easterly, between Tps. 21 and 22 N., to the corner of sections 3, 4, 33 and 34, Tps. 21 and 22 N., R. 25 E., Kateel River Meridian;

Thence northerly, between sections 33 and 34, 27 and 28, 21 and 22, 15 and 16, 9 and 10, 3 and 4, to the corner of sections 3, 4, 33 and 34, Tps. 22 and 23 N., R. 25 E., Kateel River Meridian;

Thence easterly, between Tps. 22 and 23 N., to the corner of Tps. 22 and 23 N., R. 26 E., on the boundary of the Kateel River Meridian;

Thence southerly, between Kateel River and Fairbanks Meridians, to the corner of sections 18 and 19, T. 29 N., R. 24 W., Fairbanks Meridian;

Thence easterly, between sections 18 and 19, 17 and 20, 16 and 21, to the corner of sections 15, 16, 21 and 22, T. 29 N., R. 24 W., Fairbanks Meridian;

Thence northerly, between sections 15 and 16, 9 and 10, 3 and 4, 33 and 34, 27 and 28, 21 and 22, 15 and 16, 9 and 10, 3 and 4, to the corner of sections 3, 4, 33 and 34, Tps. 30 and 31 N., R. 24 W., Fairbanks Meridian;

Thence westerly, between Tps. 30 and 31 N., to the corner of Tps. 30 and 31 N., R. 24 W., on the boundary of the Fairbanks Meridian;

Thence northerly, between Fairbanks and Kateel River Meridians, to the corner of Tps. 31 and 32 N., R. 24 W., Fairbanks Meridian;

Thence easterly, between Tps. 31 and 32 N., to the corner of Tps. 31 and 32 N., Rs. 18 and 19 W., Fairbanks Meridian;

Thence northerly, between Rs. 18 and 19 W., to the closing corner of T. 32 N., Rs. 18 and 19 W., Fairbanks Meridian;

Thence easterly, along the Eighth Standard Parallel North, to the closing corner of T. 32 N., Rs. 17 and 18 W., Fairbanks Meridian;

Thence southerly, between Rs. 17 and 18 W., to the corner of Tps. 31 and 32 N., Rs. 17 and 18 W., Fairbanks Meridian;

Thence easterly, between Tps. 31 and 32 N., to the corner of Tps. 31 and 32 N., Rs. 16 and 17 W., Fairbanks Meridian;

Thence southerly, between Rs. 16 and 17 W., to the corner of Tps. 29 and 30 N., Rs. 16 and 17 W., Fairbanks Meridian;

Thence easterly, between Tps. 29 and 30 N., to the corner of Tps. 29 and 30 N., Rs. 15 and 16 W., Fairbanks Meridian;

Thence southerly, between Rs. 15 and 16 W., to the standard corner of T. 29 N., Rs. 15 and 16 W., Fairbanks Meridian;

Thence westerly, along the Seventh Standard Parallel North, to the closing corner of T. 29 N., Rs. 16 and 17 W., Fairbanks Meridian;

"Thence southerly, between Rs. 16 and 17 W., to the meander corner of sections 31 and 36 at the line of mean high water on the right bank of the most northerly interconnecting waterway of the Koyukuk River, T. 26 N., Rs. 16 and 17 W., Fairbanks Meridian;

"Thence northeasterly, along the line of mean high water on the right bank of the most northerly interconnecting waterways of the Middle Fork of the Koyukuk River, closing the mouth of the North Fork Koyukuk River, to the meander corner of sections 13 and 14, T. 26 N., R. 14 W., Fairbanks Meridian;

Thence northerly, between sections 13 and 14, to the north 1/16 section corner of sections 13 and 14, T. 26 N., R. 14 W., Fairbanks Meridian;

Thence easterly, along the east and west centerline of the northwest ¼ of section 13, to the northwest 1/16 section corner of section 13, T. 26 N., R. 14 W., Fairbanks Meridian;

Thence northerly, along the north and south centerlines of the northwest ¼ of section 13, and the southwest ¼ of section 12, to the center-west 1/16 section corner of section 12, T. 26 N., R. 14 W., Fairbanks Meridian;

Thence easterly, on the east and west centerline of section 12, to the center ¼ section corner of section 12, T. 26 N., R. 14 W., Fairbanks Meridian;

Thence northerly, along the north and south centerlines of sections 12, 1 and 36, to the ¼ section corner of sections 25 and 36, T. 27 N., R. 14 W., Fairbanks Meridian;

Thence easterly, between sections 25 and 36, to the corner of sections 25, 30, 31 and 36, T. 27 N., Rs. 13 and 14 W., Fairbanks Meridian;

Thence northerly, between Rs. 13 and 14 W., to the corner of sections 19, 24, 25 and 30, T. 27 N., Rs. 13 and 14 W., Fairbanks Meridian;

Thence easterly, between sections 19 and 30, to the corner of sections 19, 20, 29 and 30, T. 27 N., R. 13 W., Fairbanks Meridian;

Thence on an approximate forward bearing of N. 30° E., to the summit of a low point on Twelvemile Mountain located in the southwest portion of section 20, T. 27 N., R. 13 W., Fairbanks Meridian, approximate elevation 2,200 feet;

Thence on an approximate forward bearing of N. 9° E., to a summit of Twelvemile Mountain located in the westerly portion of section 20, T. 27 N., R. 13 W., Fairbanks Meridian, approximate elevation 2,950 feet;

Thence on an approximate forward bearing of N. 3° E., to a summit of Twelvemile Mountain located in the northwesterly portion of section 20, T. 27 N., R. 13 W., Fairbanks Meridian, approximate elevation 3,100 feet;

Thence on an approximate forward bearing of N. 60° E., to the summit of Twelvemile Mountain located in the northerly portion of section 20, T. 27 N., R. 13 W., Fairbanks Meridian, approximate elevation 3,180 feet;

Thence on an approximate forward bearing of N. 36° E., to a summit of Twelvemile Mountain located in the southeasterly portion of section 17, T. 27 N., R. 13 W., Fairbanks Meridian, approximate elevation 3,160 feet;

Thence on an approximate forward bearing of N. 6° E., to the summit of a low point on Twelvemile Mountain located in the easterly portion of section 17, T. 27 N., R. 13 W., Fairbanks Meridian, approximate elevation 2,000 feet;

Thence on an approximate forward bearing of N. 48° W., to the center-north 1/16 section corner of section 17, T. 27 N., R. 13 W., Fairbanks Meridian;

Thence northerly, on the north and south centerline of section 17, to the ¼ section corner of sections 8 and 17, T. 27 N., R. 13 W., Fairbanks Meridian;

Thence westerly, between sections 8 and 17, 7 and 18, 12 and 13, to the corner of sections 11, 12, 13 and 14, T. 27 N., R. 14 W., Fairbanks Meridian;

Thence northerly, between sections 11 and 12, to the ¼ section corner of sections 11 and 12, T. 27 N., R. 14 W., Fairbanks Meridian;

Thence on an approximate forward bearing of N. 25° W., to the summit of a mountain

located in the southerly portion of section 2, T. 27 N., R. 14 W., Fairbanks Meridian, approximate elevation 3,125 feet;

Thence northerly and northeasterly, along the crest of a ridge between the drainages of the North and Middle Forks of the Koyukuk River, to the summit of a mountain located in section 8, T. 30 N., R. 12 W., Fairbanks Meridian, approximate elevation 3,150 feet;

Thence on an approximate forward bearing of N. 27° E., to the ¼ section corner of sections 5 and 8, T. 30 N., R. 12 W., Fairbanks Meridian;

Thence northerly, on the north and south centerlines of sections 5 and 32, to the center ¼ section corner of section 32, T. 31 N., R. 12 W., Fairbanks Meridian;

Thence on an approximate forward bearing of N. 16° E., to the summit of a mountain located in the southerly portion of section 29, T. 31 N., R. 12 W., Fairbanks Meridian, approximate elevation 3,020 feet;

Thence northeasterly, along the crest of a ridge between the drainages of Washington Creek, Canyon Creek, Glacier River and the Middle Fork of the Koyukuk River, to the summit of a mountain located in the southerly portion of section 2, T. 31 N., R. 12 W., Fairbanks Meridian, approximate elevation 3,150 feet;

Thence on an approximate forward bearing of S. 69° E., to the junction of Hammond River and Canyon Creek located in the easterly portion of section 12, T. 31 N., R. 12 W., Fairbanks Meridian;

Thence on an approximate forward bearing of S. 82° E., to the summit of a mountain located in the easterly portion of section 7, T. 31 N., R. 11 W., Fairbanks Meridian, approximate elevation 2,738 feet;

Thence southeasterly and northerly, along the crest of a ridge, to the summit of a mountain located in the northerly portion of section 11, T. 31 N., R. 11 W., Fairbanks Meridian, approximate elevation 3,065 feet;

Thence on an approximate forward bearing of N. 32° E., to the summit of a mountain located in section 36, T. 32 N., R. 11 W., Fairbanks Meridian, approximate elevation 3,033 feet;

Thence northerly, along the crest of a ridge between the drainages of Vi Creek, Hammond River, Kalhabuk Creek and the Middle Fork of the Koyukuk River, to the northerly point of the crest of a ridge located in section 5, T. 33 N., R. 10 W., Fairbanks Meridian, approximate elevation 4,100 feet;

Thence on an approximate forward bearing of N. 2° W., on a line passing at midpoint between two lakes in section 32, to the crest of a ridge located near the center of section 29, T. 34 N., R. 10 W., Fairbanks Meridian, approximate elevation 3,200 feet;

Thence northwesterly, northerly and northeasterly along the crest of a ridge between drainages of Dietrich and Hammond Rivers, to the summit of a mountain located in the northwesterly portion of section 31, T. 35 N., R. 10 W., Fairbanks Meridian, approximate elevation 3,110 feet;

Thence on an approximate forward bearing of N. 9° E., to the summit of a mountain located in sections 18 and 19, T. 35 N., R. 10 W., Fairbanks Meridian, approximate elevation 4,010 feet;

Thence northerly, along the crest of a ridge between the Dietrich River drainage and Big Jim and Trembley Creeks, to the summit of a mountain located in the southwesterly portion of section 29, T. 36 N., R. 10 W., Fairbanks Meridian, approximate elevation 4,130 feet;

Thence on an approximate forward bearing of N. 8° E., to the summit of a mountain located near the center of section 17, T. 36 N., R. 10 W., Fairbanks Meridian, approximate elevation 4,230 feet;

Thence northerly, along the crest of a ridge, between the drainages of Dietrich River and Kuyuktuvuk Creek, to a point of intersection with the Continental Divide, located near the center of section 31, T. 15 S., R. 10 E., Umiat Meridian, approximate elevation 6,000 feet;

Thence southwesterly, along the Continental Divide, along a common boundary with the Gates of the Arctic National Preserve, to a point on a ridge where the Continental Divide bears southerly, located in the northerly portion of section 2, T. 16 S., R. 9 E., Umiat Meridian, approximate elevation 6,300;

Thence northwesterly, along the crest of a ridge, to a point between sections 12 and 13, T. 15 S., R. 8 E., Umiat Meridian, approximate elevation 4,650 feet;

Thence on an approximate forward bearing of N. 65° W., to the most southerly point on the shore of an unnamed lake located in the Oolah Valley in section 11, T. 15 S., R. 8 E., Umiat Meridian;

Thence on an approximate forward bearing of N. 59° W., to the summit of a mountain located in section 4, T. 15 S., R. 8 E., Umiat Meridian, approximate elevation 6,323 feet;

Thence northwesterly, along the crest of a ridge between the drainages of Itkillik and Nanushuk Rivers, to the summit of a mountain located near the center of section 26, T. 14 S., R. 6 E., Umiat Meridian, approximate elevation 7,116 feet;

Thence on an approximate forward bearing of N. 70° W., to an easterly summit of Marshmallow Mountain located in the easterly portion of section 20, T. 14 S., R. 6 E., Umiat Meridian, approximate elevation 6,570 feet;

Thence westerly, along the crest of Marshmallow Mountain, to a westerly summit of Marshmallow Mountain located in the northerly portion of section 24, T. 14 S., R. 5 E., Umiat Meridian, approximate elevation 6,972 feet.

Thence on an approximate forward bearing of S. 71° W., to the easterly point of the summit of a mountain located in the northerly portion of section 28, T. 14 S., R. 5 E., Umiat Meridian, approximate elevation 6,500 feet.

Thence southwesterly, northwesterly, and northeasterly, along the crest of a ridge, between the Alapah Creek, Anaktuvuk River, Itikmalakpak Creek and the Kayak Creek drainages and northwesterly on a spur ridge, to a point between sections 1 and 36, Tps. 13 and 14 S., R. 4 E., Umiat Meridian;

Thence westerly, departing from the common boundary with the Gates of the Arctic National Preserve, between Tps. 13 and 14 S., to the corner of Tps. 13 and 14 S., Rs. 1 and 2 E., Umiat Meridian;

Thence northerly, between Rs. 1 and 2 E., to the corner of sections 25, 30, 31 and 36, T. 13 S., Rs. 1 and 2 E., Umiat Meridian;

Thence westerly, between sections 25 and 36, 26 and 35, 27 and 34, 28 and 33, 29 and 32, 30 and 31, 25 and 36, 26 and 35, 27 and 34, 28 and 33, 29 and 32, 30 and 31, to the corner of sections 25, 30, 31 and 36, T. 13 S., Rs. 1 and 2 W., Umiat Meridian;

Thence northerly, between Rs. 1 and 2 W., to the closing corner of T. 13 S., Rs. 1 and 2 W., Umiat Meridian;

Thence westerly, along the Third Standard Parallel South, to the standard corner of T. 12 S., Rs. 1 and 2 W., Umiat Meridian;

Thence northerly, between Rs. 1 and 2 W., to the corner of sections 13, 18, 19 and 24, T. 12 S., Rs. 1 and 2 W., Umiat Meridian;

Thence westerly, between sections 13 and 24, 14 and 23, 15 and 22, 16 and 21, 17 and 20, 18 and 19, to the corner of sections 13, 18, 19 and 24, T. 12 S., Rs. 2 and 3 W., Umiat Meridian;

Thence southerly, between Rs. 2 and 3 W., to the corner of sections 25, 30, 31 and 36, T. 12 S., Rs. 2 and 3 W., Umiat Meridian;

Thence westerly, between sections 25 and 36, to the corner of sections 25, 26, 35 and 36, T. 12 S., R. 3 W., Umiat Meridian;

Thence southerly, between sections 35 and 36 to the standard corner of sections 35 and 36, T. 12 S., R. 3 W., Umiat Meridian;

Thence westerly, along the Third Standard Parallel South, to the standard corner of sections 34 and 35, T. 12 S., R. 4 W., Umiat Meridian;

Thence northerly, between sections 34 and 35, 26 and 27, 22 and 23, to the corner of sections 14, 15, 22 and 23, T. 12 S., R. 4 W., Umiat Meridian;

Thence westerly, between sections 15 and 22, 16 and 21, 17 and 20, 18 and 19, to the corner of sections 13, 18, 19 and 24, T. 12 S., Rs. 4 and 5 W., Umiat Meridian;

Thence northerly, between Rs. 4 and 5 W., to the corner of sections 13, 18, 19 and 24, T. 11 S., Rs. 4 and 5 W., Umiat Meridian;

Thence westerly, between sections 13 and 24, 14 and 23, 15 and 22, 16 and 21, 17 and 20, 18 and 19, 13 and 24, 14 and 23, 15 and 22, 16 and 21, 17 and 20, 18 and 19, 13 and 24, 14 and 23, 15 and 22, to the corner of sections 15, 16, 21 and 22, T. 11 S., R. 7 W., Umiat Meridian;

Thence southerly, between sections 21 and 22, 27 and 28, 33 and 34, to the corner of sections 3, 4, 33 and 34, Tps. 11 and 12 S., R. 7 W., Umiat Meridian;

Thence westerly, between Tps. 11 and 12 S., to the corner of Tps. 11 and 12 S., Rs. 7 and 8 W., Umiat Meridian;

Thence southerly, between Rs. 7 and 8 W., to the corner of sections 19, 24, 25 and 30, T. 12 S., Rs. 7 and 8 W., Umiat Meridian;

Thence westerly, between sections 24 and 25, 23 and 26, 22 and 27, 21 and 28, 20 and 29, 19 and 30, 24 and 25, 23 and 26, 22 and 27, 21 and 28, 20 and 29, 19 and 30, 24 and 25, 23 and 26, 22 and 27, 21 and 28, 20 and 29, 19 and 30, to the corner of sections 19, 24, 25 and 30, T. 12 S., Rs. 10 and 11 W., Umiat Meridian;

Thence southerly, between Rs. 10 and 11 W., to the corner of T. 12 S., Rs. 10 and 11 W., on the boundary of the Umiat Meridian;

Thence westerly, between the Umiat and Kateel River Meridians, to the closing corner of T. 34 N., Rs. 18 and 19 E., Kateel River Meridian;

Thence southerly, between Rs. 18 and 19 E., to the corner of sections 19, 24, 25 and 30, T. 34 N., Rs. 18 and 19 E., Kateel River Meridian;

Thence westerly, between sections 24 and 25, 23 and 26, 22 and 27, 21 and 28, 20 and 29, 19 and 30, 24 and 25, 23 and 26, 22 and 27, 21 and 28, 20 and 29, 19 and 30, 24 and 25, 23 and 26, 22 and 27, 21 and 28, 20 and 29, 19 and 30, to the corner of sections 19, 24, 25 and 30, T. 34 N., Rs. 15 and 16 E., Kateel River Meridian;

Thence northerly, between Rs. 15 and 16 E., to the closing corner of T. 34 N., Rs. 15 and 16 E., on the boundary of the Kateel River Meridian;

Thence westerly, between the Kateel River and Umiat Meridians, to a point of intersection between the western portion of section 10, T. 34 N., R. 14 E., Kateel River Meridian and section 27, T. 12 S., R. 16 W., Umiat Meridian, with a line projected due north of a peak located in the western portion of section 28, T. 30 N., R. 14 E., Kateel River Meridian, approximate elevation 4,640 feet;

Thence due south to a peak located along the crest of a divide between the drainages of the Nigu and Noatak Rivers in the western portion of section 28, T. 30 N., R. 14 E., Kateel River Meridian, approximate elevation 4,640 feet;

Thence westerly, northerly and northwesterly, along the crest of a divide between the drainages of the Nigu and Noatak Rivers to a summit of a mountain located on a ridge at the junction with a spur ridge located in section 3, T. 30 N., R. 13 E., Kateel River Meridian, approximate elevation 3,250 feet;

Thence southwesterly and westerly, along the crest of a ridge between the drainages of Midas Creek and Mountain Creek, along a common boundary with the Noatak National Preserve, to the summit of a mountain located in section 21, T. 30 N., R. 12 E., Kateel River Meridian, approximate elevation 4,021 feet;

Thence on an approximate forward bearing of S. 87° W., to the summit of a hill located in section 24, T. 30 N., R. 11 E., Kateel River Meridian, approximate elevation 3,473 feet;

Thence northwesterly, along the crest of a ridge to the summit of a mountain located in sections 14 and 15, T. 30 N., R. 11 E., Kateel River Meridian, approximate elevation 4,100 feet;

Thence on an approximate forward bearing of S. 28° W., to the summit of a mountain located in section 22, T. 30 N., R. 11 E., Kateel River Meridian, approximate elevation 3,202 feet;

Thence southwesterly, along the crest of a ridge between Douglas Creek and a tributary of the Noatak River, to the summit of a mountain, located in sections 12 and 13, T. 29 N., R. 10 E., Kateel River Meridian, approximate elevation 3,657 feet;

Thence due south, to a point on the right bank of Douglas Creek located in section 24, T. 29 N., R. 10 E., Kateel River Meridian;

Thence southerly, along the right bank of Douglas Creek, to a point on the right bank of Douglas Creek at the junction of the Noatak River and Douglas Creek located in the northern portion of section 2, T. 28 N., R. 10 E., Kateel River Meridian;

Thence on an approximate forward bearing of S. 24° W., to the summit of a mountain located in section 22, T. 28 N., R. 10 E., Kateel River Meridian, approximate elevation 3,439 feet;

Thence on an approximate forward bearing of S. 51° W., to the summit of a small mountain located in sections 28 and 29, T. 28 N., R. 10 E., Kateel River Meridian, approximate elevation 2,441 feet;

Thence easterly, southerly and westerly, along the divide between the drainages of Kavachurak Creek and Tunukuchiak Creek and Ambler River, to the summit of a mountain located in section 22, T. 26 N., R. 9 E., Kateel River Meridian, approximate elevation 4,298 feet;

Thence northerly, along the crest of the spur ridge to the summit of a mountain located in section 15, T. 26 N., R. 9 E., Kateel River Meridian, approximate elevation 3,980 feet;

Thence on an approximate forward bearing of N. 37° W., to the summit of a mountain located in section 5, T. 26 N., R. 9 E., Kateel River Meridian, approximate elevation 4,625 feet;

Thence southwesterly, along the divide between the drainages of the Ambler and Noatak Rivers, to the summit of a mountain located in sections 23 and 24, T. 26 N., R. 8 E., Kateel River Meridian, approximate elevation 4,508 feet;

Thence on an approximate forward bearing of S. 11° W., to the summit of a mountain located in section 35, T. 26 N., R. 8 E., Kateel River Meridian, approximate elevation 4,720 feet;

Thence easterly, southerly, easterly and southerly along the divide between the Ambler and Imelyak Rivers to the summit of a ridge located in the southern half of section 19, T. 25 N., R. 9 E., Kateel River Meridian, approximate elevation 3,600 feet;

Thence southerly, departing from the common boundary with the Noatak National Preserve, along the divide between tributaries of the Ambler River, to a point between sections 9 and 16, T. 24 N., R. 9 E., Kateel River Meridian, approximate elevation 2,800 feet;

Thence easterly, between sections 9 and 16, 10 and 15, 11 and 14, to the crest of a ridge between sections 11 and 14, T. 24 N., R. 9 E., Kateel River Meridian, approximate elevation 2,600 feet;

Thence northeasterly, along the crest of a ridge between the drainages of tributaries of the Ambler River to the summit of a mountain located in the northwesterly portion of section 4, T. 24 N., R. 10 E., Kateel River Meridian, approximate elevation 3,609 feet;

Thence on an approximate forward bearing of east, to the summit of a mountain located in the northwesterly portion of section 2, T. 24 N., R. 10 E., Kateel River Meridian, approximate elevation 4,499 feet;

Thence northeasterly, along the crest of a ridge between the drainages of Ulaneak Creek, Ambler and Ipnelivik Rivers, to the summit of a mountain located in section 27, T. 25 N., R. 11 E., Kateel River Meridian, approximate elevation 5,040 feet;

Thence on an approximate forward bearing of S. 28° E., to the summit of a mountain located in sections 34 and 35, T. 25 N., R. 11 E., Kateel River Meridian, approximate elevation 4,600 feet;

Thence southerly, along the crest of a ridge between the drainages of Ipnelivik River and Ulaneak Creek, to the summit of a mountain located in sections 25 and 26, T. 24 N., R. 11 E., Kateel River Meridian, approximate elevation 4,600 feet;

Thence on an approximate forward bearing of S. 60° E., to the summit of a mountain located in section 31, T. 24 N., R. 12 E., Kateel River Meridian, approximate elevation 5,076 feet;

Thence southerly, easterly and northeasterly, along the crest of a ridge, to the summit of a mountain between sections 5 and 32, Tps. 23 and 24 N., R. 12 E., Kateel River Meridian, approximate elevation 4,500 feet;

Thence easterly, between Tps. 23 and 24 N., to the summit of a mountain between sections 4 and 33, Tps. 23 and 24 N., R. 12 E., Kateel River Meridian, approximate elevation 4,926 feet;

Thence southerly, along the crest of a ridge, between the drainages of Kogoluktuk River, to the summit of a mountain located in sections 34 and 35, T. 23 N., R. 12 E., Kateel River Meridian, approximate elevation 4,160 feet;

Thence on an approximate forward bearing of S. 20° E., to the summit of a mountain located in section 11, T. 22 N., R. 12 E., Kateel River Meridian, approximate elevation 3,292 feet;

Thence southerly, easterly and southeasterly, along the crest of a ridge between the drainages of Kogoluktuk River and Ivik Creek, to a point between sections 2 and 35, Tps. 21 and 22 N., R. 13 E., Kateel River Meridian;

Thence easterly, between Tps. 21 and 22 N., to the corner of Tps. 21 and 22 N., Rs. 18 and 19 E., Kateel River Meridian;

Thence southerly, between Rs. 18 and 19 E., to the standard corner of T. 21 N., Rs 18 and 19 E., Kateel River Meridian;

Thence westerly, along the Fifth Standard Parallel North, to the closing corner of T. 20 N., Rs. 18 and 19 E., Kateel River Meridian;

Thence southerly, between Rs. 18 and 19 E., to the corner of sections 19, 24, 25 and 30, T. 20 N., Rs. 18 and 19 E., Kateel River Meridian, the place of beginning.

* Department of the Interior 1:250,000 scale map issued in 1981, incorrectly depicts this portion of the description.

Unit Number 2

Beginning at the corner of sections 13, 18, 19 and 24, T. 11 S., Rs. 2 and 3 W., Umiat Meridian;

Thence northerly, between Rs. 2 and 3 W., to the corner of Tps. 9 and 10 S., Rs. 2 and 3 W., Umiat Meridian;

Thence westerly, between Tps. 9 and 10 S., to the corner of Tps. 9 and 10 S., Rs. 3 and 4 W., Umiat Meridian;

Thence northerly, between Rs. 3 and 4 W., to the corner of sections 13, 18, 19 and 24, T. 9 S., Rs. 3 and 4 W., Umiat Meridian;

Thence westerly, between sections 13 and 24, 14 and 23, 15 and 22, 16 and 21, 17 and 20, 18 and 19, 13 and 24, 14 and 23, 15 and 22, to the corner of sections 15, 16, 21 and 22, T. 9 S., R. 5 W., Umiat Meridian;

Thence southerly, between sections 21 and 22, 27 and 28, 33 and 34, 3 and 4, 9 and 10, 15 and 16, to the corner of sections 15, 16, 21 and 22, T. 10 S., R. 5 W., Umiat Meridian;

Thence easterly, between sections 15 and 22, 14 and 23, 13 and 24, to the corner of

sections 13, 18, 19 and 24, T. 10 S., Rs. 4 and 5 W., Umiat Meridian;

Thence southerly, between Rs. 4 and 5 W., to the corner of Tps. 10 and 11 S., Rs. 4 and 5 W., Umiat Meridian;

Thence easterly, between Tps. 10 and 11 S., to the corner of sections 4, 5, 32 and 33, Tps. 10 and 11 S., R. 4 W., Umiat Meridian;

Thence southerly, between sections 4 and 5, 8 and 9, 16 and 17, to the corner of sections 16, 17, 20 and 21, T. 11 S., R. 4 W., Umiat Meridian;

Thence easterly, between sections 16 and 21, 15 and 22, 14 and 23, 13 and 24, 18 and 19, 17 and 20, 16 and 21, 15 and 22, 14 and 23, 13 and 24, to the corner of sections 13, 18, 19 and 24, T. 11 S., Rs. 2 and 3 W., Umiat Meridian, the place of beginning.

Gates of the Arctic National Preserve

Gates of the Arctic National Preserve as generally depicted on a map numbered GAAR–90,011, dated July 1980, consists of approximately nine hundred thousand acres of public lands, as defined by the ANILCA, within the following described boundaries:

Unit Number 1

Beginning at the corner of sections 19, 24, 25 and 30, T. 20 N., Rs. 18 and 19 E., Kateel River Meridian;

Thence easterly, between sections 19 and 30, 20 and 29, 21 and 28, 22 and 27, along a common boundary with the Gates of the Arctic National Park, to the summit of a ridge located in sections 22 and 27, T. 20 N., R. 19 E., Kateel River Meridian, approximate elevation 4,000 feet;

Thence southeasterly, northeasterly, easterly and southeasterly along the crest of a ridge, to a high point on a ridge located in the westerly portion of section 5, T. 19 N., R. 20 E., Kateel River Meridian, approximate elevation 2,900 feet;

*Thence on an approximate forward bearing of S. 14° E., to the summit of a mountain located in section 17, T. 19 N., R. 20 E., Kateel River Meridian, approximate elevation 2,577 feet;

*Thence on an approximate forward bearing of S. 14° E., to the corner of sections 20, 21, 28 and 29, T. 19 N., R. 20 E., Kateel River Meridian;

*Thence on an approximate forward bearing of east to a point on the left bank of the Kobuk River at the center of the confluence of the outlet stream from Walker Lake with the Kobuk River, in section 19, T. 19 N., R. 21 E., Kateel River Meridian;

Thence northeasterly, along the left bank of the Kobuk River and Kichaiakaka Creek, to a point between sections 1 and 36, Tps. 19 and 20 N., R. 22 E., Kateel River Meridian;

Thence easterly, between Tps. 19 and 20 N., to the corner of Tps. 19 and 20 N., Rs. 22 and 23 E., Kateel River Meridian;

Thence southerly, departing from the common boundary with the Gates of the Arctic National Park, between Rs. 22 and 23 E., to the corner of Tps. 17 and 18 N., Rs. 22 and 23 E., Kateel River Meridian;

Thence westerly, between Tps. 17 and 18 N., to the corner of Tps. 17 and 18 N., Rs. 20 and 21 E., Kateel River Meridian;

Thence southerly, between Rs. 20 and 21 E., to the standard corner of T. 17 N., Rs. 20 and 21 E., Kateel River Meridian;

Thence westerly, along the Fourth Standard Parallel North, to the closing corner of T. 16 N., Rs. 20 and 21 E., Kateel River Meridian;

Thence southerly, between Rs. 20 and 21 E., to the corner of Tps. 14 and 15 N., Rs. 20 and 21 E., Kateel River Meridian;

Thence westerly, between Tps. 14 and 15 N., to the corner of Tps. 14 and 15 N., Rs. 14 and 15 E., Kateel River Meridian;

Thence northerly, between Rs. 14 and 15 E., to the closing corner of T. 16 N., Rs. 14 and 15 E., Kateel River Meridian;

Thence westerly, along the Fourth Standard Parallel North, to the standard corner of T. 17 N., Rs. 13 and 14 E., Kateel River Meridian;

Thence northerly, between Rs. 13 and 14 E., to the corner of Tps. 17 and 18 N., Rs. 13 and 14 E., Kateel River Meridian;

Thence easterly, between Tps. 17 and 18 N., to the corner of Tps. 17 and 18 N., Rs. 14 and 15 E., Kateel River Meridian;

Thence northerly, between Rs. 14 and 15 E., to the corner of Tps. 18 and 19 N., Rs. 14 and 15 E., Kateel River Meridian;

Thence easterly, between Tps. 18 and 19 N., to the corner of Tps. 18 and 19 N., Rs. 15 and 16 E., Kateel River Meridian;

Thence southerly, between Rs. 15 and 16 E., to the corner of Tps. 17 and 18 N., Rs. 15 and 16 E., Kateel River Meridian;

Thence easterly, between Tps. 17 and 18 N., to the corner of Tps. 17 and 18 N., Rs. 18 and 19 E., Kateel River Meridian;

Thence northerly between Rs. 18 and 19 E., to the corner of sections 19, 24, 25 and 30, T. 20 N., Rs. 18 and 19 E., Kateel River Meridian, the place of beginning.

Unit Number 2

Beginning at a point on the Continental Divide, at the junction of ridges, located near the center of section 31, T. 15 S., R. 10 E., Umiat Meridian, approximate elevation 6,000 feet;

Thence southwesterly, along the Continental Divide, along a common boundary with the Gates of the Arctic National Park, to a point on a ridge where the Continental Divide bears southerly, located in the northerly portion of section 2, T. 16 S., R. 9 E., Umiat Meridian, approximate elevation 6,300 feet;

Thence northwesterly, along the crest of a ridge to a point between sections 12 and 13, T. 15 S., R. 8 E., Umiat Meridian, approximate elevation 3,650 feet;

Thence on an approximate forward bearing of N. 65° W., to the most southerly point on the shore of an unnamed lake located in the Oolah Valley in Section 11, T. 15 S., R. 8 E., Umiat Meridian;

Thence on an approximate forward bearing of N. 59° W., to the summit of a mountain located in section 4, T. 15 S., R. 8 E., Umiat Meridian, approximate elevation 6,323 feet;

Thence northwesterly, along the crest of a ridge between the drainages of Itkillik and Nanushuk Rivers, to the summit of a mountain located near the center of section 26, T. 14 S., R. 6 E., Umiat Meridian, approximate elevation 7,118 feet;

Thence on an approximate forward bearing of N. 70° W., to an easterly summit of Marshmallow Mountain located in the easterly portion of section 20, T. 14 S., R. 6 E., Umiat Meridian, approximate elevation 6,570 feet;

Thence westerly, along the crest of Marshmallow Mountain to a westerly summit of Marshmallow Mountain located in the northerly portion of section 24, T. 14 S., R. 5 E., Umiat Meridian, approximate elevation 6,972 feet;

Thence on an approximate forward bearing of S. 71° W., to the easterly point of the summit of a mountain located in the northerly portion of section 28, T. 14 S., R. 5 E., Umiat Meridian, approximate elevation 6,500 feet;

Thence southwesterly, northwesterly, and northeasterly, along the crest of a ridge between the Alapah Creek, Anaktuvuk River, and Itikmalakpak Creek and the Kayak Creek drainages and northwesterly on a spur ridge, to a point between sections 1 and 36, Tps. 13 and 14 S., R. 4 E., Umiat Meridian;

Thence easterly, departing from the common boundary with the Gates of the Arctic National Park, between Tps. 13 and 14 S., to the corner of Tps. 13 and 14 S., Rs. 4 and 5 E., Umiat Meridian;

Thence northerly, between Rs. 4 and 5 E., to the corner of sections 13, 18, 19 and 24, T. 13 S., Rs. 4 and 5 E., Umiat Meridian;

Thence easterly, between sections 18 and 19, 17 and 20, to the corner of sections 16, 17, 20 and 21, T. 13 S., R. 5 E., Umiat Meridian;

Thence northerly, between sections 16 and 17, 8 and 9, 4 and 5, to the closing corner of sections 4 and 5, T. 13 S., R. 5 E., Umiat Meridian;

Thence easterly, along the Third Standard Parallel South, to the closing corner of T. 13 S., Rs. 5 and 6 E., Umiat Meridian;

Thence southerly, between Rs. 5 and 6 E., to the corner of sections 13, 18, 19 and 24, T. 13 S., Rs. 5 and 6 E., Umiat Meridian;

Thence easterly, between sections 18 and 19, 17 and 20, 16 and 21, 15 and 22, 14 and 23, 13 and 24, 18 and 19, 17 and 20, 16 and 21, 15 and 22, 14 and 23, 13 and 24, to the corner of sections 13, 18, 19 and 24, T. 13 S., Rs. 7 and 8 E., Umiat Meridian;

Thence northerly, between Rs. 7 and 8 E., to the closing corner of T. 13 S., Rs. 7 and 8 E., Umiat Meridian;

Thence easterly, along the Third Standard Parallel South, to the standard corner of T. 12 S., Rs. 8 and 9 E., Umiat Meridian;

Thence northerly, between Rs. 8 and 9 E., to the corner of Tps. 11 and 12 S., Rs. 8 and 9 E., Umiat Meridian;

Thence easterly, between Tps. 11 and 12 S., to a point on the crest of a ridge between sections 6 and 31, Tps. 11 and 12 S., R. 11 E., Umiat Meridian, approximate elevation 4,650 feet;

Thence southerly, along the crest of a ridge between the drainages of Atigun and Itkillik Rivers, to the summit of a mountain located in the southerly portion of section 18, T. 12 S., R. 11 E., Umiat Meridian, approximate elevation 5,156 feet;

Thence on an approximate forward bearing of S. 35° E., to the summit of a mountain located near the center of section 20, T. 12 S.,

R. 11 E., Umiat Meridian, approximate elevation 4,950 feet;

Thence southeasterly and southwesterly, between the drainages of Atigun and Itkillik Rivers, to the point of intersection with the Continental Divide located at a high point on the ridge in the easterly portion of section 20, T. 15 S., R. 10 E., Umiat Meridian, approximate elevation 6,480 feet;

Thence southwesterly, along the Continental Divide, to a high point on the Continental Divide at the junction of ridges located near the center of section 31, T. 15 S., R. 10 E., Umiat Meridian, approximate elevation 6,000 feet, the place of beginning.

Units of the National Wilderness Preservation System Within the Gates of the Arctic National Park

Section 701 (2), Public Law 96–487 (ANILCA):

Gates of the Arctic Wilderness

The Gates of the Arctic Wilderness as generally depicted on a map numbered GAAR–80,011, dated July 1980, consists of approximately seven million and fifty-two thousand acres of public lands, as defined in the ANILCA, within the following described boundaries:

Unit Number 1

Beginning at the corner of sections 19, 24, 25 and 30, T. 20 N., Rs. 18 and 19 E., Kateel River Meridian;

Thence easterly, between sections 19 and 30, 20 and 29, 21 and 28, 22 and 27, to the summit of a ridge located in sections 22 and 27, T. 20 N., R. 19 E., Kateel River Meridian, approximate elevation 4,000 feet;

Thence southeasterly, northeasterly, easterly and southeasterly, along the crest of a ridge, to a high point on the ridge located in the westerly portion of section 5, T. 19 N., R. 20 E., Kateel River Meridian, approximate elevation 2,900 feet;

*Thence on an approximate forward bearing of S. 14° E., to the summit of a mountain located in section 17, T. 19 N., R. 20 E., Kateel River Meridian, approximate elevation 2,577 feet;

*Thence on an approximate forward bearing of S. 14° E., to the corner of sections 20, 21, 28 and 29, T. 19 N., R. 20 E., Kateel River Meridian;

*Thence on an approximate forward bearing of east, to a point on the left bank of the Kobuk River at the confluence of the outlet stream from Walker Lake with the Kobuk River, in section 19, T. 19 N., R. 21 E., Kateel River Meridian;

Thence northeasterly, along the left bank of the Kobuk River and Kichaiakaka Creek, to a point between sections 1 and 36, Tps. 19 and 20 N., R. 22 E., Kateel River Meridian;

Thence easterly, between Tps. 19 and 20 N., to the corner of sections 3, 4, 33 and 34, Tps. 19 and 20 N., R. 23 E., Kateel River Meridian;

Thence northerly, between sections 33 and 34, 27 and 28, 21 and 22, 15 and 16, 9 and 10, 3 and 4, to the closing corner of sections 3 and 4, T. 20 N., R. 23 E., Kateel River Meridian;

Thence easterly, along the Fifth Standard Parallel North, to the standard corner of T. 21 N., Rs. 23 and 24 E., Kateel River Meridian;

Thence northerly, between Rs. 23 and 24 E., to the corner of Tps. 21 and 22 N., Rs. 23 and 24 E., Kateel River Meridian;

Thence easterly, between Tps. 21 and 22 N., to the corner of sections 3, 4, 33 and 34, Tps. 21 and 22 N., R. 25 E., Kateel River Meridian;

Thence northerly, between sections 33 and 34, 27 and 28, 21 and 22, 15 and 16, 9 and 10, 3 and 4, to the corner of sections 3 and 4, 33 and 34, Tps. 22 and 23 N., R. 25 E., Kateel River Meridian;

Thence easterly, between Tps. 22 and 23 N., to the corner of Tps. 22 and 23 N., R. 26 E., on the boundary of the Kateel River Meridian;

Thence southerly, between Kateel River and Fairbanks Meridians, to the corner of sections 18 and 19, T. 29 N., R. 24 W., Fairbanks Meridian;

Thence easterly, between sections 18 and 19, 17 and 20, 16 and 21, to the corner of sections 15, 16, 21 and 22, T. 29 N., R. 24 W., Fairbanks Meridian;

Thence northerly, between sections 15 and 16, 9 and 10, 3 and 4, 33 and 34, 27 and 28, 21 and 22, 15 and 16, 9 and 10, 3 and 4, to the corner of sections 3, 4, 33 and 34, Tps. 30 and 31 N., R. 24 W., Fairbanks Meridian;

Thence westerly, between Tps. 30 and 31 N., to the corner of Tps. 30 and 31 N., R. 24 W., on the boundary of the Fairbanks Meridian;

Thence northerly, between Fairbanks and Kateel River Meridians, to the corner of Tps. 31 and 32 N., R. 24 W., Fairbanks Meridian;

Thence easterly, between Tps. 31 and 32 N., to the corner of Tps. 31 and 32 N., R. 18 and 19 W., Fairbanks Meridian;

Thence northerly, between Rs. 18 and 19 W., to the closing corner of T. 32 N., Rs. 18 and 19 W., Fairbanks Meridian;

Thence easterly, along the Eighth Standard Parallel North, to the closing corner of T. 32 N., Rs. 17 and 18 W., Fairbanks Meridian;

Thence southerly, between Rs. 17 and 18 W., to the corner of Tps. 31 and 32 N., Rs. 17 and 18 W., Fairbanks Meridian;

Thence easterly, between Tps. 31 and 32 N., to the corner of Tps. 31 and 32 N., Rs. 16 and 17 W., Fairbanks Meridian;

Thence southerly, between Rs. 16 and 17 W., to the corner of Tps. 29 and 30 N., Rs. 16 and 17 W., Fairbanks Meridian;

Thence easterly, between Tps. 29 and 30 N., to the corner of Tps. 29 and 30 N., Rs. 15 and 16 W., Fairbanks Meridian;

Thence southerly, between Rs. 15 and 16 W., to the standard corner of T. 29 N., Rs. 15 and 16 W., Fairbanks Meridian;

Thence westerly, along the Seventh Standard Parallel North, to the closing corner of T. 28 N., Rs. 16 and 17 W., Fairbanks Meridian;

*Thence southerly, between Rs. 16 and 17 W., to the meander corner of sections 31 and 36 at the line of mean high water on the right bank of the most northerly interconnecting waterway of the Koyukuk River, T. 28 N., Rs. 16 and 17 W., Fairbanks Meridian;

*Thence northeasterly, along the line of mean high water on the right bank of the most northerly interconnecting waterways of the Middle Fork of the Koyukuk River, closing the mouth of the North Fork Koyukuk River, to the meander corner of sections 13 and 14, T. 28 N., R. 14 W., Fairbanks Meridian;

Thence northerly, between sections 13 and 14, to the north 1/16 section corner of sections 13 and 14, T. 28 N., R. 14 W., Fairbanks Meridian;

Thence easterly, along the east and west centerline of the northwest 1/4 of section 13, to the northwest 1/16 section corner of section 13, T. 28 N., R. 14 W., Fairbanks Meridian;

Thence northerly, along the north and south centerlines of the northwest 1/4 of section 13, and the southwest 1/4 of section 12, to the center-west 1/16 section corner of section 12, T. 28 N., R. 14 W., Fairbanks Meridian;

Thence easterly, on the east and west centerline of section 12, to the center 1/4 section corner of section 12, T. 28 N., R. 14 W., Fairbanks Meridian;

Thence northerly, along the north and south centerlines of sections 12, 1 and 36, to the 1/4 section corner of sections 25 and 36, T. 27 N., R. 14 W., Fairbanks Meridian;

Thence easterly, between sections 25 and 36, to the corner of sections 25, 30, 31 and 36, T. 27 N., Rs. 13 and 14 W., Fairbanks Meridian;

Thence northerly, between Rs. 13 and 14 W., to the corner of sections 19, 24, 25 and 30, T. 27 N., Rs. 13 and 14 W., Fairbanks Meridian;

Thence easterly, between sections 19 and 30, to the corner of sections 19, 20, 29 and 30, T. 27 N., R. 13 W., Fairbanks Meridian;

Thence on an approximate forward bearing of N. 30° E., to the summit of a low point on Twelvemile Mountain located in the southwest portion of section 20, T. 27 N., R. 13 W., Fairbanks Meridian, approximate elevation 2,200 feet;

Thence on an approximate forward bearing of N. 9° E., to a summit of Twelvemile Mountain located in the westerly portion of section 20, T. 27 N., R. 13 W., Fairbanks Meridian, approximate elevation of 2,950 feet;

Thence on an approximate forward bearing of N. 3° E., to a summit of Twelvemile Mountain located in the northwesterly portion of section 20, T. 27 N., R. 13 W., Fairbanks Meridian, approximate elevation 3,100 feet;

Thence on an approximate forward bearing of N. 60° E., to the summit of Twelvemile Mountain located in the northerly portion of section 20, T. 27 N., R. 13 W., Fairbanks Meridian, approximate elevation 3,180 feet;

Thence on an approximate forward bearing of N. 36° E., to a summit of Twelvemile Mountain located in the southeasterly portion of section 17, T. 27 N., R. 13 W., Fairbanks Meridian, approximate elevation 3,100 feet;

Thence on an approximate forward bearing of N. 6° E., to the summit of a low point on Twelvemile Mountain located in the easterly portion of section 17, T. 27 N., R. 13 W., Fairbanks Meridian, approximate elevation 2,600 feet;

Thence on an approximate forward bearing of N. 48° W., to the center-north 1/16 section corner of section 17, T. 27 N., R. 13 W., Fairbanks Meridian;

Thence northerly, on the north and south centerline of section 17, to the ¼ section corner of sections 8 and 17, T. 27 N., R. 13 W., Fairbanks Meridian;

Thence westerly, between sections 8 and 17, 7 and 18, 12 and 13, to the corner of sections 11, 12, 13 and 14, T. 27 N., R. 14 W., Fairbanks Meridian;

Thence northerly, between sections 11 and 12, to the ¼ section corner of sections 11 and 12, T. 27 N., R. 14 W., Fairbanks Meridian;

Thence on an approximate forward bearing of N. 25° W., to the summit of a mountain located in the southerly portion of section 2, T. 27 N., R. 14 W., Fairbanks Meridian, approximate elevation 3,125 feet;

Thence northerly and northeasterly, along the crest of a ridge between the drainages of the North and Middle Forks of the Koyukuk River, to the summit of a mountain located in section 8, T. 30 N., R. 12 W., Fairbanks Meridian, approximate elevation 3,150 feet;

Thence on an approximate forward bearing of N. 27° E., to the ¼ section corner of sections 5 and 8, T. 30 N., R. 12 W., Fairbanks Meridian;

Thence northerly, on the north and south centerlines of sections 5 and 32, to the center ¼ section corner of section 32, T. 31 N., R. 12 W., Fairbanks Meridian;

Thence on an approximate forward bearing of N. 16° E., to the summit of a mountain located in the southerly portion of section 29, T. 31 N., R. 12 W., Fairbanks Meridian, approximate elevation 3,020 feet;

Thence northeasterly, along the crest of a ridge between the drainages of Washington Creek, Canyon Creek, Glacier River and the Middle Fork of the Koyukuk River, to the summit of a mountain located in the southerly portion of section 2, T. 31 N., R. 12 W., Fairbanks Meridian, approximate elevation 3,150 feet;

Thence on an approximate forward bearing of S. 69° E., to the junction of Hammond River and Canyon Creek located in the easterly portion of section 12, T. 31 N., R. 12 W., Fairbanks Meridian;

Thence on an approximate forward bearing of S. 62° E., to the summit of a mountain located in the easterly portion of section 7, T. 31 N., R. 11 W., Fairbanks Meridian, approximate elevation 2,738 feet;

Thence southeasterly and northerly, along the crest of a ridge, to the summit of a mountain located in the northerly portion of section 11, T. 31 N., R. 11 W., Fairbanks Meridian, approximate elevation 3,085 feet;

Thence on an approximate forward bearing of N. 32° E., to the summit of a mountain located in section 36, T. 32 N., R. 11 W., Fairbanks Meridian, approximate elevation 3,033 feet;

Thence northerly, along the crest of a ridge between the drainages of Vi Creek, Hammond River, and Kalhabuk Creek and the Middle Fork of the Koyukuk River, to the northerly point of the crest of a ridge located in section 5, T. 33 N., R. 10 W., Fairbanks Meridian, approximate elevation 4,100 feet;

Thence on an approximate forward bearing of N. 2° W., on a line passing at midpoint between two lakes in section 32, to the crest of a ridge located near the center of section 29, T. 34 N., R. 10 W., Fairbanks Meridian, approximate elevation 3,200 feet;

Thence northwesterly, northerly and northeasterly along the crest of a ridge between the drainages of Dietrich and Hammond Rivers, to the summit of a mountain located in the northwesterly portion of section 31, T. 35 N., R. 10 W., Fairbanks Meridian, approximate elevation 3,110 feet;

Thence on an approximate forward bearing of N. 9° E., to the summit of a mountain located in sections 18 and 19, T. 35 N., R. 10 W., Fairbanks Meridian, approximate elevation 4,010 feet;

Thence northerly, along the crest of a ridge between the Dietrich River drainage and Big Jim and Trembley Creeks, to the summit of a mountain located in the southwesterly portion of section 29, T. 36 N., R. 10 W., Fairbanks Meridian, approximate elevation 4,130 feet;

Thence on an approximate forward bearing of N. 8° E., to the summit of a mountain located near the center of section 17, T. 36 N., R. 10 W., Fairbanks Meridian, approximate elevation 4,230 feet;

Thence northerly, along the crest of a ridge, between the drainages of Dietrich River and Koyuktuvuk Creek, to a point of intersection with the Continental Divide, located near the center of section 31, T. 15 S., R. 10 E., Umiat Meridian, approximate elevation 6,000 feet;

Thence southwesterly, along the Continental Divide, to a point on a ridge where the Continental Divide bears southerly, located in the northerly portion of section 2, T. 16 S., R. 9 E., Umiat Meridian, approximate elevation 6,300 feet;

Thence northwesterly, along the crest of a ridge, to a point between sections 12 and 13, T. 15 S., R. 8 E., Umiat Meridian, approximate elevation 3,650 feet;

Thence on an approximate forward bearing of N. 65° W., to the most southerly point on the shore of an unnamed lake located in the Oolah Valley in section 11, T. 15 S., R. 8 E., Umiat Meridian;

Thence on an approximate forward bearing of N. 50° W., to the summit of a mountain located in section 4, T. 15 S., R. 8 E., Umiat Meridian, approximate elevation 6,323 feet;

Thence northwesterly, along the crest of a ridge between the drainages of Itkillik and Nanushuk Rivers, to the summit of a mountain located near the center of section 28, T. 14 S., R. 6 E., Umiat Meridian, approximate elevation 7,118 feet;

Thence on an approximate forward bearing of N. 70° W., to an easterly summit of Marshmallow Mountain located in the easterly portion of section 20, T. 14 S., R. 6 E., Umiat Meridian, approximate elevation 6,570 feet;

Thence westerly, along the crest of Marshmallow Mountain, to a westerly summit of Marshmallow Mountain located in the northerly portion of section 24, T. 14 S., R. 5 E., Umiat Meridian, approximate elevation 6,972 feet;

Thence on an approximate forward bearing of S. 71° W., to the easterly point of the summit of a mountain located in the northerly portion of section 28, T. 14 S., R. 5 E., Umiat Meridian, approximate elevation 6,500 feet;

Thence southwesterly, northwesterly and northeasterly, along the crest of a ridge between the Alapah Creek, Anaktuvuk River and Itikmalapak Creek and the Kayak Creek drainages and northwesterly on a spur ridge, to a point between sections 1 and 36, Tps. 13 and 14 S., R. 4 E., Umiat Meridian;

Thence westerly between Tps. 13 and 14 S., to the corner of sections 3, 4, 33 and 34, Tps. 13 and 14 S., R. 4 E., Umiat Meridian;

Thence southerly, between sections 3 and 4, 9 and 10, 15 and 16, 21 and 22, 27 and 28, 33 and 34, to the corner of sections 3, 4, 33 and 34, Tps. 14 and 15 S., R. 4 E., Umiat Meridian;

Thence westerly, between Tps. 14 and 15 S., to the corner of sections 5, 6, 31 and 32, Tps. 14 and 15 S., R. 4 E., Umiat Meridian;

Thence southerly, between sections 5 and 6, 7 and 8, 17 and 18, to the corner of sections 17, 18, 19 and 20, T. 15 S., R. 4 E., Umiat Meridian;

Thence easterly, between sections 17 and 20, 16 and 21, 15 and 22, 14 and 23, 13 and 24, to the corner of sections 13, 18, 19 and 24, T. 15 S., Rs. 4 and 5 E., Umiat Meridian;

Thence southerly, between Rs. 4 and 5 E., to the corner of Tps. 15 and 16 S., Rs. 4 and 5 E., Umiat Meridian;

Thence westerly, between Tps. 15 and 16 S., to the corner of sections 4, 5, 32 and 33, Tps. 15 and 16 S., R. 4 E., Umiat Meridian;

Thence southerly, between sections 4 and 5, 8 and 9, 16 and 17, to the corner of sections 16, 17, 20 and 21, T. 16 S., R. 4 E., Umiat Meridian;

Thence westerly, between sections 17 and 20, 18 and 19, to the corner of sections 13, 18, 19 and 24, T. 16 S., Rs. 3 and 4 E., Umiat Meridian;

Thence southerly, between Rs. 3 and 4 E., to the corner of sections 25, 30, 31 and 36, T. 16 S., Rs. 3 and 4 E., Umiat Meridian;

Thence westerly, between sections 25 and 36, 26 and 35, 27 and 34, 28 and 33, 29 and 32, 30 and 31, to the corner of sections 25, 30, 31 and 36, T. 16 S., Rs. 2 and 3 E., Umiat Meridian;

Thence northerly, between Rs. 2 and 3 E., to the corner of sections 7, 12, 13 and 18, T. 16 S., Rs. 2 and 3 E., Umiat Meridian;

Thence westerly, between sections 12 and 13, 11 and 14, 10 and 15, to the corner of sections 9, 10, 15 and 16, T. 16 S., R. 2 E., Umiat Meridian;

Thence southerly, between sections 15 and 16, 21 and 22, 27 and 28, 33 and 34, to the corner of sections 3, 4, 33 and 34, Tps. 16 and 17 S., R. 2 E., Umiat Meridian;

Thence westerly, between Tps. 16 and 17 S., to the corner of Tps. 16 and 17 S., Rs. 1 and 2 E., Umiat Meridian;

Thence northerly, between Rs. 1 and 2 E., to the corner of sections 1, 6, 7 and 12, T. 16 S., Rs. 1 and 2 E., Umiat Meridian;

Thence westerly, between sections 1 and 12, 2 and 11, to the corner of sections 2, 3, 10 and 11, T. 16 S., R. 1 E., Umiat Meridian;

Thence southerly, between sections 10 and 11, to the corner of sections 10, 11, 14 and 15, T. 16 S., R. 1 E., Umiat Meridian;

Thence westerly, between sections 10 and 15, to the corner of sections 9, 10, 15 and 16, T. 16 S., R. 1 E., Umiat Meridian;

Thence southerly, between sections 15 and 16, and 21 and 22, to the corner of sections 21, 22, 27 and 28, T. 16 S., R. 1 E., Umiat Meridian;

*Thence westerly, between sections 21 and 28, to the corner of sections 20, 21, 28 and 29, T. 16 S., R. 1 E., Umiat Meridian;

*Thence northerly, between sections 20 and 21, to the corner of sections 16, 17, 20 and 21, T. 16 S., R. 1 E., Umiat Meridian;

*Thence westerly, between sections 17 and 20, to the corner of sections 17, 18, 19 and 20, T. 16 S., R. 1 E., Umiat Meridian;

*Thence southerly, between sections 19 and 20, to the corner of sections 19, 20, 29 and 30, T. 16 S., R. 1 E., Umiat Meridian;

Thence westerly, between sections 19 and 30, to the corner of sections 19, 24, 25 and 30, T. 16 S., Rs. 1 E. and 1 W., Umiat Meridian;

Thence southerly, between Rs. 1 E. and 1 W., to the corner of sections 25, 30, 31 and 36, T. 16 S., Rs. 1 E. and 1 W., Umiat Meridian;

Thence westerly, between sections 25 and 36, to the corner of sections 25, 26, 35 and 36, T. 16 S., R. 1 W., Umiat Meridian;

Thence southerly, between sections 35 and 36, to the corner of sections 1, 2, 35 and 36, Tps. 16 and 17 S., R. 1 W., Umiat Meridian;

Thence westerly, between Tps. 16 and 17 S., to the corner of sections 2, 3, 34 and 35, Tps. 16 and 17 S., R. 1 W., Umiat Meridian;

Thence southerly, between sections 2 and 3, to the corner of sections 2 and 3, on the boundary of the Umiat Meridian, T. 17 S., R. 1 W.;

Thence westerly, between the Umiat and Fairbanks Meridians, to the corner of sections 4 and 5, T. 17 S., R. 1 W., Umiat Meridian;

Thence northerly, between sections 4 and 5, and 32 and 33, to the corner of sections 28, 29, 32 and 33, Tps. 16 S., R. 1 W., Umiat Meridian;

Thence westerly, between sections 29 and 32, and 30 and 31, to the corner of sections 25, 30, 31 and 36, Tps. 16 S., Rs. 1 and 2 W., Umiat Meridian;

Thence northerly, between Rs. 1 and 2 W., to the corner of sections 1, 6, 7 and 12, T. 16 S., Rs. 1 and 2 W., Umiat Meridian;

Thence easterly, between sections 6 and 7, 5 and 8, 4 and 9, and 3 and 10, to the corner of sections 2, 9, 10 and 11, T. 16 S., R. 1 W., Umiat Meridian;

Thence northerly, between sections 2 and 3, 34 and 35, 26 and 27, to the corner of sections 22, 23, 26 and 27, T. 15 S., R. 1 W., Umiat Meridian;

Thence westerly, between sections 22 and 27, 21 and 28, to the corner of sections 20, 21, 28 and 29, T. 15 S., R. 1 W., Umiat Meridian;

Thence northerly, between sections 20 and 21, to the corner of sections 16 and 17, 20 and 21, T. 15 S., R. 1 W., Umiat Meridian;

Thence westerly, between sections 17 and 20, 18 and 19, to the corner of sections 13, 18, 19 and 24, T. 15 S., Rs. 1 and 2 W., Umiat Meridian;

Thence northerly, between Rs. 1 and 2 W., to the corner of sections 7, 12, 13 and 18, T. 15 S., Rs. 1 and 2 W., Umiat Meridian;

Thence westerly, between sections 12 and 13, 11 and 14, 10 and 15, 9 and 16, 8 and 17, to the corner of sections 7, 8, 17 and 18, T. 15 S., R. 2 W., Umiat Meridian;

Thence northerly, between sections 7 and 8, 5 and 6, to the corner of sections 5, 6, 31 and 32, Tps. 14 and 15 S., R. 2 W., Umiat Meridian;

Thence westerly, between Tps. 14 and 15 S., to the corner of sections 4, 5, 32 and 33, Tps. 14 and 15 S., R. 4 W., Umiat Meridian;

Thence northerly, between sections 32 and 33, 28 and 29, 20 and 21, to the corner of sections 16, 17, 20 and 21, T. 14 S., R. 4 W., Umiat Meridian;

Thence easterly, between sections 16 and 21; 15 and 22, to the corner of sections 14, 15, 22 and 23, T. 14 S., R. 4 W., Umiat Meridian;

Thence northerly, between sections 14 and 15, 10 and 11, 2 and 3, 34 and 35, 26 and 27, 22 and 23, 14 and 15, 10 and 11, 2 and 3, to the closing corner of sections 2 and 3, T. 13 S., R. 4 W., Umiat Meridian;

Thence westerly, along the Third Standard Parallel South, to the standard corner of sections 34 and 35, T. 12 S., R. 4 W., Umiat Meridian;

Thence northerly, between sections 34 and 35, 26 and 27, 22 and 23, to the corner of sections 14, 15, 22 and 23, T. 12 S., R. 4 W., Umiat Meridian;

Thence westerly, between sections 15 and 22, 16 and 21, 17 and 20, 18 and 19, to the corner of sections 13, 18, 19 and 24, T. 12 S., Rs. 4 and 5 W., Umiat Meridian;

Thence northerly, between Rs. 4 and 5 W., to the corner of sections 13, 18, 19 and 24, T. 11 S., Rs. 4 and 5 W., Umiat Meridian;

Thence westerly, between sections 13 and 24, 14 and 23, 15 and 22, 16 and 21, 17 and 20, 18 and 19, 13 and 24, 14 and 23, 15 and 22, 16 and 21, 17 and 20, 18 and 19, 13 and 24, 14 and 23, 15 and 22, to the corner of sections 15, 16, 21 and 22, T. 11 S., R. 7 W., Umiat Meridian;

Thence southerly, between sections 21 and 22, 27 and 28, 33 and 34, to the corner of sections 3, 4, 33 and 34, Tps. 11 and 12 S., R. 7 W., Umiat Meridian;

Thence westerly, between Tps. 11 and 12 S., to the corner of Tps. 11 and 12 S., Rs. 7 and 8 W., Umiat Meridian;

Thence southerly, between Rs. 7 and 8 W., to the corner of sections 19, 24, 25 and 30, T. 12 S., Rs. 7 and 8 W., Umiat Meridian;

Thence westerly, between sections 24 and 25, 23 and 26, 22 and 27, 21 and 28, 20 and 29, 19 and 30, 24 and 25, 23 and 26, 22 and 27, 21 and 28, 20 and 29, 19 and 30, 24 and 25, 23 and 26, 22 and 27, 21 and 28, 20 and 29, 19 and 30, to the corner of sections 19, 24, 25 and 30, T. 12 S., Rs. 10 and 11 W., Umiat Meridian;

Thence southerly, between Rs. 10 and 11 W., to the corner of T. 12 S., Rs. 10 and 11 W., on the boundary of the Umiat Meridian;

Thence westerly, between the Umiat and Kateel River Meridians, to the closing corner of T. 34 N., Rs. 18 and 19 E., Kateel River Meridian;

Thence southerly, between Rs. 18 and 19 E., to the corner of sections 19, 24, 25 and 30, T. 34 N., Rs. 18 and 19 E., Kateel River Meridian;

Thence westerly, between sections 24 and 25, 23 and 26, 22 and 27, 21 and 28, 20 and 29, 19 and 30, 24 and 25, 23 and 26, 22 and 27, 21 and 28, 20 and 29, 19 and 30, 24 and 25, 23 and 26, 22 and 27, 21 and 28, 20 and 29, 19 and 30, to the corner of sections 19, 24, 25 and 30, T. 34 N., Rs. 15 and 16 E., Kateel River Meridian;

Thence northerly, between Rs. 15 and 16 E., to the closing corner of T. 34 N., Rs. 15 and 16 E., on the boundary of the Kateel River Meridian;

Thence westerly, between the Kateel River and Umiat Meridians, to a point of intersection between the western portion of section 10, T. 34 N., R. 14 E., Kateel River Meridian and section 27, T. 12 S., R. 16 W., Umiat Meridian with a line projected due north of a peak located in the western portion of section 26, T. 30 N., R. 14 E., Kateel River Meridian, approximate elevation 4,640 feet;

Thence due south to a peak located along the crest of a divide between the drainages of the Nigu and Noatak Rivers in the western portion of section 26, T. 30 N., R. 14 E., Kateel River Meridian, approximate elevation 4,640 feet;

Thence westerly, northerly and northwesterly along the crest of a divide between the drainages of the Nigu and Noatak Rivers to a summit of a mountain located on a ridge at the junction with a spur ridge located in section 3, T. 30 N., R. 13 E., Kateel River Meridian, approximate elevation 3,250 feet;

Thence southwesterly and westerly, along the crest of a ridge between the drainages of Midas Creek and Mountain Creek, to the summit of a mountain located in section 21, T. 30 N., R. 12 E., Kateel River Meridian, approximate elevation 4,021 feet;

Thence on an approximate forward bearing of S. 87° W., to the summit of a hill located in section 24, T. 30 N., R. 11 E., Kateel River Meridian, approximate elevation 3,473 feet;

Thence northwesterly, along the crest of a ridge, to the summit of a mountain located in sections 14 and 15, T. 30 N., R. 11 E., Kateel River Meridian, approximate elevation 4,100 feet;

Thence on an approximate forward bearing of S. 28° W., to the summit of a mountain located in section 22, T. 30 N., R. 11 E., Kateel River Meridian, approximate elevation 3,202 feet;

Thence southwesterly, along the crest of the ridge between Douglas Creek and a tributary of the Noatak River, to the summit of a mountain located in sections 12 and 13, T. 29 N., R. 10 E., Kateel River Meridian, approximate elevation 3,657 feet;

Thence due south, to a point on the right bank of Douglas Creek located in section 24, T. 29 N., R. 10 E., Kateel River Meridian;

Thence southerly, along the right bank of Douglas Creek, to a point on the right bank of Douglas Creek at the junction of the Noatak River and Douglas Creek located in the northern portion of Section 2, T. 28 N., R. 10 E., Kateel River Meridian;

Thence on an approximate forward bearing of S. 24° W., to the summit of a mountain located in section 22, T. 28 N., R. 10 E., Kateel River Meridian, approximate elevation 3,439 feet;

Thence on an approximate bearing of S. 51° W., to the summit of a small mountain located in sections 28 and 29, T. 28 N., R. 10 E., Kateel River Meridian, approximate elevation 2,441 feet;

Thence easterly, southerly and westerly, along the divide between the drainages of Kavachurak Creek and Tunukuchiak Creek and Ambler River, to the summit of a mountain located in section 22, T. 28 N., R. 9 E., Kateel River Meridian, approximate elevation 4,298 feet;

Thence northerly, along the crest of the spur ridge to the summit of a mountain

located in section 15, T. 26 N., R. 9 E., Kateel River Meridian, approximate elevation 3,980 feet;

Thence on an approximate forward bearing of N. 37° W., to the summit of a mountain located in section 5, T. 26 N., R. 9 E., Kateel River Meridian, approximate elevation 4,625 feet;

Thence southwesterly, along the divide between the drainages of Ambler and Noatak Rivers, to the summit of a mountain located in sections 23 and 24, T. 26 N., R. 8 E., Kateel River Meridian, approximate elevation 4,508 feet;

Thence on an approximate forward bearing of S. 11° W., to the summit of a mountain located in section 35, T. 26 N., R. 8 E., Kateel River Meridian, approximate elevation 4,720 feet;

Thence easterly, southerly, easterly and southerly, along the divide between the drainages of Ambler and Imelyak Rivers, and between tributaries of the Ambler River, to a point between sections 9 and 16, T. 24 N., R. 9 E., Kateel River Meridian, approximate elevation 2,800 feet;

Thence easterly, between sections 9 and 16, 10 and 15, 11 and 14, to the crest of a ridge between sections 11 and 14, T. 24 N., R. 9 E., Kateel River Meridian, approximate elevation 2,600 feet;

Thence northeasterly, along the crest of a ridge between the drainages of tributaries of the Ambler River to the summit of a mountain located in the northwesterly portion of section 4, T. 24 N., R. 10 E., Kateel River Meridian, approximate elevation 3,609 feet;

Thence on an approximate forward bearing of east, to the summit of a mountain located in the northwesterly portion of section 2, T. 24 N., R. 10 E., Kateel River Meridian, approximate elevation 4,499 feet;

Thence northeasterly, along the crest of a ridge between the drainages of Ulaneak Creek, Ambler and Ipnelivik Rivers, to the summit of a mountain located in section 27, T. 25 N., R. 11 E., Kateel River Meridian, approximate elevation 5,040 feet;

Thence on an approximate forward bearing of S. 28° E., to the summit of a mountain located in sections 34 and 35, T. 25 N., R. 11 E., Kateel River Meridian, approximate elevation 4,600 feet;

Thence southerly, along the crest of a ridge between the drainages of Ipnelivik River and Ulaneak Creek, to the summit of a mountain located in sections 25 and 26, T. 24 N., R. 11 E., Kateel River Meridian, approximate elevation 4,600 feet;

Thence on an approximate forward bearing of S. 60° E., to the summit of a mountain located in section 31, T. 24 N., R. 12 E., Kateel River Meridian, approximate elevation 5,076 feet;

Thence southerly, easterly and northeasterly, along the crest of a ridge, to the summit of a mountain between sections 5 and 32, Tps. 23 and 24 N., R. 12 E., Kateel River Meridian, approximate elevation 4,500 feet;

Thence easterly, between Tps. 23 and 24 N., to the summit of a mountain between sections 4 and 33, Tps. 23 and 24 N., R. 12 E., Kateel River Meridian, approximate elevation 4,926 feet;

Thence southerly, along the crest of a ridge, between the drainages of Kogoluktuk River, to the summit of a mountain located in sections 34 and 35, T. 23 N., R. 12 E., Kateel River Meridian, approximate elevation 4,160 feet;

Thence on an approximate forward bearing of S. 20° E., to the summit of a mountain located in section 11, T. 22 N., R. 12 E., Kateel River Meridian, approximate elevation 3,292 feet;

Thence southerly, easterly and southeasterly, along the crest of a ridge between the drainages of Kogoluktuk River and Ivik Creek, to a point between sections 2 and 35, Tps. 21 and 22 N., R. 13 E., Kateel River Meridian;

Thence easterly, between Tps. 21 and 22 N., to the corner of Tps. 21 and 22 N., Rs. 18 and 19 E., Kateel River Meridian;

Thence southerly, between Rs. 18 and 19 E., to the standard corner of T. 21 N., Rs. 18 and 19 E., Kateel River Meridian;

Thence westerly, along the Fifth Standard Parallel North, to the closing corner of T. 20 N., Rs. 18 and 19 E., Kateel River Meridian;

Thence southerly, between Rs. 18 and 19 E., to the corner of sections 19, 24, 25 and 30, T. 20 N., Rs. 18 and 19 E., Kateel River Meridian, the place of beginning.

*Department of the Interior 1:250,000 scale map issued in 1981, incorrectly depicts this portion of the description.

Unit Number 2

Beginning at the corner of sections 13, 18, 19 and 24, T. 11 S., Rs. 2 and 3 W., Umiat Meridian;

Thence northerly, between Rs. 2 and 3 W., to the corner of Tps. 9 and 10 S., Rs. 2 and 3 W., Umiat Meridian;

Thence westerly, between Tps. 9 and 10 S., to the corner of Tps. 9 and 10 S., Rs. 3 and 4 W., Umiat Meridian;

Thence northerly, between Rs. 3 and 4 W., to the corner of sections 13, 18, 19 and 24, T. 8 S., Rs. 3 and 4 W., Umiat Meridian;

Thence westerly, between sections 13 and 24, 14 and 23, 15 and 22, 16 and 21, 17 and 20, 18 and 19, 13 and 24, 14 and 23, 15 and 22, to the corner of sections 15, 16, 21 and 22, T. 9 S., R. 5 W., Umiat Meridian;

Thence southerly, between sections 21 and 22, 27 and 28, 33 and 34, 3 and 4, 9 and 10, 15 and 16, to the corner of sections 15, 16, 21 and 22, T. 10 S., R. 5 W., Umiat Meridian;

Thence easterly, between sections 15 and 22, 14 and 23, 13 and 24, to the corner of sections 13, 18, 19 and 24, T. 10 S., Rs. 4 and 5 W., Umiat Meridian;

Thence southerly, between Rs. 4 and 5 W., to the corner of Tps. 10 and 11 S., Rs. 4 and 5 W., Umiat Meridian;

Thence easterly, between Tps. 10 and 11 S., to the corner of sections 4, 5, 32 and 33, Tps. 10 and 11 S., R. 4 W., Umiat Meridian;

Thence southerly, between sections 4 and 5, 8 and 9, 16 and 17, to the corner of sections 16, 17, 20 and 21, T. 11 S., R. 4 W., Umiat Meridian;

Thence easterly, between sections 16 and 21, 15 and 22, 14 and 23, 13 and 24, 18 and 19, 17 and 20, 16 and 21, 15 and 22, 14 and 23, 13 and 24 to the corner of sections 13, 18, 19 and 24, T. 11 S., Rs. 2 and 3 W., Umiat Meridian, the place of beginning.

Unit Number 3

Beginning at the corner of sections 19, 24, 25 and 30, T. 15 S., Rs. 1 E., and 1 W., Umiat Meridian;

Thence easterly, between sections 19 and 30, 20 and 29, to the corner of sections 20, 21, 28 and 29, T. 15 S., R. 1 E., Umiat Meridian;

Thence northerly, between sections 20 and 21, 16 and 17, 8 and 9, 4 and 5, to the corner of sections 4, 5, 32 and 33, Tps. 14 and 15 S., R. 1 E., Umiat Meridian;

Thence easterly, between Tps. 14 and 15 S., to the corner of sections 5, 6, 31 and 32, Tps. 14 and 15 S., R. 2 E., Umiat Meridian;

Thence northerly, between sections 31 and 32, 29 and 30, 19 and 20, 17 and 18, 7 and 8, 5 and 6, to the corner of sections 5, 6, 31 and 32, Tps. 13 and 14 S., R. 2 E., Umiat Meridian;

Thence westerly, between Tps. 13 and 14 S., to the corner of Tps. 13 and 14 S., Rs. 1 and 2 E., Umiat Meridian;

Thence northerly, between Rs. 1 and 2 E., to the corner of sections 25, 30, 31 and 36, T. 13 S., Rs. 1 and 2 E., Umiat Meridian;

Thence westerly, between sections 25 and 36, 26 and 35, 27 and 34, 28 and 33, 29 and 32, 30 and 31, 25 and 36, 26 and 35, 27 and 34, 28 and 33, 29 and 32, 30 and 31, to the corner of sections 25, 30, 31 and 36, T. 13 S., Rs. 1 and 2 W., Umiat Meridian;

Thence northerly, between Rs. 1 and 2 W., to the closing corner of T. 13 S., Rs. 1 and 2 W., Umiat Meridian;

Thence westerly, along the Third Standard Parallel South, to the standard corner of T. 12 S., Rs. 1 and 2 W., Umiat Meridian;

Thence northerly, between Rs. 1 and 2 W., to the corner of sections 13, 18, 19 and 24, T. 12 S., Rs. 1 and 2 W., Umiat Meridian;

Thence westerly, between sections 13 and 24, 14 and 23, 15 and 22, 16 and 21, 17 and 20, 18 and 19, to the corner of sections 13, 18, 19 and 24, T. 12 S., Rs. 2 and 3 W., Umiat Meridian;

Thence southerly, between Rs. 2 and 3 W., to the corner of sections 25, 30, 31 and 36, T. 12 S., Rs. 2 and 3 W., Umiat Meridian;

Thence westerly, between sections 25 and 36, to the corner of sections 25, 26, 35 and 36, T. 12 S., R. 3 W., Umiat Meridian;

Thence southerly, between sections 35 and 36, to the standard corner of sections 35 and 36, T. 12 S., R. 3 W., Umiat Meridian;

Thence easterly, along the Third Standard Parallel South, to the closing corner of sections 1 and 2, T. 13 S., R. 3 W., Umiat Meridian;

Thence southerly, between sections 1 and 2, to the corner of sections 1, 2, 11 and 12, T. 13 S., R. 3 W., Umiat Meridian;

Thence westerly, between sections 2 and 11, 3 and 10, to the corner of sections 3, 4, 9 and 10, T. 13 S., R. 3 W., Umiat Meridian;

Thence southerly, between sections 9 and 10, 15 and 16, 21 and 22, 27 and 28, 33 and 34, 3 and 4, to the corner of sections 3, 4, 9 and 10, T. 14 S., R. 3 W., Umiat Meridian;

Thence westerly, between sections 4 and 9, 5 and 8, to the corner of sections 5, 6, 7 and 8, T. 14 S., R. 3 W., Umiat Meridian;

Thence southerly, between sections 7 and 8, 17 and 18, 19 and 20, to the corner of sections 19, 20, 29 and 30, T. 14 S., R. 3 W., Umiat Meridian;

Thence easterly, between sections 20 and 29, 21 and 28, 22 and 27, 23 and 26, 24 and 25, 19 and 30, 20 and 29, to the corner of sections 20, 21, 28 and 29, T. 14 S., R. 2 W., Umiat Meridian;

Thence southerly, between sections 28 and 29, 32 and 33, to the corner of sections 4, 5, 32 and 33, Tps. 14 and 15 S., R. 2 W., Umiat Meridian;

Thence easterly, between Tps. 14 and 15 S., to the corner of Tps. 14 and 15 S., Rs. 1 and 2 W., Umiat Meridian;

Thence southerly, between Rs. 1 and 2 W., to the corner of sections 1, 6, 7 and 12, T. 15 S., Rs. 1 and 2 W., Umiat Meridian;

Thence easterly, between sections 6 and 7, 5 and 8, 4 and 9, 3 and 10, to the corner of sections 2, 3, 10 and 11, T. 15 S., R. 1 W., Umiat Meridian;

Thence southerly, between sections 10 and 11, to the corner of sections 10, 11, 14 and 15, T. 15 S., R. 1 W., Umiat Meridian;

Thence easterly, between sections 11 and 14, 12 and 13, to the corner of sections 7, 12, 13 and 18, T. 15 S., Rs. 1 E. and 1 W., Umiat Meridian;

Thence southerly, between Rs. 1 E. and 1 W., to the corner of sections 19, 24, 25 and 30, T. 15 S., Rs. 1 E. and 1 W., Umiat Meridian, the place of beginning.

Units of the National Wild and Scenic Rivers System Within the Gates of the Arctic National Park and Preserve

Section 601, Public Law 96–487 (ANILCA)

"Alatna, Alaska.—The main stem within the Gates of the Arctic National Park; to be administered by the Secretary of the Interior."

"John, Alaska.—That portion of the river within the Gates of the Arctic National Park; to be administered by the Secretary of the Interior."

"Kobuk, Alaska.—That portion within the Gates of the Arctic National Park and Preserve; to be administered by the Secretary of the Interior."

"Noatak, Alaska.—The river from its source in the Gates of the Arctic National Park to its confluence with the Kelly River in the Noatak National Preserve; to be administered by the Secretary of the Interior."

"North Fork of the Koyukuk, Alaska.—That portion within the Gates of the Arctic National Park; to be administered by the Secretary of the Interior."

"Tinayguk, Alaska.—That portion within the Gates of the Arctic National Park; to be administered by the Secretary of the Interior."

Note: Pursuant to section 605(d) of ANILCA and as provided for under section 3(b) of the Wild and Scenic Rivers Act, the necessity for any river corridor boundaries for the preceding named rivers within the Gates of the Arctic National Park and Preserve has been considered during the comprehensive conservation planning process for the park and preserve. In accordance with the General Management Plan for Gates of the Arctic National Park and Preserve, approved November 7, 1986, no specific river corridor boundaries are deemed necessary for the preceding named rivers in order to protect the rivers and their immediate environments. Proposed management of the park and preserve meets and is compatible with management standards established by the Wild and Scenic Rivers Act.

The following U.S. Geological Survey 1:63,360 Series (Topographic) Quadrangle Maps were used in preparing the legal boundary descriptions for the Gates of the Arctic National Park and Preserve and Gates of the Arctic Wilderness:

Ambler River, Alaska: (B–1) pe 1990; (B–2) pe 1990; (C–1) pe 1990; (C–2) pe 1990; (D–1) pe 1990; (D–2) pe 1990.

Glacier Bay National Park and Preserve

Section 202(1), Public Law 96–487 (ANILCA):

Glacier Bay National Park

Glacier Bay National Park as generally depicted on a map numbered GLBA–90,004, dated October 1978, consists of the former Glacier Bay National Monument and an addition of approximately five hundred and twenty-three thousand acres of public lands, as defined in the ANILCA, within the following described boundary:

Beginning at the line of mean high tide on the easterly shore of the Gulf of Alaska and on the right bank of the mouth of Sea Otter Creek in section 16, T. 35 S., R. 45 E., Copper River Meridian;

Thence due west, 3 miles to a point on the line demarking the Territorial Sea of the United States of America;

Thence southeasterly and easterly, along the line demarking the Territorial Sea of the United States in those places where the Territorial Sea line is appropriate, in the Gulf of Alaska, Cross Sound and Icy Strait, and along the median line in North Inian Pass and North Passage to a point on the line in the Territorial Sea as projected from the median line of North Passage to the median line of Icy Passage, due south from the meander corner of sections 20 and 21, T. 40 S., R. 58 E., Copper River Meridian;

Thence northerly, through the Territorial Sea and between sections 20 and 21, 16 and 17, 8 and 9, to the corner of sections 4, 5, 8 and 9, T. 40 S., R. 58 E., Copper River Meridian;

Thence easterly, between sections 4 and 9, to the corner of sections 3, 4, 9 and 10, T. 40 S., R. 58 E., Copper River Meridian;

Thence northerly, between sections 3 and 4, to the corner of sections 3, 4, 33 and 34, Tps. 39 and 40 S., R. 58 E., Copper River Meridian;

Thence easterly, between Tps. 39 and 40 S., to the corner of sections 1, 2, 35 and 36, Tps. 39 and 40 S., R. 58 E., Copper River Meridian;

Thence northerly, between sections 35 and 36, 25 and 26, to the ¼ section corner of sections 25 and 26, T. 39 S., R. 58 E., Copper River Meridian;

Thence easterly, on the east and west centerline of section 25, to the center ¼ corner of section 25, T. 39 S., R. 58 E., Copper River Meridian;

Thence southeasterly, in a straight line, to the south corner of sections 31 and 32, T. 39 S., R. 59 E., Copper River Meridian;

Thence easterly, between Tps. 39 and 40 S., to the corner of sections 2, 3, 34 and 35, Tps. 39 and 40 S., R. 59 E., Copper River Meridian;

Thence southerly, between sections 2 and 3, 10 and 11, and continuing due south to a point on the median line in Icy Passage between the mainland and Pleasant Island;

Thence southeasterly and northerly, along the median line of Icy Passage and Excursion Inlet, to a point on a straight line between the special meander corner on the east and west centerline of section 10 on the east shore of Excursion Inlet, and the special meander corner on the east and west centerline of section 9 on the west shore of Excursion Inlet, T. 39 S., R. 60 E., Copper River Meridian;

Thence easterly, in a straight line to the special meander corner on the east and west centerline of section 10, on the east shore of Excursion Inlet, T. 39 S., R. 60 E., Copper River Meridian;

Thence northerly, along the mean high tide line of Excursion Inlet to triangulation station "End," in the westerly portion of section 10, T. 39 S., R. 60 E., Copper River Meridian;

Thence on an approximate forward bearing of N. 76° E., to the summit of a ridge in the northwesterly portion of section 11, T. 39 S., R. 60 E., Copper River Meridian, approximate elevation 3,150 feet;

Thence easterly along a crest of a ridge to the summit of a mountain in the northeast ¼ of section 10, T. 39 S., R. 61 E., Copper River Meridian, approximate elevation 4,800 feet;

Thence northwesterly along the crest of the Chilkat Range separating the Lynn Canal drainages from the Excursion River and Glacier Bay drainages, to the summit of a mountain in the southwest ¼ of section 9, T. 36 S., R. 58 E., Copper River Meridian, approximate elevation 5,110 feet;

Thence northerly and northeasterly along the crest of the Chilkat Range, crossing Endicott Gap, to the summit of a mountain in the south ½ of section 28, T. 34 S., R. 59 E., Copper River Meridian, approximate elevation 4,605 feet;

Thence northwesterly, northeasterly, northwesterly, and northerly along the crest of the Chilkat Range to the summit of a mountain in the east ½ of section 7, T. 32 S., R. 58 E., Copper River Meridian, approximate elevation 6,000 feet;

Thence northwesterly along the crest of the Takhinsha Mountains separating the drainages of the Takhin River and Tsirku River from the Glacier Bay drainages, to the summit of Mt. Harris in the northeast ¼ of section 21, T. 30 S., R. 53 E., Copper River Meridian, approximate elevation 6,392 feet;

Thence southwesterly, westerly, southwesterly and westerly along the International Boundary between the United States of America and Canada, to the summit of Mt. Fairweather in the south ½ of section 1, T. 35 S., R. 47 E., Copper River Meridian, approximate elevation 15,300 feet;

Thence northerly and northwesterly, along the International Boundary between the United States of America and Canada, to the crest of a ridge in the southeasterly portion of section 14, T. 28 S., R. 43 E., Copper River Meridian, approximate elevation 4,200 feet;

Thence southwesterly, along a common boundary with the Tongass National Forest, on the crest of a ridge, to the summit of a peak in the northerly portion of section 8, T. 29 S., R. 43 E., Copper River Meridian, approximate elevation 1,810 feet;

Thence on an approximate forward bearing of S. 45° W., to the summit of a peak in the westerly portion of section 4, T. 30 S., R. 42 E., Copper River Meridian, approximate elevation 3,755 feet;

Thence southwesterly, southerly, and southeasterly, on the crest of a ridge (the Brabazon Range), to the summit of a low peak in the southeast portion of section 29, T. 31 S., R. 43 E., Copper River Meridian, approximate elevation 2,345 feet;

Thence on an approximate forward bearing of S. 36° E., to the most southeasterly point of land at the line of mean high water, in the northeasterly portion of section 4, T. 32 S., R. 43 E., Copper River Meridian;

Thence due south to a point at the line of mean high water on the left bank of the Alsek River in the northeasterly portion of section 9, T. 32 S., R. 43 E., Copper River Meridian;

Thence easterly, departing from a common boundary with the Tongass National Forest, along the left bank of the Alsek River, along a common boundary with the Glacier Bay National Preserve, to the special meander corner on the north and south centerline of section 10, T. 32 S., R. 43 E., Copper River Meridian;

Thence southerly, on the north and south centerline of section 10 to a point on the left bank of Doame River in the southerly portion of section 10, T. 32 S., R. 43 E., Copper River Meridian;

Thence southerly, along the left bank of the Doame River, the westerly shores of Lower Doame Lake and two unnamed lakes, to the most southwesterly point of the unnamed lake in the northeasterly portion of section 34, T. 32 S., R. 43 E., Copper River Meridian;

Thence on an approximate forward bearing of S. 28° E., to the summit of a peak in the southwesterly portion of section 35, T. 32 S., R. 43 E., Copper River Meridian, approximate elevation 2,810 feet;

Thence southerly, southwesterly and northwesterly, along the crest of a ridge and a spur ridge, to a point in a saddle at the headwaters of an unnamed creek in the southeasterly portion of section 1, T. 33 S., R. 43 E., Copper River Meridian, approximate elevation 1,880 feet;

*Thence westerly, descending to and along the right bank of an unnamed creek and the left bank of Doame River, to a point between sections 7 and 12, T. 33 S., Rs. 42 and 43 E., Copper River Meridian;

*Thence southerly between Rs. 42 and 43 E., to a point at the line of mean high tide of the Gulf of Alaska, T. 33 S., Rs. 42 and 43 E., Copper River Meridian;

Thence southeasterly, departing from the common boundary with the Glacier Bay National Preserve, along the line of mean high tide of the easterly shore of the Gulf of Alaska, including any coastal islands above the line of mean high tide, to the right bank of the mouth of Sea Otter Creek in section 16, T. 35 S., R. 45 E., Copper River Meridian, the place of beginning.

*Department of the Interior 1:250,000 scale map issued in 1981, incorrectly depicts this portion of the description.

Glacier Bay National Preserve

Glacier Bay National Preserve as generally depicted on a map numbered GLBA–90,004, dated October 1978, consists of approximately fifty-seven thousand acres of public lands, as defined in the ANILCA, within the following described boundary:

Beginning at the special meander corner at the line of mean high water, on the north and

south centerline of section 10, on the left bank of the Alsek River, T. 32 S., R. 43 E., Copper River Meridian;

Thence southerly, on the north and south centerline of section 10, along a common boundary with the Glacier Bay National Park, to a point on the left bank of Doame River in the southerly portion of section 10, T. 32 S., R. 43 E., Copper River Meridian;

Thence southerly, along the left bank of the Doame River, the westerly shores of Lower Doame Lake and two unnamed lakes to the most southwesterly point of the unnamed lake in the northeasterly portion of section 34, T. 32 S., R. 43 E., Copper River Meridian;

Thence on an approximate forward bearing of S. 28° E., to the summit of a peak in the southwesterly portion of section 35, T. 32 S., R. 43 E., Copper River Meridian, approximate elevation 2,810 feet;

Thence southerly, southwesterly and northwesterly, along the crest of a ridge and a spur ridge, to a point in a saddle at the headwaters of an unnamed creek in the southeasterly portion of section 1, T. 33 S., R. 43 E., Copper River Meridian, approximate elevation 1,800 feet;

*Thence westerly, descending to and along the right bank of an unnamed creek and the left bank of Doame River, to a point between sections 7 and 12, T. 33 S., Rs. 42 and 43 E., Copper River Meridian;

*Thence southerly between Rs. 42 and 43 E., to a point at the line of mean high tide of the Gulf of Alaska, T. 33 S., Rs. 42 and 43 E., Copper River Meridian;

Thence northwesterly, departing from a common boundary with the Glacier Bay National Park, along the line of mean high tide of the eastern shore of the Gulf of Alaska and along the line of mean high tide of the Doame and East Alsek Rivers, including any coastal barrier or offshore islands above the line of mean high tide, to a point on the eastern shore of and at the mouth of Dry Bay in section 24, T. 32 S., R. 40 E., Copper River Meridian;

Thence northeasterly (generally) and easterly along the line of mean high tide of the eastern shore of Dry Bay and the line of mean high water of the left bank of the Alsek River, along a common boundary with the Tongass National Forest, closing the mouths of any rivers or creeks, to a point in section 9 due south of the most southeasterly point of land in the northeasterly portion of section 4, T. 32 S., R. 43 E., Copper River Meridian;

Thence easterly, departing from a common boundary with the Tongass National Forest, along the line of mean high water of the left bank of the Alsek River, to the special meander corner on the north and south centerline of section 10, T. 32 S., R. 43 E., Copper River Meridian, the place of beginning.

*Department of the Interior 1:250,000 scale map issued in 1981, incorrectly depicts this portion of the description.

Units of the National Wilderness Preservation System Within the Glacier Bay National Park

Section 701 (3), Public Law 96–487 (ANILCA):

Glacier Bay Wilderness

The Glacier Bay Wilderness as generally depicted on a map numbered GLBA–90,004, dated October 1978, consists of approximately two million seven hundred and seventy thousand acres of public lands as defined in the ANILCA, within the following described boundaries:

Unit Number 1

Beginning at the line of mean high tide on the easterly shore of the Gulf of Alaska and on the right bank of the mouth of Sea Otter Creek in section 16, T. 35 S., R. 45 E., Copper River Meridian;

*Thence southeasterly, easterly, northerly, northeasterly, southeasterly, easterly and northerly, along the line of mean high tide of the eastern shore of the Gulf of Alaska, Lituya Bay, the Gulf of Alaska, Cross Sound, Taylor Bay, North Inian Pass, and Dundas Bay, to the meander corner of sections 24 and 25, on the southerly shore of Dundas Bay, T. 40 S., R. 54 E., Copper River Meridian;

*Thence on an approximate forward bearing of N. 9° E., across Dundas Bay to the meander corner of sections 13 and 18, on the northerly shore of Dundas Bay, T. 40 S., Rs. 54 and 55 E., Copper River Meridian;

Thence easterly and northerly, along the line of mean high tide of Dundas Bay and the right bank of the Dundas River to the meander corner of sections 9 and 10, T. 40 S., R. 55 E., Copper River Meridian;

Thence due east to the left bank of the Dundas River in the southwesterly portion of section 10, T. 40 S., R. 55 E., Copper River Meridian;

Thence southerly, northeasterly, northerly and northwesterly, along the line of mean high tide along the left bank of the Dundas River, the shores of the Dundas Bay, Icy Strait, Sitakaday Narrows, Berg Bay, Whidbey Passage, Geikie Inlet and Glacier Bay to the most easterly point of land in the southeasterly portion of section 13, T. 36 S., R. 53 E., Copper River Meridian;

*Thence on an approximate forward bearing of N. 31° E., across Hugh Miller Inlet to the most southeasterly point of an island within the portions of sections 1, 7 and 12, T. 36 S., Rs. 53 and 54 E., Copper River Meridian;

Thence northwesterly, along the line of mean high tide of the northeasterly shore of the island to the meander corner of sections 1 and 2, T. 36 S., R. 53 E., Copper River Meridian;

Thence northerly, between sections 1 and 2, to the meander corner of sections 1 and 2 on Gilbert Peninsula, T. 36 S., R. 53 E., Copper River Meridian;

Thence easterly, northerly, northwesterly, westerly, northeasterly, easterly and southeasterly, along the line of mean high tide of Glacier Bay, Johns Hopkins Inlet and Tarr Inlet, closing the mouth of the north end of Scidmore Bay, the northwesterly end of Tarr Inlet and along the International Boundary between the United States of America and Canada, to the meander corner of sections 20 and 29, T. 34 S., R. 53 E., Copper River Meridian;

*Thence on an approximate forward bearing of N. 50° E., across Rendu Inlet to the meander corner of sections 20 and 21, T. 34 S., R. 53 E., Copper River Meridian;

Thence southeasterly, northerly, easterly, southerly, southeasterly, northerly, easterly and southerly, along the line of mean high tide of Glacier Bay, Queen Inlet, Tidal Inlet, and Muir Inlet, to the most westerly point of land known as Point George in the northerly portion of section 10, T. 35 S., R. 56 E., Copper River Meridian;

Thence on an approximate forward bearing of S. 15° E., across Adams Inlet to the left bank of the mouth of a creek draining Dirt Glacier in the northeasterly portion of section 15, T. 35 S., R. 56 E., Copper River Meridian;

Thence southeasterly, along the line of mean high tide of Glacier Bay, to the meander corner of sections 7 and 18, T. 38 S., R. 58 E., Copper River Meridian;

Thence on an approximate forward bearing of N. 80° W., to the most easterly point of an unnamed island in the southeasterly portion of section 12, T. 38 S., R. 57 E., Copper River Meridian;

Thence northwesterly, along the northeasterly shore of the island at the line of mean high tide to the most northerly point of the same island in section 12, T. 38 S., R. 57 E., Copper River Meridian;

Thence on an approximate forward bearing of N. 45° W., to the most northeasterly point of an unnamed island in the northwesterly portion of section 12, T. 38 S., R. 57 E., Copper River Meridian;

Thence westerly, along the northerly shore of the unnamed island to the most westerly point of same island in the northeasterly portion of section 11, T. 38 S., R. 57 E., Copper River Meridian;

Thence on an approximate forward bearing of S. 30° W., to the most northwesterly point of an unnamed island in the southeasterly portion of section 11, T. 38 S., R. 57 E., Copper River Meridian;

Thence southwesterly along the westerly shore of an unnamed island along the line of mean high tide to the most southwesterly point of the same island in the southeasterly portion of section 11, T. 38 S., R. 57 E., Copper River Meridian;

Thence on an approximate forward bearing of S. 25° W., to a point on the northerly shore of Strawberry Island due north of horizontal control station "Soon" in the northerly portion of section 4, T. 39 S., R. 57 E., Copper River Meridian;

Thence southwesterly, southerly and easterly, along the westerly and southerly shores of Strawberry Island, at the line of mean high tide, to a point due south of horizontal control station "Berry" in the northerly portion of section 9, T. 39 S., R. 57 E., Copper River Meridian;

Thence on an approximate forward bearing of S. 8° E., to a point on the westerly shore of Young Island, due west of horizontal control station "Coal" in the northeasterly portion of section 21, T. 39 S., R. 57 E., Copper River Meridian;

Thence southerly and southeasterly, along the westerly shore of Young Island at the line of mean high tide, to a point due south of horizontal control station "Best" in the

easterly portion of section 27, T. 39 S., R. 57 E., Copper River Meridian;

Thence on an approximate forward bearing of S. 58° E., to the most westerly point of Lester Island, due west of horizontal control station "Poor" in the southwesterly portion of section 26, T. 39 S., R. 57 E., Copper River Meridian;

Thence southeasterly, northeasterly and easterly, along the southerly shore of Lester Island at the line of mean high tide, to the most southern tip of land on the Lester Island near the center of section 29, T. 39 S., R. 58 E., Copper River Meridian;

Thence on an approximate forward bearing of S. 80° E., to the special meander corner on the east and west centerline of section 29, T. 39 S., R. 58 E., Copper River Meridian;

Thence easterly, on the east and west centerlines of sections 29, 28, 27, 26 and 25 to the center ¼ section corner of section 25, T. 39 S., R. 58 E., Copper River Meridian;

Thence southeasterly, in a straight line to the south corner of sections 31 and 32, T. 39 S., R. 59 E., Copper River Meridian;

Thence easterly, between Tps. 39 and 40 S., to the corner of sections 2, 3, 34 and 35, Tps. 39 and 40 S., R. 59 E., Copper River Meridian;

Thence southerly, between sections 2 and 3, 10 and 11, to the meander corner of sections 10 and 11, T. 40 S., R. 59 E., Copper River Meridian;

Thence southeasterly, northerly, northwesterly and southeasterly, along the line of mean high tide of Icy Passage, Excursion Inlet and Sawmill Bay to a point on the Glacier Bay National Park boundary at triangulation station "End", on the east side of the northern end of Excursion Inlet in the westerly portion of section 10, T. 39 S., R. 60 E., Copper River Meridian;

Thence on an approximate forward bearing of N. 76° E., to the summit of a ridge in the westerly portion of section 11, T. 39 S., R. 60 E., Copper River Meridian, approximate elevation 3,150 feet;

Thence easterly, along a crest of a ridge to the summit of a mountain in the northeast ¼ of section 10, T. 39 S., R. 61 E., Copper River Meridian, approximate elevation 4,800 feet;

Thence northwesterly, along the crest of the Chilkat Range separating the Lynn Canal drainages from the Excursion River and Glacier Bay drainages, to the summit of a mountain in the southwest ¼ of section 9, T. 38 S., R. 58 E., Copper River Meridian, approximate elevation 5,110 feet;

Thence northerly and northeasterly, along the crest of the Chilkat Range, crossing Endicott Gap to the summit of a mountain in the south ½ of section 28, T. 34 S., R. 59 E., Copper River Meridian, approximate elevation 4,805 feet;

Thence northwesterly, northeasterly, northwesterly, and northerly, along the crest of the Chilkat Range to the summit of a mountain in the east ½ of section 7, T. 32 S., R. 58 E., Copper River Meridian, approximate elevation 6,006 feet;

Thence northwesterly along the crest of the Takhinsha Mountains separating the drainages of the Takhin River and Tsirku River from the Glacier Bay drainages, to the summit of Mt. Harris in the northeast ¼ of section 21, T. 33 S., R. 53 E., Copper River Meridian, approximate elevation 6,382 feet;

Thence southwesterly, westerly, southwesterly, and westerly, along the International Boundary between the United States of America and Canada, to the summit of Mt. Fairweather in the south ½ of section 1, T. 35 S., R. 47 E., Copper River Meridian, approximate elevation 15,300 feet;

Thence northerly and northwesterly, along the International Boundary between the United States of America and Canada, to the crest of a ridge in the southeasterly portion of section 14, T. 28 S., R. 43 E., Copper River Meridian, approximate elevation 4,200 feet;

Thence southwesterly, on the crest of a ridge to the summit of a peak in the northerly portion of section 8, T. 29 S., R. 43 E., Copper River Meridian, approximate elevation 1,810 feet;

Thence on an approximate forward bearing of S. 45° W., to the summit of a peak in the westerly portion of section 4, T. 30 S., R. 42 E., Copper River Meridian, approximate elevation 3,755 feet;

Thence southwesterly, southerly, and southeasterly, on the crest of a ridge (the Brabazon Range), to the summit of a low peak in the southeasterly portion of section 29, T. 31 S., R. 43 E., Copper River Meridian, approximate elevation 2,345 feet;

Thence on an approximate forward bearing of N. 62° E., to the most southerly tip of land on the left bank of the Alsek River, in the northeasterly portion of section 28, T. 31 S., R. 43 E., Copper River Meridian;

Thence northerly, easterly and southerly, along the line of mean high water of an unnamed lake formed by the Alsek River, to the meander corner of sections 2 and 11, T. 32 S., R. 43 E., Copper River Meridian;

Thence easterly, between sections 2 and 11, to the corner of sections 1, 2, 11 and 12, T. 32 S., R. 43 E., Copper River Meridian;

Thence southerly, between sections 11 and 12, to the north 1/16 section corner of sections 11 and 12, T. 32 S., R. 43 E., Copper River Meridian;

Thence easterly, on the east and west centerline of the northwest ¼ of section 12, to the center-north 1/16 section corner of section 12, T. 32 S., R. 43 E., Copper River Meridian;

Thence southerly, on the north and south centerline of section 12, to the ¼ section corner of sections 12 and 13, T. 32 S., R. 43 E., Copper River Meridian;

Thence westerly, between sections 12 and 13, to the corner of sections 11, 12, 13 and 14, T. 32 S., R. 43 E., Copper River Meridian;

Thence southerly, between sections 13 and 14, to the ¼ section corner of sections 13 and 14, T. 32 S., R. 43 E., Copper River Meridian;

Thence westerly, on the east and west centerline of section 14, to the special meander corner on the easterly shore of Lower Doame Lake, T. 32 S., R. 43 E., Copper River Meridian;

Thence southerly and westerly, along the line of mean high water of Lower Doame Lake, to the left bank of Doame River in the southwesterly portion of section 14, T. 32 S., R. 43 E., Copper River Meridian;

Thence southerly, along the left bank of the Doame River and the westerly shores of two unnamed lakes, to the most southwesterly point of the unnamed lake in the northeasterly portion of section 34, T. 32 S., R. 43 E., Copper River Meridian;

Thence on an approximate forward bearing of S. 28° E., to the summit of a peak in the southwesterly portion of section 35, T. 32 S., R. 43 E., Copper River Meridian, approximate elevation 2,810 feet;

Thence southerly, southwesterly, and northwesterly, along the crest of a ridge and a spur ridge, to a point in a saddle at the headwaters of an unnamed creek in the southeasterly portion of section 1, T. 33 S., R. 43 E., Copper River Meridian, approximate elevation 1,800 feet;

*Thence westerly, descending to and along the right bank of an unnamed creek and the left bank of Doame River, to a point between sections 7 and 12, T. 33 S., Rs. 42 and 43 E., Copper River Meridian;

*Thence southerly between Rs. 42 and 43 E., to a point at the line of mean high tide of the Gulf of Alaska, T. 33 S., Rs. 42 and 43 E., Copper River Meridian;

Thence southeasterly, along the line of mean high tide of the easterly shore of the Gulf of Alaska, including any coastal islands above the line of mean high tide, to the right bank of the mouth of Sea Otter Creek in section 16, T. 35 S., R. 45 E., Copper River Meridian, the place of beginning.

The Glacier Bay Wilderness No. 1 includes all islands above the line of mean high tide within the Glacier Bay National Park Boundary, with the exception of Cenotaph Island located in Lituya Bay within portions of sections 23, 24, 25 and 26, T. 37 S., R. 47 E., Copper River Meridian and an unnamed island located in Glacier Bay within portions of sections 5, 6, 7 and 8, T. 36 S., R. 54 E., Copper River Meridian.

*Department of the Interior 1:250,000 scale map issued in 1981, incorrectly depicts this portion of the description.

Unit Number 2

Beginning at the meander corner of sections 20 and 21 at the line of mean high tide of Icy Strait, T. 40 S., R. 58 E., Copper River Meridian;

Thence northerly, between sections 20 and 21, 16 and 17, 8 and 9, 4 and 5, to the south 1/16 section corner of sections 4 and 5, T. 40 S., R. 58 E., Copper River Meridian;

Thence westerly, on the east and west centerlines of the southeast ¼ and southwest ¼ of section 5 and the southeast ¼ of section 6, to the special meander corner of section 6 at the line of mean high tide of Glacier Bay, T. 40 S., R. 58 E., Copper River Meridian;

Thence southerly and easterly, along the line of mean high tide of Glacier Bay and Icy Strait to the meander corner of sections 20 and 21, T. 40 S., R. 58 E., Copper River Meridian, the place of beginning.

The following U.S. Geological Survey 1:63,360 Series (Topographic) Quadrangle maps were used in preparing the legal boundary descriptions for Glacier Bay National Park and Preserve and Glacier Bay Wilderness areas:

Juneau, Alaska: (B–4) 1948 mr 1972; (B–5) 1950 mr 1966; (B–6) 1948 mr 1967; (C–4) 1949 mr 1966; (C–5) 1948 mr 1973; (C–6) 1950 mr 1966; (D–5) 1949 mr 1962; (D–6) 1949 mr 1972

Section 202(1), Public Law 96–487 (ANILCA):

Katmai National Park

Katmai National Park as generally depicted on a map numbered KATM–90,007, dated July 1980, consists of the former Katmai National Monument and an addition of approximately one million and thirty-seven thousand acres of public lands, as defined in the ANILCA, within the following described boundary:

Beginning at vertical angle bench mark "Kubugakli" located in the southeasterly portion of section 6, T. 27 S., R. 35 W., Seward Meridian, approximate elevation 139 feet;

Thence S. 40° E., along a common boundary with the Becharof National Wildlife Refuge, to the line of mean high tide of Shelikof Strait;

Thence departing from the common boundary with the Becharof National Wildlife Refuge, northeasterly, northwesterly, westerly and southwesterly, along the line of mean high tide line of Shelikof Strait and Kamishak Bay, and including all offshore islands, islets and rocks in front of and within five statute miles of the mainland coastline, but excluding those islands, islets and rocks on the west side of Akunwarvik Bay, to a point on the right bank of the Kamishak River at its mouth, located in the westerly portion of section 29, T. 13 S., R. 29 W., Seward Meridian;

Thence southerly, along the right bank of the Kamishak River, to the point between sections 5 and 32, Tps. 13 and 14 S., R. 29 W., Seward Meridian;

Thence westerly, between Tps. 13 and 14 S., to the corner of Tps. 13 and 14 S., Rs. 31 and 32 W., Seward Meridian;

Thence southerly, between Rs. 31 and 32 W., to the corner of Tps. 14 and 15 S., Rs. 31 and 32 W., Seward Meridian;

Thence westerly, between Tps. 14 and 15 S., to the corner of Tps. 14 and 15 S., Rs. 32 and 33 W., Seward Meridian;

Thence northerly, between Rs. 32 and 33 W., to the crest of a ridge between sections 1 and 6, T. 13 S., Rs. 32 and 33 W., Seward Meridian, approximate elevation 4,000 feet;

Thence northwesterly, along the crest of a ridge between the Battle Lake and Paint River drainages, to the junction of ridges located in the southerly portion of section 31, T. 12 S., R. 32 W., Seward Meridian, approximate elevation 3,425 feet;

Thence westerly and northerly, along the crest of a ridge between the Battle Lake and Moraine Creek drainages, and along a common boundary with the Katmai National Preserve, to a point on the east and west centerline of section 27, T. 12 S., R. 33 W., Seward Meridian, approximate elevation 2,925 feet;

Thence westerly, on the east and west centerlines of sections 27 and 28, to the intersection of a ridge in sections 28 and 29, T. 12 S., R. 33 W., Seward Meridian, approximate elevation 1,800 feet;

Thence westerly, along the crest of a ridge between the headwaters of Moraine Creek, an unnamed creek draining into the Battle Lake drainage and the Battle Lake drainages, to the summit of a mountain in sections 30 and 25, T. 12 S., Rs. 33 and 34 W., Seward Meridian, approximate elevation 3,450 feet;

Thence northwesterly, along the crest of a ridge between the Battle Lake drainage and an unnamed river which flows into the stream which is the outlet to Battle Lake through sections 25, 24, 23, 22 and 15 to a point on the right bank of an unnamed river which flows into the stream which is the outlet to Battle Lake located in the northwest ¼ of the southwest ¼ of section 15, T. 12 S., R. 34 W., Seward Meridian;

Thence southwesterly, along the right bank of the unnamed creek and the west shore of a small lake to the most westerly point on the west shore of the unnamed lake located in the northwest ¼ of section 21, T. 12 S., R. 34 W., Seward Meridian;

Thence on an approximate bearing of S. 1° W., to a point which is the most westerly point on the western shore of a small unnamed lake in the northwest ¼ of section 28, T. 12 S., R. 34 W., Seward Meridian;

Thence southerly, easterly and northerly along the shore of the small unnamed lake to a point on the shore intersecting with a ridge in the northeast ¼ of the northwest ¼ of section 28, T. 12 S., R. 34 W., Seward Meridian;

Thence southeasterly, southwesterly, westerly, southerly and southwesterly along a spur ridge and the crest of an unnamed ridge between the Battle Lake, Kulik Lake, Kukaklek Lake and Nonvianuk Lake drainages, to the summit of a mountain located in sections 28 and 33, T. 13 S., R. 35 W., Seward Meridian, approximate elevation 2,788 feet;

Thence on an approximate bearing of S. 18° E., to the headwaters of an unnamed creek located near the center of section 33, T. 13 S., R. 35 W., Seward Meridian;

Thence southerly and westerly, along the right bank of an unnamed creek and the line of mean high water of the easterly and southerly shores of Nonvianuk Lake closing the mouths of the stream draining the Kulik Lake and other streams to the most northerly point of land in section 5, T. 14 S., R. 37 W., Seward Meridian;

Thence due south, to a point between sections 8 and 17, T. 14 S., R. 37 W., Seward Meridian;

Thence westerly, between sections 8 and 17, 7 and 18, 12 and 13, 11 and 14, 10 and 15, 9 and 16, to the corner of sections 8, 9, 16 and 17, T. 14 S., R. 38 W., Seward Meridian;

Thence northerly, between sections 8 and 9, to the ¼ section corner of sections 8 and 9, T. 14 S., R. 38 W., Seward Meridian;

*Thence westerly on the east and west centerlines of sections 8 and 7 to the ¼ section corner of sections 7 and 12, T. 14 S., Rs. 38 and 39 W., Seward Meridian;

*Thence northerly between sections 7 and 12 to a point on the right bank of an unnamed stream which is a tributary to American Creek between sections 7 and 12, T. 14 S., Rs. 38 and 39 W., Seward Meridian;

*Thence northwesterly and southwesterly along the right bank of the unnamed stream which is a tributary to American Creek, to a junction of unnamed streams which are tributaries to American Creek, located near the southern boundary of the southeast ¼ of section 22, T. 14 S., R. 39 W., Seward Meridian;

*Thence on an approximate forward bearing of S. 45° W., to a junction of unnamed streams which are tributaries to American Creek, located near the eastern boundary of the southeast ¼ of section 28, T. 14 S., R. 39 W., Seward Meridian;

*Thence northwesterly, southwesterly and southerly along the left bank of the unnamed stream which is a tributary to American Creek, to a point located N. 53° E. of the summit of a mountain located in sections 1, 6, 7 and 12, T. 15 S., Rs. 39 and 40 W., Seward Meridian, approximate elevation 2,175 feet;

*Thence on a bearing of S. 53° W., to the summit of a mountain located in sections 1, 6, 7 and 12, T. 15 S., Rs. 39 and 40 W., Seward Meridian, approximate elevation 2,175 feet;

*Thence along the crest of a ridge between the drainage of King Salmon Creek and tributaries of the Alagnak River to the summit of Sugarloaf Mountain located in section 9, T. 15 S., R. 40 W., Seward Meridian, approximate elevation 2,085 feet;

*Thence on an approximate forward bearing of S. 14° W., departing from the common boundary with the Katmai National Preserve, to the summit of a mountain located in the northeast ¼ of section 20, T. 15 S., R. 40 W., Seward Meridian, approximate elevation 1,770 feet;

*Thence on an approximate forward bearing of S. 42° W., to the summit of a mountain located in the northwest ¼ of section 1, T. 16 S., R. 41 W., Seward Meridian, approximate elevation 720 feet;

*Thence on an approximate forward bearing of S. 42° W., to a junction of unnamed creeks which are tributaries to King Salmon Creek, located in the easterly portion of section 16, T. 16 S., R. 41 W., Seward Meridian;

Thence on an approximate forward bearing of S. 55° W., to the top of a hill located in the northerly portion of section 21, T. 16 S., R. 41 W., Seward Meridian, approximate elevation 790 feet;

Thence on an approximate forward bearing of N. 75° W., to the corner of sections 16, 17, 20 and 21, T. 16 S., R. 41 W., Seward Meridian;

Thence northerly, between sections 16 and 17, to the ¼ section corner of section 16 and 17, T. 16 S., R. 41 W., Seward Meridian;

Thence westerly, on the east and west centerlines of sections 17 and 18, to the ¼ section corner of sections 13 and 18, T. 16 S., Rs. 41 and 42 W., Seward Meridian;

Thence northerly, between Rs. 41 and 42 W., to the corner of sections 7, 12, 13 and 18, T. 16 S., Rs. 41 and 42 W., Seward Meridian;

Thence westerly, between sections 12 and 13, to the corner of sections 11, 12, 13 and 14, T. 16 S., R. 42 W., Seward Meridian;

Thence northerly, between sections 11 and 12, to the ¼ section corner of sections 11 and 12, T. 16 S., R. 42 W., Seward Meridian;

Thence westerly, on the east and west centerline of section 11, 1 mile to the ¼ section corner of sections 10 and 11, T. 16 S., R. 42 W., Seward Meridian;

Thence northerly, between sections 10 and 11, to the north 1/16 section corner of sections 10 and 11, T. 16 S., R. 42 W., Seward Meridian;

Thence westerly, on the east and west centerline of the north half of section 10, to the north 1/16 section corner of sections 9 and 10, T. 16 S., R. 42 W., Seward Meridian;

Thence southerly, between sections 9 and 10, to the 1/4 section corner of sections 9 and 10, T. 16 S., R. 42 W., Seward Meridian;

Thence westerly, on the east and west centerlines of sections 9 and 8, to the center-east 1/16 section corner of section 8, T. 16 S., R. 42 W., Seward Meridian;

Thence southerly, on the north and south centerline of the southeast 1/4 to the southeast 1/16 section corner of section 8, T. 16 S., R. 42 W., Seward Meridian;

Thence westerly, on the east and west centerline of the south half of section 8, to the south 1/16 section corner of sections 7 and 8, T. 16 S., R. 42 W., Seward Meridian;

Thence southerly, between sections 7 and 8, 17 and 18, to the corner of sections 17, 18, 19 and 20, T. 16 S., R. 42 W., Seward Meridian;

Thence westerly, between sections 18 and 19, to the corner of sections 13, 18, 19 and 24, T. 16 S., Rs. 42 and 43 W., Seward Meridian;

Thence southerly, between Tps. 42 and 43 W., to the north 1/16 section corner of sections 19 and 24, T. 16 S., Rs. 42 and 43 W., Seward Meridian;

Thence westerly, on the east and west centerlines of the north half of section 24 and the northeast 1/4 of section 23, to the center-north 1/16 section corner of section 23, T. 16 S., R. 43 W., Seward Meridian;

Thence southerly, on the north and south centerline of section 23, to the center 1/4 section corner of section 23, T. 16 S., R. 43 W., Seward Meridian;

Thence westerly, on the east and west centerline of the north half of section 23, to the 1/4 section corner of sections 22 and 23, T. 16 S., R. 43 W., Seward Meridian;

Thence southerly, between sections 22 and 23, to the south 1/16 section corner of sections 22 and 23, T. 16 S., R. 43 W., Seward Meridian;

Thence westerly, on the east and west centerline of the southeast 1/4 of section 22, to the center-south 1/16 section corner of section 22, T. 16 S., R. 43 W., Seward Meridian;

Thence southerly, on the north and south centerline of section 22, to the 1/4 section corner of sections 22 and 27, T. 16 S., R. 43 W., Seward Meridian;

Thence westerly, between sections 22 and 27, to the corner of sections 21, 22, 27 and 28, T. 16 S., 43 W., Seward Meridian;

Thence southerly, between sections 27 and 28, to the 1/4 section corner of sections 27 and 28, T. 16 S., R. 43 W., Seward Meridian;

Thence westerly, on the east and west centerline of section 28, to the center 1/4 section corner of section 28, T. 16 S., R. 43 W., Seward Meridian;

Thence southerly, on the north and south centerline of section 28, to the 1/4 section corner of sections 28 and 33, T. 16 S., R. 43 W., Seward Meridian;

Thence westerly, between sections 28 and 33, to the corner of sections 28, 29, 32 and 33, T. 16 S., R. 43 W., Seward Meridian;

Thence southerly, between sections 32 and 33, to the standard corner of sections 32 and 33, T. 16 S., R. 43 W., Seward Meridian;

Thence westerly, on the Fourth Standard Parallel South, to the closing 1/4 section corner of section 2, T. 17 S., R. 44 W., Seward Meridian;

Thence southerly, on the north and south centerline of section 2, to the center 1/4 section corner of section 2, T. 17 S., R. 44 W., Seward Meridian;

Thence westerly, on the east and west centerline of section 2, to the 1/4 section corner of sections 2 and 3, T. 17 S., R. 44 W., Seward Meridian;

Thence southerly, between sections 2 and 3, 10 and 11, 14 and 15, to the corner of sections 14, 15, 22 and 23, T. 17 S., R. 44 W., Seward Meridian;

Thence westerly, between sections 15 and 22, to the 1/4 section corner of sections 15 and 22, T. 17 S., R. 44 W., Seward Meridian;

Thence southerly, on the north and south centerlines of sections 22, 27 and 34, to the 1/4 section corner of sections 3 and 34, Tps. 17 and 18 S., R. 44 W., Seward Meridian;

Thence easterly, between Tps. 17 and 18 S., to the corner of sections 2, 3, 34 and 35, Tps. 17 and 18 S., R. 44 W., Seward Meridian;

Thence southerly, between sections 2 and 3, 10 and 11, 14 and 15, to the corner of sections 14, 15, 22 and 23, T. 18 S., R. 44 W., Seward Meridian;

Thence easterly, between sections 14 and 23, 13 and 24, to the corner of sections 13, 18, 19 and 24, T. 18 S., Rs. 43 and 44 W., Seward Meridian;

Thence southerly, between Rs. 43 and 44 W., to the corner of Ts. 18 and 19 S., Rs. 43 and 44 W., Seward Meridian;

Thence southerly, along a common boundary with the Becharof National Wildlife Refuge, between Rs. 43 and 44 W., to the 1/4 section corner of sections 1 and 6, T. 19 S., Rs. 43 and 44 W., Seward Meridian;

Thence on an approximate forward bearing of S. 89° E., to the vertical angle bench mark "Contact" located in section 4, T. 19 S., R. 42 W., Seward Meridian, approximate elevation 1,156 feet;

Thence on an approximate forward bearing of S. 18° W., to the summit of a mountain located in sections 29 and 32, T. 19 S., R. 42 W., Seward Meridian, approximate elevation 1,125 feet;

Thence on an approximate forward bearing of S. 2° W., to vertical angle bench mark "Granite" located on a mountain in sections 2 and 11, T. 21 S., R. 43 W., Seward Meridian, approximate elevation 1,683 feet;

Thence on an approximate forward bearing of S. 30° E., to vertical angle bench mark horizontal control station "Red" located in the southeasterly portion of section 2, T. 23 S., R. 42 W., Seward Meridian, approximate elevation 1,721 feet;

Thence on an approximate forward bearing of S. 40° E., to vertical angle bench mark horizontal control station "Gert" located in the southwesterly portion of section 20, T. 23 S., R. 41 W., Seward Meridian, approximate elevation 1,141 feet;

Thence on an approximate forward bearing of S. 78° E., to the confluence of the King Salmon River, Takayofa Creek, and Contact Creek, located in the southeasterly portion of section 20, T. 23 S., R. 41 W., Seward Meridian;

Thence on an approximate forward bearing of S. 45° E., to the intersection of a ridge and the line between sections 13 and 18, T. 24 S., Rs. 40 and 41 W., Seward Meridian, approximate elevation 1,100 feet;

Thence southeasterly and easterly, along the crest of a ridge between the drainages of the King Salmon River and streams flowing into Becharof Lake, to a point between sections 14 and 23, T. 25 S., R. 38 W., Seward Meridian;

Thence easterly, between sections 14 and 23, 13 and 24, 18 and 19, 17 and 20, 16 and 21, to the corner of sections 15, 16, 21 and 22, T. 25 S., R. 37 W., Seward Meridian;

Thence on an approximate forward bearing of S. 32° E., to the summit of a mountain located in section 22, T. 25 S., R. 37 W., Seward Meridian, approximate elevation 2,267 feet;

Thence southerly along the crest of a ridge between the drainages of streams flowing into Becharof Lake and streams flowing into Shelikof Strait to the summit of a small mountain in the northwest 1/4 of section 22, T. 26 S., R. 37 W., Seward Meridian, approximate elevation 1,746 feet;

Thence easterly and southeasterly, along the crest of a ridge to a point N. 40° W., of vertical angle bench mark "Kubugakli", located in section 6, T. 27 S., R. 35 W., Seward Meridian, approximate elevation 1,150 feet;

Thence S. 40° E., to vertical angle bench mark "Kubugakli", the point of beginning.

Included within the Katmai National Park are those lands, waters, islands, islets and rocks within the foregoing National Park boundary above the line of mean high tide.

*Department of the Interior 1:250,000 scale map issued in 1981, incorrectly depicts this portion of the description.

Katmai National Preserve

Katmai National Preserve as generally depicted on a map numbered KATM–90,007, dated July 1980, consists of approximately three hundred and eight thousand acres of public lands, as defined in the ANILCA, within the following described boundary:

Beginning at a point located at the junction of ridges between the headwaters of the Crevice Creek, Moraine Creek and Battle Lake drainages, located in the southerly portion of section 31, T. 12 S., R. 32 W., Seward Meridian, approximate elevation 3,425 feet;

Thence westerly and northerly, along the crest of a ridge between the Battle Lake and Moraine Creek drainages, along a common boundary with the Katmai National Park, to a point on the east and west centerline of section 27, T. 12 S., R. 33 W., Seward Meridian, approximate elevation 2,925 feet;

Thence westerly, on the east and west centerlines of sections 27 and 28, to the intersection of a ridge in sections 28 and 29, T. 12 S., R. 33 W., Seward Meridian, approximate elevation 1,800 feet;

Thence westerly, along the crest of a ridge between the headwaters of Moraine Creek,

an unnamed creek draining into the Battle Lake drainage and the Battle Lake drainages, to the summit of a mountain in sections 30 and 25, T. 12 S., Rs. 33 and 34 W., Seward Meridian, approximate elevation 3,450 feet;

Thence northwesterly, along the crest of a ridge between the Battle Lake drainage and an unnamed river which flows into the stream which is the outlet to Battle Lake through sections 25, 24, 23, 22 and 15 to a point on the right bank of an unnamed river which flows into the stream which is the outlet to Battle Lake located in the northwest ¼ of the southwest ¼ of section 15, T. 12 S., R. 34 W., Seward Meridian;

Thence southwesterly, along the right bank of the unnamed creek and the west shore of a small lake, to the most westerly point on the west shore of the unnamed lake located in the northwest ¼ of section 21, T. 12 S., R. 34 W., Seward Meridian;

Thence on an approximate forward bearing of S. 1° W., to a point which is the most westerly point on the western shore of a small unnamed lake in the northwest ¼ of section 28, T. 12 S., R. 34 W., Seward Meridian;

Thence southerly, easterly and northerly along the shore of the small unnamed lake to a point on the shore intersecting with a ridge in the northeast ¼ of the northwest ¼ of section 28, T. 12 S., R. 34 W., Seward Meridian;

Thence southeasterly, southwesterly, westerly, southerly and southwesterly, along a spur ridge and the crest of an unnamed ridge between the Battle Lake, Kulik Lake, Kukaklek Lake and Nonvianuk Lake drainages, to the summit of a mountain located in sections 28 and 33, T. 13 S., R. 35 W., Seward Meridian, approximate elevation 2,788 feet;

Thence on an approximate forward bearing of S. 18° E., to the headwaters of an unnamed creek located near the center of section 33, T. 13 S., R. 35 W., Seward Meridian;

Thence southerly and westerly, along the right bank of an unnamed creek and the line of mean high water of the easterly and southerly shores of Nonvianuk Lake closing the mouths of the stream draining Kulik Lake and other streams to the most northerly point of land in section 5, T. 14 S., R. 37 W., Seward Meridian;

Thence due south, to a point between sections 8 and 17, T. 14 S., R. 37 W., Seward Meridian;

Thence westerly, between sections 8 and 17, 7 and 18, 12 and 13, 11 and 14, 10 and 15, 9 and 16, to the corner of sections 8, 9, 16 and 17, T. 14 S., R. 38 W., Seward Meridian;

Thence northerly, between sections 8 and 9, to the ¼ section corner of sections 8 and 9, T. 14 S., R. 38 W., Seward Meridian;

*Thence westerly on the east and west centerlines of sections 8 and 7 to the ¼ section corner of sections 7 and 12, T. 14 S., Rs. 38 and 39 W., Seward Meridian;

*Thence northerly between sections 7 and 12 to a point on the right bank of an unnamed stream which is a tributary to American creek between sections 7 and 12, T. 14 S., Rs. 38 and 39 W., Seward Meridian;

*Thence northwesterly and southwesterly along the right bank of the unnamed stream, which is a tributary to American Creek, to a junction of unnamed streams which are tributaries to American Creek, located near the southern boundary of the southeast ¼ of section 22, T. 14 S., R. 39 W., Seward Meridian;

*Thence on an approximate forward bearing of S. 45° W., to a junction of unnamed streams which are tributaries to American Creek, located near the eastern boundary of the southeast ¼ of section 28, T. 14 S., R. 39 W., Seward Meridian;

*Thence northwesterly, southwesterly, and southerly, along the left bank of the unnamed stream which is a tributary to American Creek, to a point located N. 53° E., of the summit of a mountain located in sections 1, 6, 7 and 12, T. 15 S., Rs. 39 and 40 W., Seward Meridian, approximate elevation 2,175 feet;

*Thence on a bearing of S. 53° W., to the summit of a mountain located in sections 1, 6, 7 and 12, T. 15 S., Rs. 39 and 40 W., Seward Meridian, approximate elevation 2,175 feet;

*Thence along the crest of a ridge between the drainage of King Salmon Creek and tributaries of the Alagnak River to the summit of Sugarloaf Mountain located in section 9, T. 15 S., R. 40 W., Seward Meridian, approximate elevation 2,085 feet;

*Thence on an approximate forward bearing of N. 88° W., departing from the common boundary with the Katmai National Park, to the summit of a small mountain located in section 8, T. 15 S., R. 40 W., Seward Meridian, approximate elevation 1,657 feet;

*Thence on an approximate forward bearing of N. 44° W., to the summit of a mountain located in section 36, T. 14 S., R. 41 W., Seward Meridian, approximate elevation 2,442 feet;

Thence on an approximate forward bearing of N. 25° E., to the summit of a mountain located in the northerly portion of section 17, T. 14 S., R. 40 W., Seward Meridian, approximate elevation 1,160 feet;

Thence on an approximate forward bearing of N. 46° W., to the corner of sections 1, 6, 7 and 12, T. 14 S., Rs. 40 and 41 W., Seward Meridian;

Thence northerly, between Rs. 40 and 41 W., to a point on the left bank of the Alagnak River at the line of mean high water between sections 31 and 36, T. 13 S., Rs. 40 and 41 W., Seward Meridian;

Thence easterly and northeasterly, along the left bank of the Alagnak River and the line of mean high water, to a point between sections 33 and 34, T. 12 S., R. 38 W., Seward Meridian;

Thence northerly, between sections 33 and 34, 27 and 28, 21 and 22, 15 and 16, to the corner of sections 9, 10, 15 and 16, T. 12 S., R. 38 W., Seward Meridian;

Thence easterly, between sections 10 and 15, to the corner of sections 10, 11, 14 and 15, T. 12 S., R. 38 W., Seward Meridian;

Thence northerly, between sections 10 and 11, to the corner of sections 2, 3, 10 and 11, T. 12 S., R. 38 W., Seward Meridian;

Thence easterly, between sections 2 and 11, to the corner of sections 1, 2, 11 and 12, T. 12 S., R. 38 W., Seward Meridian;

Thence northerly, between sections 1 and 2, to the corner of sections 1, 2, 35 and 36, Tps. 11 and 12 S., R. 38 W., Seward Meridian;

Thence on an approximate forward bearing of N. 60° E., to the summit of a mountain located in the northerly portion of section 31, T. 11 S., R. 37 W., Seward Meridian, approximate elevation 1,310 feet;

Thence on an approximate forward bearing of N. 52° E., to vertical angle bench mark "Kal" located in the southeasterly portion of section 30, T. 11 S., R. 37 W., Seward Meridian, approximate elevation 1,346 feet;

Thence on an approximate forward bearing of N. 33° E., to the summit of a mountain in section 18, T. 11 S., R. 37 W., Seward Meridian, approximate elevation 970 feet;

Thence on an approximate forward bearing of N. 45° E., to the corner of sections 9, 10, 15 and 16, T. 11 S., R. 37 W., Seward Meridian;

Thence easterly, between sections 10 and 15, to the corner of sections 10, 11, 14 and 15, T. 11 S., R. 37 W., Seward Meridian;

Thence northerly, between sections 10 and 11, to the corner of sections 2, 3, 10 and 11, T. 11 S., R. 37 W., Seward Meridian;

Thence easterly, between sections 2 and 11, to the corner of sections 1, 2, 11 and 12, T. 11 S., R. 37 W., Seward Meridian;

Thence northerly, between sections 1 and 2, to the corner of sections 1, 2, 35 and 36, Tps. 10 and 11 S., R. 37 W., Seward Meridian;

Thence easterly, between Tps. 10 and 11 S., to the corner of Tps. 10 and 11, R. 36 and 37 W., Seward Meridian;

Thence northerly, between Rs. 36 and 37 W., to the corner of sections 25, 30, 31 and 36, T. 10 S., Rs. 36 and 37 W., Seward Meridian;

Thence easterly, between sections 30 and 31, 29 and 32, 28 and 33, 27 and 34, 26 and 35, 25 and 36, 30 and 31, 29 and 32, 28 and 33, to the corner of sections 27, 28, 33 and 34, T. 10 S., R. 35 W., Seward Meridian;

Thence southerly, between sections 33 and 34, to the ¼ section corner of sections 33 and 34, T. 10 S., R. 35 W., Seward Meridian;

Thence easterly, on the east and west centerlines of sections 34 and 35, to the ¼ section corner of sections 35 and 36, T. 10 S., R. 35 W., Seward Meridian;

Thence southerly, between sections 35 and 36, 1 and 2, to the ¼ section corner of sections 1 and 2, T. 11 S., R. 35 W., Seward Meridian;

Thence easterly, on the east and west centerline of section 1, to the ¼ section corner of sections 1 and 6, T. 11 S., Rs. 34 and 35 W., Seward Meridian;

Thence southerly, between Rs. 34 and 35 W., to the corner of sections 1, 6, 7 and 12, T. 11 S., Rs. 34 and 35 W., Seward Meridian;

Thence easterly, between sections 6 and 7, to the ¼ section corner of sections 6 and 7, T. 11 S., R. 34 W., Seward Meridian;

Thence southerly, on the north and south centerline of section 7, to the ¼ section corner of sections 7 and 18, T. 11 S., R. 34 W., Seward Meridian;

Thence easterly, between sections 7 and 18, 8 and 17, 9 and 16, to the corner of sections 9, 10, 15 and 16, T. 11 S., R. 34 W., Seward Meridian;

Thence northerly, between sections 9 and 10, to the ¼ section corner of sections 9 and 10, T. 11 S., R. 34 W., Seward Meridian;

Thence easterly, on the east and west centerline of section 10, to the center ¼ section corner of section 10, T. 11 S., R. 34 W., Seward Meridian;

Thence northerly, on the north and south centerlines of sections 10 and 3, to the center ¼ section corner of section 3, T. 11 S., R. 34 W., Seward Meridian;

Thence easterly, on the east and west centerline of section 3, to the ¼ section corner of sections 2 and 3, T. 11 S., R. 34 W., Seward Meridian;

Thence northerly, between sections 2 and 3, to the corner of sections 2, 3, 34 and 35, Tps. 10 and 11 S., R. 34 W., Seward Meridian;

Thence easterly, between Tps. 10 and 11 S., to the corner of sections 1, 2, 35 and 36, Tps. 10 and 11 S., R. 34 W., Seward Meridian;

Thence northerly, between sections 35 and 36, to the ¼ section corner of sections 35 and 36, T. 10 S., R. 34 W., Seward Meridian;

Thence easterly, on the east and west centerline of section 36, to the center ¼ section corner of section 36, T. 10 S., R. 34 W., Seward Meridian;

Thence northerly, on the north and south centerline of section 36, to the ¼ section corner of sections 25 and 36, T. 10 S., R. 34 W., Seward Meridian;

Thence easterly, between sections 25 and 36, 30 and 31, 29 and 32, 28 and 33, 27 and 34, 26 and 35, 25 and 36, 30 and 31, 29 and 32, to the ¼ section corner of sections 29 and 32, T. 10 S., R. 32 W., Seward Meridian;

Thence southerly, on the north and south centerlines of sections 32 and 5, to a point on a ridge between the Emerald Lake and the Mirror Lake drainages, located in the northerly portion of section 5, T. 11 S., R. 32 W., Seward Meridian, approximate elevation 2,025 feet;

Thence southeasterly, southerly, westerly and southerly, between the Mirror Lake, Spectacle Lake and Moraine Creek and the Gibraltar Lake and Paint River drainages, to the junction of ridges between the headwaters of the Crevice Creek, Moraine Creek, and Battle Lake drainages, located in the southerly portion of section 31, T. 12 S., R. 32 W., Seward Meridian, the place of beginning.

*In Department of the Interior 1:250,000 scale map issued in 1981, incorrectly depicts this portion of the description.

Units of the National Wilderness Preservation System Within the Katmai National Park and Preserve

Section 701 (4), Public Law 96–487 (ANILCA):

Katmai Wilderness

The Katmai Wilderness as generally depicted on a map numbered KATM–90,007, dated July 1980, consists of approximately three million four hundred and seventy-three thousand acres of public lands, as defined in the ANILCA, within the following described boundaries:

Beginning at vertical angle bench mark "Kubugakh" located in the southeasterly portion of section 6, T. 27 S., R. 35 W., Seward Meridian, approximate elevation 139 feet;

Thence S. 40° E. to the line of mean high tide of Shelikof Strait;

Thence northeasterly, northerly, and westerly, along the line of mean high tide of Shelikof Strait to a point on the east and west centerline of section 17 on the westerly shore of Amalik Bay, T. 24 S., R. 32 W., Seward Meridian;

Thence westerly, on the east and west centerline of section 17, to the ¼ section corner of sections 17 and 18, T. 24 S., R. 32 W., Seward Meridian;

Thence southerly, between sections 17 and 18, to the corner of sections 17, 18, 19 and 20, T. 24 S., R. 32 W., Seward Meridian;

Thence westerly, between sections 18 and 19, 13 and 24, to the ¼ section corner of sections 13 and 24, T. 24 S., R. 33 W., Seward Meridian;

Thence northerly on the north and south centerline of section 13, to the center ¼ section corner of section 13, T. 24 S., R. 33 W., Seward Meridian;

Thence westerly, on the east and west centerline of section 13, to the ¼ section corner of sections 13 and 14, T. 24 S., R. 33 W., Seward Meridian;

Thence northerly, between sections 13 and 14, 11 and 12, 1 and 2, to the corner of sections 1, 2, 35 and 36, Tps. 23 and 24 S., R. 33 W., Seward Meridian;

Thence easterly, between Tps. 23 and 24 S., to the corner of Tps. 23 and 24 S., Rs. 32 and 33 W., Seward Meridian;

Thence southerly, between Rs. 32 and 33 W., to the ¼ section corner of sections 1 and 6, T. 24 S., Rs. 32 and 33 W., Seward Meridian;

Thence easterly, on the east and west centerline of section 6, to the center ¼ section corner of section 6, T. 24 S., R. 32 W., Seward Meridian;

Thence southerly, on the north and south centerline of section 6, to the ¼ section corner of sections 6 and 7, T. 24 S., R. 32 W., Seward Meridian;

Thence easterly, between sections 6 and 7, 5 and 8, to the corner of sections 4, 5, 8 and 9, T. 24 S., R. 32 W., Seward Meridian;

Thence southerly, between sections 8 and 9, to the meander corner of sections 8 and 9, T. 24 S., R. 32 W., Seward Meridian, at the line of mean high tide of Shelikof Strait;

Thence northeasterly, along the line of mean high tide of Shelikof Strait to a point on the north and south centerline of section 34, T. 21 S., R. 30 W., Seward Meridian;

Thence southerly, on the north and south centerline of sections 34 and 3, to the center ¼ section corner of section 3, T. 22 S., R. 30 W., Seward Meridian;

Thence westerly, on the east and west centerline of section 3, to the ¼ section corner of sections 3 and 4, T. 22 S., R. 30 W., Seward Meridian;

Thence southerly, between sections 3 and 4, to the corner of sections 3, 4, 9 and 10, T. 22 S., R. 30 W., Seward Meridian;

Thence westerly, between sections 4 and 9, to the ¼ section corner of sections 4 and 9, T. 22 S., R. 30 W., Seward Meridian;

Thence southerly, on the north and south centerline of section 9, to the center ¼ section corner of section 9, T. 22 S., R. 30 W., Seward Meridian;

Thence westerly, on the east and west centerline of sections 9 and 8, to the center ¼ section corner of section 8, T. 22 S., R. 30 W., Seward Meridian;

Thence southerly, on the north and south centerline of section 8, to the ¼ section corner of sections 8 and 17, T. 22 S., R. 30 W., Seward Meridian;

Thence westerly, between sections 8 and 17, to the corner of sections 7, 8, 17 and 18, T. 22 S., R. 30 W., Seward Meridian;

Thence southerly, between sections 17 and 18, to the ¼ section corner of sections 17 and 18, T. 22 S., R. 30 W., Seward Meridian;

Thence westerly, on the east and west centerline of section 18, to the special meander corner on the east and west centerline of section 18, T. 22 S., R. 30 W., Seward Meridian, at the line of mean high tide in Kukak Bay;

Thence southwesterly and northeasterly, along the line of mean high tide of Kukak Bay and Shelikof Strait to a point located N. 28° E. of the corner of sections 31, 32, 5 and 6, Tps. 13 and 14 S., R. 26 W., Seward Meridian, on the line of mean high tide of Shelikof Strait;

Thence S. 28° W., to the corner of sections 31, 32, 5 and 6, Tps. 13 and 14 S., R. 26 W., Seward Meridian;

Thence westerly, between Tps. 13 and 14 S., to the corner of Tps. 13 and 14 S., Rs. 31 and 32 W., Seward Meridian;

Thence southerly, between Rs. 31 and 32 W., to the corner of Tps. 14 and 15 S., Rs. 31 and 32 W., Seward Meridian;

Thence westerly, between Tps. 14 and 15 S., to the corner of Tps. 14 and 15 S., Rs. 32 and 33 W., Seward Meridian;

Thence southerly, between Rs. 32 and 33 W., to a point on the crest of a ridge between the McNeil River and Kulik Lake drainages, between sections 1 and 6, T. 15 S., Rs. 32 and 33 W., Seward Meridian, approximate elevation 4,100 feet;

Thence on an approximate forward bearing of S. 86° E., to the summit of a mountain in the southwesterly portion of section 6, T. 15 S., R. 32 W., Seward Meridian, approximate elevation 4,515 feet;

Thence on an approximate forward bearing of S. 10° E., to the summit of a mountain in the easterly portion of section 30, T. 15 S., R. 32 W., Seward Meridian, approximate elevation 4,485 feet;

Thence southeasterly, southwesterly and northwesterly, along the crest of a ridge to the summit of a mountain located near the east and west centerline of the west ½ of section 31, T. 15 S., R. 32 W., Seward Meridian, approximate elevation 4,100 feet;

Thence on an approximate forward bearing of S. 80° W., approximately 7,300 feet to the summit of a hill located in section 35, T. 15 S., R. 33 W., Seward Meridian, approximate elevation 2,860 feet;

Thence southerly and northwesterly, along the crest of a ridge between the headwater streams of Kulik Lake to a point on the summit of a ridge located in the northeasterly portion of section 5, T. 16 S., R. 33 W., Seward Meridian, approximate elevation 3,633 feet;

Thence on an approximate forward bearing of S. 70° W., to the summit of a mountain located in the southeasterly portion of section 2, T. 16 S., R. 34 W., Seward Meridian, approximate elevation 4,500 feet;

Thence westerly and northerly, along the crest of a ridge between headwaters streams of the Kulik Lake drainage to the summit of a mountain located in the northerly portion of

section 27, T. 15 S., R. 34 W., Seward Meridian, approximate elevation 4,550 feet;

Thence on an approximate forward bearing of S. 80° W., to the junction of unnamed creeks located in the northwesterly portion of section 28, T. 15 S., R. 34 W., Seward Meridian;

Thence on an approximate forward bearing of N. 56° W., to the summit of a mountain located in section 20, T. 15 S., R. 34 W., Seward Meridian, approximate elevation 4,370 feet;

Thence on an approximate forward bearing of N. 1° W., to the summit of a mountain located in the southerly portion of section 5, T. 15 S., R. 34 W., Seward Meridian, approximate elevation 4,265 feet;

Thence northerly, along the crest of a ridge and a spur ridge between the Kulik Lake and American Creek drainages to a point on the southerly shore of Kulik Lake and the mouth of an unnamed creek located in the northwesterly portion of section 18, T. 14 S., R. 34 W., Seward Meridian;

Thence westerly, along the southerly shore of Kulik Lake, to a point between sections 14 and 15, T. 14 S., R. 35 W., Seward Meridian;

Thence southerly, between sections 14 and 15, to the ¼ section corner of sections 14 and 15, T. 14 S., R. 35 W., Seward Meridian;

Thence westerly, along the east and west centerlines of section 15 and 16, to the special meander corner on the easterly shore of Nonvianuk Lake located in the easterly portion of section 16, T. 14 S., R. 35 W., Seward Meridian;

Thence southerly and westerly in general, along the southern shore of Nonvianuk Lake to the Nonvianuk River; thence along the left bank of the Nonvianuk River to the Alagnak River; thence along the left bank of the Alagnak River to a point between sections 31 and 36, T. 13 S., Rs. 40 and 41 W., Seward Meridian;

Thence southerly, between Rs. 40 and 41 W., to the corner of section 1, 6, 7 and 12, T. 14 S., Rs 40 and 41 W., Seward Meridian;

Thence on an approximate forward bearing of S. 46° E., to the summit of a mountain located in the northerly portion of section 17, T. 14 S., R. 40 W., Seward Meridian, approximate elevation 1,160 feet;

Thence on an approximate forward bearing of S. 25° W., to the summit of a mountain located in section 36, T. 14 S., R. 41 W., Seward Meridian, approximate elevation 2,442 feet;

°Thence on an approximate forward bearing of S. 44° E., to the summit of a small mountain located in section 8, T. 15 S., R. 40 W., Seward Meridian, approximate elevation 1,657 feet;

°Thence on an approximate forward bearing of S. 88° E., to the summit of Sugarloaf Mountain located in section 9, T. 15 S., R. 40 W., Seward Meridian, approximate elevation 2,085 feet;

°Thence on an approximate forward bearing of S. 14° W., to the summit of a mountain located in the northeast ¼ of section 20, T. 15 S., R. 40 W., Seward Meridian, approximate elevation 1,770 feet;

°Thence on an approximate forward bearing of S. 42° W., to the summit of a mountain located in the northwest ¼ of section 1, T. 16 S., R. 41 W., Seward Meridian, approximate elevation 720 feet;

°Thence on an approximate forward bearing of S. 42° W., to a junction of unnamed creeks which are tributaries to King Salmon Creek, located in the easterly portion of section 16, T. 16 S., R. 41 W., Seward Meridian;

Thence on an approximate forward bearing of S. 55° W., to the top of a hill located in the northerly portion of section 21, T. 16 S., R. 41 W., Seward Meridian, approximate elevation 790 feet;

Thence on an approximate forward bearing of N. 75° W., to the corner of sections 16, 17, 20 and 21, T. 16 S., R. 41 W., Seward Meridian;

Thence southerly, between sections 20 and 21, 28 and 29, to the corner of sections 28, 29, 32 and 33, T. 16 S., R. 41 W., Seward Meridian;

Thence easterly, between sections 28 and 33, to the corner of sections 27, 28, 33 and 34, T. 16 S., R. 41 W., Seward Meridian;

Thence southerly, between sections 33 and 34, to the standard corner of sections 33 and 34, T. 16 S., R. 41 W., Seward Meridian;

Thence easterly, along the Fourth Standard Parallel south, to the closing corner of sections 5 and 6, T. 17 S., R. 41 W., Seward Meridian;

Thence southerly, between sections 5 and 6, to the north 1/16 section corner of sections 5 and 6, T. 17 S., R. 41 W., Seward Meridian;

Thence easterly, on the east and west centerline of the north ½ of section 5, to the north 1/16 section corner of sections 4 and 5, T. 17 S., R. 41 W., Seward Meridian;

Thence southerly, between sections 4 and 5, to the ¼ section corner of sections 4 and 5, T. 17 S., R. 41 W., Seward Meridian;

Thence easterly, on the east and west centerline of section 4, to the ¼ section corner of sections 3 and 4, T. 17 S., R. 41 W., Seward Meridian;

Thence southerly, between sections 3 and 4, to the south 1/16 section corner of sections 3 and 4, T. 17 S., R. 41 W., Seward Meridian;

Thence easterly, on the east and west centerlines of the south ½ of section 3, to the south 1/16 section corner of sections 2 and 3, T. 17 S., R. 41 W., Seward Meridian;

Thence southerly, between sections 2 and 3, to the corner of sections 2, 3, 10 and 11, T. 17 S., R. 41 W., Seward Meridian;

Thence easterly, between sections 2 and 11, to the west 1/16 section corner of sections 2 and 11, T. 17 S., R. 41 W., Seward Meridian;

Thence southerly, along the north and south centerline of the west ½ of section 11, to a point on the north shore of the North Arm of Naknek Lake located in the southerly portion of section 11, T. 17 S., R. 41 W., Seward Meridian;

Thence southeasterly, along the northerly shore of the North Arm of Naknek Lake to the most southerly point of mainland in section 2, T. 18 S., R. 38 W., Seward Meridian;

Thence on an approximate forward bearing of S. 63° W., to the most easterly point of an island in the North Arm of Naknek Lake located in section 9, T. 18 S., R. 38 W., Seward Meridian;

Thence on an approximate forward bearing of S. 26° W., to the most northerly point on the mainland on the southern shore of Naknek Lake in section 16, T. 18 S., R. 38 W., Seward Meridian;

Thence westerly and southeasterly and westerly along the southerly shore of the North Arm of Naknek Lake and the shore of the Iliuk Arm of Naknek Lake closing the mouth of the Savonoski River and all other streams to a point on the left bank of Margot Creek located in section 33, T. 19 S., R. 38 W., Seward Meridian;

Thence southerly, along the left bank of Margot Creek to a point between sections 6 and 7, T. 20 S., R. 38 W., Seward Meridian;

Thence westerly, between sections 6 and 7, to a point 300 feet easterly of, and parallel to, the centerline of an existing road, located between sections 6 and 7, T. 20 S., R. 38 W., Seward Meridian;

Thence southeasterly, 300 feet from, and parallel to, the centerline of an existing road, to a point 300 feet from, and parallel to, the centerline of the road at its terminus;

Thence on a curve to the right, maintaining a radius of 300 feet from the terminus of the centerline of the road and parking area to a point 300 feet from, and parallel to, the centerline of the road at its terminus;

Thence southwesterly and northwesterly, 300 feet from, and parallel to, the centerline of an existing road, to a point on the east and west centerline of the southeast ¼ of section 7, T. 19 S., R. 39 W., Seward Meridian;

Thence westerly, on the east and west centerline of the south ½ of section 7, to a point on the easterly shore of Lake Brooks located in section 7, T. 19 S., R. 39 W., Seward Meridian;

Thence northerly, along the easterly shore of Lake Brooks, closing the stream which is the outlet of Lake Brooks, to a point between sections 7 and 12, T. 19 S., Rs. 39 and 40 W., Seward Meridian;

Thence northerly, between Rs. 39 and 40 W., to the south 1/16 section corner of sections 31 and 36, T. 18 S., Rs. 39 and 40 W., Seward Meridian;

Thence easterly, on the east and west centerlines of the south ½ of section 31 and the south ½ of section 32 to a point on the western shore of the Iliuk Arm of Naknek Lake located in section 32, T. 18 S., R. 39 W., Seward Meridian;

Thence westerly, northerly and southwesterly, along the shore of Naknek Lake and the left bank of the Naknek River to a point between sections 7 and 12, T. 18 S., Rs. 43 and 44 W., Seward Meridian;

Thence southerly, between Rs. 43 and 44 W., to the ¼ section corner of sections 1 and 6, T. 19 S., Rs. 43 and 44 W., Seward Meridian;

Thence on an approximate forward bearing of S. 89° E., to vertical angle bench mark "Contact" located in section 4, T. 19 S., R. 42 W., Seward Meridian, approximate elevation 1,156 feet;

Thence on an approximate forward bearing of S. 18° W., to the summit of a mountain located in sections 29 and 32, T. 19 S., R. 42 W., Seward Meridian, approximate elevation 1,125 feet;

Thence on an approximate forward bearing of S. 2° W., to vertical angle bench mark "Granite" located on a mountain in sections 11 and 2, T. 21 S., R. 43 W., Seward Meridian, approximate elevation 1,683 feet;

Thence on an approximate forward bearing of S. 30° E., to vertical angle bench mark "Red" located in the southeasterly portion of section 2, T. 23 S., R. 42 W., Seward Meridian, approximate elevation 1,721 feet;

Thence on an approximate forward bearing of S. 40° E., to vertical angle bench mark horizontal control station "Gert" located in the southwesterly portion of section 20, T. 23 S., R. 41 W., Seward Meridian, approximate elevation 1,141 feet;

Thence on an approximate forward bearing of S. 78° E., to the confluence of the King Salmon River, Takayofa Creek and Contact Creek located in the southeasterly portion of section 20, T. 23 S., R. 41 W., Seward Meridian;

Thence on an approximate forward bearing of S. 45° E., to the intersection of a ridge and the line between sections 13 and 18, T. 24 S., Rs. 40 and 41 W., Seward Meridian, approximate elevation 1,100 feet;

Thence southeasterly and easterly, along the crest of a ridge between the drainages of the King Salmon River and streams flowing into Becharof Lake, to a point between sections 14 and 23, T. 25 S., R. 38 W., Seward Meridian;

Thence easterly, between sections 14 and 23, 13 and 24, 18 and 19, 17 and 20, 16 and 21, to the corner of sections 15, 16, 21 and 22, T. 25 S., R. 37 W., Seward Meridian;

Thence on an approximate forward bearing of S. 32° E., to the summit of a mountain located in section 22, T. 25 S., R. 37 W., Seward Meridian, approximate elevation 2,267 feet;

Thence southerly, along the crest of a ridge between the drainages of streams flowing into Becharof Lake and streams flowing into Shelikof Strait, to the summit of a small mountain in the northwest ¼ of section 22, T. 26 S., R. 37 W., Seward Meridian, approximate elevation 1,748 feet;

Thence easterly and southeasterly, along the crest of a ridge to a point N. 40° W., of vertical angle bench mark "Kubugakli", located in section 6, T. 27 S., R. 35 W., Seward Meridian, approximate elevation 1,150 feet;

Thence S. 40° E., to vertical angle bench mark "Kubugakli", the point of beginning.

Included within the Katmai National Wilderness Area are all lands and waters in the foregoing wilderness boundary, except as specifically excluded below, in addition to all islands in the North Arm of Naknek Lake, all islands in Lake Coville and all islands, islets and rocks above the line of mean high tide, seaward within Katmai National Park, except those islands located in sections 28 (south ½), 32 and 33, T. 21 S., R. 30 W., Seward Meridian, sections 4, 5, 6 and 7, T. 22 S., R. 30 W., Seward Meridian, sections 1, 11 (east ½) and 12, T. 22 S., R. 31 W., Seward Meridian, sections 7, 8, 17 (northwest ¼) and 18, T. 24 S., R. 32 W., Seward Meridian, and section 12, T. 24 S., R. 33 W., Seward Meridian;

The following lands and waters are excluded from wilderness at Lake Coville:

Beginning at the corner of sections 1, 2, 11 and 12, T. 17 S., R. 38 W., Seward Meridian;

Thence westerly, between sections 2 and 11, to a point on the easterly shore of Lake Coville, between sections 2 and 11, T. 17 S., R. 38 W., Seward Meridian;

Thence northwesterly and southeasterly, along the shore of Lake Coville to the most northeasterly point of land on the south shore of the body of water separating Lake Coville and Lake Grosvenor in the west-central portion of section 12, T. 17 S., R. 38 W., Seward Meridian, on the westerly shore of Lake Grosvenor;

Thence due north, approximately 300 feet to a point at the line of mean high water on the northwesterly shore of Lake Grosvenor located in the west-central portion of section 12, T. 17 S., R. 38 W., Seward Meridian;

Thence northeasterly, along the shore of Lake Grosvenor, to a point between sections 1 and 12, T. 17 S., R. 38 W., Seward Meridian;

Thence westerly, between sections 1 and 12, to the corner of sections 1, 2, 11 and 12, T. 17 S., R. 38 W., Seward Meridian, the place of beginning.

*In Department of the Interior 1:250,000 scale map issued in 1981, incorrectly depicts this portion of the description.

Units of the National Wild and Scenic Rivers Systems Within the Katmai National Preserve

Section 601, Public Law 96–487 (ANILCA):

"Alagnak, Alaska.—That segment of the main stem and the major tributary to the Alagnak, the Nonvianuk River, within Katmai National Preserve; to be administered by the Secretary of the Interior."

Note: Pursuant to section 605(d) of ANILCA and as provided for under section 3(b) of the Wild and Scenic Rivers Act, the necessity for any river corridor boundaries for the Alagnak Wild River and its major tributary the Nonvianuk River, within the Katmai National Preserve, has been considered during the comprehensive conservation planning process for the preserve. In accordance with the General Management Plan for Katmai National Park and Preserve, approved November 7, 1986, no specific river corridor boundaries are deemed necessary for the Alagnak and Nonvianuk Rivers in order to protect the rivers and their immediate environments. Proposed management of the preserve meets and is compatible with management standards established by the Wild and Scenic Rivers Act. Boundaries for that portion of the Alagnak Wild River lying outside the Katmai National Preserve and designated by section 603, ANILCA, have been determined in a separate and complementary study and were published in the **Federal Register**, December 7, 1983, Volume 48, Number 236, Page 54,907.

The following U.S. Geological Survey 1:63,360 Series (Topographic) Quadrangle Maps were used in preparing the legal boundary descriptions for the Katmai National Park and Preserve and Katmai Wilderness:

Afognak, Alaska: (C–5) 1951 mr 1973; (C–6) 1951 mr 1973; (D–4) 1951 mr 1966; (D–5) 1951 mr 1972; (D–6) 1951 mr 1968.

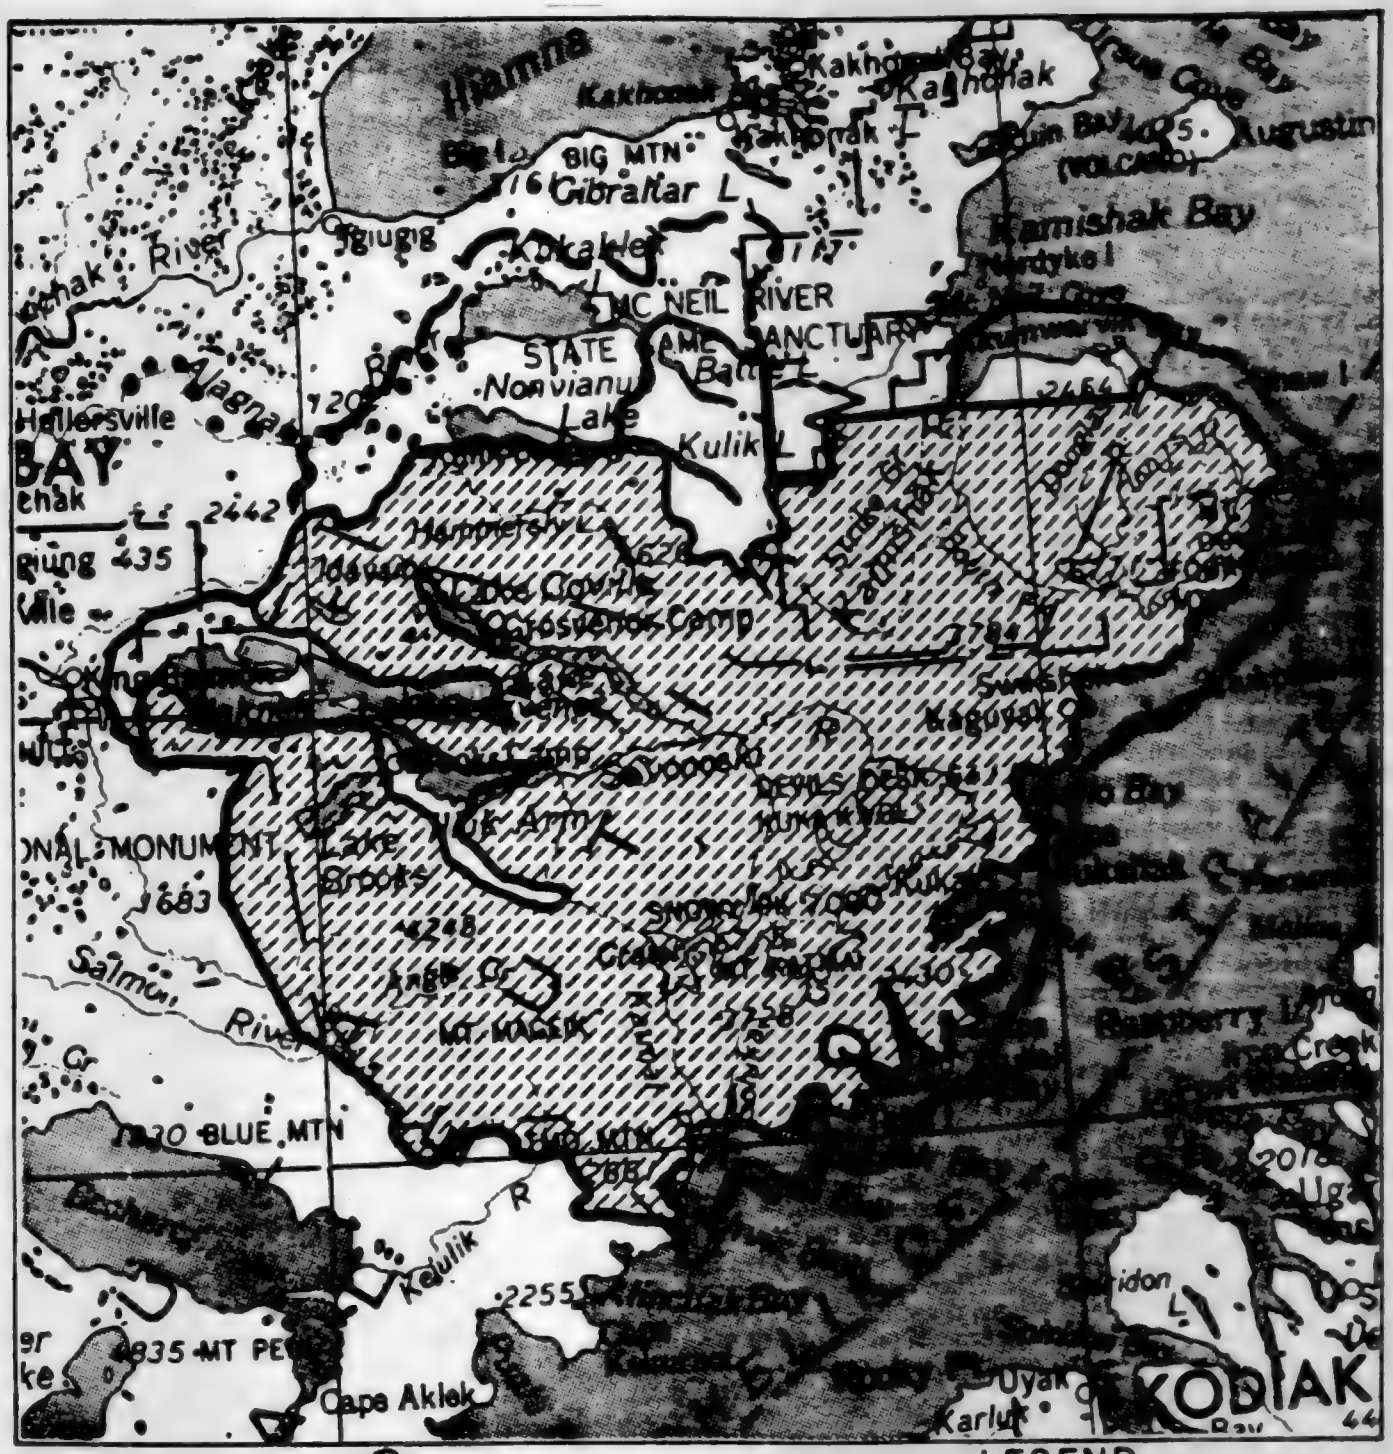
BILLING CODE 4310-70-F

KATMAI NATIONAL PARK AND PRESERVE

PUBLIC LAW 96-487



BILLING CODE 4310-70-C

Kenai Fjords National Park

Section 201(5), Public Law 96–487 (ANILCA):

Kenai Fjords National Park

Kenai Fjords National Park as generally depicted on a map numbered KEFJ–90,007, dated October 1978, consists of approximately five hundred and sixty-seven thousand acres of public lands, as defined in the ANILCA, within the following described boundary:

Beginning at the point between sections 13 and 18, T. 3 S., Rs. 1 and 2 W., Seward Meridian, at the line of mean high tide on Resurrection Bay, the Gulf of Alaska;

Thence northerly, between Rs. 1 and 2 W., to the closing corner of T. 1 S., Rs. 1 and 2 W., Seward Meridian;

Thence westerly, along the Seward Baseline, to the standard corner of T. 1 N., Rs. 1 and 2 W., Seward Meridian;

Thence northerly, between Rs. 1 and 2 W., to the thread of the Resurrection River (center of the main channel), T. 1 N., Rs. 1 and 2 W., Seward Meridian;

Thence northwesterly, along the thread of the Resurrection River and a common boundary with the Chugach National Forest, to the confluence of the Resurrection River with an unnamed stream flowing easterly into the Resurrection River and a point common with the Kenai National Wildlife Refuge boundary, located in section 34, T. 3 N., R. 3 W., Seward Meridian;

Thence on an approximate forward bearing of S. 30° W., departing from the common boundary with the Chugach National Forest, along a common boundary with the Kenai National Wildlife Refuge, to vertical angle bench mark "Menker", located in section 9, T. 2 N., R. 3 W., Seward Meridian, approximate elevation 3,205 feet;

Thence on an approximate forward bearing of S. 17° E., to the summit of a mountain located in the southwesterly portion of section 15, T. 2 N., R. 3 W., Seward Meridian, approximate elevation 5,107 feet;

Thence on an approximate forward bearing of S. 2° E., to the summit of a mountain located in the southwesterly portion of section 10, T. 1 N., R. 3 W., Seward Meridian, approximate elevation 5,300 feet;

Thence on an approximate forward bearing of S. 65° W., over Harding Ice Field, to the summit of a mountain located in section 9, T. 1 S., R. 5 W., Seward Meridian, approximate elevation 5,355 feet;

Thence on an approximate forward bearing of S. 18½° E., over Harding Ice Field, to the summit of a mountain located in section 25, T. 2 S., R. 5 W., Seward Meridian, approximate elevation 5,244 feet;

Thence on an approximate forward bearing of S. 47° W., over Harding Ice Field, to the summit of a mountain located in section 4, T. 4 S., R. 6 W., Seward Meridian, approximate elevation 5,873 feet;

Thence on an approximate forward bearing of S. 4° W., across Chernoff Glacier, to the summit of a mountain located in sections 5, 6, 31 and 32, Tps. 5 and 6 S., R. 6 W., Seward Meridian, approximate elevation 5,375 feet;

Thence N. 49½° W., to a point between Tps. 5 and 6 S., R. 6 W., Seward Meridian;

Thence westerly, between Tps. 5 and 6 S., to the corner of sections 4, 5, 32 and 33, Tps. 5 and 6 S., R. 8 W., Seward Meridian;

Thence southerly, between sections 4 and 5, to the corner of sections 4, 5, 8 and 9, T. 6 S., R. 8 W., Seward Meridian;

Thence westerly, between sections 5 and 8, 6 and 7, to the corner of sections 1, 6, 7 and 12, T. 6 S., Rs. 8 and 9 W., Seward Meridian;

Thence southerly, between Rs. 8 and 9 W., to the corner of sections 19, 24, 25 and 30, T. 6 S., Rs. 8 and 9 W., Seward Meridian;

Thence westerly, between sections 24 and 25, 23 and 26, 22 and 27, to the corner of sections 21, 22, 27 and 28, T. 6 S., R. 9 W., Seward Meridian;

Thence southerly, between sections 27 and 28, 33 and 34, 3 and 4, 9 and 10, to the corner of sections 9, 10, 15 and 16, T. 7 S., R. 9 W., Seward Meridian;

Thence westerly, between sections 9 and 16, to the corner of sections 8, 9, 16 and 17, T. 7 S., R. 9 W., Seward Meridian;

Thence southerly, between sections 16 and 17, 20 and 21, 28 and 29, 32 and 33, 4 and 5, to the corner of sections 4, 5, 8 and 9, T. 8 S., R. 9 W., Seward Meridian;

Thence westerly, between sections 5 and 8, to the corner of sections 5, 6, 7 and 8, T. 8 S., R. 9 W., Seward Meridian;

Thence southerly, between sections 7 and 8, 17 and 18, to the corner of sections 17, 18, 19 and 20, T. 8 S., R. 9 W., Seward Meridian;

Thence westerly, between sections 18 and 19, 13 and 24, 14 and 23, 15 and 22, to the corner of sections 15, 16, 21 and 22, T. 8 S., R. 10 W., Seward Meridian;

Thence southerly, between sections 21 and 22, 27 and 28, 33 and 34, to the standard corner of sections 33 and 34, T. 8 S., R. 10 W., Seward Meridian;

Thence easterly, departing from the common boundary with the Kenai National Wildlife Refuge, on the Second Standard Parallel South, to the standard corner of sections 34 and 35, T. 8 S., R. 9 W., Seward Meridian;

Thence on an approximate forward bearing of S. 34° E., to the vertical angle bench mark "Shoulder" on the summit of a mountain in the southwest portion of section 2, T. 9 S., R. 9 W., Seward Meridian, approximate elevation 3,255 feet;

Thence southwesterly, along the crest of a ridge between the Petrof Glacier basin and Nuka Passage to the summit of a mountain located near the center of section 28, T. 9 S., R. 9 W., Seward Meridian, approximate elevation 1,036 feet;

Thence on an approximate forward bearing of S. 53° W., to the corner of sections 28, 29, 32 and 33, T. 9 S., R. 9 W., Seward Meridian;

Thence southerly, between sections 32 and 33, to a point on the line of mean high tide on the left bank of an unnamed river flowing southeasterly into Nuka Passage, between sections 32 and 33, T. 9 S., R. 9 W., Seward Meridian;

Thence northeasterly along the line of mean high tide of the unnamed river and the Gulf of Alaska, to a point between sections 13 and 18, T. 3 S., Rs. 1 and 2 W., Seward Meridian, the point of beginning.

The Kenai Fjords National Park also includes all of Nuka Island above the line of mean high tide.

The following U.S. Geological Survey 1:63,360 Series (Topographic) Quadrangle Maps were used in preparing the legal boundary description for the Kenai Fjords National Park:

Blying Sound, Alaska: (C–7) 1952; (C–8) 1951 mr 1963; (D–7) 1951 mr 1972; (D–8) 1951 mr 1963.

Kenai, Alaska: (A–1) 1951 mr 1971.

Seldovia, Alaska: (B–1) 1953 mr 1973; (B–2) 1951 mr 1971; (B–3) 1951 mr 1971; (C–1) 1953; (C–2) 1953; (C–3) 1951 mr 1973; (D–1) 1951 mr 1979.

Seward, Alaska: (A–7) 1950 mr 1975; (A–8) 1951 mr 1973; (B–8) 1951 mr 1976.

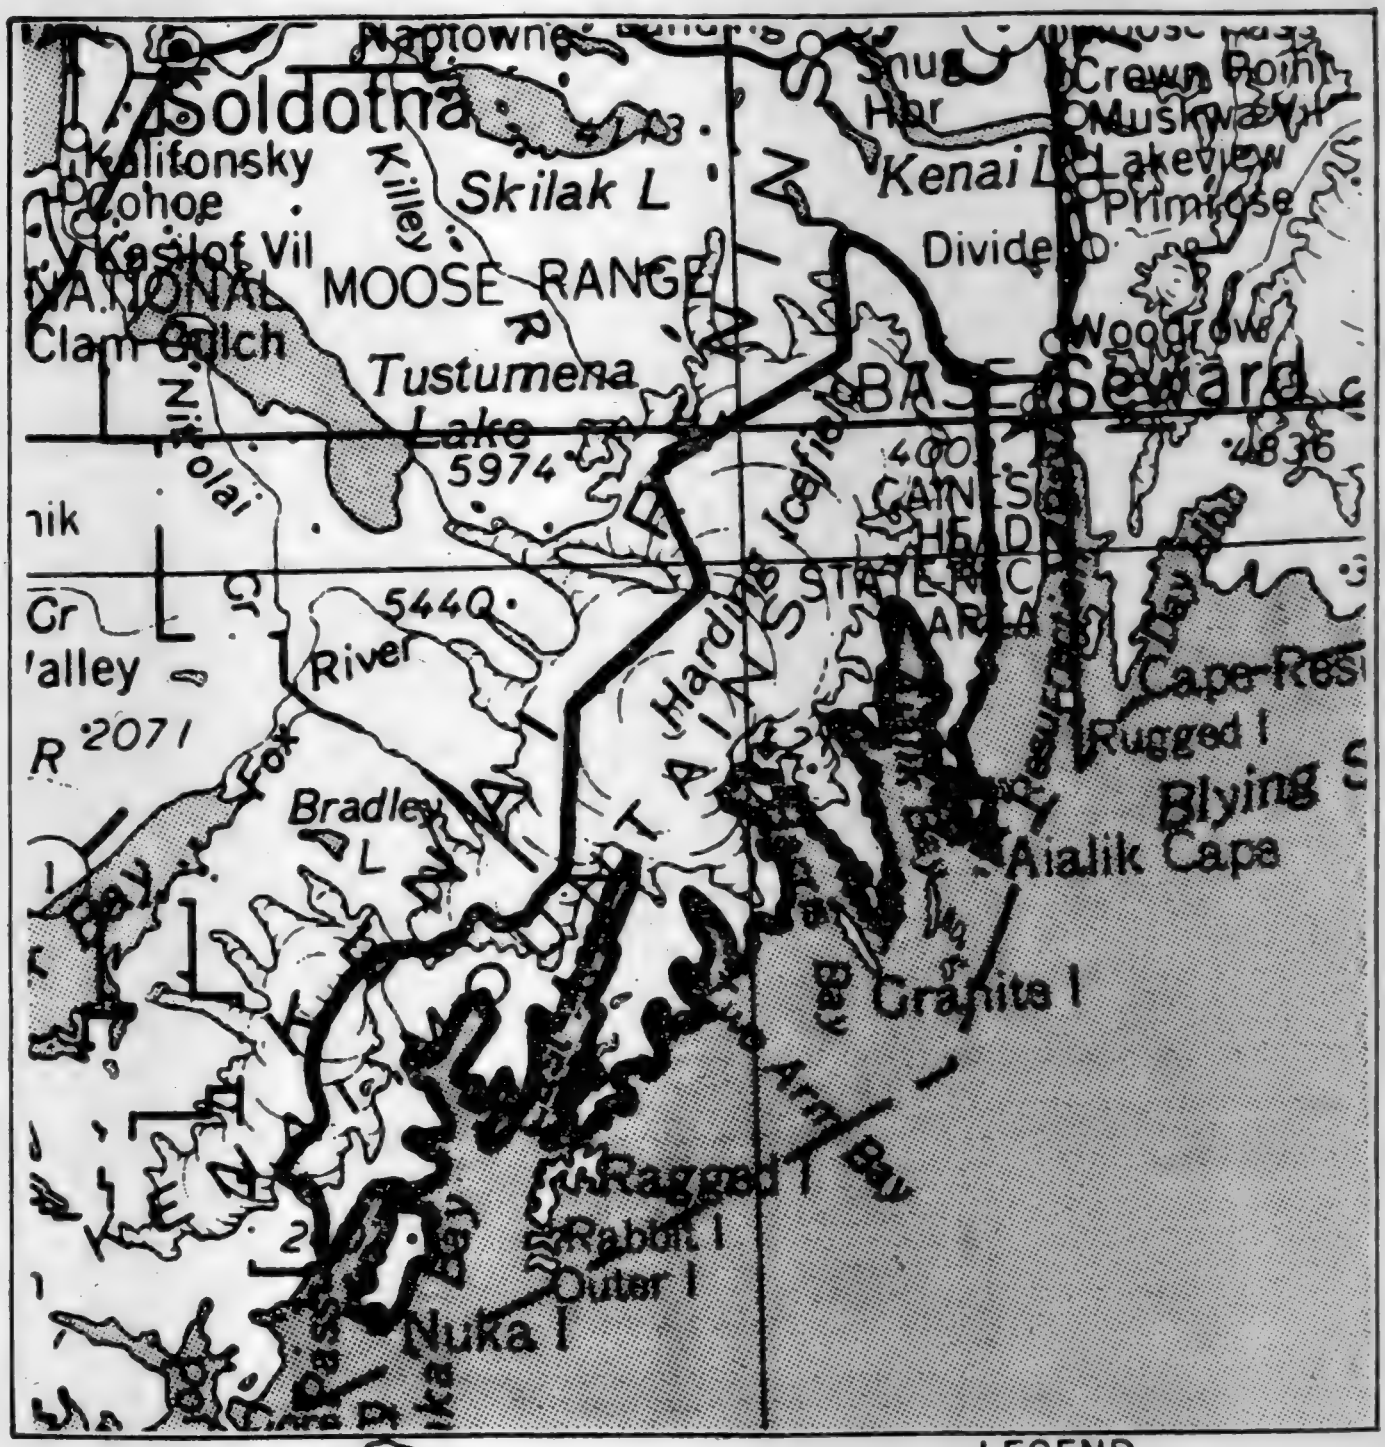
BILLING CODE 4310–70–F

KENAI FJORDS NATIONAL PARK

PUBLIC LAW 96-487



BILLING CODE 4310-70-C

Kobuk Valley National Park.

Section 201 (6), Public Law 96–487 (ANILCA):

Kobuk Valley National Park

Kobuk Valley National Park as generally depicted on a map numbered KOVA—90,009, dated october 1979, consists of approximately one million seven hundred and ten thousand acres of public lands, as defined in the ANILCA, within the following described boundary:

Beginning at the corner of sections 3, 4, 33 and 34, Tps. 18 and 19 N., R. 3 E., Kateel River Meridian;

Thence northerly, between sections 33 and 34, 27 and 28, 21 and 22, 15 and 16, 9 and 10, 3 and 4, departing from a common boundary with the Selawik National Wildlife Refuge, to the corner of sections 3, 4, 33 and 34, Tps. 19 and 20 N., R. 3 E., Kateel River Meridian;

Thence easterly, between Tps. 19 and 20 N., to the corner of sections 1, 2, 35 and 36, Tps. 19 and 20 N., R. 3 E., Kateel River Meridian;

Thence northerly, between sections 35 and 36, 25 and 26, 23 and 24, 13 and 14, to the corner of sections 11, 12, 13 and 14, T. 20 N., R. 3 E., Kateel River Meridian;

Thence westerly, between sections 11 and 14, 10 and 15, 9 and 16, 8 and 17, to the corner of sections 7, 8, 17 and 18, T. 20 N., R. 3 E., Kateel River Meridian;

Thence northerly, between sections 7 and 8, 5 and 6, to the closing corner of sections 5 and 6, T. 20 N., R. 3 E., Kateel River Meridian;

Thence westerly, along the Fifth Standard Parallel North, to the standard corner of T. 21 N., Rs. 2 and 3 E., Kateel River Meridian;

Thence northerly, between Rs. 2 and 3 E., to the corner of Tps. 21 and 22 N., Rs. 2 and 3 E., Kateel River Meridian;

Thence easterly, between Tps. 21 and 22 N., to a point due north of vertical angle bench mark "Jade", located in section 3, T. 21 N., R. 3 E., Kateel River Meridian, elevation 3,333 feet;

Thence due south to vertical angle bench mark "Jade", located in section 3, T. 21 N., R. 3 E., Kateel River Meridian, elevation 3,333 feet;

Thence easterly, along the crest of the Jade Mountains, between the drainages of Nuna Creek and Jade Creek and an unnamed tributary of the Kobuk River to the summit of a peak located in the southeasterly portion of section 5, T. 21 N., R. 4 E., Kateel River Meridian, approximate elevation 2,850 feet;

Thence on an approximate forward bearing of N. 30° E., to the summit of a small peak between Miluet Creek and Nuna Creek, located in the northern ½ of section 27, T. 22 N., R. 4 E., Kateel River Meridian, approximate elevation 1,825 feet;

Thence northerly, along the crest of a ridge between Miluet Creek and Nuna Creek to the summit of a mountain located in section 8, T. 23 N., R. 5 E., Kateel River Meridian, approximate elevation 3,515 feet;

Thence northwesterly along the crest of the Baird Mountains between the drainages of the Kobuk River and Noatak River, along a common boundary with the Noatak National Preserve, to the summit of a mountain located in the southwesterly portion of section 26, T. 25 N., R. 4 E., Kateel River Meridian, approximate elevation 3,000 feet;

Thence westerly along the crest of the Baird Mountains between the drainages of the Kobuk River and Noatak River to the summit of a mountain in sections 19 and 30, T. 25 N., R. 2 E., Kateel River Meridian, approximate elevation 3,522 feet;

Thence northwesterly and southwesterly along the crest of the Baird Mountains between the drainages of the Kobuk River and Noatak River to the summit of a mountain in section 14, T. 25 N., R. 2 W., Kateel River Meridian, approximate elevation 3,229 feet;

Thence northwesterly along the crest of the Baird Mountains between the drainages of the Kobuk River and the Noatak River to the summit of a mountain in section 33, T. 29 N., R. 5 W., Kateel River Meridian, approximate elevation 2,528 feet;

Thence southwesterly along the crest of the Baird Mountains between the drainages of the Kobuk River and the Noatak River to the summit of a mountain in sections 8 and 17, T. 25 N., R. 7 W., Kateel River Meridian, approximate elevation 3,200 feet;

Thence southerly, departing from the common boundary with the Noatak National Preserve, along the crest of a ridge between the drainages of the Squirrel River and the Salmon River, to the summit of a mountain located in the northwesterly portion of section 22, T. 25 N., R. 7 W., Kateel River Meridian, approximate elevation 2,750 feet;

Thence on an approximate forward bearing of S. 28° W., to the summit on the toe ridge in the southeasterly portion of section 21, T. 25 N., R. 7 W., Kateel River Meridian, approximate elevation 2,000 feet;

Thence on an approximate forward bearing of S. 38° E., to the summit of a mountain located in sections 34 and 35, T. 25 N., R. 7 W., Kateel River Meridian, approximate elevation 2,881 feet;

Thence southerly and southeasterly, along the crest of a ridge between the drainages of tributaries of the Squirrel River and Salmon River and Kallarichuk River, to the summit of a mountain in the northwesterly portion of section 35, T. 21 N., R. 7 W., Kateel River Meridian, approximate elevation 2,890 feet;

Thence southeasterly, along the crest of a ridge between tributaries of the Kallarichuk River to the easterly summit of a mountain located in section 11, T. 20 N., R. 6 W., Kateel River Meridian, approximate elevation 1,285 feet;

Thence on an approximate forward bearing of S. 40° E., to the corner of sections 13, 18, 19 and 24, T. 20 N., Rs. 5 and 6 W., Kateel River Meridian;

Thence southerly, between Rs. 5 and 6 W., to the ¼ corner of sections 25 and 30, T. 19 N., Rs. 5 and 6 W., Kateel River Meridian;

Thence southerly, along a common boundary with the Selawik National Wildlife Refuge, between Rs. 5 and 6 W., to a point on the crest of a ridge of the Waring Mountains located between sections 13 and 18, T. 18 N., Rs. 5 and 6 W., Kateel River Meridian, approximate elevation 900 feet;

Thence easterly, southeasterly and northeasterly, along the crest of the ridge and the crest of the Waring Mountains between the drainages of the Kobuk and Selawik Rivers, to the summit of a mountain located in the northwesterly portion of section 28, T. 18 N., R. 3 W., Kateel River Meridian, approximate elevation 975 feet;

Thence on an approximate forward bearing of S. 85° E., to the summit of a mountain located in the northerly portion of section 27, T. 18 N., R. 3 W., Kateel River Meridian, approximate elevation 800 feet;

Thence northeasterly, southerly, and easterly along the crest of the Waring Mountains, between the drainages of the Kobuk River and the Selawik River to the summit of a mountain located in section 24, T. 18 N., R. 2 W., Kateel River Meridian, approximate elevation 1,050 feet;

Thence on an approximate forward bearing of N. 30° E., to the summit of a mountain located in the northerly portion of section 18, T. 18 N., R. 1 W., Kateel River Meridian, approximate elevation 900 feet;

Thence northerly, easterly and southerly, along the crest of the Waring Mountains, between the drainages of the Kobuk River and Selawik River to the summit of a mountain located in the easterly portion of section 9, T. 18 N., R. 1 W., Kateel River Meridian, approximate elevation 950 feet;

Thence on an approximate forward bearing of S. 80° E., to the summit of a mountain located in sections 10 and 11, T. 18 N., R. 1 W., Kateel River Meridian, approximate elevation 1,150 feet;

Thence easterly and southeasterly, along the crest of the Waring Mountains between the drainages of the Kobuk River and the Selawik River to the summit of a ridge located in the northwesterly portion of section 12, T. 18 N., R. 2 E., Kateel River Meridian, approximate elevation 1,550 feet;

Thence on an approximate forward bearing of S. 40° E., to the corner of sections 7, 12, 13 and 18, T. 18 N., Rs. 2 and 3 E., Kateel River Meridian;

Thence southerly, between Rs. 2 and 3 E., to the south ⅛ section corner of sections 13 and 18, T. 18 N., Rs. 2 and 3 E., Kateel River Meridian;

Thence easterly, on the east and west centerline of the southwest ¼ of section 18 to the center south ⅛ section corner of section 18, T. 18 N., R. 3 E., Kateel River Meridian;

Thence northerly, on the north and south centerlines of sections 18 and 7, to the center ¼ section corner of section 7, T. 18 N., R. 3 E. Kateel River Meridian;

Thence easterly, on the east and west centerline of section 7, to the ¼ section corner of sections 7 and 8, T. 18 N., R. 3 E., Kateel River Meridian;

Thence northerly, between sections 7 and 8, to the corner of sections 5, 6, 7 and 8, T. 18 N., R. 3 E., Kateel River Meridian;

Thence on an approximate forward bearing of N. 50° E., to the summit of a mountain located in section 5, T. 18 N., R. 3 E., Kateel River Meridian, approximate elevation 1,215 feet;

Thence on an approximate forward bearing of S. 45° E., to the summit of a ridge located in the westerly portion of section 4, T. 18 N., R. 3 E., Kateel River Meridian, approximate elevation 1,050 feet;

Thence on an approximate forward bearing of N. 60° E., to the corner of sections 3, 4, 33

and 34, Tps. 18 and 19 N., R. 3 E., Kateel River Meridian, to the place of beginning.

Units of the National Wilderness Preservation System Within the Kobuk Valley National Park

Section 701(5), Public Law 96–487 (ANILCA):

Kobuk Valley Wilderness

The Kobuk Valley Wilderness as generally depicted on a map numbered KOVA–90,009, dated October 1979, consists of approximately one hundred and ninety thousand acres of public lands, as defined in the ANILCA, within the following described boundary:

Beginning at the corner of sections 3, 4, 33 and 34, Tps. 18 and 19 N., R. 3 E., Kateel River Meridian;

Thence northerly, between sections 33 and 34, 27 and 28, 21 and 22, to the corner of sections 15, 16, 21 and 22, T. 19 N., R. 3 E., Kateel River Meridian;

Thence westerly, between sections 16 and 21, 17 and 20, 18 and 19, 13 and 24, 14 and 23, 15 and 22, 16 and 21, 17 and 20, 18 and 19, to the corner of sections 13, 18, 19 and 24, T. 19 N., Rs. 1 and 2 E., Kateel River Meridian;

Thence northerly, between Rs. 1 and 2 E., to the corner of Tps. 19 and 20 N., Rs. 1 and 2 E., Kateel River Meridian;

Thence westerly, between Tps. 19 and 20 N., to the corner of Tps. 19 and 20 N., Rs 1 E. and 1 W., Kateel River Meridian;

Thence northerly, between Rs. 1 E. and 1 W., to a point between sections 31 and 36, T. 21 N., Rs. 1 E. and 1 W., Kateel River Meridian, on the left bank of the Kobuk River;

Thence southwesterly, along the line of mean high water on the left bank of the Kobuk River, to the left bank of the unnamed creek at its confluence with the Kobuk River, located in the southern portion of section 15, T. 20 N., R. 2 W., Kateel River Meridian;

Thence southerly, along the left bank of the unnamed creek to a point between sections 22 and 27, T. 20 N., R. 2 W., Kateel River Meridian;

Thence westerly, between sections 22 and 27, 21 and 28, 20 and 29, 19 and 30, to the corner of sections 19, 24, 25 and 30, T. 20 N., Rs. 2 and 3 W., Kateel River Meridian;

Thence southerly, between Rs. 2 and 3 W., to the corner of Tps. 18 and 19 N., Rs. 2 and 3 W., Kateel River Meridian;

Thence westerly, between Tps. 18 and 19 N., to the corner of Tps. 18 and 19 N., Rs. 5 and 6 W., Kateel River Meridian;

Thence southerly, between Rs. 5 and 6 W., to a point on the crest of a ridge of the Waring Mountains located between sections 13 and 18, T. 18 N., Rs. 5 and 6 W., Kateel River Meridian, approximate elevation 900 feet;

Thence easterly, southeasterly and northeasterly, along the crest of the ridge and the crest of the Waring Mountains between the drainages of the Kobuk and Selawik Rivers to the summit of a mountain located in the northwesterly portion of section 28, T. 18 N., R. 3 W., Kateel River Meridian, approximate elevation 975 feet;

Thence on an approximate forward bearing of S. 85° E., to the summit of a mountain located in the northerly portion of section 27, T. 18 N., R. 3 W., Kateel River Meridian, approximate elevation 800 feet;

Thence northeasterly, southerly, and easterly, along the crest of the Waring Mountains between the drainages of the Kobuk and Selawik Rivers to the summit of a mountain located in section 24, T. 18 N., R. 2 W., Kateel River Meridian, approximate elevation 1,050 feet;

Thence on an approximate forward bearing of N. 30° E., to the summit of a mountain located in the northerly portion of section 18, T. 18 N., R. 1 W., Kateel River Meridian, approximate elevation 900 feet;

Thence northerly, easterly and southerly, along the crest of the Waring Mountains, between the drainages of the Kobuk River and Selawik River to the summit of a mountain located in the easterly portion of section 9, T. 18 N., R. 1 W., Kateel River Meridian, approximate elevation 950 feet;

Thence on an approximate forward bearing of S. 80° E., to the summit of a mountain located in sections 10 and 11, T. 18 N., R. 1 W., Kateel River Meridian, approximate elevation 1,150 feet;

Thence easterly and southeasterly, along the crest of the Waring Mountains between the drainages of the Kobuk River and the Selawik River to the summit of a ridge located in the northwesterly portion of section 12, T. 18 N., R. 2 E., Kateel River Meridian, approximate elevation 1,550 feet;

Thence on an approximate forward bearing of S. 40° E., to the corner of sections 7, 12, 13 and 18, T. 18 N., Rs. 2 and 3 E., Kateel River Meridian;

Thence southerly between Rs. 2 and 3 E., to the south 1/16 section corner of sections 13 and 18, T. 18 N., Rs. 2 and 3 E., Kateel River Meridian;

Thence easterly, on the east and west centerline of the southwest 1/4 of section 18 to the center south 1/16 section corner of section 18, T. 18 N., R. 3 E., Kateel River Meridian;

Thence northerly, on the north and south centerlines of sections 18 and 7, to the center 1/4 section corner of section 7, T. 18 N., R. 3 E., Kateel River Meridian;

Thence easterly, on the east and west centerline of section 7, to the 1/4 section corner of sections 7 and 8, T. 18 N., R 3 E., Kateel River Meridian;

Thence northerly, between sections 7 and 8, to the corner of sections 5, 6, 7 and 8, T. 18 N., R. 3 E., Kateel River Meridian;

Thence on an approximate forward bearing of N. 50° E., to the summit of a mountain located in section 5, T. 18 N., R. 3 E., Kateel River Meridian, approximate elevation 1,215 feet;

Thence on an approximate forward bearing of S. 45° E., to the summit of a ridge located in the westerly portion of section 4, T. 18 N., R. 3 E., Kateel River Meridian, approximate elevation 1,050 feet;

Thence on an approximate forward bearing of N. 60° E., to the corner of sections 3, 4, 33 and 34, Tps. 18 and 19 N., R. 3 E., Kateel River Meridian, the place of beginning.

Units of the National Wild and Scenic Rivers System Within the Kobuk Valley National Park

Section 601, Public Law 96–487 (ANILCA):

"Salmon, Alaska.—That portion within the Kobuk Valley National Park; to be administered by the Secretary of the Interior."

Note: Pursuant to section 605(d) of ANILCA and as provided for under section 3(b) of the Wild and Scenic Rivers Act, the necessity for any river corridor boundaries for the Salmon Wild River within the Kobuk Valley National Park has been considered during the comprehensive conservation planning process for the park. In accordance with the General Management Plan for Kobuk Valley National Park, approved November 7, 1986, no specific river corridor boundaries are deemed necessary for the Salmon Wild River in order to protect the river and its immediate environments. Proposed management of the park meets and is compatible with management standards established by the Wild and Scenic Rivers Act.

The following U. S. Geological Survey 1:63,360 Series (Topographic) quadrangle maps were used in preparing the legal boundary descriptions for the Kobuk Valley National Park and the Kobuk Valley Wilderness Area:

Ambler River, Alaska: (A–5) 1955 mr 1971; (A–6) 1955 mr 1967; (B–4) pe 1990; (B–5) pe 1990; (C–4) pe 1990; (C–5) pe 1990; (C–6) pe 1990.

Baird Mountains, Alaska: (A–1) 1955 mr 1964; (A–2) 1955 mr 1964; (A–3) 1955; (B–3) 1955; (C–1) pe 1990; (C–3) 1955; (D–1) pe 1990; (D–2) pe 1990; (D–3) 1955.

Selawik, Alaska: (D–1) 1955 mr 1967; (D–2) 1955 mr 1973.

Shungnak, Alaska: (D–5) 1955 mr 1973; (D–6) 1955 mr 1973.

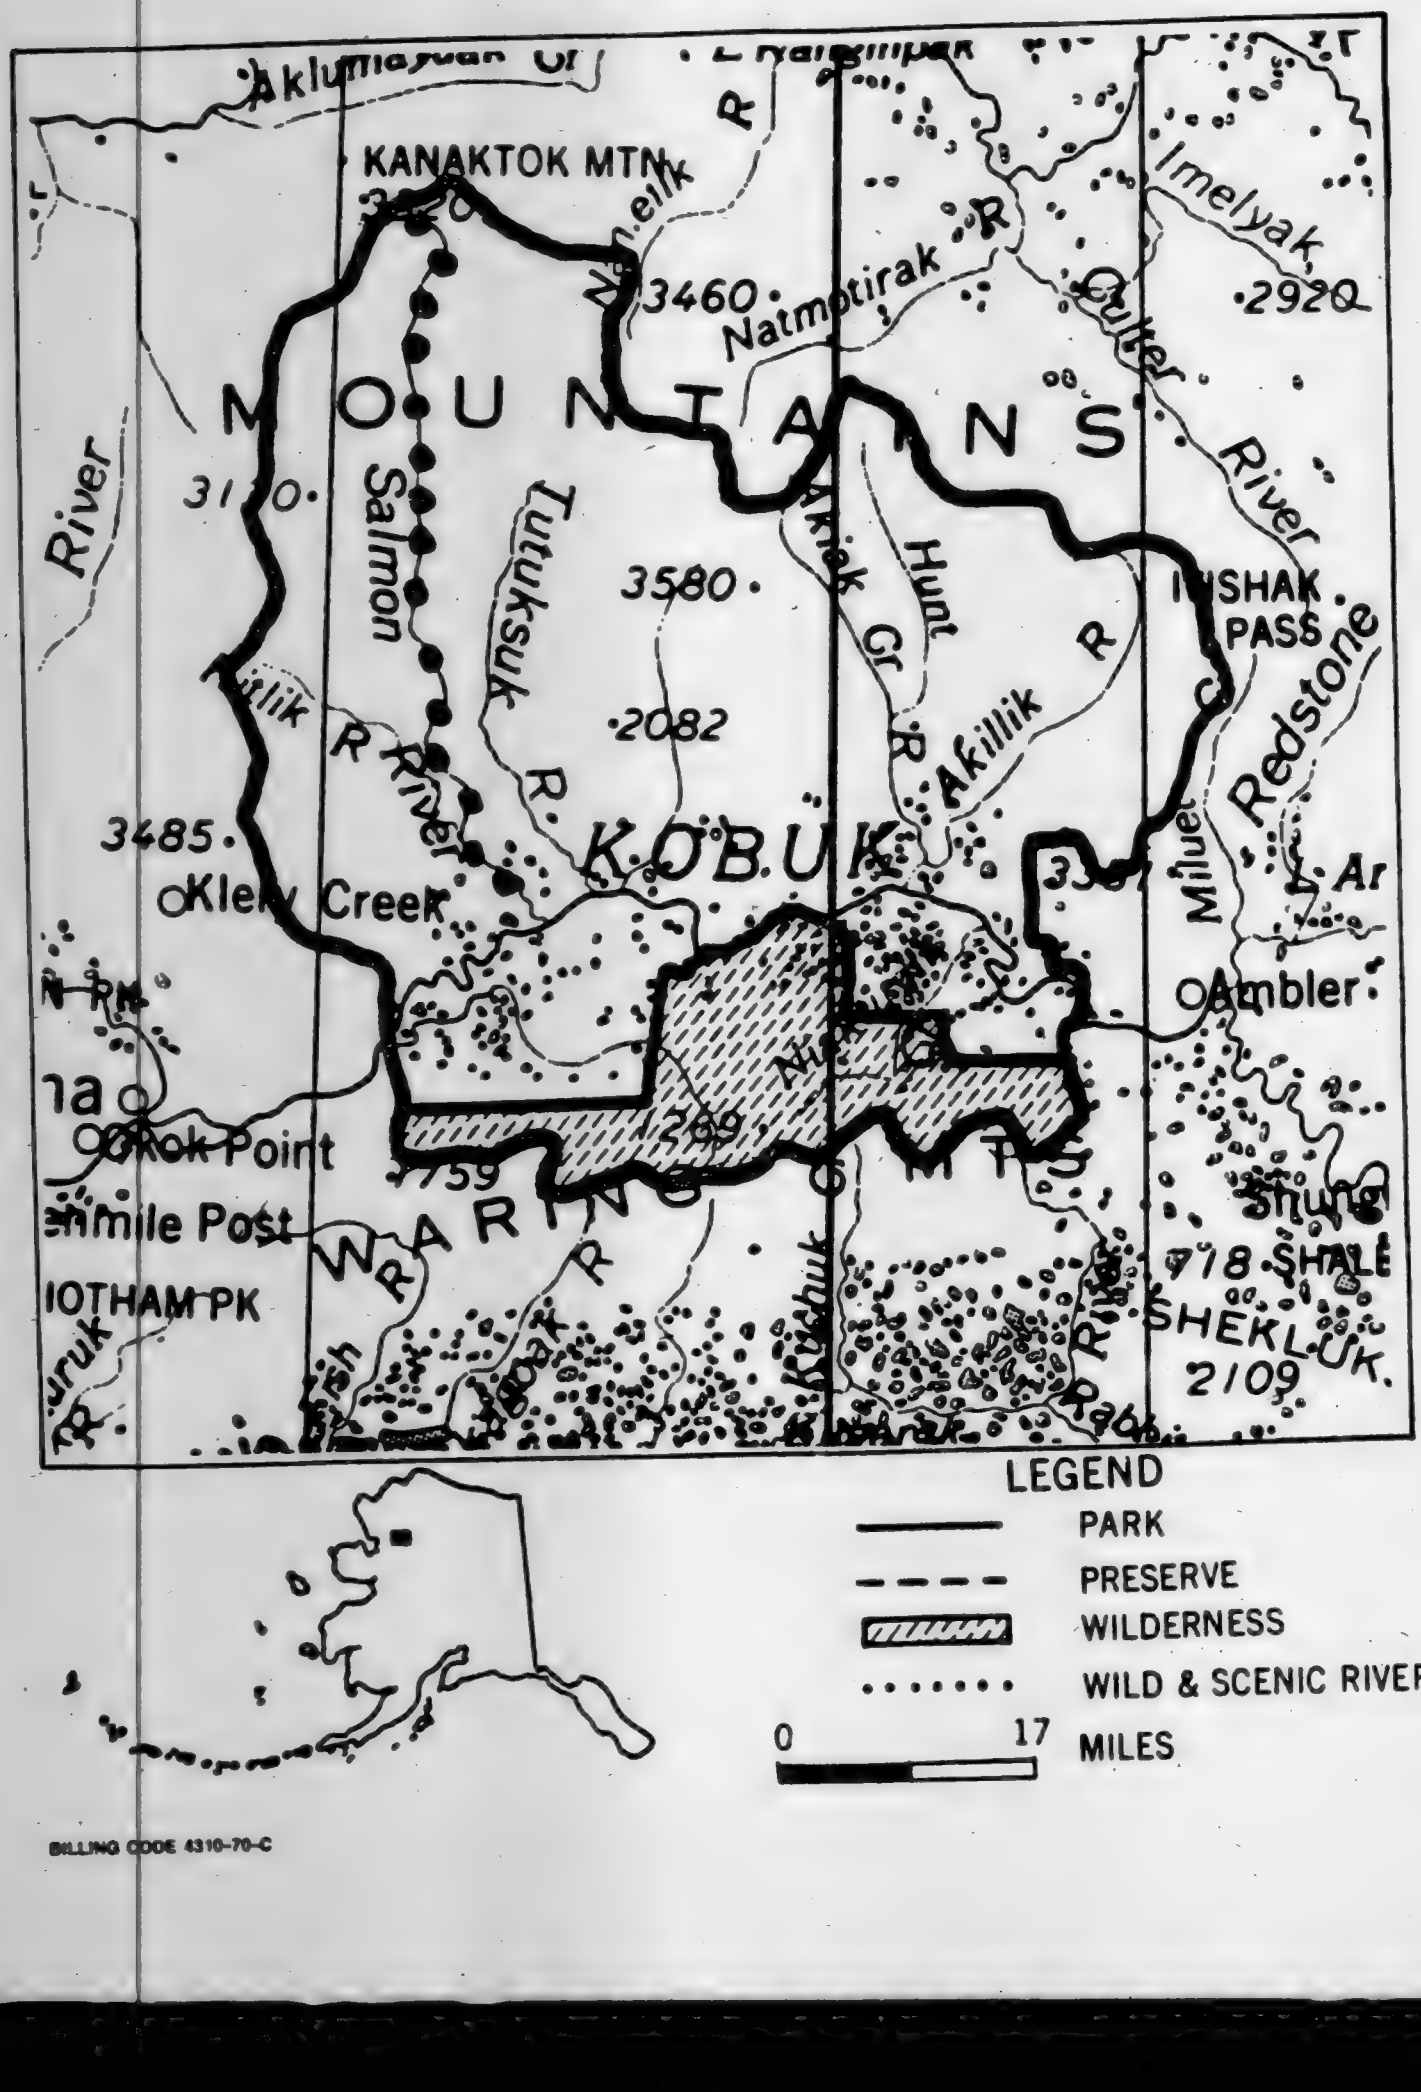
KOBUK VALLEY NATIONAL PARK

PUBLIC LAW 96-487



BILLING CODE 4310-70-C

Lake Clark National Park and Preserve

Section 201(7)(a), Public Law 96–487 (ANILCA):

Lake Clark National Park

Lake Clark National Park as generally depicted on a map numbered LACL–90,008, dated October 1978, consists of approximately two million four hundred thirty-nine thousand acres of public lands, as defined in the ANILCA, within the following described boundary:

Beginning at the meander corner of sections 3 and 34, Tps. 2 and 3 N., R. 18 W., Seward Meridian, at the line of mean high tide on Cook Inlet;

Thence westerly, between Tps. 2 and 3 N., to the corner of sections 5, 6, 31 and 32, Tps. 2 and 3 N., R. 18 W., Seward Meridian;

Thence northerly, between sections 31 and 32, to the corner of sections 29, 30, 31 and 32, T. 3 N., R. 18 W., Seward Meridian;

Thence westerly, between sections 30 and 31, to the corner of sections 25, 30, 31 and 36, T. 3 N., Rs. 18 and 19 W., Seward Meridian;

Thence northerly, between Rs. 18 and 19 W., to the ¼ section corner of sections 19 and 24, T. 3 N., Rs. 18 and 19 W., Seward Meridian;

Thence westerly, on the east and west centerline of section 24, to the ¼ section corner of sections 23 and 24, T. 3 N., R. 19 W., Seward Meridian;

Thence northerly, between sections 23 and 24, 13 and 14, 11 and 12, 1 and 2, 35 and 36, 25 and 26, 23 and 24, 13 and 14, 11 and 12, 1 and 2, to the closing corner of sections 1 and 2, T. 4 N., R. 19 W., Seward Meridian;

Thence westerly, on the First Standard Parallel North, to the standard corner of T. 5 N., Rs. 18 and 19 W., Seward Meridian;

Thence northerly, between Rs. 18 and 19 W., to the corner of Tps. 5 and 6 N., Rs. 18 and 19 W., Seward Meridian;

Thence easterly, between Tps. 5 and 6 N., to the corner of sections 3, 4, 33 and 34, Tps. 5 and 6 N., R. 18 W., Seward Meridian;

Thence northerly, between sections 33 and 34, 27 and 28, 21 and 22, 15 and 16, 9 and 10, 3 and 4, 33 and 34, 27 and 28, 21 and 22, 15 and 16, 9 and 10, 3 and 4, 33 and 34, 27 and 28, 21 and 22, to the corner of sections 15, 16, 21 and 22, T. 8 N., R. 18 W., Seward Meridian;

Thence westerly, between sections 16 and 21, 17 and 20, 18 and 19, 13 and 24, 14 and 23, 15 and 22, 16 and 21, 17 and 20, 18 and 19, to the corner of sections 13, 18, 19 and 24, T. 8 N., Rs. 19 and 20 W., Seward Meridian;

Thence northerly, between Rs. 19 and 20 W., to the closing corner of T. 8 N., Rs. 19 and 20 W., Seward Meridian;

Thence easterly, on the Second Standard Parallel North, to the standard corner of T. 9 N., Rs. 17 and 18 W., Seward Meridian;

Thence northerly, between Rs. 17 and 18 W., to the corner of sections 13, 18, 19 and 24, T. 9 N., Rs. 17 and 18 W., Seward Meridian;

Thence easterly, between sections 18 and 19, 17 and 20, 16 and 21, 15 and 22, 14 and 23, 13 and 24, to the corner of sections 13, 18, 19 and 24, T. 9 N., Rs. 16 and 17 W., Seward Meridian;

Thence northerly, between Rs. 16 and 17 W., to the corner of Tps. 9 and 10 N., Rs. 16 and 17 W., Seward Meridian;

Thence westerly, between Tps. 9 and 10 N., to the corner of Tps. 9 and 10 N., Rs. 20 and 21 W., Seward Meridian;

Thence northerly, between Rs. 20 and 21 W., to the closing corner of T. 12 N., Rs. 20 and 21 W., Seward Meridian;

Thence westerly, on the Third Standard Parallel North, to the standard corner of T. 13 N., Rs. 20 and 21 W., Seward Meridian;

Thence northerly, between Rs. 20 and 21 W., to the closing corner of T. 16 N., Rs. 20 and 21 W., Seward Meridian;

Thence westerly, on the Fourth Standard Parallel North, to the closing corner of T. 16 N., Rs. 23 and 24 W., Seward Meridian;

Thence southerly, between Rs. 23 and 24 W., to the crest of a ridge between sections 19 and 24, T. 16 N., Rs. 23 and 24 W., Seward Meridian, approximate elevation 6,400 feet;

Thence easterly, northeasterly and southeasterly, along a common boundary with the Lake Clark National Preserve, along the crest of a ridge, between the Stony River and South Fork of the Kuskokwim River drainages, to the summit of a peak in the westerly portion of section 20, T. 16 N., R. 23 W., Seward Meridian, approximate elevation 6,686 feet;

Thence on an approximate forward bearing of N. 81° E., to the summit of a peak in the westerly portion of section 21, T. 16 N., R. 23 W., Seward Meridian, approximate elevation 6,515 feet;

Thence southerly, easterly and southwesterly, along the crest of a ridge, between the Stony River and South Fork of the Kuskokwim River and Chilligan River drainages, to a point between sections 32 and 33, T. 16 N., R. 23 W., Seward Meridian;

Thence southerly, between sections 32 and 33, to the corner of sections 4, 5, 32 and 33, Tps. 15 and 16 N., R. 23 W., Seward Meridian;

Thence easterly, between Tps. 15 and 16 N., to the crest of a ridge between the Stony River and Chilligan River drainages, between sections 3 and 34, Tps. 15 and 16 N., R. 23 W., Seward Meridian, approximate elevation 5,000 feet;

Thence easterly, southerly, southwesterly and southeasterly, along the crest of a ridge, between the Stony River, Necons River and Chilligan River drainages, to the summit of a peak in the northwesterly portion of section 35, T. 15 N., R. 23 W., Seward Meridian, approximate elevation 7,375 feet;

Thence on an approximate forward bearing of S. 71° E., to a point at the most northerly end of an unnamed lake in the southerly portion of section 36, T. 15 N., R. 23 W., Seward Meridian;

Thence on an approximate forward bearing of S. 63° E., to the summit of a peak in the northwesterly portion of section 6, T. 14 N., R. 22 W., Seward Meridian, approximate elevation 5,277 feet;

Thence southeasterly, southwesterly and southeasterly, along the crest of a ridge, between the Necons River, Merrill River, Chilligan River and Igitna River drainages, to the summit of a peak in the westerly portion of section 24, T. 13 N., R. 23 W., Seward Meridian, approximate elevation 5,310 feet;

Thence on an approximate forward bearing of S. 42° E., to a point on the northeasterly end of a small unnamed lake on Merrill Pass, in the southerly portion of section 24, T. 13 N., R. 23 W., Seward Meridian;

Thence on an approximate forward bearing of S. 12° E., to the summit of a peak in the easterly portion of section 25, T. 13 N., R. 23 W., Seward Meridian, approximate elevation 5,290 feet;

Thence southwesterly, westerly and southerly, along the crest of a ridge, between the Merrill River, Necons River, Telaquana River, Another River, and Neacola River drainages, to the summit of a peak in the southerly portion of section 22, T. 10 N., R. 24 W., Seward Meridian, approximate elevation 6,300 feet;

Thence on an approximate forward bearing of N. 77° E., to the summit of a peak in the westerly portion of section 24, T. 10 N., R. 24 W., Seward Meridian, approximate elevation 3,960 feet;

Thence southerly and westerly, along the crest of a ridge, between the Telaquana River and Neacola River drainages, to the summit of a peak in the central portion of section 2, T. 9 N., R. 24 W., Seward Meridian; approximate elevation 6,410 feet;

Thence on an approximate forward bearing of South, to the summit of a peak in the southerly portion of section 11, T. 9 N., R. 24 W., Seward Meridian; approximate elevation 6,220 feet;

Thence southerly and westerly, along the crest of a ridge, to the summit of a peak in the westerly portion of section 14, T. 9 N., R. 24 W., Seward Meridian; approximate elevation 5,800 feet;

Thence on an approximate forward bearing of S. 20° E., to the summit of a peak in the southeasterly portion of section 23, T. 9 N., R. 24 W., Seward Meridian, approximate elevation 5,655 feet;

Thence southerly and westerly, along the crest of a ridge, between the Telaquana River, Trail Creek, Tlikakila River, Twin Lakes and Turquoise Lake drainages, to a point between sections 26 and 35, T. 9 N., R. 26 W., Seward Meridian;

Thence westerly, between sections 26 and 35, 27 and 34, 28 and 33, 29 and 32, 30 and 31, 25 and 36, 26 and 35, 27 and 34, 28 and 33, to the crest of a ridge between the Summit Creek and Turquoise Lake drainages, between sections 28 and 33, T. 9 N., R. 27 W., Seward Meridian, approximate elevation 3,295 feet;

Thence southwesterly, along the crest of a ridge, between the Summit Creek and Turquoise Lake drainages, to a point on the east and west centerline of section 33, T. 9 N., R. 27 W., Seward Meridian;

Thence westerly, on the east and west centerline of section 33, to the ¼ section corner of sections 32 and 33, T. 9 N., R. 27 W., Seward Meridian;

Thence southerly, between sections 32 and 33, to the standard corner of sections 32 and 33, T. 9 N., R. 27 W., Seward Meridian;

Thence westerly, on the Second Standard Parallel North, to the closing corner of T. 8 N., Rs. 27 and 28 W., Seward Meridian;

Thence southerly, between Rs. 27 and 28 W., to the crest of a ridge between the Chilikadrotna River and College Creek drainages between sections 1 and 6, T. 5 N., Rs. 27 and 28 W., Seward Meridian, approximate elevation 3,700 feet;

Thence easterly, along the crest of a ridge, between the Chilikadrotna River and College Creek drainages, to the summit of a peak in the central portion of section 11, T. 5 N., R. 27 W., Seward Meridian, approximate elevation 4,281 feet;

Thence on an approximate forward bearing of S. 20° E., to the summit of a peak in the southwesterly portion of section 31, T. 5 N., R. 26 W., Seward Meridian, approximate elevation 4,211 feet;

Thence easterly, along the crest of a ridge, between the Portage Lake and Kijik River drainages, to the summit of a peak in the southerly portion of section 33, T. 5 N., R. 26 W., Seward Meridian, approximate elevation 4,150 feet;

Thence on an approximate forward bearing of South, to the summit of a peak in the southwesterly portion of section 8, T. 4 N., R. 26 W., Seward Meridian, approximate elevation 4,800 feet;

Thence southerly and westerly, along the crest of a ridge, between the Kijik River and other Lake Clark drainages, to the saddle in the ridge northeasterly of the headwaters of Portage Creek in the northerly portion of section 28, T. 4 N., R. 27 W., Seward Meridian, approximate elevation 3,150 feet;

Thence southwesterly, to the headwaters of Portage Creek in the northerly portion of section 28, T. 4 N., R. 27 W., Seward Meridian;

Thence southwesterly and southerly, along the right bank of Portage Creek, to the mouth of Portage Creek on the shore of Lake Clark at the line of mean high water in section 17, T. 3 N., R. 27 W., Seward Meridian;

Thence southwesterly, along the line of mean high water of Lake Clark, to the right bank at the mouth of the most easterly unnamed creek in section 10, T. 2 N., R. 29 W., Seward Meridian;

Thence on an approximate forward bearing of S. 35° E., crossing Lake Clark, to the most southwesterly point of Tommy Island, in section 24, T. 2 N., R. 29 W., Seward Meridian;

Thence southeasterly, along the shore of Tommy Island, to the most southerly point of Tommy Island, in section 25, T. 2 N., R. 29 W., Seward Meridian;

Thence on an approximate forward bearing of S. 30° E., crossing Lake Clark, to a point on the left bank at the mouth of Tommy Creek on the southeast shore of Lake Clark at the line of mean high water in section 25, T. 2 N., R. 29 W., Seward Meridian;

Thence southerly, along the shore of Lake Clark, along the line of mean high water, to the left bank at the mouth of an unnamed creek on the southeast shore of Lake Clark, in the northeasterly portion of section 36, T. 2 N., R. 29 W., Seward Meridian;

Thence on an approximate forward bearing of S. 12° E., to the summit of a peak in the southeasterly portion of section 1, T. 1 N., R. 29 W., Seward Meridian, approximate elevation 3,904 feet;

Thence on an approximate forward bearing of S. 40° W., to the summit of a peak in the northwesterly portion of section 27, T. 1 N., R. 29 W., Seward Meridian, approximate elevation 3,460 feet;

Thence on an approximate forward bearing of S. 1° E., to the summit of a peak in the southerly portion of section 27, T. 1 N., R. 29 W., Seward Meridian, approximate elevation 3,400 feet;

Thence on an approximate forward bearing of S. 50° W., to the summit of a peak in the central portion of section 33, T. 1 N., R. 29 W., Seward Meridian, approximate elevation 4,140 feet;

Thence southerly, easterly, southeasterly and southerly, along the crest of the divide between the Tazimina River and the Tanalian River, Takoka Creek, Brooks Creek and Pile River drainages, to the summit of a peak in the easterly portion of section 27, T. 2 S., R. 26 W., Seward Meridian, approximate elevation 4,750 feet;

Thence on an approximate forward bearing of S. 45° E., departing from the common boundary with the Lake Clark National Preserve, to the summit of a peak in the southwesterly portion of section 6, T. 3 S., R. 25 W., approximate elevation 4,500 feet;

Thence easterly, northeasterly and southerly, along the crest of a ridge, between the tributaries of the Pile River and the tributaries of the Iliamna River drainages, to the summit of a peak in the easterly portion of section 2, T. 3 S., R. 25 W., Seward Meridian, approximate elevation 4,300 feet;

Thence on an approximate forward bearing of S. 50° E., to the summit of a peak in the central portion of section 17, T. 3 S., R. 24 W., Seward Meridian, approximate elevation 3,350 feet;

Thence northeasterly and southeasterly, along the crest of a ridge between the Iliamna River, Iniskin River, Clearwater Creek, and Chinitna River and the Holland Creek and Tooie Creek drainages, to the summit of a peak in the southwesterly portion of section 5, T. 4 S., R. 23 W., Seward Meridian, approximate elevation 2,507 feet;

Thence southerly, along the crest of a ridge, between the Marsh Creek and an unnamed creek drainages, to a point between sections 5 and 8, T. 4 S., R. 23 W., Seward Meridian;

Thence easterly, between sections 5 and 8, 4 and 9, to the meander corner of sections 4 and 9, T. 4 S., R. 23 W., Seward Meridian, at the line of mean high tide of Chinitna Bay;

Thence easterly, northerly, northwesterly, southeasterly and northeasterly, along the line of mean high tide of Chinitna Bay, Cook Inlet and Tuxedni Bay, including the islands in sections 5, 6, 7 and 8, T. 2 S., R. 19 W., in sections 1, 2 and 12, T. 2 S., R. 20 W., in sections 25, 26 and 36, T. 2 N., R. 20 W., in sections 30 and 31, T. 2 N., R. 19 W., and within T. 2 N., Rs. 21 and 22 W., and T. 3 N., R. 21 W., Seward Meridian, to the meander corner of sections 3 and 34, Tps. 2 and 3 N., R. 18 W., Seward Meridian, the place of beginning.

Lake Clark National Park includes only those lands, islands, islets, rocks and spires above the line of mean high tide.

Lake Clark National Preserve

Lake Clark National Preserve as generally depicted on a map numbered LACL–90,008, dated October 1978, consists of approximately one million two hundred and fourteen thousand acres of public lands, as defined in the ANILCA, within the following described boundary:

Beginning at the summit of a peak in the easterly portion of section 27, T. 2 S., R. 26 W., Seward Meridian, approximate elevation 4,750 feet;

Thence southerly and westerly, departing from a common boundary with the Lake Clark National Park, along the crest of a ridge, between the Pile River and Tazimina Lakes drainages, to the summit of a peak in the northwesterly portion of section 36, T. 2 S., R. 27 W., Seward Meridian, approximate elevation 4,480 feet;

Thence on an approximate forward bearing of N. 74° W., to the summit of a peak in the southwesterly portion of section 27, T. 2 S., R. 27 W., Seward Meridian, approximate elevation 4,500 feet;

Thence southerly and westerly, along the crest of a ridge, between the Pile River and Tazimina River drainages, to the summit of a peak in the northerly portion of section 18, T. 3 S., R. 27 W., Seward Meridian, approximate elevation 4,055 feet;

Thence on an approximate forward bearing of N. 83° W., to the summit of a peak in the northeasterly portion of section 14, T. 3 S., R. 28 W., Seward Meridian, approximate elevation 3,800 feet;

Thence northerly and westerly, along the crest of a ridge, between the Canyon Creek and Tazimina River drainages, to the summit of a peak in the northwesterly portion of section 31, T. 2 S., R. 28 W., Seward Meridian, approximate elevation 4,320 feet;

Thence on an approximate forward bearing of N. 69° W., to the summit of a peak in the northwesterly portion of section 26, T. 2 S., R. 29 W., Seward Meridian, approximate elevation 1,852 feet;

Thence on an approximate forward bearing of N. 75° W., to the meander corner of sections 21 and 22, T. 2 S., R. 29 W., Seward Meridian, at the line of mean high water of Chekok Lake;

Thence on an approximate forward bearing of N. 66° W., to the summit of a peak in the northwesterly portion of section 20, T. 2 S., R. 29 W., Seward Meridian, approximate elevation 3,508 feet;

Thence southwesterly, along the crest of the divide between the Chekok Creek and Tazimina River drainages, to a point on the crest of a ridge between sections 20 and 29, T. 3 S., R. 30 W., Seward Meridian;

Thence westerly, between sections 20 and 29, 19 and 30, 24 and 25, 23 and 26, 22 and 27, 21 and 28, to the ¼ section corner of sections 21 and 28, T. 3 S., R. 31 W., Seward Meridian;

Thence southerly, along the north and south centerline of section 28, to the center ¼ section corner of section 28, T. 3 S., R. 31 W., Seward Meridian;

Thence westerly, along the east and west centerlines of sections 28 and 29, to the center ¼ section corner of section 29, T. 3 S., R. 31 W., Seward Meridian;

Thence southerly, along the north and south centerlines of sections 29, 32 and 5, to a point on the crest of a ridge on Roadhouse Mountain, in the northerly portion of section 5, T. 4 S., R. 31 W., Seward Meridian, approximate elevation 2,925 feet;

Thence southwesterly and northwesterly, along the top of Roadhouse Mountain, to the summit of a peak in the easterly portion of

section 1, T. 4 S., R. 32 W., Seward Meridian, approximate elevation 2,600 feet;

Thence on an approximate forward bearing of N. 43° W., to the confluence of unnamed creeks which are tributaries to Alexcy Lake, in the northerly portion of section 35, T. 3 S., R. 32 W., Seward Meridian;

Thence westerly, along the left bank of an unnamed creek, which is a tributary to Alexcy Lake and along said creek to a point at the mouth of the creek on the easterly shore of Alexcy Lake in the easterly portion of section 26, T. 3 S., R. 32 W., Seward Meridian;

Thence northerly and westerly, along the line of mean high water of Alexcy Lake, to the meander corner of sections 21 and 28, T. 3 S., R. 32 W., Seward Meridian;

Thence westerly, between sections 21 and 28, to the corner of sections 20, 21, 28 and 29, T. 3 S., R. 32 W., Seward Meridian;

Thence northerly, between sections 20 and 21, to the corner of sections 16, 17, 20 and 21, T. 3 S., R. 32 W., Seward Meridian;

Thence westerly, between sections 17 and 20, to the corner of sections 17, 18, 19 and 20, T. 3 S., R. 32 W., Seward Meridian;

Thence northerly, between sections 17 and 18, to the ¼ section corner of sections 17 and 18, T. 3 S., R. 32 W., Seward Meridian;

Thence westerly, along the east and west centerline of section 18, to the center-west ⅛ section corner of section 18, T. 3 S., R. 32 W., Seward Meridian;

Thence northerly, along the north and south centerline of the northwest ¼ of section 18, the southwest ¼ and the northwest ¼ of sections 7 and 6, to the northwest ⅛ section corner of section 6, T. 3 S., R. 32 W., Seward Meridian;

Thence westerly, along the east and west centerline of the northwest ¼ of section 6, to the special meander corner on the east and west centerline of the northwest ¼ of section 6, on the southeast shore of Sixmile Lake, T. 3 S., R. 32 W., Seward Meridian;

Thence northeasterly and northerly, along the line of mean high water of Sixmile Lake, to the special meander corner on the east and west centerline of section 10, on the east shore of the channel between Lake Clark and Sixmile Lake located in the easterly portion of section 10, T. 2 S., R. 32 W., Seward Meridian;

Thence westerly, along the east and west centerlines of sections 10 and 9, to the center ¼ section corner of section 9, T. 2 S., R. 32 W., Seward Meridian;

Thence northerly, along the north and south centerline of section 9, to the ¼ section corner of sections 4 and 9, T. 2 S., R. 32 W., Seward Meridian;

Thence westerly, between sections 4 and 9, to the corner of sections 4, 5, 8 and 9, T. 2 S., R. 32 W., Seward Meridian;

Thence northerly, between sections 4 and 5, to the ¼ section corner of sections 4 and 5, T. 2 S., R. 32 W., Seward Meridian;

Thence westerly, along the east and west centerlines of sections 5 and 6, to a point on the top of a spur ridge, on the east and west centerline of section 6, T. 2 S., R. 32 W., Seward Meridian, approximate elevation 1,300 feet;

Thence northwesterly and southwesterly, along a spur ridge and the crest of Hoknede Mountain to the summit of a peak in the northwesterly portion of section 11, T. 2 S., R. 33 W., Seward Meridian, approximate elevation 2,410 feet;

Thence on an approximate forward bearing of S. 40° W., to the ¼ section corner of sections 10 and 11, T. 2 S., R. 33 W., Seward Meridian;

Thence westerly, along the east and west centerline of section 10, to the ¼ section corner of sections 9 and 10, T. 2 S., R. 33 W., Seward Meridian;

Thence northerly, between sections 9 and 10, to the corner of sections 3, 4, 9 and 10, T. 2 S., R. 33 W., Seward Meridian;

Thence westerly, between sections 4 and 9, to the ¼ section corner of sections 4 and 9, T. 2 S., R. 33 W., Seward Meridian;

Thence northerly, along the north and south centerline of section 4, to the ¼ section corner of sections 4 and 33, Tps. 1 and 2 S., R. 33 W., Seward Meridian;

Thence westerly, between Tps. 1 and 2 S., to the corner of sections 5, 6, 31 and 32, Tps. 1 and 2 S., R. 33 W., Seward Meridian;

Thence northerly, between sections 31 and 32, 29 and 30, 19 and 20, 17 and 18, 7 and 8, to the corner of sections 5, 6, 7 and 8, T. 1 S., R. 33 W., Seward Meridian;

Thence easterly, between sections 5 and 8, to the corner of sections 4, 5, 8 and 9, T. 1 S., R. 33 W., Seward Meridian;

Thence northerly, between sections 4 and 5, to the ¼ section corner of sections 4 and 5, T. 1 S., R. 33 W., Seward Meridian;

Thence easterly, along the east and west centerlines of sections 4, 3, 2 and 1, to the ¼ section corner of section 1 and 6, T. 1 S., Rs. 32 and 33 W., Seward Meridian;

Thence on an approximate forward bearing of S. 57° E., to the summit of a peak in the westerly portion of section 6, T. 1 S., R. 32 W., Seward Meridian, approximate elevation 1,540 feet;

Thence easterly and northeasterly, along the crest of a ridge, between the Chulitna River and other Lake Clark drainages, to the northeasterly summit of a hill in the northeasterly portion of section 25, T. 1 N., R. 32 W., Seward Meridian, approximate elevation 2,200 feet;

Thence on an approximate forward bearing of N. 58° E., to the corner of sections 19, 24, 25 and 30, T. 1 N., Rs. 31 and 32 W., Seward Meridian;

Thence northerly, between Rs. 31 and 32 W., to a point on a spur ridge, between sections 19 and 24, T. 2 N., Rs. 31 and 32 W., Seward Meridian, approximate elevation 1,000 feet;

Thence northeasterly, along a spur ridge and the crest of a ridge, between drainages of the Koksetna River and tributaries of the Chulitna River, to a point between sections 33 and 34, T. 3 N., R. 31 W., Seward Meridian;

Thence northerly, between sections 33 and 34, 27 and 28, 21 and 22, 15 and 16, 9 and 10, 3 and 4, 33 and 34, 27 and 28, 21 and 22, 15 and 16, 9 and 10, 3 and 4, to the closing corner of sections 3 and 4, T. 4 N., R. 31 W., Seward Meridian;

Thence easterly, along the First Standard Parallel North, to the standard corner of T. 5 N., Rs. 29 and 30 W., Seward Meridian;

Thence northerly, between Rs. 29 and 30 W., to the corner of Tps. 6 and 7 N., Rs. 29 and 30 W., Seward Meridian;

Thence easterly, between Tps. 6 and 7 N., to the corner of Tps. 6 and 7 N., Rs. 28 and 29 W., Seward Meridian;

Thence northerly, between Rs. 28 and 29 W., to the corner of Tps. 7 and 8 N., Rs. 28 and 29 W., Seward Meridian;

Thence westerly, between Tps. 7 and 8 N., to the corner of Tps. 7 and 8 N., Rs. 29 and 30 W., Seward Meridian;

Thence northerly, between Rs. 29 and 30 W., to the closing corner of T. 8 N., Rs. 29 and 30 W., Seward Meridian;

Thence westerly, along the Second Standard Parallel North, to the standard corner of T. 9 N., Rs. 29 and 30 W., Seward Meridian;

Thence northerly, between Rs. 29 and 30 W., to the corner of Tps. 10 and 11 N., Rs. 29 and 30 W., Seward Meridian;

Thence easterly, between Tps. 10 and 11 N., to the corner of Tps. 10 and 11 N., Rs. 28 and 29 W., Seward Meridian;

Thence northerly, between Rs. 28 and 29 W., to the corner of Tps. 11 and 12 N., Rs. 28 and 29 W., Seward Meridian;

Thence easterly, between Tps. 11 and 12 N., to the corner of Tps. 11 and 12 N., Rs. 26 and 27 W., Seward Meridian;

Thence northerly, between Rs. 26 and 27 W., to the closing corner of T. 12 N., Rs. 26 and 27 W., Seward Meridian;

Thence westerly, along the Third Standard Parallel North, to the standard corner of T. 13 N., Rs. 26 and 27 W., Seward Meridian;

Thence northerly, between Rs. 26 and 27 W., to the corner of Tps. 13 and 14 N., Rs. 26 and 27 W., Seward Meridian;

Thence easterly, between Tps. 13 and 14 N., to the corner of Tps. 13 and 14 N., Rs. 24 and 25 W., Seward Meridian;

Thence northerly, between Rs. 24 and 25 W., to the corner of Tps. 14 and 15 N., Rs. 24 and 25 W., Seward Meridian;

Thence easterly, between Tps. 14 and 15 N., to the corner of Tps. 14 and 15 N., Rs. 23 and 24 W., Seward Meridian;

Thence northerly, between Rs. 23 and 24 W., to a point on the crest of a ridge, between sections 19 and 24, T. 16 N., Rs. 23 and 24 W., Seward Meridian, approximate elevation 6,400 feet;

Thence easterly, northeasterly and southeasterly, along a common boundary with the Lake Clark National Park, along the crest of a ridge, between the Stony River and South Fork of the Kuskokwim River drainages to the summit of a peak in the westerly portion of section 20, T. 16 N., R. 23 W., Seward Meridian, approximate elevation 6,686 feet;

Thence on an approximate forward bearing of N. 81° E., to the summit of a peak in the westerly portion of section 21, T. 16 N., R. 23 W., Seward Meridian, approximate elevation 6,515 feet;

Thence southerly, easterly and southwesterly, along the crest of a ridge, between the Stony River and South Fork of the Kuskokwim River and Chilligan River drainages, to a point between sections 32 and 33, T. 16 N., R. 23 W., Seward Meridian;

Thence southerly, between sections 32 and 33, to the corner of sections 4, 5, 32 and 33, Tps. 15 and 16 N., R. 23 W., Seward Meridian;

Thence easterly, between Tps. 15 and 16 N., to the crest of a ridge between the Stony River and Chilligan River drainages, between sections 3 and 34, Tps. 15 and 16 N., R. 23 W., Seward Meridian, approximate elevation 5,000 feet;

Thence easterly, southerly, southwesterly and southeasterly, along the crest of a ridge, between the Stony River, Necons River and Chilligan River drainages, to the summit of a peak in the northwesterly portion of section 35, T. 15 N., R. 23 W., Seward Meridian, approximate elevation 7,375 feet;

Thence on an approximate forward bearing of S. 71° E., to a point at the most northerly end of an unnamed lake in the southerly portion of section 36, T. 15 N., R. 23 W., Seward Meridian;

Thence on an approximate forward bearing of S. 63° E., to the summit of a peak in the northwesterly portion of section 6, T. 14 N., R. 22 W., Seward Meridian, approximate elevation 5,277 feet;

Thence southeasterly, southwesterly and southeasterly, along the crest of a ridge, between the Necons River, Merrill River, Chilligan River and Igitna River drainages, to the summit of a peak in the westerly portion of section 24, T. 13 N., R. 23 W., Seward Meridian, approximate elevation 5,310 feet;

Thence on an approximate forward bearing of S. 42° E., to a point on the northeasterly end of a small unnamed lake on Merrill Pass, in the southerly portion of section 24, T. 13 N., R. 23 W., Seward Meridian;

Thence on an approximate forward bearing of S. 12° E., to the summit of a peak in the easterly portion of section 25, T. 13 N., R. 23 W., Seward Meridian, approximate elevation 5,290 feet;

Thence southwesterly, westerly and southerly, along the crest of a ridge, between the Merrill River, Necons River, Telaquana River, Another River and Neacola River drainages, to the summit of a peak in the southerly portion of section 22, T. 10 N., R. 24 W., Seward Meridian, approximate elevation 6,300 feet;

Thence on an approximate forward bearing of N. 77° E., to the summit of a peak in the westerly portion of section 24, T. 10 N., R. 24 W., Seward Meridian, approximate elevation 3,960 feet;

Thence southerly and westerly, along the crest of a ridge, between the Telaquana River and Neacola River drainages, to the summit of a peak in the central portion of section 2, T. 9 N., R. 24 W., Seward Meridian, approximate elevation 6,410 feet;

Thence on an approximate forward bearing of South, to the summit of a peak in the southerly portion of section 11, T. 9 N., R. 24 W., Seward Meridian, approximate elevation 6,220 feet;

Thence southerly and westerly, along the crest of a ridge, to the summit of a peak in the westerly portion of section 14, T. 9 N., R. 24 W., Seward Meridian, approximate elevation 5,800 feet;

Thence on an approximate forward bearing of S. 20° E., to the summit of a peak in the southeasterly portion of section 23, T. 9 N., R. 24 W., Seward Meridian, approximate elevation 5,655 feet;

Thence southerly and westerly, along the crest of a ridge, between the Telaquana River, Trail Creek, Tlikakila River, Twin Lakes and Turquoise Lake drainages to a point between sections 26 and 35, T. 9 N., R. 26 W., Seward Meridian;

Thence westerly, between sections 26 and 35, 27 and 34, 28 and 33, 29 and 32, 30 and 31, 25 and 36, 26 and 35, 27 and 34, 28 and 33, to the crest of a ridge between the Summit Creek and Turquoise Lake drainages, between sections 28 and 33, T. 9 N., R. 27 W., Seward Meridian, approximate elevation 3,295 feet;

Thence southwesterly, along the crest of a ridge, between the Summit Creek and Turquoise Lake drainages, to a point on the east and west centerline of section 33, T. 9 N., R. 27 W., Seward Meridian;

Thence westerly, on the east and west centerline of section 33, to the ¼ section corner of sections 32 and 33, T. 9 N., R. 27 W., Seward Meridian;

Thence southerly, between sections 32 and 33, to the standard corner of sections 32 and 33, T. 9 N., R. 27 W., Seward Meridian;

Thence westerly, on the Second Standard Parallel North, to the closing corner of T. 8 N., Rs. 27 and 28 W., Seward Meridian;

Thence southerly, between Rs. 27 and 28 W., to the crest of a ridge between the Chilikadrotna River and College Creek drainages, between sections 1 and 6, T. 5 N., Rs. 27 and 28 W., Seward Meridian, approximate elevation 3,700 feet;

Thence easterly, along the crest of a ridge, between the Chilikadrotna River and College Creek drainages, to the summit of a peak in the central portion of section 11, T. 5 N., R. 27 W., Seward Meridian, approximate elevation 4,281 feet;

Thence on an approximate forward bearing of S. 20° E., to the summit of a peak in the southwesterly portion of section 31, T. 5 N., R. 26 W., Seward Meridian, approximate elevation 4,211 feet;

Thence easterly, along the crest of a ridge, between the Portage Lake and Kijik River drainages, to the summit of a peak in the southerly portion of section 33, T. 5 N., R. 26 W., Seward Meridian, approximate elevation 4,150 feet;

Thence on an approximate forward bearing of South, to the summit of a peak in the southwesterly portion of section 8, T. 4 N., R. 26 W., Seward Meridian, approximate elevation 4,800 feet;

Thence southerly and westerly, along the crest of a ridge, between the Kijik River and other Lake Clark drainages, to the saddle in the ridge northeasterly of the headwaters of Portage Creek, in the northerly portion of section 28, T. 4 N., R. 27 W., Seward Meridian, approximate elevation 3,150 feet;

Thence southwesterly to the headwaters of Portage Creek in the northerly portion of section 28, T. 4 N., R. 27 W., Seward Meridian;

Thence southwesterly and southerly, along the right bank of Portage Creek, to the mouth of Portage Creek on the shore of Lake Clark at the line of mean high water in section 17, T. 3 N., R. 27 W., Seward Meridian;

Thence southwesterly, along the line of mean high water of Lake Clark, to the right bank at the mouth of the most easterly unnamed creek in section 10, T. 2 N., R. 29 W., Seward Meridian;

Thence on an approximate forward bearing of S. 35° E., crossing Lake Clark, to the most southwesterly point of Tommy Island, in section 24, T. 2 N., R. 29 W., Seward Meridian;

Thence southeasterly, along the shore of Tommy Island, to the most southerly point of Tommy Island, in section 25, T. 2 N., R. 29 W., Seward Meridian;

Thence on an approximate forward bearing of S. 30° E., crossing Lake Clark, to a point on the left bank of the mouth of Tommy Creek on the southeast shore of Lake Clark at the line of mean high water in section 25, T. 2 N., R. 29 W., Seward Meridian;

Thence southerly, along the shore of Lake Clark along the line of mean high water, to the left bank at the mouth of an unnamed creek on the southeast shore of Lake Clark in the northeasterly portion of section 36, T. 2 N., R. 29 W., Seward Meridian;

Thence on an approximate forward bearing of S. 12° E., to the summit of a peak in the southeasterly portion of section 1, T. 1 N., R. 29 W., Seward Meridian, approximate elevation 3,904 feet;

Thence on an approximate forward bearing of S. 40° W., to the summit of a peak in the northwesterly portion of section 27, T. 1 N., R. 29 W., Seward Meridian, approximate elevation 3,460 feet;

Thence on an approximate forward bearing of S. 1° E., to the summit of a peak in the southerly portion of section 27, T. 1 N., R. 29 W., Seward Meridian, approximate elevation 3,400 feet;

Thence on an approximate forward bearing of S. 50° W., to the summit of a peak in the central portion of section 33, T. 1 N., R. 29 W., Seward Meridian, approximate elevation 4,140 feet;

Thence southerly, easterly, southeasterly and southerly, along the crest of the divide between the Tazimina River and the Tanalian River, Takoka Creek, Brooks Creek and Pile River drainages, to the summit of a peak in the easterly portion of section 27, T. 2 S., R. 26 W., Seward Meridian, approximate elevation 4,750 feet, the place of beginning.

Units of the National Wilderness Preservation System Within the Lake Clark National Park and Preserve

Section 701(6), Public Law 96–478 (ANILCA):

Lake Clark Wilderness

The Lake Clark Wilderness as generally depicted on a map numbered LACL—90,008, dated October 1978, consists of approximately two million four hundred and seventy thousand acres of public lands, as defined in the ANILCA, within the following described boundary:

Beginning at the standard corner of sections 34 and 35, T. 9 N., R. 18 W., Seward Meridian;

Thence northerly, between sections 34 and 35, 26 and 27, to the crest of a ridge between sections 26 and 27, T. 9 N., R. 18 W., Seward Meridian, approximate elevation 5,500 feet;

Thence northeasterly and northerly, along the crest of a ridge, to a point between sections 10 and 11, T. 9 N., R. 18 W., Seward Meridian;

Thence northerly, between sections 10 and 11, 2 and 3, to the corner of sections 2, 3, 34 and 35, Tps. 9 and 10 N., R. 18 W., Seward Meridian;

Thence westerly, between Tps. 9 and 10 N., to the corner of Tps. 9 and 10 N., Rs. 20 and 21 W., Seward Meridian;

Thence northerly, between Rs. 20 and 21 W., to the closing corner of T. 12 N., Rs. 20 and 21 W., Seward Meridian;

Thence westerly, on the Third Standard Parallel North, to the standard corner of T. 13 N., Rs. 20 and 21 W., Seward Meridian;

Thence northerly, between Rs. 20 and 21 W., to a point on the summit of a ridge, between the Skwentna River and Chilligan River drainages, between sections 13 and 18, T. 16 N., Rs. 20 and 21 W., Seward Meridian;

Thence southwesterly and northwesterly, along the crest of a ridge, between the Skwentna River and Chilligan River drainages, to the summit of a peak in the southerly portion of section 11, T. 16 N., R. 21 W., Seward Meridian, approximate elevation 5,810 feet;

Thence on an approximate forward bearing of N. 24° E., to the summit of a peak in the southwesterly portion of section 1, T. 16 N. R. 21 W., Seward Meridian, approximate elevation 6,310 feet;

Thence on an approximate forward bearing of N. 57° W., to the summit of a peak in the northeasterly portion of section 3, T. 16 N., R. 21 W., Seward Meridian, approximate elevation 5,565 feet;

Thence westerly and southerly, along the crest of a ridge, between the Styx River, the South Fork of the Kuskokwim River and Chilligan River drainages, to the summit of a peak in the southeasterly portion of section 8, T. 16 N., R. 22 W., Seward Meridian, approximate elevation 5,208 feet;

Thence on an approximate forward bearing of N. 88° W., to the summit of a peak in the southwesterly portion of section 8, T. 16 N., R. 22 W., Seward Meridian, approximate elevation 7,570 feet;

Thence southwesterly, along the crest of a ridge, between the South Fork of the Kuskokwim River and Chilligan River drainages, to the summit of a peak in the northeasterly portion of section 23, T. 16 N., R. 23 W., Seward Meridian, approximate elevation 6,660 feet;

Thence on an approximate forward bearing of S. 61° W., to the summit of a peak in the northerly portion of section 27, T. 16 N., R. 23 W., Seward Meridian, approximate elevation 6,200 feet;

Thence southwesterly, along the crest of a ridge, between the South Fork of the Kuskokwim River and Chilligan River drainages, to a point between sections 32 and 33, T. 16 N., R. 23 W., Seward Meridian;

Thence southerly, between sections 32 and 33, to the corner of sections 4, 5, 32 and 33, Tps. 15 and 16 N., R. 23 W., Seward Meridian;

Thence easterly, between Tps. 15 and 16 N., to the crest of a ridge, between the Stony River and Chilligan River drainages, between sections 3 and 34, Tps. 15 and 16 N., R. 23 W., Seward Meridian, approximate elevation 5,000 feet;

Thence southeasterly and southwesterly, along the crest of a ridge, between the Stony River, Chilligan River and Necons River drainages, to horizontal control station "Merrill" in the southerly portion of section 28, T. 13 N., R. 25 W., Seward Meridian, approximate elevation 4,080 feet;

Thence on an approximate forward bearing of S. 7° W., to a point on the right bank of the most westerly channel of the Necons River at its confluence with Two Lakes in section 7, T. 12 N., R. 25 W., Seward Meridian;

Thence southeasterly along the northerly shore of Two Lakes, to the southernmost point between sections 16 and 17 on the shore of Two Lakes, T. 12 N., R. 25 W., Seward Meridian;

Thence on an approximate forward bearing of S. 73° E., to the summit of a peak located in the southwesterly portion of section 15, T. 12 N., R. 25 W., Seward Meridian, approximate elevation 5,520 feet;

Thence southerly and westerly, along the crest of a ridge, between the Tlikakila River and Two Lakes drainages, to the summit of a peak in the northwesterly portion of section 4, T. 11 N., R. 25 W., Seward Meridian, approximate elevation 5,500 feet, this position being at the headwaters of a creek which is a tributary to the Necons River;

Thence westerly, northerly, westerly and southwesterly, through a ravine, along the left bank of an unnamed creek and along the left bank of the Necons River, to a point between sections 7 and 8, T. 11 N., R. 26 W., Seward Meridian;

Thence southerly, between sections 7 and 8, 17 and 18, 19 and 20, 29 and 30, 31 and 32, to the corner of sections 5, 6, 31 and 32, Tps. 10 and 11 N., R. 26 W., Seward Meridian;

Thence easterly, between Tps. 10 and 11 N., to the crest of a ridge, between the Necons River and Lake Telaquana drainages, between sections 6 and 31, Tps. 10 and 11 N., R. 25 W., Seward Meridian;

Thence southeasterly, along the crest of a ridge, between the Necons River and Lake Telaquana drainages, to the summit of a peak in the southeasterly portion of section 5, T. 10 N., R. 25 W., Seward Meridian, approximate elevation 5,000 feet;

Thence southerly, through a ravine and along the left bank of an unnamed creek, to a point at the mouth of the unnamed creek, on the shore of Telaquana Lake, in the northerly portion of section 17, T. 10 N., R. 25 W., Seward Meridian;

Thence southerly and westerly, along the shore of Telaquana Lake, to a point between sections 19 and 24, T. 10 N., Rs. 25 and 26 W., Seward Meridian;

Thence southerly, between Rs. 25 and 26 W., to the ¼ section corner of sections 31 and 36, T. 10 N., Rs. 25 and 26 W., Seward Meridian;

Thence westerly, along the east and west centerline of section 36, to the ¼ section corner of sections 35 and 36, T. 10 N., R. 26 W., Seward Meridian;

Thence on an approximate forward bearing of S. 40° W., to the summit of a peak in the southerly portion of section 35, T. 10 N., R. 26 W., Seward Meridian, approximate elevation 3,205 feet;

Thence on an approximate forward bearing of S. 11° W., to the summit of a peak in sections 2 and 11, T. 9 N., R. 26 W., Seward Meridian, approximate elevation 3,420 feet;

Thence on an approximate forward bearing of N. 85° W., to the summit of a peak in the southerly portion of section 3, T. 9 N., R. 26 W., Seward Meridian, approximate elevation 3,296 feet;

Thence on an approximate forward bearing of N. 62° W., to the summit of a peak in the westerly portion of section 4, T. 9 N., R. 26 W., Seward Meridian, approximate elevation 3,107 feet;

Thence on an approximate forward bearing of S. 89° W., to the summit of a peak in the westerly portion of section 2, T. 9 N., R. 27 W., Seward Meridian, approximate elevation 3,218 feet;

Thence on an approximate forward bearing of S. 65° W., to the ¼ section corner of sections 2 and 3, T. 9 N., R. 27 W., Seward Meridian;

Thence westerly, along the east and west centerlines of sections 3, 4 and 5, to the center ¼ section corner of section 5, T. 9 N., R. 27 W., Seward Meridian;

Thence southerly, along the north and south centerlines of sections 5, 8, 17, 20, 29 and 32, to the standard ¼ section corner of section 32, T. 9 N., R. 27 W., Seward Meridian;

Thence easterly, along the Second Standard Parallel South, to the closing corner of T. 8 N., Rs. 27 and 28 W., Seward Meridian;

Thence southerly, between Rs. 27 and 28 W., to a point between sections 25 and 30, T. 7 N., Rs. 27 and 28 W., Seward Meridian, on the right bank of the Chilikadrotna River;

Thence southeasterly and northeasterly, along the right bank of Chilikadrotna River and the northwesterly shore of Twin Lakes, to a point on the right bank of an unnamed creek near the line between sections 28 and 29, T. 7 N., R. 27 W., Seward Meridian;

Thence northeasterly, along the right bank of the unnamed creek, to a point between sections 22 and 27, T. 7 N., R. 27 W., Seward Meridian;

Thence easterly and southeasterly, along a spur ridge and the crest of a ridge, to the summit of a peak in the southerly portion of section 25, T. 7 N., R. 27 W., Seward Meridian, approximate elevation 5,363 feet;

Thence on an approximate forward bearing of S. 53° E., to the confluence of two unnamed creeks, in the northerly portion of section 31, T. 7 N., R. 26 W., Seward Meridian;

Thence southwesterly and southeasterly, along the left bank of an unnamed creek, to a point on the shore of Twin Lakes, in the southeasterly portion of section 6, T. 6 N., R. 26 W., Seward Meridian;

Thence southwesterly, along the northerly shore of the east lake of Twin Lakes and the channel connecting Twin Lakes, to a point at the most westerly end of the channel connecting Twin Lakes, in the northwesterly portion of section 7, T. 6 N., R. 26 W., Seward Meridian;

Thence southwesterly, closing the mouth of the channel and along the southerly shore of the west lake of Twin Lakes, to a point on the right bank of an unnamed creek, in the northwesterly portion of section 7, T. 6 N., R. 26 W., Seward Meridian;

Thence southerly, along the right bank of an unnamed creek, to the confluence of two unnamed creeks, in the northerly portion of section 19, T. 6 N., R. 26 W., Seward Meridian;

Thence on an approximate forward bearing of West, to the summit of a peak, in the northeasterly portion of section 24, T. 6 N., R. 27 W., Seward Meridian, approximate elevation 4,420 feet;

Thence southwesterly and northwesterly, along the divide between the drainages of Twin Lakes and unnamed tributaries of the Chilikadrotna River to the summit of a peak in the easterly portion of section 9, T. 6 N., R. 27 W., Seward Meridian, approximate elevation 4,040 feet;

Thence on an approximate forward bearing of N. 48° W., to the summit of a peak in the southwesterly portion of section 4, T. 6 N., R. 27 W., Seward Meridian, approximate elevation 3,710 feet;

Thence northwesterly along the crest of the divide between the drainages of Twin Lakes and unnamed tributaries of the Chilikadrotna River to a point between sections 31 and 36, T. 7 N., Rs. 27 and 28 W., Seward Meridian;

Thence southerly, between Rs. 27 and 28 W., to a point on the right bank of College Creek, between sections 7 and 12, T. 5 N., Rs. 27 and 28 W., Seward Meridian;

Thence westerly and southerly, along the right bank of College Creek, to a point on the left bank of an unnamed creek which is a tributary of Lachbuna Lake in the easterly portion of section 26, T. 5 N., R. 28 W., Seward Meridian;

Thence on an approximate forward bearing of S. 6° E., to the summit of a peak in the southeasterly portion of section 35, T. 5 N., R. 28 W., Seward Meridian, approximate elevation 3,966 feet;

Thence southerly, along the crest of a ridge, to the summit of a peak in the southeasterly portion of section 35, T. 5 N., R. 28 W., Seward Meridian, approximate elevation 3,900 feet;

Thence on an approximate forward bearing of S. 30° E., to the summit of a peak in the westerly portion of section 11, T. 4 N., R. 28 W., Seward Meridian, approximate elevation 3,600 feet;

Thence southerly and easterly, along the crest of a ridge, to the summit of a peak in the southerly portion of section 12, T. 4 N., R. 28 W., Seward Meridian, approximate elevation 4,050 feet;

Thence on an approximate forward bearing of S. 2° E., to the summit of a peak in the southerly portion of section 13, T. 4 N., R. 28 W., Seward Meridian, approximate elevation 3,890 feet;

Thence on an approximate forward bearing of S. 5° E., to the summit of a peak in the northeasterly portion of section 25, T. 4 N., R. 28 W., Seward Meridian, approximate elevation 3,965 feet;

Thence on an approximate forward bearing of N. 83° E., to the summit of a peak in the northerly portion of section 29, T. 4 N., R. 27 W., Seward Meridian, approximate elevation 4,345 feet;

Thence northeasterly and southeasterly, along the crest of a ridge, between the Portage Creek, and other unnamed tributaries to Lake Clark and Kijik River drainages, to the summit of a peak, in the northeasterly portion of section 24, T. 4 N., R. 27 W., Seward Meridian, approximate elevation 4,900 feet;

Thence southerly and westerly, along the crest of a ridge and a spur ridge, to a point between sections 26 and 35, T. 4 N., R. 27 W., Seward Meridian;

Thence westerly, between sections 26 and 35, to the left bank of an unnamed creek between sections 26 and 35, T. 4 N., R. 27 W., Seward Meridian;

Thence southerly and westerly, along the left bank of the unnamed creek, to a point at the line of mean high water on the shore of Lake Clark in the southwesterly portion of section 2, T. 3 N., R. 27 W., Seward Meridian;

Thence easterly and northerly, along the shore of Lake Clark at the line of mean high water, to a point between sections 32 and 33, T. 4 N., R. 26 W., Seward Meridian;

Thence southerly across Lake Clark to a point between sections 4 and 5 on the southern shore of Lake Clark at the line of mean high water, T. 3 N., R. 26 W., Seward Meridian;

Thence southerly, along the shore of Lake Clark along the line of mean high water, to the left bank at the mouth of an unnamed creek on the southeast shore of Lake Clark in the northeasterly portion of section 36, T. 2 N., R. 29 W., Seward Meridian;

Thence on an approximate forward bearing of S. 12° E., to the summit of a peak in the southeasterly portion of section 1, T. 1 N., R. 29 W., Seward Meridian, approximate elevation 3,904 feet;

Thence on an approximate forward bearing of S. 40° W., to the summit of a peak in the northwesterly portion of section 27, T. 1 N., R. 29 W., Seward Meridian, approximate elevation 3,460 feet;

Thence on an approximate forward bearing of S. 1° E., to the summit of a peak in the southerly portion of section 27, T. 1 N., R. 29 W., Seward Meridian, approximate elevation 3,400 feet;

Thence on an approximate forward bearing of S. 50° W., to the summit of a peak in the central portion of section 33, T. 1 N., R. 29 W., Seward Meridian, approximate elevation 4,140 feet;

Thence southerly, easterly, southeasterly and southerly, along the crest of the divide between the Tazimina River and the Tanalian River, Takoka Creek, Brooks Creek and Pile River drainages, to the summit of a peak in the easterly portion of section 27, T. 2 S., R. 26 W., Seward Meridian, approximate elevation 4,750 feet;

Thence on an approximate forward bearing of S. 45° E., to the summit of a peak in the southwesterly portion of section 6, T. 3 S., R. 25 W., Seward Meridian, approximate elevation 4,500 feet;

Thence easterly, northeasterly and southerly, along the crest of a ridge, between the tributaries of the Pile River and the tributaries of the Iliamna River drainages, to the summit of a peak in the easterly portion of section 2, T. 3 S., R. 25 W., Seward Meridian, approximate elevation 4,300 feet;

Thence on an approximate forward bearing of S. 50° E., to the summit of a peak in the central portion of section 17, T. 3 S., R. 24 W., Seward Meridian, approximate elevation 3,350 feet;

Thence northeasterly and southeasterly, along the crest of a ridge between the Iliamna River, Iniskin River, Clearwater Creek and Chinitna River and the Holland Creek and Tooie Creek drainages, to the summit of a peak in the southwesterly portion of section 5, T. 4 S., R. 23 W., Seward Meridian, approximate elevation 2,507 feet;

Thence on an approximate forward bearing of N. 11° E., to the summit of a peak in the central portion of section 32, T. 3 S., R. 23 W., Seward Meridian, approximate elevation 1,806 feet;

Thence on an approximate forward bearing of N. 30° E., to the summit of Brown Mountain, in the southeasterly portion of section 16, T. 3 S., R. 23 W., Seward Meridian, approximate elevation 3,405 feet;

Thence on an approximate forward bearing of N. 80° E., to the summit of a peak in the easterly portion of section 14, T. 3 S., R. 23 W., Seward Meridian, approximate elevation 3,200 feet;

Thence on an approximate forward bearing of S. 62° E., to the summit of a peak in the easterly portion of section 19, T. 3 S., R. 22 W., Seward Meridian, approximate elevation 2,800 feet;

Thence easterly, along the crest of a ridge, between the East Glacier Creek and Horn Creek drainages, to the summit of a peak in the northwesterly portion of section 25, T. 3 S., R. 22 W., Seward Meridian, approximate elevation 2,270 feet;

Thence on an approximate forward bearing of N. 40° E., to the summit of a peak in the northeasterly portion of section 18, T. 3 S., R. 21 W., Seward Meridian, approximate elevation 3,140 feet;

Thence northerly, along the crest of a ridge between Hickerson Lake and East Glacier Creek drainages, to the summit of a peak in the southeasterly portion of section 36, T. 2 S., R. 22 W., Seward Meridian, approximate elevation 2,350 feet;

Thence on an approximate forward bearing of N. 45° E., to the summit of a peak in the northeasterly portion of section 29, T. 2 S., R. 21 W., Seward Meridian, approximate elevation 2,350 feet;

Thence southeasterly and easterly, along the crest of a ridge, between the Red Glacier and Hickerson Lake and Shelter Creek drainages, to the summit of a peak in the northeasterly portion of section 2, T. 3 S., R. 21 W., Seward Meridian, approximate elevation 3,130 feet;

Thence on an approximate forward bearing of N. 40° E., to the summit of Lenore Hill in the northerly portion of section 30, T. 2 S., R. 20 W., Seward Meridian, approximate elevation 3,302 feet;

Thence northerly, along the crest of a ridge, to the summit of a peak in the westerly portion of section 7, T. 2 S., R. 20 W., Seward Meridian, approximate elevation 3,310 feet;

Thence on an approximate forward bearing of N. 68° W., to the summit of a peak in the northeasterly portion of section 11, T. 2 S., R. 21 W., Seward Meridian, approximate elevation 1,990 feet;

Thence on an approximate forward bearing of N. 76° W., to the summit of a peak in the southwesterly portion of section 3, T. 2 S., R.

21 W., Seward Meridian, approximate elevation 2,100 feet;

Thence westerly and northerly, along the crest of a ridge, between the Red Glacier and Red Creek and Latteral Glacier drainages, to the summit of a peak in the northerly portion of section 5, T. 2 S., R. 21 W., Seward Meridian, approximate elevation 2,745 feet;

Thence on an approximate forward bearing of N. 32° W., to the summit of a peak in the easterly portion of section 24, T. 1 S., R. 22 W., Seward Meridian, approximate elevation 3,615 feet;

Thence on an approximate forward bearing of N. 19° W., to the summit of a peak in the southwesterly portion of section 12, T. 1 S., R. 22 W., Seward Meridian, approximate elevation 3,085 feet;

Thence on an approximate forward bearing of N. 2° E., to the summit of a peak in the southerly portion of section 30, T. 1 N., R. 21 W., Seward Meridian, approximate elevation 4,302 feet;

Thence westerly, northerly and easterly, along the crest of a ridge, between the Johnson Glacier, Tuxedni Glacier and Tuxedni River and Open Creek drainages, to the summit of a peak in the easterly portion of section 28, T. 2 N., R. 21 W., Seward Meridian, approximate elevation 1,440 feet;

Thence on an approximate forward bearing of N. 48° E. to a point on the southern shore of Tuxedni Bay, at the line of mean high tide, located in the northeastern portion of section 28, T. 2 N., R. 21 W., Seward Meridian;

Thence northwesterly and southeasterly along the line of mean high tide of Tuxedni Bay, to a point S. 48° W. of the summit of a hill in the northerly portion of section 23, T. 2 N., R. 21 W., Seward Meridian, approximate elevation 840 feet, said point in the northwesterly portion of section 23, T. 2 N., R. 21 W., Seward Meridian;

Thence on an approximate forward bearing of N. 48° E. to the summit of a hill, in the northerly portion of section 23, T. 2 N., R. 21 W., Seward Meridian, approximate elevation 840 feet;

Thence on an approximate forward bearing of N. 10° W., to the summit of a low hill, near the center of section 14, T. 2 N., R. 21 W., Seward Meridian, approximate elevation 1,650 feet;

Thence on an approximate forward bearing of N. 57° E., to the summit of a low hill, near the center of section 14, T. 2 N., R. 21 W., Seward Meridian, approximate elevation 1,550 feet;

Thence northeasterly, along the crest of a ridge, to the summit of a hill in the northeasterly portion of section 14, T. 2 N., R. 21 W., Seward Meridian, approximate elevation 1,650 feet;

Thence on an approximate forward bearing of N. 41° E., to the summit of a peak, in the southeasterly portion of section 1, T. 2 N., R. 21 W., Seward Meridian, approximate elevation 3,500 feet;

Thence northerly and westerly, along the crest of a ridge between the Tuxedni River and Crescent River drainages, to the saddle in the ridge southwesterly of the headwaters of an unnamed tributary of Crescent Lake in section 27, T. 3 N., R. 21 W., Seward Meridian, approximate elevation 2,750 feet;

Thence northeasterly, to the headwaters of the unnamed tributary of Crescent Lake in section 27, T. 3 N., R. 21 W., Seward Meridian;

Thence northerly, along the right bank of an unnamed tributary of Crescent Lake, to a point on the shore of Crescent Lake at the line of mean high water at the mouth of the stream in the northwesterly portion of section 14, T. 3 N., R. 21 W., Seward Meridian;

Thence westerly, northerly and easterly, along the line of mean high water of Crescent Lake, to a point on the left bank of an unnamed tributary of Crescent Lake in the southwesterly portion of section 2, T. 3 N., R. 21 W., Seward Meridian;

Thence northerly, along the left bank of the unnamed tributary of Crescent Lake, to the headwaters of said creek in the southeasterly portion of section 34, T. 4 N., R. 21 W., Seward Meridian;

Thence on an approximate forward bearing of N. 38° E., to the summit of a peak in the northwesterly portion of section 35, T. 4 N., R. 21 W., Seward Meridian, approximate elevation 5,000 feet;

Thence easterly, along the crest of a ridge, to the summit of a peak in the westerly portion of section 36, T. 4 N., R. 21 W., Seward Meridian, approximate elevation 4,022 feet;

Thence on an approximate forward bearing of N. 61° E., to the summit of a peak in the southwesterly portion of section 29, T. 4 N., R. 20 W., Seward Meridian, approximate elevation 4,065 feet;

Thence on an approximate forward bearing of S. 76° E., to the summit of a peak in the southwesterly portion of section 27, T. 4 N., R. 20 W., Seward Meridian, approximate elevation 3,570 feet;

Thence easterly and southerly, along the crest of a ridge, between the Crescent River and Redoubt Creek drainages, to a point between sections 23 and 24, T. 3 N., R. 19 W., Seward Meridian;

Thence northerly, between sections 23 and 24, 13 and 14, 11 and 12, 1 and 2, 35 and 36, 25 and 26, 23 and 24, 13 and 14, 11 and 12, 1 and 2, to the closing corner of sections 1 and 2, T. 4 N., R. 19 W., Seward Meridian;

Thence westerly, on the First Standard Parallel North, to the standard corner of T. 5 N., Rs. 18 and 19 W., Seward Meridian;

Thence northerly, between Rs. 18 and 19 W., to the corner of Tps. 5 and 6 N., Rs. 18 and 19 W., Seward Meridian;

Thence easterly, between Tps. 5 and 6 N., to the corner of sections 3, 4, 33 and 34, Tps. 5 and 6 N., R. 18 W., Seward Meridian;

Thence northerly, between sections 33 and 34, 27 and 28, 21 and 22, 15 and 16, 9 and 10, 3 and 4, 33 and 34, 27 and 28, 21 and 22, 15 and 16, 9 and 10, 3 and 4, 33 and 34, 27 and 28, 21 and 22, to the corner of sections 15, 16, 21 and 22, T. 8 N., R. 18 W., Seward Meridian;

Thence westerly, between sections 16 and 21, 17 and 20, 18 and 19, 13 and 24, 14 and 23, 15 and 22, 16 and 21, 17 and 20, 18 and 19, to the corner of sections 13, 18, 19 and 24, T. 8 N., Rs. 19 and 20 W., Seward Meridian;

Thence northerly, between Rs. 19 and 20 W., to the closing corner of T. 8 N., Rs. 19 and 20 W., Seward Meridian;

Thence easterly, on the Second Standard Parallel North, to the standard corner of sections 34 and 35, T. 9 N., R. 18 W., Seward Meridian, the place of beginning.

Units of the National Wild and Scenic Rivers System Within the Lake Clark National Park and Preserve

Section 601, Public Law 96–487 (ANILCA):

"Chilikadrotna, Alaska.—That portion of the river within the Lake Clark National Park and Preserve; to be administered by the Secretary of the Interior."

"Mulchatna River, Alaska.—That portion within the Lake Clark National Park and Preserve; to be administered by the Secretary of the Interior."

"Tlikakila, Alaska.—That portion within the Lake Clark National Park; to be administered by the Secretary of the Interior."

Note: Pursuant to section 605(d) of ANILCA and as provided for under section 3(b) of the Wild and Scenic Rivers Act, the necessity for any river corridor boundaries for the Chilikadrotna, Mulchatna and Tlikakila Wild Rivers within the Lake Clark National Park and Preserve has been considered during the comprehensive conservation planning process for the park and preserve. In accordance with the General Management Plan for Lake Clark National Park and Preserve, approved July 30, 1984, no specific river corridor boundaries are deemed necessary for the Chilakadrotna, Mulchatna and Tlikakila Rivers in order to protect the rivers and their immediate environments. Proposed management of the park and preserve meets and is compatible with management standards established by the Wild and Scenic Rivers Act.

The following U.S. Geological Survey 1:63,360 Series (Topographic) Quadrangle Maps were used in preparing the legal boundary descriptions for the Lake Clark National Park and Preserve and Lake Clark Wilderness:

Iliamna, Alaska: (D–1) 1958 mr 1972; (D–2) 1958 lr 1977; (D–3) 1954; (D–4) 1954; (D–5) 1954 mr 1973.

Noatak National Preserve

Section 201(8)(a), Public Law 96–487 (ANILCA):

Noatak National Preserve

Noatak National Preserve as generally depicted on a map numbered NOAT–90,004, dated July 1980, consists of approximately six million four hundred and sixty thousand acres of public lands, as defined in the ANILCA, within the following described boundary:

Beginning at a point on the summit of a mountain between the drainages of Agashashok River, North Fork of the Squirrel River, and Akikukchiak Creek, located in the northerly portion of section 24, T. 26 N., R. 12 W., Kateel River Meridian, approximate elevation 3,851 feet;

Thence easterly, southerly, easterly, northerly, and easterly, along the crest of the Baird Mountains and the divide between drainages of the Noatak and Squirrel Rivers, southeasterly and easterly to the summit of a mountain in sections 8 and 17, T. 25 N., R. 7 W., Kateel River Meridian, approximate elevation 3,200 feet;

Thence northeasterly, along the crest of the Baird Mountains and along a common boundary with the Kobuk Valley National Park, between the drainages of the Noatak River and the Salmon River, to the summit of a mountain in section 33, T. 29 N., R. 5 W., Kateel River Meridian, approximate elevation 2,528 feet;

Thence southeasterly, along the crest of the Baird Mountains between the drainages of the Noatak River and Kobuk River to the summit of a mountain in sections 13 and 14, T. 25 N., R. 2 W., Kateel River Meridian, approximate elevation 3,700 feet;

Thence northeasterly, easterly, southeasterly, easterly, and southeasterly, along the crest of the Baird Mountains between the drainages of the Noatak River and the Kobuk River to the summit of a mountain located in section 8, T. 23 N., R. 5 E., Kateel River Meridian, approximate elevation 3,515 feet;

Thence northeasterly, departing from the common boundary with the Kobuk Valley National Park, along the crest of the Baird Mountains between the drainages of the Noatak River and the Ambler River, to the summit of a ridge located in the southern ½ of section 19, T. 25 N., R. 9 E., Kateel River Meridian, approximate elevation 3,600 feet;

Thence northerly, westerly, northerly and westerly, along a common boundary with the Gates of the Arctic National Park, along the crest of mountains between the drainages of Ambler River and Imelyak River, to the summit of a mountain located in the northeast ¼ of section 35, T. 26 N., R. 8 E., Kateel River Meridian, approximate elevation 4,720 feet;

Thence on an approximate forward bearing of N. 11° E., to the summit of a mountain located in sections 23 and 24, T. 26 N., R. 8 E., Kateel River Meridian, approximate elevation 4,508 feet;

Thence northeasterly, along the divide between the drainages of the Ambler and Noatak Rivers, to the summit of a mountain located in section 5, T. 26 N., R. 9 E., Kateel River Meridian, approximate elevation 4,625 feet;

Thence on an approximate forward bearing of S. 37° E., to the summit of a mountain located in section 15, T. 26 N., R. 9 E., Kateel River Meridian, approximate elevation 3,980 feet;

Thence southerly, along the crest of the spur ridge to the summit of a mountain located in section 22, T. 26 N., R. 9 E., Kateel River Meridian, approximate elevation 4,298 feet;

Thence easterly, northerly, and westerly, along the divide between the drainages of Kavachurak Creek and Tunukuchiak Creek, to the summit of a small mountain located in sections 28 and 29, T. 28 N., R. 10 E., Kateel River Meridian, approximate elevation 2,441 feet;

Thence on an approximate forward bearing of N. 51° E., to the summit of a mountain located in section 22, T. 28 N., R. 10 E., Kateel River Meridian, approximate elevation 3,439 feet;

Thence on an approximate forward bearing of N. 24° E., to a point on the right bank of Douglas Creek at the junction of the Noatak River and Douglas Creek located in the northern portion of section 2, T. 28 N., R. 10 E., Kateel River Meridian;

Thence northerly, along the right bank of Douglas Creek to a point on the right bank of Douglas Creek in section 13 located due south of the summit of a mountain, approximate elevation 3,637 feet located in sections 12 and 13, T. 29 N., R. 10 E., Kateel River Meridian;

Thence due north to the summit of a mountain located in sections 12 and 13, T. 29 N., R. 10 E., Kateel River Meridian, approximate elevation 3,657 feet;

Thence northeasterly, along the crest of a ridge between the drainages of Douglas Creek and a tributary of the Noatak River to the summit of a mountain located in section 22, T. 30 N., R. 11 E., Kateel River Meridian, approximate elevation 3,302 feet;

Thence on an approximate forward bearing of N. 28° E., to the summit of a mountain located in sections 14 and 15, T. 30 N., R. 11 E., Kateel River Meridian, approximate elevation 4,100 feet;

Thence southeasterly, along the crest of a ridge to the summit of a mountain located in section 24, T. 30 N., R. 11 E., Kateel River Meridian, approximate elevation 3,473 feet;

Thence on an approximate forward bearing of N. 87° E., to the summit of a mountain located in section 21, T. 30 N., R. 12 E., Kateel River Meridian, approximate elevation 4,021 feet;

Thence easterly and northeasterly along the crest of a ridge between the drainages of Midas Creek and Mountain Creek to the summit of a mountain located at the intersection with a ridge dividing the drainages of Nigu and the Noatak Rivers, located in section 3, T. 30 N., R. 13 E., Kateel River Meridian, approximate elevation 3,250 feet;

Thence northwesterly, departing from the common boundary with the Gates of the Arctic National Park, along the crest of mountains between the drainage of the Nigu River and the drainage of Rough Mountain Creek, to a point on a ridge located in the western portion of section 19, T. 31 N., R. 13 E., Kateel River Meridian, approximate elevation 2,850 feet, due north of the summit of a peak located in section 8, T. 28 N., R. 13 E., Kateel River Meridian, approximate elevation 5,600 feet;

Thence northwesterly, along the crest of mountains and along a common boundary with the National Petroleum Reserve in Alaska, between the drainages of the Nigu River, Etivluk River and tributaries of the Aniuk River, to a summit of Kavaksurak Mountain, located in sections 27 and 28, T. 34 N., R. 8 E., Kateel River Meridian, approximate elevation 4,450 feet;

Thence westerly, southwesterly, northerly, westerly, northwesterly, southwesterly and northwesterly along the crest of the DeLong Mountains, and along a common boundary with the National Petroleum Reserve in Alaska, between the drainages of the Itivluk River, Ipnavik River, Kuna River, Kiligwa River, and Nuka River tributaries of the Colville River, and drainages of tributaries of the Noatak River, to the summit of a hill in the northwest ¼ of section 21, T. 9 S., R. 33 W., Umiat Meridian, approximate elevation 2,950 feet;

Thence southwesterly, westerly, northwesterly and southwesterly along the crest of the DeLong Mountains, and along a common boundary with the National Petroleum Reserve in Alaska, between the drainages of the Nuka River, Colville River, Utukok River, and Kokolik River and drainages of tributaries of the Noatak River, to a summit of a mountain in section 1, T. 11 S., R. 43 W., Umiat Meridian, approximate elevation 3,675 feet;

Thence southerly, northwesterly, westerly and southwesterly along the crest of the DeLong Mountains, departing from the common boundary with the National Petroleum Reserve in Alaska, between the drainages of the Kokolik River, Tingmerkpuk River and Kukpowruk River and drainages of the Kelly River and Wrench Creek, tributaries of the Noatak River, to the summit of the peak in section 11, T. 34 N., R. 18 W., Kateel River Meridian, approximate elevation 2,800 feet;

Thence southerly and southeasterly along the crest of mountains between drainages of Wrench Creek and Wulik River, to a summit of a mountain in sections 15 and 16, T. 31 N., R. 17 W., Kateel River Meridian, approximate elevation 3,192 feet;

Thence northeasterly along the crest of a ridge to a point between sections 2 and 11, T. 31 N., R. 17 W., Kateel River Meridian, approximate elevation 2,700 feet;

Thence easterly, between sections 2 and 11, 1 and 12, to the corner of sections 1, 6, 7 and 12, T. 31 N., Rs. 16 and 17 W., Kateel River Meridian;

Thence southerly, between Rs. 16 and 17 W., to the corner of sections 19, 24, 25 and 30, T. 31 N., Rs. 16 and 17 W., Kateel River Meridian;

Thence westerly, between sections 24 and 25, to the corner of sections 23, 24, 25 and 26, T. 31 N., R. 17 W., Kateel River Meridian;

Thence southerly, between sections 25 and 26, to the corner of sections 25, 26, 35 and 36, T. 31 N., R. 17 W., Kateel River Meridian;

Thence westerly, between sections 26 and 35, to the corner of sections 26, 27, 34 and 35, T. 31 N., R. 17 W., Kateel River Meridian;

Thence southerly, between sections 34 and 35, to the corner of sections 2, 3, 34 and 35, Tps. 30 and 31 N., R. 17 W., Kateel River Meridian;

Thence westerly, between Tps. 30 and 31 N., to the corner of sections 5, 6, 31 and 32, Tps. 30 and 31 N., R. 17 W., Kateel River Meridian;

Thence southerly, between sections 5 and 6, 7 and 8, 17 and 18, 19 and 20, 29 and 30, 31 and 32, 5 and 6, 7 and 8, 17 and 18, 19 and 20, 29 and 30, 31 and 32, to the standard corner of sections 31 and 32, T. 29 N., R. 17 W., Kateel River Meridian;

Thence westerly, along the Seventh Standard Parallel North to the closing corner of sections 1 and 2, T. 28 N., R. 18 W., Kateel River Meridian;

Thence southerly, between sections 1 and 2, to a point on the left bank, at the line of mean high water of the Noatak River, between sections 1 and 2, T. 28 N., R. 18 W., Kateel River Meridian;

Thence southwesterly, along the line of mean high water on the left bank of the Noatak River, to a point between sections 6 and 31, Tps. 27 and 28 N., R. 18 W., Kateel River Meridian;

Thence easterly, between Tps. 27 and 28 N., to the corner of sections 3, 4, 33 and 34, Tps. 27 and 28 N., R. 18 W., Kateel River Meridian;

Thence southerly, between sections 3 and 4, to the corner of sections 3, 4, 9 and 10, T. 27 N., R. 18 W., Kateel River Meridian;

Thence westerly, between sections 4 and 9, to the corner of sections 4, 5, 8 and 9, T. 27 N., R. 18 W., Kateel River Meridian;

Thence southerly, between sections 8 and 9, 16 and 17, 20 and 21, 28 and 29, to the corner of sections 28, 29, 32 and 33, T. 27 N., R. 18 W., Kateel River Meridian;

Thence easterly, between sections 28 and 33, 27 and 34, 26 and 35, to the corner of sections 25, 26, 35 and 36, T. 27 N., R. 18 W., Kateel River Meridian;

Thence northerly, between sections 25 and 26, to the corner of sections 23, 24, 25 and 26, T. 27 N., R. 18 W., Kateel River Meridian;

Thence easterly, between section 24 and 25, to the corner of sections 19, 24, 25 and 30, T. 27 N., Rs. 17 and 18 W., Kateel River Meridian;

Thence northerly, between Rs. 17 and 18 W., to the corner of sections 13, 18, 19 and 24, T. 27 N., Rs. 17 and 18 W., Kateel River Meridian;

Thence easterly, between sections 18 and 19, 17 and 20, 16 and 21, to the corner of sections 15, 16, 21 and 22, T. 27 N., R. 17 W., Kateel River Meridian;

Thence southerly, between sections 21 and 22, to the corner of sections 21, 22, 27 and 28, T. 27 N., R. 17 W., Kateel River Meridian;

Thence westerly, between sections 21 and 28, to the corner of sections 20, 21, 28 and 29, T. 27 N., R. 17 W., Kateel River Meridian;

Thence southerly, between sections 28 and 29, to the corner of sections 28, 29, 32 and 33, T. 27 N., R. 17 W., Kateel River Meridian;

Thence easterly, between sections 28 and 33, to the corner of sections 27, 28, 33 and 34, T. 27 N., R. 17 W., Kateel River Meridian;

Thence southerly, between sections 33 and 34, to the corner of sections 3, 4, 33 and 34, Tps. 26 and 27 N., R. 17 W., Kateel River Meridian;

Thence westerly, between Tps. 26 and 27 N., to the corner of sections 4, 5, 32 and 33, Tps. 26 and 27 N., R. 17 W., Kateel River Meridian;

Thence southerly, between sections 4 and 5, to the corner of sections 4, 5, 8 and 9, T. 26 N., R. 17 W., Kateel River Meridian;

Thence westerly, between sections 5 and 8, to the corner of sections 5, 6, 7 and 8, T. 26 N., R. 17 W., Kateel River Meridian;

Thence southerly, between sections 7 and 8, to the corner of sections 7, 8, 17 and 18, T. 26 N., R. 17 W., Kateel River Meridian;

Thence westerly, between sections 7 and 18, to the corner of sections 7, 12, 13 and 18, T. 26 N. Rs. 17 and 18 W., Kateel River Meridian;

Thence southerly, between Rs. 17 and 18 W., to the corner of sections 13, 18, 19 and 24, T. 26 N., Rs. 17 and 18 W., Kateel River Meridian;

Thence westerly, between sections 13 and 24, 14 and 23, 15 and 22, to the corner of sections 15, 16, 21 and 22, T. 26 N., R. 18 W., Kateel River Meridian;

Thence southerly, between sections 21 and 22, 27 and 28, 33 and 34, to the corner of sections 3, 4, 33 and 34, Tps. 25 and 26 N., R. 18 W., Kateel River Meridian;

Thence westerly, between Tps. 25 and 26 N., to the corner of sections 4, 5, 32 and 33, Tps. 25 and 26 N., R. 18 W., Kateel River Meridian;

Thence southerly, between sections 4 and 5, 8 and 9, 16 and 17, to the corner of sections 16, 17, 20 and 21, T. 25 N., R. 18 W., Kateel River Meridian;

Thence westerly, between sections 17 and 20, to the corner of sections 17, 18, 19 and 20, T. 25 N., R. 18 W., Kateel River Meridian;

Thence southerly, between sections 19 and 20, 29 and 30, 31 and 32, to the standard corner of sections 31 and 32, T. 25 N., R. 18 W., Kateel River Meridian;

Thence westerly, along the Sixth Standard Parallel North, to the closing corner of sections 2 and 3, T. 24 N., R. 19 W., Kateel River Meridian;

Thence southerly, between sections 2 and 3, 10 and 11, to the corner of sections 10, 11, 14 and 15, T. 24 N., R. 19 W., Kateel River Meridian;

Thence westerly, between sections 10 and 15, to the corner of sections 9, 10, 15 and 16, T. 24 N., R. 19 W., Kateel River Meridian;

Thence southerly, between sections 15 and 16, to the corner of sections 15, 16, 21 and 22, T. 24 N., R. 19 W., Kateel River Meridian;

Thence westerly, between sections 16 and 21, to the corner of sections 16, 17, 20 and 21, T. 24 N., R. 19 W., Kateel River Meridian;

Thence southerly, between sections 20 and 21, 28 and 29, to the corner of sections 28, 29, 32 and 33, T. 24 N., R. 19 W., Kateel River Meridian;

Thence easterly, between sections 28 and 33, 27 and 34, to the corner of sections 26, 27, 34 and 35, T. 24 N., R. 19 W., Kateel River Meridian;

Thence southerly, between sections 34 and 35, to the corner of sections 2, 3, 34 and 35, Tps. 23 and 24 N., R. 19 W., Kateel River Meridian;

Thence easterly, between Tps. 23 and 24 N., to the corner of Tps. 23 and 24 N., Rs. 18 and 19 W., Kateel River Meridian;

Thence southerly, between Rs. 18 and 19 W., to the corner of sections 7, 12, 13 and 18, T. 23 N., Rs. 18 and 19 W., Kateel River Meridian;

Thence easterly, between sections 7 and 18, 8 and 17, to the corner of sections 8, 9, 16 and 17, T. 23 N., R. 18 W., Kateel River Meridian;

Thence southerly, between sections 16 and 17, to the corner of sections 16, 17, 20 and 21, T. 23 N., R. 18 W., Kateel River Meridian;

Thence easterly, between sections 16 and 21, to the corner of sections 15, 16, 21 and 22, T. 23 N., R. 18 W., Kateel River Meridian;

Thence northerly, between sections 15 and 16, 9 and 10, 3 and 4, 33 and 34, to the corner of sections 27, 28, 33 and 34, T. 24 N., R. 18 W., Kateel River Meridian;

Thence easterly, between sections 27 and 34, to the corner of sections 26, 27, 34 and 35, T. 24 N., R. 18 W., Kateel River Meridian;

Thence northerly, between sections 26 and 27, to the corner of sections 22, 23, 26 and 27, T. 24 N., R. 18 W., Kateel River Meridian;

Thence easterly, between sections 23 and 26, 24 and 25, to the corner of sections 19, 24, 25 and 30, T. 24 N., Rs. 17 and 18 W., Kateel River Meridian;

Thence southerly, between Rs. 17 and 18 W., to the corner of sections 19, 24, 25 and 30, T. 23 N., Rs. 17 and 18 W., Kateel River Meridian;

Thence westerly, between sections 24 and 25, 23 and 26, to the corner of sections 22, 23, 26 and 27, T. 23 N., R. 18 W., Kateel River Meridian;

Thence southerly, between sections 26 and 27, 34 and 35, to the corner of sections 2, 3, 34 and 35, Tps. 22 and 23 N., R. 18 W., Kateel River Meridian;

Thence westerly, between Tps. 22 and 23 N., to the corner of sections 5, 6, 31 and 32, Tps. 22 and 23 N., R. 18 W., Kateel River Meridian;

Thence southerly, between sections 5 and 6, 7 and 8, to the corner of sections 7, 8, 17 and 18, T. 22 N., R. 18 W., Kateel River Meridian;

Thence easterly, between sections 8 and 17, to the corner of sections 8, 9, 16 and 17, T. 22 N., R. 18 W., Kateel River Meridian;

Thence southerly, between sections 16 and 17, to the corner of sections 16, 17, 20 and 21, T. 22 N., R. 18 W., Kateel River Meridian;

Thence easterly, between sections 16 and 21, 15 and 22, 14 and 23, to the corner of sections 13, 14, 23 and 24, T. 22 N., R. 18 W., Kateel River Meridian;

Thence southerly, between sections 23 and 24, 25 and 26, to the corner of sections 25, 26, 35 and 36, T. 22 N., R. 18 W., Kateel River Meridian;

Thence easterly, between sections 25 and 36, to the corner of sections 25, 30, 31 and 36, T. 22 N., Rs. 17 and 18 W., Kateel River Meridian;

Thence southerly, between Rs. 17 and 18 W., to the corner of sections 1, 6, 7 and 12, T. 21 N., Rs. 17 and 18, Kateel River Meridian;

Thence easterly, between sections 6 and 7, to the corner of sections 5, 6, 7 and 8, T. 21 N., R. 17 W., Kateel River Meridian;

Thence southerly, between sections 7 and 8, to the corner of sections 7, 8, 17 and 18, T. 21 N., R. 17 W., Kateel River Meridian;

Thence easterly, between section 8 and 17, 9 and 16, 10 and 15, to the corner of sections 10, 11, 14 and 15, T. 21 N., R. 17 W., Kateel River Meridian;

Thence southerly, between sections 14 and 15, 22 and 23, to the corner of sections 22, 23, 26 and 27, T. 21 N., R. 17 W., Kateel River Meridian;

Thence westerly, between sections 22 and 27, 21 and 28, to the corner of sections 20, 21, 28 and 29, T. 21 N., R. 17 W., Kateel River Meridian;

Thence southerly, between sections 28 and 29, to the corner of sections 28, 29, 32 and 33, T. 21 N., R. 17 W., Kateel River Meridian;

Thence westerly, between sections 29 and 32, 30 and 31, to the corner of sections 25, 30, 31 and 36, T. 21 N., Rs. 17 and 18 W., Kateel River Meridian;

Thence southerly, between Rs. 17 and 18 W., to the standard corner of T. 21 N., Rs. 17 and 18 W., Kateel River Meridian;

Thence easterly, along the Fifth Standard Parallel North, to the closing corner of sections 1 and 2, T. 20 N., R. 18 W., Kateel River Meridian;

Thence southerly, between sections 1 and 2, to the corner of sections 1, 2, 11 and 12, T. 20 N., R. 18 W., Kateel River Meridian;

Thence easterly, between sections 1 and 12, to the corner of sections 1, 6, 7 and 12, T. 20 N., Rs. 17 and 18 W., Kateel River Meridian;

Thence northerly, between Rs. 17 and 18 W., to the closing corner of T. 20 N., Rs. 17 and 18 W., Kateel River Meridian;

Thence easterly, along the Fifth Standard Parallel North, to the closing corner of sections 1 and 2, T. 20 N., R. 17 W., Kateel River Meridian;

Thence southerly, between sections 1 and 2, 11 and 12, 13 and 14, 23 and 24, to the corner of sections 23, 24, 25 and 26, T. 20 N., R. 17 W., Kateel River Meridian;

Thence westerly, between sections 23 and 26, to the corner of sections 22, 23, 26 and 27, T. 20 N., R. 17 W., Kateel River Meridian;

Thence southerly, between sections 26 and 27, 34 and 35, to the corner of sections 2, 3, 34 and 35, Tps. 19 and 20 N., R. 17 W., Kateel River Meridian;

Thence easterly, between Tps. 19 and 20 N., to the corner of sections 2, 3, 34 and 35, Tps. 19 and 20 N., R. 16 W., Kateel River Meridian;

Thence southerly, between sections 2 and 3, to the corner of sections 2, 3, 10 and 11, T. 19 N., R. 16 W., Kateel River Meridian;

Thence easterly, between sections 2 and 11, to the corner of sections 1, 2, 11 and 12, T. 19 N., R. 16 W., Kateel River Meridian;

Thence southerly, between sections 11 and 12, 13 and 14, to the corner of sections 13, 14, 23 and 24, T. 19 N., R. 16 W., Kateel River Meridian;

Thence easterly, between sections 13 and 24, to the corner of sections 13, 18, 19 and 24, T. 19 N., Rs. 15 and 16 W., Kateel River Meridian;

Thence northerly, between Rs. 15 and 16 W., to the corner of sections 25, 30, 31 and 36, T. 20 N., Rs. 15 and 16 W., Kateel River Meridian;

Thence easterly, between sections 30 and 31, to the corner of sections 29, 30, 31 and 32, T. 20 N., R. 15 W., Kateel River Meridian;

Thence northerly, between sections 29 and 30, 19 and 20, 17 and 18, to the summit of a ridge located in sections 17 and 18, T. 20 N., R. 15 W., Kateel River Meridian, approximate elevation 1,325 feet, which is descending from a mountain located in sections 17 and 18, T. 20 N., R. 15 W., Kateel River Meridian, approximate elevation 1,357 feet;

Thence northeasterly, northwesterly and northeasterly, along the crest of mountains between the drainages of the Noatak River and Agashashok River and the drainages of the Squirrel River, to the summit of a mountain in sections 5 and 8, T. 23 N., R. 15 W., Kateel River Meridian, approximate elevation 2,036 feet;

*Thence easterly, northeasterly and northerly, along the crest of mountains between the drainages of the Agashashok River and drainages of the Squirrel River, to the summit of a mountain located in the northerly portion of section 24, T. 26 N., R. 12 W., Kateel River Meridian, approximate elevation 3,851 feet, the place of beginning.

*Department of the Interior 1:250,000 scale map issued in 1981, incorrectly depicts segments of this portion of the description.

Units of the National Wilderness Preservation System Within the Noatak National Preserve

Section 701(7), Public Law 96–487 (ANILCA):

Noatak Wilderness

The Noatak Wilderness as generally depicted on a map numbered NOAT–90,004, dated July 1980, consists of approximately five million eight hundred thousand acres of public lands, as defined in the ANILCA, within the following described boundary:

Beginning at a point on the summit of a mountain between the drainages of Agashashok River, North Fork of the Squirrel River, and Akikukchiak Creek, located in the northerly portion of section 24, T. 26 N., R. 12 W., Kateel River Meridian, approximate elevation 3,851 feet;

*Thence easterly, southerly, easterly, northerly, and easterly, along the crest of the Baird Mountains and the divide between drainages of the Noatak and Squirrel Rivers, southeasterly and easterly to the summit of a mountain in sections 8 and 17, T. 25 N., R. 7 W., Kateel River Meridian, approximate elevation 3,200 feet;

Thence northeasterly, along the crest of the Baird Mountains and along a common boundary with the Kobuk Valley National Park, between the drainages of the Noatak River and the Salmon River, to the summit of a mountain in section 33, T. 29 N., R. 5 W., Kateel River Meridian, approximate elevation 2,528 feet;

Thence southeasterly, along the crest of the Baird Mountains between the drainages of the Noatak River and Kobuk River to the summit of a mountain in sections 13 and 14, T. 25 N., R. 2 W., Kateel River Meridian, approximate elevation 3,700 feet;

Thence northeasterly, easterly, southeasterly, easterly, and southeasterly, along the crest of the Baird Mountains between the drainages of the Noatak River and the Kobuk River to the summit of a mountain located in section 8, T. 23 N., R. 5 E., Kateel River Meridian, approximate elevation 3,515 feet;

*Thence northeasterly, departing from the common boundary with the Kobuk Valley National Park, along the crest of the Baird Mountains between the drainages of the Noatak River and the Ambler River, to the summit of a ridge located in the southern ½ of section 19, T. 25 N., R. 9 E., Kateel River Meridian, approximate elevation 3,600 feet;

Thence northerly, westerly, northerly and westerly, along a common boundary with the Gates of the Arctic National Park, along the crest of mountains between the drainages of Ambler River and Imelyak River, to the summit of a mountain located in the northeast ¼ of section 35, T. 26 N., R. 8 E., Kateel River Meridian, approximate elevation 4,720 feet;

Thence on an approximate forward bearing of N. 11° E., to the summit of a mountain located in sections 23 and 24, T. 26 N., R. 8 E., Kateel River Meridian, approximate elevation 4,508 feet;

Thence northeasterly, along the divide between the drainages of the Ambler and Noatak Rivers, to the summit of a mountain located in section 5, T. 26 N., R. 9 E., Kateel River Meridian, approximate elevation 4,625 feet;

Thence on an approximate forward bearing of S. 37° E., to the summit of a mountain located in section 15, T. 26 N., R. 9 E., Kateel River Meridian, approximate elevation 3,980 feet;

Thence southerly, along the crest of the spur ridge to the summit of a mountain located in section 22, T. 26 N., R. 9 E., Kateel River Meridian, approximate elevation 4,298 feet;

Thence easterly, northerly, and westerly, along the divide between the drainages of Kavachurak Creek and Tunukuchiak Creek, to the summit of a small mountain located in sections 28 and 29, T. 28 N., R. 10 E., Kateel River Meridian, approximate elevation 2,441 feet;

Thence on an approximate forward bearing of N. 51° E., to the summit of a mountain located in section 22, T. 28 N., R. 10 E., Kateel River Meridian, approximate elevation 3,439 feet;

Thence on an approximate forward bearing of N. 24° E., to a point on the right bank of Douglas Creek at the junction of the Noatak River and Douglas Creek located in the northern portion of section 2, T. 28 N., R. 10 E., Kateel River Meridian;

Thence northerly, along the right bank of Douglas Creek to a point on the right bank of Douglas Creek in section 13 located due south of the summit of a mountain, approximate elevation 3,657 feet located in

sections 12 and 13, T. 29 N., R. 10 E., Kateel River Meridian;

Thence due north to the summit of a mountain located in sections 12 and 13, T. 29 N., R. 10 E., Kateel River Meridian, approximate elevation 3,657 feet;

Thence northeasterly, along the crest of a ridge between the drainages to Douglas Cre .k and a tributary of the Noatak River to the summit of a mountain located in section 22, T. 30 N., R. 11 E., Kateel River Meridian, approximate elevation 3,302 feet;

Thence on an approximate forward bearing of N. 28° E., to the summit of a mountain located in sections 14 and 15, T. 30 N., R. 11 E., Kateel River Meridian, approximate elevation 4,100 feet;

Thence southeasterly, along the crest of a ridge to the summit of a mountain located in section 24, T. 30 N., R. 11 E., Kateel River Meridian, approximate elevation 3,473 feet;

Thence on an approximate forward bearing of N. 87° E., to the summit of a mountain located in section 21, T. 30 N., R. 12 E., Kateel River Meridian, approximate elevation 4,021 feet;

Thence easterly and northeasterly along the crest of a ridge between the drainages of Midas Creek and Mountain Creek to the summit of a mountain located at the intersection with a ridge dividing the drainages of Nigu and the Noatak Rivers, located in section 3, T., 30 N., R. 13 E., Kateel River Meridian, approximate elevation 3,250 feet;

Thence northwesterly, departing from the common boundary with the Gates of the Arctic National Park, along the crest of mountains between the drainage of the Nigu River and the drainage of Rough Mountain Creek, to a point on a ridge located in the western portion of section 19, T. 31 N., R. 13 E., Kateel River Meridian, approximate elevation 2,850 feet, due north of the summit of a peak located in section 8, T. 28 N., R. 13 E., Kateel River Meridian, approximate elevation 5,600 feet;

Thence northwesterly, along the crest of mountains and along a common boundary with the National Petroleum Reserve in Alaska, between the drainages of the Nigu River, Etivluk River and tributaries of the Aniuk River, to a summit of Kavaksurak Mountain, located in sections 27 and 28, T. 34 N., R. 8 E., Kateel River Meridian, approximate elevation 4,450 feet;

Thence westerly, southwesterly, northerly, westerly, northwesterly, southwesterly and northwesterly along the crest of the DeLong Mountains, and along a common boundary with the National Petroleum Reserve in Alaska, between the drainages of the Itivluk River, Ipnavik River, Kuna River, Kiligwa River, and Nuka River-tributaries of the Colville River, and drainages of tributaries of the Noatak River, to the summit of a hill in the northwest ¼ of section 21, T. 9 S., R. 33 W., Umiat Meridian, approximate elevation 2,950 feet;

Thence southwesterly, westerly, northwesterly and southwesterly along the crest of the DeLong Mountains, and along a common boundary with the National Petroleum Reserve in Alaska, between the drainages of the Nuka River, Colville River, Utukok River, and Kokolik River and drainages of tributaries of the Noatak River, to a summit of a mountain in section 1, T. 11 S., R. 43 W., Umiat Meridian, approximate elevation 3,675 feet;

Thence southerly, northwesterly, westerly and southwesterly along the crest of the DeLong Mountains, departing from the common boundary with the National Petroleum Reserve in Alaska, between the drainages of the Kokolik River, Tingmerkpuk River and Kukpowruk River and drainages of the Kelly River and Wrench Creek, tributaries of the Noatak River, to the summit of the peak in section 11, T. 34 N., R. 18 W., Kateel River Meridian, approximate elevation 2,800 feet;

Thence southerly and southeasterly along the crest of mountains between drainages of Wrench Creek and Wulik River, to a summit of a mountain in sections 15 and 16, T. 31 N., R. 17 W., Kateel River Meridian, approximate elevation 3,192 feet;

Thence northeasterly along the crest of a ridge to a point between sections 2 and 11, T. 31 N., R. 17 W., Kateel River Meridian, approximate elevation 2,700 feet;

Thence easterly, between sections 2 and 11, 1 and 12, to the corner of sections 1, 6, 7 and 12, T. 31 N., Rs. 16 and 17 W., Kateel River Meridian;

Thence southerly, between Rs. 16 and 17 W., to the corner of sections 19, 24, 25 and 30, T. 31 N., Rs. 16 and 17 W., Kateel River Meridian;

Thence westerly, between sections 24 and 25, to the corner of sections 23, 24, 25 and 26, T. 31 N., R. 17 W., Kateel River Meridian;

Thence southerly, between sections 25 and 26, to the corner of sections 25, 26, 35 and 36, T. 31 N., R. 17 W., Kateel River Meridian;

Thence westerly, between sections 26 and 35, to the corner of sections 26, 27, 34 and 35, T. 31 N., R. 17 W., Kateel River Meridian;

Thence southerly, between sections 34 and 35, to the corner of sections 2, 3, 34 and 35, Tps. 30 and 31 N., R. 17 W., Kateel River Meridian;

Thence westerly, between Tps. 30 and 31 N., to the corner of sections 5, 6, 31 and 32, Tps. 30 and 31 N., R. 17 W., Kateel River Meridian;

Thence southerly, between sections 5 and 6, 7 and 8, 17 and 18, 19 and 20, 29 and 30, 31 and 32, 5 and 6, 7 and 8, 17 and 18, 19 and 20, 29 and 30, 31 and 32, to the standard corner of sections 31 and 32, T. 29 N., R. 17 W., Kateel River Meridian;

Thence westerly, along the Seventh Standard Parallel North to the closing corner of sections 1 and 2, T. 28 N., R. 18 W., Kateel River Meridian;

Thence southerly, between sections 1 and 2, to a point on the left bank, at the line of mean high water of the Noatak River, between sections 1 and 2, T. 28 N., R. 18 W., Kateel River Meridian;

Thence southwesterly, along the line of mean high water on the left bank of the Noatak River, to a point between sections 6 and 31, Tps. 27 and 28 N., R. 18 W., Kateel River Meridian;

Thence easterly, between Tps. 27 and 28 N., to a point on a ridge between sections 1 and 36, Tps. 27 and 28 N., R. 16 W., Kateel River Meridian, approximate elevation 1,200 feet;

Thence southeasterly, northeasterly, easterly, and southerly along the crest of a ridge between the drainages of Noatak and Eli Rivers, to the summit of a mountain located in the northerly portion of section 24, T. 26 N., R. 12 W., Kateel River Meridian, approximate elevation 3,851 feet, the place of beginning.

Units of the National Wild and Scenic Rivers System Within the Noatak National Preserve

Section 601, Public Law 96–487 (ANILCA):

"Noatak, Alaska.—The river from its source in the Gates of the Arctic National Park to its confluence with the Kelly River in the Noatak National Preserve; to be administered by the Secretary of the Interior."

Note: Pursuant to section 605(d) of ANILCA and as provided for under section 3(b) of the Wild and Scenic Rivers Act, the necessity for any river corridor boundaries for the Noatak Wild River within the Noatak National Preserve has been considered during the comprehensive conservation planning process for the preserve. In accordance with the General Management Plan for Noatak National Preserve, approved November 7, 1986, no specific river corridor boundaries are deemed necessary for the Noatak River in order to protect the river and its immediate environments. Proposed management of the preserve meets and is compatible with management standards established by the Wild and Scenic Rivers Act.

The following U. S. Geological Survey 1:63,360 Series (Topographic) Quadrangle Maps were used in preparing the legal boundary descriptions for the Noatak National Preserve and Noatak Wilderness:

Ambler River, Alaska: (B–3) pe 1990; (B–4) pe 1990; (B–5) pe 1990; (C–2) pe 1990; (C–3) pe 1990; (C–4) pe 1990; (C–5) pe 1990; (C–6) pe 1990; (D–1) pe 1990; (D–2) pe 1990.

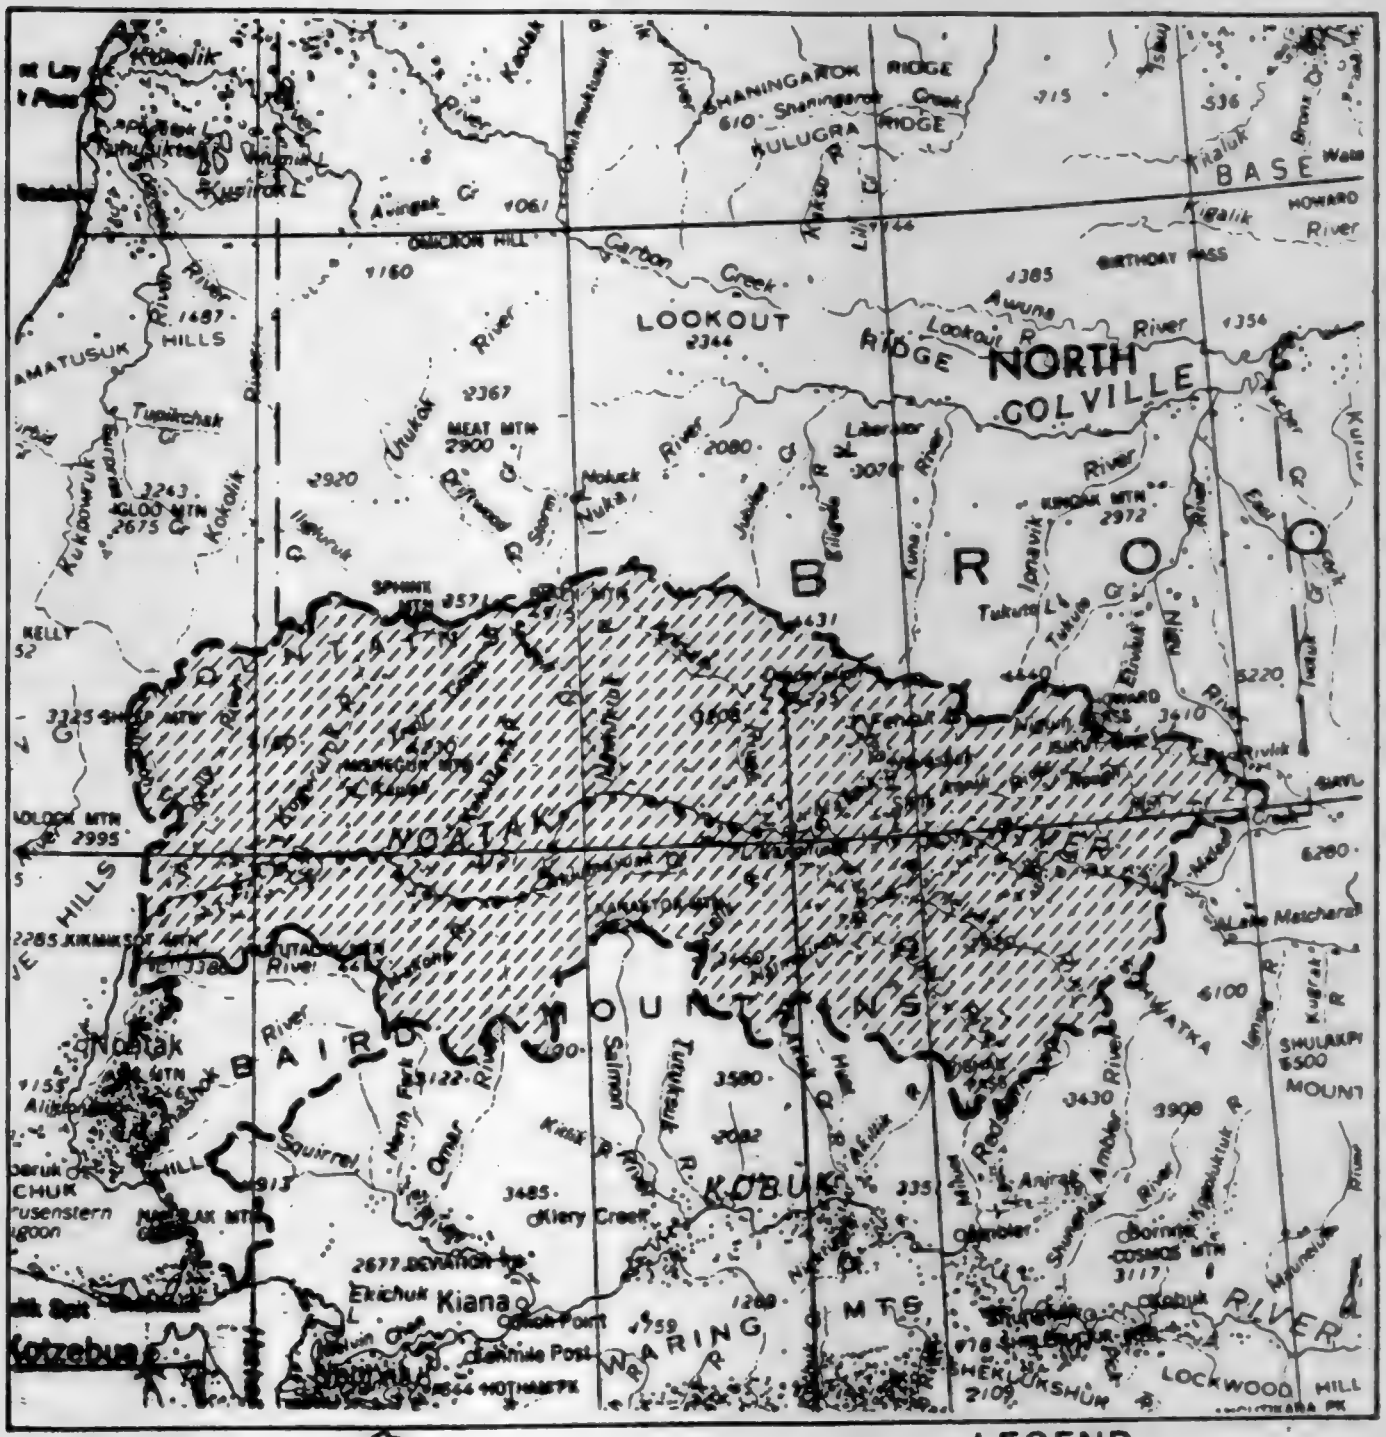
NOATAK NATIONAL PRESERVE

PUBLIC LAW 96-487



BILLING CODE 4310-70-C

Wrangell-St. Elias National Park and Preserve

Section 201(9), Public Law 96–487 (ANILCA):

Wrangell-St. Elias National Park

Wrangell-St. Elias National Park as generally depicted on a map numbered WRST–90.007, dated August 1980, consists of approximately eight million one hundred and forty-seven thousand acres of public lands, as defined in the ANILCA, within the following described boundary:

Beginning on the International Boundary between the United States of America and Canada at 60° 00′ N latitude, in section 22, T. 22 S., R. 37 E., Copper River Meridian;

Thence northwesterly, northerly, westerly, and northerly, along the International Boundary to the meander corner of section 35 only, on the right bank of the main channel of White River on the International Boundary, T. 1 S., R. 24 E., Copper River Meridian;

Thence westerly, northwesterly, southwesterly, and northwesterly, along a common boundary with the Wrangell-St. Elias National Preserve (North Unit), along the right bank of the main channel of the White River and the left bank of the main channel of Lime Creek to a point between sections 29 and 32 on the left bank of the main channel of Lime Creek, T. 1 S., R. 20 E., Copper River Meridian;

Thence easterly between sections 29 and 32, 28 and 33, to an intersection with the extension of a spur ridge between sections 28 and 33, T. 1 S., R. 20 E., Copper River Meridian;

Thence northerly, along the crest of the spur ridge and northwesterly on the crest of a ridge, between the drainages of Lime Creek and other unnamed tributaries of the White River, to control station "Lime" located in the southeasterly portion of section 12, T. 1 S., R. 19 E., Copper River Meridian, approximate elevation 7,074 feet;

Thence northwesterly on the crest of a ridge between the drainages of Lime Creek, Lime Glacier, Solo Creek, Geohenda Creek and North Fork of the White River to the summit on the ridge in the westerly portion of section 2, T. 1 N., R. 18 E., Copper River Meridian, approximate elevation 8,400 feet;

Thence on an approximate forward bearing of S. 80° W., to the summit of a peak in the southwesterly portion of section 3, T. 1 N., R. 18 E., Copper River Meridian, approximate elevation 9,815 feet;

Thence on an approximate forward bearing of N. 87° W., to the summit of a peak in the southwesterly portion of section 5, T. 1 N., R. 18 E., Copper River Meridian, approximate elevation 10,091 feet;

Thence on an approximate forward bearing of S. 66° W., to the summit of a peak in the northeasterly portion of section 12, T. 1 N., R. 17 E., Copper River Meridian, approximate elevation 9,605 feet;

Thence on an approximate forward bearing of N. 69° W., to the summit of a peak in the northeasterly portion of section 4, T. 1 N., R. 17 E., Copper River Meridian, approximate elevation 10,522 feet;

Thence on an approximate forward bearing of N. 57° W., to the summit of a peak in the northwesterly portion of section 32, T. 2 N., R. 17 E., Copper River Meridian, approximate elevation 9,100 feet;

Thence on an approximate forward bearing of N. 60° W., to the summit of a peak in the southwesterly portion of section 30, T. 2 N., R. 17 E., Copper River Meridian, approximate elevation 8,305 feet;

Thence on an approximate forward bearing of N. 59° W., to the summit of a peak near the center of section 16, T. 2 N., R. 16 E., Copper River Meridian, approximate elevation 9,435 feet;

Thence on an approximate forward bearing of N. 45° W., to the summit of a peak near the center of section 8, T. 2 N., R. 16 E., Copper River Meridian, approximate elevation 9,410 feet;

Thence on an approximate forward bearing of S. 72° W., to the summit of a peak in the northerly portion of section 13, T. 2 N., R. 15 E., Copper River Meridian, approximate elevation 9,376 feet;

Thence on an approximate forward bearing of N. 65° W., to the summit of a peak in the southeasterly portion of section 4, T. 2 N., R. 15 E., Copper River Meridian, approximate elevation 10,000 feet;

Thence on an approximate forward bearing of S. 43° W., to the summit of a peak in the southeasterly portion of section 18, T. 2 N., R. 15 E., Copper River Meridian, approximate elevation 9,450 feet;

Thence on an approximate forward bearing of S. 19° W., to the summit of a peak in the northeasterly portion of section 1, T. 1 N., R. 14 E., Copper River Meridian, approximate elevation 9,300 feet;

Thence on an approximate forward bearing of S. 84° W., to the summit of a peak in the northeasterly portion of section 2, T. 1 N., R. 14 E., Copper River Meridian, approximate elevation 9,525 feet;

Thence on an approximate forward bearing of N. 81° W., to the summit of a peak in the southeasterly portion of section 33, T. 2 N., R. 14 E., Copper River Meridian, approximate elevation 9,205 feet;

Thence on an approximate forward bearing of S. 84° W., to the summit of a peak near the center of section 3, T. 1 N., R. 13 E., Copper River Meridian, approximate elevation 9,415 feet;

Thence on an approximate forward bearing of N. 76° W., to the summit of a peak in the southerly portion of section 28, T. 2 N., R. 12 E., Copper River Meridian, approximate elevation 8,910 feet;

Thence on an approximate forward bearing of N. 13° E., to the summit of a peak in the northwesterly portion of section 15, T. 2 N., R. 12 E., Copper River Meridian, approximate elevation 8,560 feet;

Thence on an approximate forward bearing of S. 88° W., to the summit of a peak in the easterly portion of section 15, T. 2 N., R. 11 E., Copper River Meridian, approximate elevation 9,082 feet;

Thence on an approximate forward bearing of N. 29° W., to the summit of a peak in the northeasterly portion of section 32, T. 3 N., R. 11 E., Copper River Meridian, approximate elevation 9,799 feet;

Thence on an approximate forward bearing of N. 83° W., to the summit of a peak in the easterly portion of section 27, T. 3 N., R. 10 E., Copper River Meridian, approximate elevation 9,882 feet;

Thence on an approximate forward bearing of N. 70° W., to the summit of Mount Jarvis in the southwesterly portion of section 20, T. 3 N., R. 10 E., Copper River Meridian, approximate elevation 13,421 feet;

Thence on an approximate forward bearing of N. 20° W., to the summit of a peak in the southerly portion of section 6, T. 3 N., R. 10 E., Copper River Meridian, approximate elevation 13,025 feet;

Thence on an approximate forward bearing of N. 18° W., to the summit of a peak in the easterly portion of section 11, T. 4 N., R. 9 E., Copper River Meridian, approximate elevation 8,750 feet;

Thence on an approximate forward bearing of N. 6° E., to the summit of a peak in the northerly portion of section 26, T. 5 N., R. 9 E., Copper River Meridian, approximate elevation 9,085 feet;

Thence easterly, northeasterly and northerly, on the crest of the divide between the Copper River, tributaries of the Jacksina River, and Goat Creek drainages, to the summit of Tanada Peak in the northerly portion of section 14, T. 6 N., R. 10 E., Copper River Meridian, approximate elevation 9,358 feet;

Thence northeasterly and northerly, on the crest of the divide between the Copper Lake and Goat Creek drainages, to a point between sections 6 and 31, Tps. 6 and 7 N., R. 11 E., Copper River Meridian;

Thence easterly, between Tps. 6 and 7 N., to the crest of a ridge between sections 1 and 36, Tps. 6 and 7 N., R. 11 E., Copper River Meridian;

Thence easterly and northeasterly, along the crest of the divide between the Tanada Lake and Jacksina Creek drainages, to the junction of ridges in the southerly portion of section 11, T. 7 N., R. 12 E., Copper River Meridian, approximate elevation 7,400 feet;

Thence northwesterly, along the crest of a ridge between the Tanada Lake and Jack Creek drainages, to the summit of a peak in the southwesterly portion of section 3, T. 7 N., R. 12 E., Copper River Meridian, approximate elevation 6,065 feet;

Thence on an approximate forward bearing of N. 78° W., to the headwaters of an unnamed creek on the northerly end of a small lake in the southwesterly portion of section 4, T. 7 N., R. 12 E., Copper River Meridian;

Thence northerly, along the left bank of an unnamed creek to the junction of unnamed creeks in the northeasterly portion of section 32, T. 8 N., R. 12 E., Copper River Meridian;

Thence on an approximate forward bearing of N. 18° W., to the summit of a hill near the center of section 29, T. 8 N., R. 12 E., Copper River Meridian, approximate elevation 4,830 feet;

Thence on an approximate forward bearing of N. 60° W., to the headwaters of an unnamed creek at the north end of a small lake in the southerly portion of section 19, T. 8 N., R. 12 E., Copper River Meridian;

Thence northerly, along the right bank of the unnamed creek to a point between

sections 31 and 36, T. 9 N., Rs. 11 and 12 E., Copper River Meridian;

Thence northerly, between Rs. 11 and 12 E., to a point 16 feet southerly of the centerline of the Nabesna Road on a line perpendicular to the centerline of said road and between sections 25 and 30, T. 9 N., Rs. 11 and 12 E., Copper River Meridian;

Thence northwesterly, paralleling the Nabesna Road at a distance of sixteen feet southerly from the center line of the road, to a point on the north and south centerline of section 11, T. 10 N., R. 8 E., Copper River Meridian;

Thence southerly, on the north and south centerlines of sections 11, 14 and 23, to a point on the north and south centerline of section 23 on the left bank of the Copper River, T. 10 N., R. 8 E., Copper River Meridian;

Thence southerly and southwesterly, along the left banks of the Copper River and the westernmost channel of the east branch of Drop Creek which enters the Copper River in the northeasterly portion of section 23, and along the left bank of Drop Creek to a point between sections 19 and 24, T. 7 N., Rs. 7 and 8 E., Copper River Meridian;

Thence southerly, between Rs. 7 and 8 E., to the corner of sections 1, 6, 31 and 36, Tps. 6 and 7 N., Rs. 7 and 8 E., Copper River Meridian;

Thence westerly between Tps. 6 and 7 N., to the intersection of a ridge in the eastern half of sections 1 and 36, Tps. 6 and 7 N., R. 7 E., Copper River Meridian, approximate elevation 5,125 feet;

Thence southwesterly, along the crest of the spur ridge, and westerly and southwesterly, on the crest of a ridge between the Boulder Creek and Drop Glacier drainages, to a point between sections 17 and 20, T. 6 N., R. 7 E., Copper River Meridian;

Thence westerly, between sections 17 and 20, 18 and 19, 13 and 24, to the intersection of a ridge between the easterly portions of sections 13 and 24, T. 6 N., Rs. 6 and 7 E., Copper River Meridian, approximate elevation 9,425 feet;

Thence northwesterly, westerly, and southwesterly along the crest of a ridge between the drainages of the Sanford River, Sheep Creek, and other unnamed tributaries of the Copper River to a summit on the ridge near the center of section 15, T. 6 N., R. 5 E., Copper River Meridian, approximate elevation 5,130 feet;

Thence on an approximate forward bearing of S. 49° W., to the corner of sections 15, 16, 21 and 22, T. 6 N., R. 5 E., Copper River Meridian;

Thence westerly, between sections 16 and 21, 17 and 20, to a point on the right bank of an unnamed creek near the corner of sections 16, 17, 20 and 21, T. 6 N., R. 5 E., Copper River Meridian;

Thence westerly and northwesterly, along the right bank of the unnamed creek to a point at the intersection of the creek with the left bank of the easternmost interconnecting waterway of the Copper River, at the line of ordinary high water, in the northern portions of sections 7 and 12, T. 7 N., Rs. 2 and 3 E., Copper River Meridian;

*Thence southwesterly, departing from a common boundary with the Wrangell-St. Elias National Preserve (North Unit), along the left bank of the most easterly interconnecting waterways of the Copper River along the line of ordinary high water, to a point between sections 10 and 15, T. 6 N., R. 1 E., Copper River Meridian;

Thence easterly, along a common boundary with the Wrangell-St. Elias National Preserve (West Unit), between sections 10 and 15, 11 and 14, 12 and 13, to the corner of sections 7, 12, 13 and 18, T. 6 N., Rs. 1 and 2 E., Copper River Meridian;

Thence southerly, between Rs. 1 and 2 E., to the corner of sections 1, 6, 7 and 12, T. 5 N., Rs. 1 and 2 E., Copper River Meridian;

Thence easterly, between sections 6 and 7, 5 and 8, to the corner of sections 4, 5, 8 and 9, T. 5 N., R. 2 E., Copper River Meridian;

Thence southerly, between sections 8 and 9, to the corner of sections 8, 9, 16 and 17, T. 5 N., R. 2 E., Copper River Meridian;

Thence easterly, between sections 9 and 16, 10 and 15, to the corner of sections 10, 11, 14 and 15, T. 5 N., R. 2 E., Copper River Meridian;

Thence southerly, between sections 14 and 15, to the corner of sections 14, 15, 22 and 23, T. 5 N., R. 2 E., Copper River Meridian;

Thence easterly, between sections 14 and 23, 13 and 24, 18 and 19, 17 and 20, 16 and 21, to the corner of sections 15, 16, 21 and 22, T. 5 N., R. 3 E., Copper River Meridian;

Thence southerly, between sections 21 and 22, 27 and 28, 33 and 34, to the standard corner of sections 33 and 34, T. 5 N., R. 3 E., Copper River Meridian;

Thence westerly, on the First Standard Parallel North, to the closing corner of sections 4 and 5, T. 4 N., R. 3 E., Copper River Meridian;

Thence southerly, between sections 4 and 5, 8 and 9, 16 and 17, 20 and 21, 28 and 29, 32 and 33, 4 and 5, 8 and 9, 16 and 17, to the corner of sections 16, 17, 20 and 21, T. 3 N., R. 3 E., Copper River Meridian;

Thence easterly, between sections 16 and 21, 15 and 22, 14 and 23, to a point on the crest of the divide between the Nadina Glacier and Klawasi River drainages, T. 3 N., R. 3 E., Copper River Meridian;

Thence northeasterly, along the crest of the divide between the drainages of Nadina Glacier and Klawasi River, to a point between sections 28 and 33, T. 4 N., R. 4 E., Copper River Meridian;

Thence easterly, between sections 28 and 33, 27 and 34, 26 and 35, 25 and 36, to a point on the divide between the drainages of Sanford River and Dadina River, T. 4 N., R. 4 E., Copper River Meridian;

Thence easterly and southeasterly, along the crest of the divide between the Sanford River and Dadina River drainages, to a point between sections 3 and 34, Tps. 3 and 4 N., R. 5 E., Copper River Meridian;

Thence easterly, between Tps. 3 and 4 N., to the corner of sections 2, 3, 34 and 35, Tps. 3 and 4 N., R. 6 E., Copper River Meridian;

Thence southerly, between sections 2 and 3, to the corner of sections 2, 3, 10 and 11, T. 3 N., R. 6 E., Copper River Meridian;

Thence easterly, between sections 2 and 11, to the corner of sections 1, 2, 11 and 12, T. 3 N., R. 6 E., Copper River Meridian;

Thence southerly, between sections 11 and 12, to the corner of sections 11, 12, 13 and 14, T. 3 N., R. 6 E., Copper River Meridian;

Thence easterly, between sections 12 and 13, to the corner of sections 7, 12, 13 and 18, T. 3 N., Rs. 6 and 7 E., Copper River Meridian;

Thence southerly, between Rs. 6 and 7 E., to the corner of sections 7, 12, 13 and 18, T. 2 N., Rs. 6 and 7 E., Copper River Meridian;

Thence easterly, between sections 7 and 18, 8 and 17, to the corner of sections 8, 9, 16 and 17, T. 2 N., R. 7 E., Copper River Meridian;

Thence southerly, between sections 16 and 17, 20 and 21, 28 and 29, 32 and 33, 4 and 5, to the corner of sections 4, 5, 8 and 9, T. 1 N., R. 7 E., Copper River Meridian;

Thence easterly, between sections 4 and 9, 3 and 10, 2 and 11, 1 and 12, 6 and 7, 5 and 8, 4 and 9, to the corner of sections 3, 4, 9 and 10, T. 1 N., R. 8 E., Copper River Meridian;

Thence southerly, between sections 9 and 10, to the corner of sections 9, 10, 15 and 16, T. 1 N., R. 8 E., Copper River Meridian;

Thence easterly, between sections 10 and 15, to the corner of sections 10, 11, 14 and 15, T. 1 N., R. 8 E., Copper River Meridian;

Thence southerly, between sections 14 and 15, 22 and 23, to the corner of sections 22, 23, 26 and 27, T. 1 N., R. 8 E., Copper River Meridian;

Thence easterly, between sections 23 and 26, to a point on the divide between the Long Glacier and Kluvesna and Kotsina River drainages, T. 1 N., R. 8 E., Copper River Meridian;

Thence southwesterly, along the crest of the divide between the Long Glacier and Kluvesna, Clear Creek, and Kotsina River drainages, to the summit of a peak in the northwesterly portion of section 34, T. 1 S., R. 7 E., Copper River Meridian, approximate elevation 5,061 feet;

Thence on an approximate forward bearing of S. 2° E., to a point on the right bank of the Kotsina River and the right bank of an unnamed tributary to the Kotsina River at the confluence of the unnamed tributary with the Kotsina River in the northwesterly portion of section 10, T. 2 S., R. 7 E., Copper River Meridian;

Thence westerly, southerly and westerly, along the right bank of the Kotsina River to a point at its confluence with the left bank of the Copper River, at the line of ordinary high water, in the northeasterly portion of section 12, T. 4 S., R. 5 E., Copper River Meridian;

Thence southerly, departing from a common boundary with the Wrangell-St. Elias National Preserve (West Unit), along the left bank of the Copper River, at the line of ordinary high water, closing the mouth of the Kotsina River, to a point between sections 12 and 13, T. 4 S., R. 5 E., Copper River Meridian;

Thence easterly, between sections 12 and 13, to the corner of sections 7, 12, 13 and 18, T. 4 S., Rs. 5 and 6 E., Copper River Meridian;

*Thence southerly between Rs. 5 and 6 E. to the meander corner on the left bank of the Copper River, at the line of ordinary high water, between sections 19 and 24, T. 4 S., Rs. 5 and 6 E., Copper River Meridian;

*Thence easterly, southerly, southwesterly, southerly, southwesterly and southeasterly, along the left bank of the Copper River, at the line of ordinary high water, closing the mouth of the Chitina River and the mouths of all

other streams, to a point between sections 33 and 34, T. 8 S., R. 3 E., Copper River Meridian;

Thence southeasterly, southerly and southeasterly, along a common boundary with the Chugach National Forest, along the line of ordinary high water of the left bank of the Copper River closing the mouths of all streams, to a point near the junction of the Wernicke River and Copper River S. 32° W. of the summit of a small hill in the central area of a 1,500 foot contour which spans the section line between sections 2 and 11, T. 12 S., R. 5 E., Copper River Meridian, said point near the southern boundary of section 10, T. 12 S., R. 5 E., Copper River Meridian;

Thence N. 32° E., to the crest of a ridge between sections 2 and 35, Tps. 11 and 12 S., R. 5 E., Copper River Meridian, approximate elevation 3,500 feet;

Thence northeasterly and southeasterly, on the crest of the divide between the drainages of Wernicke River and the Bremner River to the summit of a peak in the center of section 26, T. 12 S., R. 9 E., Copper River Meridian, approximate elevation 6,075 feet;

Thence on an approximate forward bearing of S. 10° W., to the summit of a peak in the southeasterly portion of section 27, T. 13 S., R. 9 E., Copper River Meridian, approximate elevation 8,212 feet;

Thence easterly, northerly, southeasterly, southwesterly, and southerly, along the crest of a ridge between Miles Glacier and Fan Glacier, to the summit of Mount Tom White located in sections 18 and 19, T. 14 S., R. 10 E., Copper River Meridian, approximate elevation 11,191 feet;

Thence easterly and northeasterly, departing from a common boundary with the Chugach National Forest, on the crest of a ridge, between Martin River Glacier, Fan Glacier, and Bremner Glacier, to the summit of Mount Hawkins in the southeasterly portion of section 4, T. 14 S., R. 11 E., Copper River Meridian, approximate elevation 9,368 feet;

Thence on an approximate forward bearing of S. 15° E., to the summit of a peak located in sections 9 and 10, T. 14 S., R. 11 E., Copper River Meridian, approximate elevation 8,813 feet;

Thence on an approximate forward bearing of S. 45° E., to the summit of a peak in the northwesterly portion of section 23, T. 14 S., R. 11 E., Copper River Meridian, approximate elevation 7,806 feet;

Thence on an approximate forward bearing of S. 7° W., to the summit of peak in the westerly portion of section 35, T. 14 S., R. 11 E., Copper River Meridian, approximate elevation 6,400 feet;

Thence on an approximate forward bearing of S. 44° E., to the summit of a peak in the easterly portion of section 20, T. 15 S., R. 12 E., Copper River Meridian, approximate elevation 8,200 feet;

Thence southeasterly, along the crest of a ridge, between Steller Glacier, Bering Glacier and Bagley Ice Field, to the summit of a peak in the southerly portion of section 1, T. 16 S., R. 12 E., Copper River Meridian, approximate elevation 8,215 feet;

Thence on an approximate forward bearing of N. 82° E., to the summit of Mount Steller in the northerly portion of section 3, T. 16 S., R. 13 E., Copper River Meridian, approximate elevation 10,515 feet;

Thence easterly, along the crest of Waxell Ridge, between Bering Glacier and Bagley Ice Field, to the summit of a peak in the northeasterly portion of section 31, T. 15 S., R. 16 E., Copper River Meridian, approximate elevation 4,400 feet;

Thence on an approximate forward bearing of S. 64° E., to the summit of a ridge between sections 7 and 8, T. 16 S., R. 17 E., Copper River Meridian, approximate elevation 3,800 feet;

Thence northeasterly, easterly, southeasterly and southwesterly, along the crest of a ridge, between Bering Glacier, Yahtse Glacier, and Bagley Ice Field, to the summit of a ridge between sections 25 and 36, T. 16 S., R. 17 E., Copper River Meridian, approximate elevation 8,800 feet;

Thence on an approximate forward bearing of S. 36° E., to the summit of a peak in the southwesterly portion of section 8, T. 18 S., R. 19 E., Copper River Meridian, approximate elevation 6,200 feet;

Thence southeasterly, along the crest of a ridge between the drainages of the Yahtse Glacier and Duktoth River, to the summit of a peak in the northeasterly portion of section 15, T. 18 S., R. 19 E., Copper River Meridian, approximate elevation 6,700 feet;

Thence on an approximate forward bearing of S. 5° W., to the summit of a peak in the northwesterly portion of section 3, T. 19 S., R. 19 E., Copper River Meridian, approximate elevation 7,072 feet;

Thence on an approximate forward bearing of S. 60° E., to the summit of Mount Leeper in the northwesterly portion of section 12, T. 19 S., R. 19 E., Copper River Meridian, approximate elevation 9,603 feet;

Thence southerly, easterly and southeasterly, on the crest of the ridge, between Yakataga Glacier, Guyot Glacier, Leeper Glacier and Yahtse Glacier, to a point between sections 2 and 3, T. 20 S., R. 20 E., Copper River Meridian;

Thence southerly, between sections 2 and 3, 10 and 11, 14 and 15, 22 and 23, 26 and 27, 34 and 35, to the corner of sections 2, 3, 34 and 35, Tps. 20 and 21 S., R. 20 E., Copper River Meridian;

Thence easterly, between Tps. 20 and 21 S., to the corner of Tps. 20 and 21 S., Rs. 20 and 21 E., Copper River Meridian;

Thence southerly, between Rs. 20 and 21 E., to the corner of Tps. 21 and 22 S., Rs. 20 and 21 E., Copper River Meridian;

Thence easterly, between Tps. 21 and 22 S., to the ¼ section corner of sections 6 and 31, Tps. 21 and 22 S., R. 23 E., Copper River Meridian;

Thence southerly, on the north and south centerlines of sections 6 and 7, to the crest of a ridge between Carson Creek and Independence Creek drainages, in the southerly portion of section 7, T. 22 S., R. 23 E., Copper River Meridian, approximate elevation 3,600 feet;

Thence northeasterly, easterly and southeasterly, on the crest of a ridge, between the Carson Creek and Independence Creek drainages, to horizontal control station "Amber" in the southeasterly portion of section 16, T. 22 S., R. 23 E., Copper River Meridian, approximate elevation 2,272 feet;

Thence on an approximate forward bearing of east, to a point at the mouth on the left bank of Independence Creek on the shore of Icy Bay, at the line of mean high tide in the southeasterly portion of section 14, T. 22 S., R. 23 E., Copper River Meridian;

Thence northeasterly, northwesterly, easterly and southeasterly, along the line of mean high tide of Icy Bay, including any coastal islands above the line of mean high tide, to a point between sections 4 and 33, Tps. 21 and 22 S., R. 24 E., Copper River Meridian;

Thence easterly, between Tps. 21 and 22 S., to the corner of Tps. 21 and 22 S., Rs. 25 and 26 E., Copper River Meridian;

Thence southerly, between Rs. 25 and 26 E., to a point between sections 1 and 6, at the line of mean high tide of the Gulf of Alaska, T. 25 S., Rs. 25 and 26 E., Copper River Meridian;

Thence southeasterly, along the line of mean high tide of the Gulf of Alaska, including any coastal islands above the line of mean high tide, to a point located in the northwesterly portion of section 4, T. 26 S., R. 30 E. and lying due south of an unnamed inlet's most western point located near the section line of sections 4 and 33, Tps. 25 and 26 E., R. 30 E., Copper River Meridian;

Thence north, along the common boundary with Wrangell-St. Elias National Preserve (South Unit), across the spit to an unnamed inlet's most western point located near the section line of sections 4 and 33, Tps. 25 and 26 S., R. 30 E., Copper River Meridian;

Thence easterly, along the north shoreline of the unnamed inlet, to a point on the left bank of the most eastern braided stream at the mouth of Manby Stream in the northwesterly portion of section 3, T. 26 S., R. 30 E., Copper River Meridian;

Thence northerly, along the left bank of Manby Stream, to a point between sections 16 and 21, T. 25 S., R. 30 E., Copper River Meridian;

Thence easterly, between sections 16 and 21, 15 and 22, 14 and 23, 13 and 24, to the corner of sections 13, 18, 19 and 24, T. 25 S., Rs. 30 and 31 E., Copper River Meridian;

Thence northerly, between Rs. 30 and 31 E., to a point between sections 1 and 6, on the southwesterly shore of Malaspina Lake, in T. 25 S., Rs. 30 and 31 E., Copper River Meridian;

Thence northerly, easterly, northeasterly, and southeasterly, along the line of mean high water of the northerly shore of Malaspina Lake, to a point between sections 13 and 18, T. 24 S., Rs. 31 and 32 E., Copper River Meridian;

Thence northerly, between Rs. 31 and 32 E., to the corner of Tps. 22 and 23 S., Rs. 31 and 32 E., Copper River Meridian;

Thence on an approximate forward bearing of N. 49° E., to the summit of a hill in the northeasterly portion of section 31, T. 22 S., R. 32 E., Copper River Meridian, approximate elevation 3,000 feet;

Thence on an approximate forward bearing of N. 17° E., to the summit of a hill in the southwesterly portion of section 20, T. 22 S., R. 32 E., Copper River Meridian, approximate elevation 3,625 feet;

Thence on an approximate forward bearing of N. 5° W., to the summit of Floral Hills in the southwesterly portion of section 17, T. 22

S., R. 32 E., Copper River Meridian, approximate elevation 4,175 feet;

Thence on an approximate forward bearing of S. 83° E., to the summit of a peak in the easterly portion of section 20, T. 22 S., R. 33 E., Copper River Meridian, approximate elevation 5,336 feet;

Thence on an approximate forward bearing of S. 39° E., to the summit of a peak in the northwesterly portion of section 34, T. 22 S., R. 33 E., Copper River Meridian, approximate elevation 4,388 feet;

Thence on an approximate forward bearing of N. 80° E., to the summit of a peak in the northerly portion of section 36, T. 22 S., R. 33 E., Copper River Meridian, approximate elevation 4,780 feet;

Thence on an approximate forward bearing of S. 77° E., to the summit of a peak in the northwesterly portion of section 32, T. 22 S., R. 34 E., Copper River Meridian, approximate elevation 4,280 feet;

Thence on an approximate forward bearing of S. 71° E., to a point at the mouth on the right bank of an unnamed creek in the southwesterly portion of section 33, at the line of mean high tide of Disenchantment Bay, T. 22 S., R. 34 E., Copper River Meridian;

Thence northerly, northeasterly, southerly, and southeasterly, departing from a common boundary with the Wrangell-St. Elias National Preserve (South Unit), along the line of mean high tide of Disenchantment Bay, including any coastal islands above the line of mean high tide, to a point on the line of mean high tide of Disenchantment Bay at 60°00′ N. latitude;

Thence due east, along a common boundary with the Tongass National Forest, on the line of latitude of 60°00′ N., to the International Boundary between the United States of America and Canada in section 22, T. 22 S., R. 37 E., Copper River Meridian, the place of beginning.

Excluded from the Wrangell-St. Elias National Park is the Wrangell-St. Elias National Preserve (Central Unit) as described in the following.

*Department of the Interior 1:250,000 scale map issued in 1981, incorrectly depicts this portion of the description.

Wrangell-St. Elias National Preserve

Wrangell-St. Elias National Preserve as generally depicted on a map numbered WRST–90,007, dated August 1980, consists of approximately four million one hundred and seventy-one thousand acres of public land, as defined in the ANILCA, within the following described boundaries:

North Unit

Beginning at a point in the northern portions of sections 7 and 12, on the left bank of the most easterly interconnecting waterway of the Copper River, at the line of ordinary high water, T. 7 N., Rs. 2 and 3 E., Copper River Meridian;

Thence northeasterly and easterly, departing from a common point on the boundary of the Wrangell-St. Elias National Park, along the left bank of the most easterly interconnecting waterways of the Copper River, at the line of ordinary high water, to a point perpendicular to and opposite the left bank of Indian Creek in the southeasterly portion of section 15, and northeasterly portion of section 22, T. 10 N., R. 5 E., Copper River Meridian;

Thence northwesterly across the Copper River to a point on the left bank of Indian Creek at its confluence with the Copper River, at the line of ordinary high water, near the southern edge of section 15, T. 10 N., R. 5 E., Copper River Meridian;

Thence northerly, along the left bank of Indian Creek, to the southerly boundary of the right-of-way of the Glenn Highway in the northerly portion of section 11, T. 10 N., R. 5 E., Copper River Meridian;

Thence northeasterly and easterly, along the easterly and southerly boundary of the right-of-way of the Glenn Highway, to a point between sections 25 and 30, T. 11 N., Rs. 7 and 8 E., Copper River Meridian;

Thence southerly, between Rs. 7 and 8 E., to a point between sections 25 and 30 on the left bank of Slana River, T. 11 N., Rs. 7 and 8 E., Copper River Meridian;

Thence easterly, along the left bank of Slana River to a point on the north and south centerline of section 29, T. 11 N., R. 8 E., Copper River Meridian;

Thence southerly, on the north and south centerline of section 29, to the ¼ section corner of sections 29 and 32, T. 11 N., R. 8 E., Copper River Meridian;

Thence easterly, between sections 29 and 32, 28 and 33, to a point on the southerly boundary of the right-of-way of the Nabesna Road which is 100 feet southwesterly of the centerline of said road on a line perpendicular to the centerline of said road and between sections 28 and 33, T. 11 N., R. 8 E., Copper River Meridian;

Thence southeasterly, along the southerly boundary of the right-of-way of the Nabesna Road, to a point between sections 3 and 34, Tps. 10 and 11 N., R. 8 E., Copper River Meridian;

Thence easterly, between Tps. 10 and 11 N., to the corner of sections 4, 5, 32 and 33, Tps. 10 and 11 N., R. 10 E., Copper River Meridian;

Thence southerly, between sections 4 and 5, to the ¼ section corner of sections 4 and 5, T. 10 N., R. 10 E., Copper River Meridian;

Thence easterly, on the east and west centerline of section 4, to the center ¼ section corner of section 4, T. 10 N., R. 10 E., Copper River Meridian;

Thence on an approximate forward bearing of south, to the summit of a peak near the center of section 9, T. 10 N., R. 10 E., Copper River Meridian, approximate elevation 4,100 feet;

Thence southerly and easterly on the crest of the ridge between the drainages of the Tanada Creek, Caribou Creek, Jack Creek, Suslota Creek, and Little Tok River to the summit of Noyes Mountain in the northerly portion of section 16, T. 10 N., R. 12 E., Copper River Meridian, approximate elevation 8,147 feet;

Thence southeasterly, along the crest of a divide between the drainages of Jack Creek, Platinum Creek, and Tetlin River to a junction of ridges in the easterly portion of section 36, T. 10 N., R. 13 E., Copper River Meridian;

Thence southerly and southeasterly, along a common boundary with the Tetlin National Wildlife Refuge, along the crest of a ridge between the drainages of the Cheslina River, Totschunda Creek, Platinum Creek and the Nabesna River to a point between sections 31 and 36, T. 9 N., Rs. 14 and 15 E., Copper River Meridian;

Thence southerly, between Rs. 14 and 15 E., to the standard corner of T. 9 N., Rs. 14 and 15 E., Copper River Meridian;

Thence easterly, on the Second Standard Parallel North, to a point between Tps. 8 and 9 N., R. 21 E., Copper River Meridian, on the right bank of the Chisana River;

Thence on an approximate forward bearing of S. 38° E., to the summit of a mountain in the northwesterly portion of section 30, T. 8 N., R. 22 E., Copper River Meridian, approximate elevation 3,575 feet;

Thence southeasterly, along the crest of a ridge, between the Snag Creek and Wellesley Lakes drainages, to a point between sections 4 and 33, Tps. 7 and 8 N., R. 23 E., Copper River Meridian;

Thence easterly, between Tps. 7 and 8 N., to the International Boundary between the United States of America and Canada at the closing corner of sections 5 and 32, Tps. 7 and 8 N., R. 24 E., Copper River Meridian;

Thence southerly, departing from a common boundary with the Tetlin National Wildlife Refuge, along the International Boundary between the United States of America and Canada, to a point on the International Boundary on the right bank of the main channel of the White River, section 35, T. 1 S., R. 24 E., Copper River Meridian;

*Thence westerly, northwesterly, southwesterly, and northwesterly along a common boundary with the Wrangell-St. Elias National Park, along the right bank of the main channel of the White River and the left bank of the main channel of Lime Creek to a point between sections 29 and 32 on the left bank of the main channel of Lime Creek, T. 1 S., R. 20 E., Copper River Meridian;

*Thence easterly between sections 29 and 32, 28 and 33, to an intersection with the extension of a spur ridge between sections 28 and 33, T. 1 S., R. 20 E., Copper River Meridian;

Thence northerly, along the crest of the spur ridge and northwesterly on the crest of a ridge, between the drainages of Lime Creek and other unnamed tributaries of the White River, to control station "Lime", located in the southeasterly portion of section 12, T. 1 S., R. 19 E., Copper River Meridian, approximate elevation 7,074 feet;

Thence northwesterly, on the crest of a ridge between the drainages of Lime Creek, Lime Glacier, Solo Creek, Geohenda Creek and the north fork of the White River, to the summit on the ridge in the westerly portion of section 2, T. 1 N., R. 18 E., Copper River Meridian, approximate elevation 8,400 feet;

Thence on an approximate forward bearing of S. 80° W., to the summit of a peak in the southwesterly portion of section 3, T. 1 N., R. 18 E., Copper River Meridian, approximate elevation 9,315 feet;

Thence on an approximate forward bearing of N. 87° W. to the summit of a peak in the southwesterly portion of section 5, T. 1 N., R. 18 E., Copper River Meridian, approximate elevation 10,091 feet;

Thence on an approximate forward bearing of S. 66° W., to the summit of a peak in the northeasterly portion of section 12, T. 1 N., R. 17 E., Copper River Meridian, approximate elevation 9,605 feet;

Thence on an approximate forward bearing of N. 69° W., to the summit of a peak in the northeasterly portion of section 4, T. 1 N., R. 17 E., Copper River Meridian, approximate elevation 10,522 feet;

Thence on an approximate forward bearing of N. 57° W., to the summit of a peak in the northwesterly portion of section 32, T. 2 N., R. 17 E., Copper River Meridian, approximate elevation 9,100 feet;

Thence on an approximate forward bearing of N. 60° W., to the summit of a peak in the southwesterly portion of section 30, T. 2 N., R. 17 E., Copper River Meridian, approximate elevation 8,305 feet;

Thence on an approximate forward bearing of N. 59° W., to the summit of a peak near the center of section 16, T. 2 N., R. 16 E., Copper River Meridian, approximate elevation 9,435 feet;

Thence on an approximate forward bearing of N. 45° W., to the summit of a peak near the center of section 8, T. 2 N., R. 16 E., Copper River Meridian, approximate elevation 9,410 feet;

Thence on an approximate forward bearing of S. 72° W., to the summit of a peak in the northerly portion of section 13, T. 2 N., R. 15 E., Copper River Meridian, approximate elevation 9,376 feet;

Thence on an approximate forward bearing of N. 65° W., to the summit of a peak in the southeasterly portion of section 4, T. 2 N., R. 15 E., Copper River Meridian, approximate elevation 10,000 feet;

Thence on an approximate forward bearing of S. 43° W., to the summit of a peak in the southeasterly portion of section 18, T. 2 N., R. 15 E., Copper River Meridian, approximate elevation 9,850 feet;

Thence on an approximate forward bearing of S. 19° W., to the summit of a peak in the northeasterly portion of section 1, T. 1 N., R. 14 E., Copper River Meridian, approximate elevation 9,300 feet;

Thence on an approximate forward bearing of S. 84° W., to the summit of a peak in the northeasterly portion of section 2, T. 1 N., R. 14 E., Copper River Meridian, approximate elevation 9,525 feet;

Thence on an approximate forward bearing of N. 81° W., to the summit of a peak in the southeasterly portion of section 33, T. 2 N., R. 14 E., Copper River Meridian, approximate elevation 9,205 feet;

Thence on an approximate forward bearing of S. 84° W., to the summit of a peak near the center of section 3, T. 1 N., R. 13 E., Copper River Meridian, approximate elevation 9,415 feet;

Thence on an approximate forward bearing of N. 76° W., to the summit of a peak in the southerly portion of section 28, T. 2 N., R. 12 E., Copper River Meridian, approximate elevation 8,910 feet;

Thence on an approximate forward bearing of N. 13° E., to the summit of a peak in the northwesterly portion of section 15, T. 2 N., R. 12 E., approximate elevation 8,560 feet;

Thence on an approximate forward bearing of S. 88° W., to the summit of a peak in the easterly portion of section 15, T. 2 N., R. 11 E., Copper River Meridian, approximate elevation 9,082 feet;

Thence on an approximate forward bearing of N. 29° W., to the summit of a peak in the northeasterly portion of section 32, T. 3 N., R. 11 E., Copper River Meridian, approximate elevation 9,799 feet;

Thence on an approximate forward bearing of N. 83° W., to the summit of a peak in the easterly portion of section 27, T. 3 N., R. 10 E., Copper River Meridian, approximate elevation 9,882 feet;

Thence on an approximate forward bearing of N. 70° W., to the summit of Mount Jarvis in the southwesterly portion of section 20, T. 3 N., R. 10 E., Copper River Meridian, approximate elevation 13,421 feet;

Thence on an approximate forward bearing of N. 20° W., to the summit of a peak in the southerly portion of section 6, T. 3 N., R. 10 E., Copper River Meridian, approximate elevation 13,025 feet;

Thence on an approximate forward bearing of N. 18° W., to the summit of a peak in the easterly portion of section 11, T. 4 N., R. 9 E., Copper River Meridian, approximate elevation 8,750 feet;

Thence on an approximate forward bearing of N. 6° E., to the summit of a peak in the northerly portion of section 26, T. 5 N., R. 9 E., Copper River Meridian, approximate elevation 9,085 feet;

Thence easterly, northeasterly and northerly, on the crest of the divide between the Copper River, tributaries of the Jacksina River and Goat Creek drainages, to the summit of Tanada Peak in the northerly portion of section 14, T. 6 N., R. 10 E., Copper River Meridian, approximate elevation 9,358 feet;

Thence northeasterly and northerly, on the crest of the divide between the Copper Lake and Goat Creek drainages, to a point between sections 6 and 31, Tps. 6 and 7 N., R. 11 E., Copper River Meridian;

Thence easterly, between Tps. 6 and 7 N., to the crest of a ridge between sections 1 and 36, Tps. 6 and 7 N., R. 11 E., Copper River Meridian;

Thence easterly and northeasterly, along the crest of the divide between the Tanada Lake and Jacksina Creek drainages, to the junction of ridges in the southerly portion of section 11, T. 7 N., R. 12 E., Copper River Meridian, approximate elevation 7,400 feet;

Thence northwesterly, along the crest of a ridge between the Tanada Lake and Jack Creek drainages, to the summit of a peak in the southwesterly portion of section 3, T. 7 N., R. 12 E., Copper River Meridian, approximate elevation 6,065 feet;

Thence on an approximate forward bearing of N. 78° W., to the headwaters of an unnamed creek on the northerly end of a small lake in the southwesterly portion of section 4, T. 7 N., R. 12 E., Copper River Meridian;

Thence northerly, along the left bank of an unnamed creek to the junction of unnamed creeks in the northeasterly portion of section 32, T. 8 N., R. 12 E., Copper River Meridian;

Thence on an approximate forward bearing of N. 18° W., to the summit of a hill near the center of section 29, T. 8 N., R. 12 E., Copper River Meridian; approximate elevation 4,830 feet;

Thence on an approximate forward bearing of N. 60° W., to the headwaters of an unnamed creek at the north end of a small lake in the southerly portion of section 19, T. 8 N., R. 12 E., Copper River Meridian;

Thence northerly, along the right bank of the unnamed creek to a point between sections 31 and 36, T. 9 N., Rs. 11 and 12 E., Copper River Meridian;

Thence northerly, between Rs. 11 and 12 E., to a point 16 feet southerly of the centerline of the Nabesna Road on a line perpendicular to the centerline of said road and between sections 25 and 30, T. 9 N., Rs. 11 and 12 E., Copper River Meridian;

Thence northwesterly, paralleling the Nabesna Road at a distance of sixteen feet southerly from the center line of the road, to a point on the north and south centerline of section 11, T. 10 N., R. 8 E., Copper River Meridian;

Thence southerly, on the north and south centerlines of sections 11, 14 and 23, to a point on the north and south centerline of section 23 on the left bank of the Copper River, T. 10 N., R. 8 E., Copper River Meridian;

Thence southerly and southwesterly, along the left banks of the Copper River and the westernmost channel of the east branch of Drop Creek which enters the Copper River in the northeasterly portion of section 23, and along the left bank of Drop Creek to a point between sections 19 and 24, T. 7 N., Rs. 7 and 8 E., Copper River Meridian;

Thence southerly, between Rs. 7 and 8 E., to the corner of sections 1, 6, 31 and 36, Tps. 6 and 7 N., Rs. 7 and 8 E., Copper River Meridian;

Thence westerly between Tps. 6 and 7 N., to the intersection of a ridge in the eastern half of sections 1 and 36, Tps. 6 and 7 N., R. 7 E., Copper River Meridian, approximate elevation 5,125 feet;

Thence southwesterly, along the crest of the spur ridge, and westerly and southwesterly, on the crest of a ridge between the Boulder Creek and Drop Glacier drainages, to a point between sections 17 and 20, T. 6 N., R. 7 E., Copper River Meridian;

Thence westerly, between sections 17 and 20, 18 and 19, 13 and 24, to the intersection of a ridge between the easterly portions of sections 13 and 24, T. 6 N., Rs. 6 and 7 E., Copper River Meridian, approximate elevation 9,425 feet;

Thence northwesterly, westerly, and southwesterly, along the crest of a ridge between the drainages of the Sanford River, Sheep Creek, and other unnamed tributaries of the Copper River to a summit on the ridge near the center of section 15, T. 6 N., R. 5 E., Copper River Meridian, approximate elevation 5,130 feet;

Thence on an approximate forward bearing of S. 49° W., to the corner of sections 15, 16, 21 and 22, T. 6 N., R. 5 E., Copper River Meridian;

Thence westerly between sections 16 and 21, 17 and 20 to a point on the right bank of an unnamed creek near the corner of sections 16, 17, 20 and 21, T. 6 N., R. 5 E., Copper River Meridian;

*Thence westerly and northwesterly, along the right bank of the unnamed creek to a

point at the intersection of the creek with the left bank of the easternmost interconnecting waterway of the Copper River, at the line of ordinary high water, in the northern portions of sections 7 and 12, T. 7 N., Rs. 2 and 3 E., Copper River Meridian, the place of beginning.

*Department of the Interior 1:250,000 scale map issued in 1981, incorrectly depicts this portion of the description.

West Unit

*Beginning on the left bank of the Copper River at a point on the right bank of Kotsina River at its confluence with the Copper River, at the line of ordinary high water, in the northeasterly portion of section 12, T. 4 S., R. 5 E., Copper River Meridian;

*Thence northwesterly, northerly, northeasterly and easterly, departing from a common point on the boundary of the Wrangell-St. Elias National Park, along the left bank of the most easterly interconnecting waterways of the Copper River, at the line of ordinary high water, to a point between sections 10 and 15, T. 6 N., R. 1 E., Copper River Meridian;

Thence easterly, along a common boundary with the Wrangell-St. Elias National Park; between sections 10 and 15, 11 and 14, 12 and 13, to the corner of sections 7, 12, 13 and 18, T. 6 N., Rs. 1 and 2 E., Copper River Meridian;

Thence southerly, between Rs. 1 and 2 E., to the corner of sections 1, 6, 7 and 12, T. 5 N., Rs. 1 and 2 E., Copper River Meridian;

Thence easterly, between sections 6 and 7, 5 and 8, to the corner of sections 4, 5, 8 and 9, T. 5 N., R. 2 E., Copper River Meridian;

Thence southerly, between sections 8 and 9, to the corner of sections 8, 9, 16 and 17, T. 5 N., R. 2 E., Copper River Meridian;

Thence easterly, between sections 9 and 16, 10 and 15, to the corner of sections 10, 11, 14 and 15, T. 5 N., R. 2 E., Copper River Meridian;

Thence southerly, between sections 14 and 15, to the corner of sections 14, 15, 22 and 23, T. 5 N., R. 2 E., Copper River Meridian;

Thence easterly, between sections 14 and 23, 13 and 24, 18 and 19, 17 and 20, 16 and 21, to the corner of sections 15, 16, 21 and 22, T. 5 N., R. 3 E., Copper River Meridian;

Thence southerly, between sections 21 and 22, 27 and 28, 33 and 34, to the standard corner of sections 33 and 34, T. 5 N., R. 3 E., Copper River Meridian;

Thence westerly, along the First Standard Parallel North, to the closing corner of sections 4 and 5, T. 4 N., R. 3 E., Copper River Meridian;

Thence southerly, between sections 4 and 5, 8 and 9, 16 and 17, 20 and 21, 28 and 29, 32 and 33, 4 and 5, 8 and 9, 16 and 17, to the corner of sections 16, 17, 20 and 21, T. 3 N., R. 3 E., Copper River Meridian;

Thence easterly, between sections 16 and 21, 15 and 22, 14 and 23, to a point on the crest of the divide between the Nadina Glacier and Klawasi River drainages, T. 3 N., R. 3 E., Copper River Meridian;

Thence northeasterly, along the crest of the divide between the drainages of Nadina Glacier and Klawasi River, to a point between sections 28 and 33, T. 4 N., R. 4 E., Copper River Meridian;

Thence easterly, between sections 28 and 33, 27 and 34, 26 and 35, 25 and 36, to a point on the divide between the drainages of Sanford River and Dadina River, T. 4 N., R. 4 E., Copper River Meridian;

Thence easterly and southeasterly, along the crest of the divide between the Sanford River and Dadina River drainages, to a point between sections 3 and 34, Tps. 3 and 4 N., R. 5 E., Copper River Meridian;

Thence easterly, between Tps. 3 and 4 N., to the corner of sections 2, 3, 34 and 35, Tps. 3 and 4 N., R. 6 E., Copper River Meridian;

Thence southerly, between sections 2 and 3, to the corner of sections 2, 3, 10 and 11, T. 3 N., R. 6 E., Copper River Meridian;

Thence easterly, between sections 2 and 11, to the corner of sections 1, 2, 11 and 12, T. 3 N., R. 6 E., Copper River Meridian;

Thence southerly, between sections 11 and 12, to the corner of sections 11, 12, 13 and 14, T. 3 N., R. 6 E., Copper River Meridian;

Thence easterly, between sections 12 and 13, to the corner of sections 7, 12, 13 and 18, T. 3 N., Rs. 6 and 7 E., Copper River Meridian;

Thence southerly, between Rs. 6 and 7 E., to the corner of sections 7, 12, 13 and 18, T. 2 N., Rs. 6 and 7 E., Copper River Meridian;

Thence easterly, between sections 7 and 18, 8 and 17, to the corner of sections 8, 9, 16 and 17, T. 2 N., R. 7 E., Copper River Meridian;

Thence southerly, between sections 16 and 17, 20 and 21, 28 and 29, 32 and 33, 4 and 5, to the corner of sections 4, 5, 8 and 9, T. 1 N., R. 7 E., Copper River Meridian;

Thence easterly, between sections 4 and 9, 3 and 10, 2 and 11, 1 and 12, 6 and 7, 5 and 8, 4 and 9, to the corner of sections 3, 4, 9 and 10, T. 1 N., R. 8 E., Copper River Meridian;

Thence southerly, between sections 9 and 10, to the corner of sections 9, 10, 15 and 16, T. 1 N., R. 8 E., Copper River Meridian;

Thence easterly, between sections 10 and 15, to the corner of sections 10, 11, 14 and 15, T. 1 N., R. 8 E., Copper River Meridian;

Thence southerly, between sections 14 and 15, 22 and 23, to the corner of sections 22, 23, 26 and 27, T. 1 N., R. 8 E., Copper River Meridian;

Thence easterly, between sections 23 and 26, to a point on the divide between the Long Glacier and Kluvesna and Kotsina River drainages, T. 1 N., R. 8 E., Copper River Meridian;

Thence southwesterly, along the crest of the divide between the Long Glacier and Kluvesna, Clear Creek, and Kotsina River drainages, to the summit of a peak in the northwesterly portion of section 34, T. 1 S., R. 7 E., Copper River Meridian, approximate elevation 5,061 feet;

Thence on an approximate forward bearing of S. 2° E., to a point on the right bank of the Kotsina River and the right bank of an unnamed tributary to the Kotsina River at the confluence of the unnamed tributary with the Kotsina River in the northwesterly portion of section 10, T. 2 S., R. 7 E., Copper River Meridian;

Thence westerly, southerly, and westerly, along the right bank of the Kotsina River to a point at its confluence with the left bank of the Copper River, at the line of ordinary high water, in the northeasterly portion of section 12, T. 4 S., R. 5 E., Copper River Meridian, the place of beginning.

*Department of the Interior 1:250,000 scale map issued in 1981, incorrectly depicts this portion of the description.

Central Unit

Beginning at a point on the left bank of the Chitina River, at the line of mean high water, at its confluence with the left bank of Marble Creek in the easterly portion of section 21, T. 10 S., R. 21 E., Copper River Meridian;

Thence on an approximate forward bearing of N. 31° E., along the common boundary with the Wrangell-St. Elias National Park, to the ¼ corner of sections 10 and 11, T. 10 S., R. 21 E., Copper River Meridian;

Thence on an approximate forward bearing of N. 76° E., to the north ¼ corner of sections 11 and 12, T. 10 S., R. 21 E., Copper River Meridian;

Thence on an approximate forward bearing of N. 37° E., to the summit of a peak near the center of section 31, T. 9 S., R. 22 E., Copper River Meridian, approximate elevation 6,870 feet;

Thence northeasterly, easterly, northerly and northwesterly, on the crest of a ridge between Barnard Glacier and Ram and Tittmann Glaciers, to the summit of a peak in the northerly portion of section 19, T. 7 S., R. 23 E., Copper River Meridian, approximate elevation 9,000 feet;

Thence on an approximate forward bearing of N. 26° E., to the summit of a peak in the northwesterly portion of section 8, T. 7 S., R. 23 E., Copper River Meridian, approximate elevation 7,540 feet;

Thence northeasterly, northwesterly, southwesterly, westerly and northwesterly, on the crest of a ridge between the Chitina River, White River, Glacier Creek, Dan Creek, and Chitistone River drainages, to the summit of a peak in the northeasterly portion of section 27, T. 5 S., R. 16 E., Copper River Meridian, approximate elevation 6,800 feet;

Thence southwesterly, on the crest of a ridge and spur ridge to a point on the right bank of Dan Creek near the center of section 4, T. 6 S., R. 16 E., Copper River Meridian;

Thence westerly and southwesterly, along the right bank of Dan Creek and the left bank of Nizina River, to a point between sections 7 and 8, T. 6 S., R. 15 E., Copper River Meridian;

Thence northerly, between sections 7 and 8, to the meander line on the right bank of Nizina River in section 12, T. 6 S., R. 14 E., (surveyed), Copper River Meridian;

Thence northeasterly, along the right bank of the Nizina River to the right bank of the mouth of an unnamed creek in the easterly portion of section 12, T. 6 S., R. 14 E., (surveyed), Copper River Meridian;

Thence northerly, along the right bank of the unnamed creek to a point on the north boundary of section 1, T. 6 S., R. 14 E., (surveyed), Copper River Meridian;

Thence westerly, on the north boundaries of sections 1 and 2, T. 6 S. R. 14 E., (surveyed) Copper River Meridian, to the corner of sections 31 and 36, T. 5 S., Rs. 14 and 15 E., Copper River Meridian;

Thence northerly, between Rs. 14 and 15 E., to a point between sections 19 and 24, on the left bank of McCarthy Creek, T. 5 S., Rs. 14 and 15 E., Copper River Meridian;

Thence northeasterly, along the left bank of McCarthy Creek, to a junction on the right bank of an unnamed creek in the northerly portion of section 8, T. 5 S., R. 15 E., Copper River Meridian;

Thence northeasterly, along the right bank of the unnamed creek and its extension to the summit of a peak in the southwesterly portion of section 33, T. 4 S., R. 15 E., Copper River Meridian, approximate elevation 5,630 feet;

Thence northeasterly, northerly and northwesterly, on the crest of a ridge between the drainages of West Fork Glacier, West Fork River, McCarthy Creek, and Nizina River to the summit of a peak in the easterly portion of section 36, T. 2 S., R. 14 E., Copper River Meridian, approximate elevation 8,068 feet;

Thence westerly, on the crest of a ridge to the summit of a peak in the southwesterly portion of section 35, T. 2 S., R. 14 E., Copper River Meridian, approximate elevation 8,400 feet;

Thence southerly and southwesterly, on the crest of Bonanza Ridge between the drainages of Root Glacier and McCarthy Creek, to the summit of a peak near the center of section 10, T. 4 S., R. 14 E., Copper River Meridian, approximate elevation 6,521 feet;

Thence westerly and northwesterly, on the crest of a ridge to the summit of a peak in the northwesterly portion of section 4, T. 4 S., R. 14 E., Copper River Meridian, approximate elevation 5,720 feet;

Thence on an approximate forward bearing of N. 37° W., to the corner of sections 4, 5, 32 and 33, Tps. 3 and 4 S., R. 14 E., Copper River Meridian;

Thence westerly, between Tps. 3 and 4 S., to the corner of sections 4, 5, 32 and 33, Tps. 3 and 4 S., R. 13 E., Copper River Meridian;

Thence northerly, between sections 32 and 33, to the toe of a spur ridge between sections 32 and 33, T. 3 S., R. 13 E., Copper River Meridian, approximate elevation 3,200 feet;

Thence northwesterly, on the spur ridge and crest of a ridge between the drainages of Kennicott Glacier and Hidden Creek and Lakina Glacier, to the summit of a peak in the southwesterly portion of section 30, T. 2 S., R. 12 E., Copper River Meridian, approximate elevation 9,650 feet;

Thence southwesterly, on the crest of a ridge between the drainages of Kuskulana and Lakina Glaciers, Mill Creek, and Chokosna River, to the summit of a peak in the northerly portion of section 34, T. 3 S., R. 10 E., Copper River Meridian, approximate elevation 6,800 feet;

Thence southwesterly, southerly, and westerly, on the crest of a ridge between the drainages of Kuskulana and Chokosna rivers, to the summit of a peak in the southeasterly portion of section 16, T. 4 S., R. 9 E., Copper River Meridian, approximate elevation 5,920 feet;

Thence southerly, on a spur ridge, to the intersection of an unnamed creek near the line between sections 21 and 28, T. 4 S., R. 9 E., Copper River Meridian;

Thence southerly, along the right bank of the unnamed creek and westerly shore of an unnamed lake, to the northerly boundary of the right-of-way of the Chitina-McCarthy Road in the southeasterly portion of section 4, T. 5 S., R. 9 E., Copper River Meridian;

Thence northwesterly, along the northerly boundary of the right-of-way of the Chitina-McCarthy Road, to a point on the south boundary of section 33, T. 4 S., R. 8 E., Copper River Meridian;

Thence westerly, on the First Standard Parallel South, to the meander corner of section 1 on the left bank of Kuskulana River, T. 5 S., R. 7 E., Copper River Meridian;

Thence southerly and westerly, along the left bank of Kuskulana River to the right bank of an unnamed creek in the southerly portion of section 1, T. 5 S., R. 7 E., Copper River Meridian;

Thence southerly, along the right bank of the unnamed creek and the easterly shore of an unnamed lake, to the most southeasterly point of the unnamed lake in the southerly portion of section 12, T. 5 S., R. 7 E., Copper River Meridian;

Thence on an approximate forward bearing of S. 1° E., to the most northeasterly point of the eastern shore of an unnamed lake in the northerly portion of section 13, T. 5 S., R. 7 E., Copper River Meridian;

Thence southeasterly and southerly, along the easterly shore of an unnamed lake and left bank of an unnamed creek, to its confluence with the Chitina River in the easterly portion of section 24, T. 5 S., R. 7 E., Copper River Meridian;

Thence southeasterly, along the right bank of the Chitina River, to the meander corner of sections 19 and 24, T. 5 S., Rs. 7 and 8 E., Copper River Meridian;

Thence southerly, between Rs. 7 and 8 E., to the meander corner of sections 25 and 30 on the left bank of the Chitina River at the line of mean high water, T. 5 S., Rs. 7 and 8 E., Copper River Meridian;

Thence easterly and southeasterly, along the left bank of the Chitina River, at the line of mean high water, to a point at its confluence with the left bank of Marble Creek in the easterly portion of section 21, T. 10 S., R. 21 E., the place of beginning.

All references to sections and townships are to protracted units unless specifically identified as surveyed units.

*Department of the Interior 1:250,000 scale map issued in 1981, incorrectly depicts this portion of the description.

South Unit

Beginning at a point at the line of mean high tide on Disenchantment Bay at the right bank of the mouth of an unnamed creek in the southwesterly portion of section 33, T. 22 S., R. 34 E., Copper River Meridian;

Thence southwesterly, departing from a common point on the boundary of the Wrangell-St. Elias National Park, along the line of mean high tide of Disenchantment and Yakutat Bays, including all coastal barrier or other islands above the line of mean high tide, to a point located in the northwesterly portion of section 4, T. 26 S., R. 30 E. and lying due south of an unnamed inlet's most western point located near the section line of sections 4 and 33, Tps. 25 and 26 S., R. 30 E., Copper River Meridian;

Thence north, along a common boundary with the Wrangell-St. Elias National Park, across the spit to an unnamed inlet's most western point located near the section line of sections 4 and 33, Tps. 25 and 26 S., R. 30 E., Copper River Meridian;

Thence easterly, along the north shoreline of the unnamed inlet, to a point on the left bank of the most eastern braided stream at the mouth of Manby Stream in the northwesterly portion of section 3, T. 26 S., R. 30 E., Copper River Meridian;

Thence northerly, along the left bank of Manby Stream, to a point between sections 16 and 21, T. 25 S., R. 30 E., Copper River Meridian;

Thence easterly, between sections 16 and 21, 15 and 22, 14 and 23, 13 and 24, to the corner of sections 13, 18, 19 and 24, T. 25 S., Rs. 30 and 31 E., Copper River Meridian;

Thence northerly, between Rs. 30 and 31 E., to a point between sections 1 and 6, on the southwesterly shore of Malaspina Lake, T. 25 S., Rs. 30 and 31 E., Copper River Meridian;

Thence northerly, easterly, northeasterly and southeasterly, along the line of mean high water of the northerly shore of Malaspina Lake, to a point between sections 13 and 18, T. 24 S., Rs. 31 and 32 E., Copper River Meridian;

Thence northerly, between Rs. 31 and 32 E., to the corner of Tps. 22 and 23 S., Rs. 31 and 32 E., Copper River Meridian;

Thence on an approximate forward bearing of N. 49° E., to the summit of a hill in the northeasterly portion of section 31, T. 22 S., R. 32 E., Copper River Meridian, approximate elevation 3,000 feet;

Thence on an approximate forward bearing of N. 17° E., to the summit of a hill in the southwesterly portion of section 20, T. 22 S., R. 32 E., Copper River Meridian, approximate elevation 3,625 feet;

Thence on an approximate forward bearing of N. 5° W., to the summit of Floral Hills in the southwesterly portion of section 17, T. 22 S., R. 32 E., Copper River Meridian, approximate elevation 4,175 feet;

Thence on an approximate forward bearing of S. 83° E., to the summit of a peak in the easterly portion of section 20, T. 22 S., R. 33 E., Copper River Meridian, approximate elevation 5,336 feet;

Thence on an approximate forward bearing of S. 39° E., to the summit of a peak in the northwesterly portion of section 34, T. 22 S., R. 33 E., Copper River Meridian, approximate elevation 4,388 feet;

Thence on an approximate forward bearing of N. 80° E., to the summit of a peak in the northerly portion of section 36, T. 22 S., R. 33 E., Copper River Meridian, approximate elevation 4,780 feet;

Thence on an approximate forward bearing of S. 77° E., to the summit of a peak in the northwesterly portion of section 32, T. 22 S., R. 34 E., Copper River Meridian, approximate elevation 4,280 feet;

Thence on an approximate forward bearing of S. 71° E., to a point at the mouth on the right bank of an unnamed creek in the southwesterly portion of section 33, and at the line of mean high tide of Disenchantment Bay, T. 22 S., R. 34 E., Copper River Meridian, the place of beginning.

Units of the National Wilderness Preservation System Within the Wrangell-St. Elias National Park and Preserve

Section 701(8), Public Law 96-487 (ANILCA):

Wrangell-St. Elias Wilderness

The Wrangell-St. Elias Wilderness as generally depicted on a map numbered WRST-90,007, dated August 1980, consists of approximately eight million seven hundred thousand acres of public lands, as defined in the ANILCA, within the following described boundary:

Beginning at the meander corner of section 35 only, on the right bank of the main channel of the White River on the International Boundary between the United States of America and Canada, T. 1 S., R. 24 E., Copper River Meridian;

Thence westerly, along the right bank of the main channel of the White River, to the meander corner of sections 4 and 33, Tps. 1 and 2 S., R. 22 E., Copper River Meridian;

Thence westerly, between Tps. 1 and 2 S., to a point on the right bank of the White River between sections 6 and 31, Tps. 1 and 2 S., R. 21 E., Copper River Meridian;

Thence southwesterly along the right bank of White River to a point between sections 2 and 3, T. 2 S., R. 20 E., Copper River Meridian;

Thence northerly, between sections 2 and 3, 34 and 35, 26 and 27, 22 and 23, to the corner of sections 14, 15, 22 and 23, T. 1 S., R. 20 E., Copper River Meridian;

Thence easterly, between sections 14 and 23, 13 and 24, 18 and 19, 17 and 20, 16 and 21, 15 and 22, to a point between sections 15 and 22, at the toe of a spur ridge, T. 1 S., R. 21 E., Copper River Meridian;

Thence northeasterly, along a spur ridge to the summit of a peak in the easterly portion of section 15, T. 1 S., R. 21 E., Copper River Meridian, approximate elevation 4,360 feet;

Thence on an approximate forward bearing of N. 49° E., to the summit of a peak in the southeasterly portion of section 1, T. 1 S., R. 21 E., Copper River Meridian, approximate elevation 4,800 feet;

Thence northerly, westerly, northeasterly and southeasterly, along the crest of a ridge between Beaver Creek and White River drainages, to a point between sections 18 and 19, T. 1 N., R. 22 E., Copper River Meridian;

Thence easterly, between sections 18 and 19, 17 and 20, 16 and 21, to a point between sections 16 and 21, and on the crest of a ridge, T. 1 N., R. 22 E., Copper River Meridian, approximate elevation 6,280 feet;

Thence northeasterly, westerly and northwesterly, along the crest of the divide between White River and Beaver Creek drainages, to a point between sections 19 and 24, T. 2 N., Rs. 21 and 22 E., Copper River Meridian;

Thence northerly, between Rs. 21 and 22 E., to the meander corner of sections 1 and 6, on the right bank of Beaver Creek, T. 2 N., Rs. 21 and 22 E., Copper River Meridian;

Thence westerly, along the right bank of Beaver Creek, to a point between sections 1 and 36, Tps. 2 and 3 N., R. 21 E., Copper River Meridian;

Thence westerly, between Tps. 2 and 3 N., to the ¼ section corner of sections 4 and 33, Tps. 2 and 3 N., R. 21 E., Copper River Meridian;

Thence northerly, on the north and south centerlines of sections 33 and 28, to the ¼ section corner of sections 21 and 28, T. 3 N., R. 21 E., Copper River Meridian;

Thence on an approximate forward bearing of N. 36° W., to the summit of a peak in the southwesterly portion of section 21, T. 3 N., R. 21 E., Copper River Meridian, approximate elevation 5,280 feet;

Thence northwesterly and westerly along the crest of a ridge between Carl Creek, James Creek, Toby Creek, California Creek, and Beaver Creek drainages, to a point between sections 5 and 6, T. 3 N., R. 20 E., Copper River Meridian;

Thence southerly, between sections 5 and 6, to the corner of sections 5, 6, 7 and 8, T. 3 N., R. 20 E., Copper River Meridian;

Thence westerly, between sections 6 and 7, to the ¼ section corner of sections 6 and 7, T. 3 N., R. 20 E., Copper River Meridian;

Thence southerly, on the north and south centerline of section 7, to the center ¼ section corner of section 7, T. 3 N., R. 20 E., Copper River Meridian;

Thence westerly, on the east and west centerline of section 7, to the special meander corner on the east and west centerline of section 7, T. 3 N., R. 20 E., Copper River Meridian, on the easterly shore of Little Beaver Lake;

Thence southwesterly, along the shoreline of Little Beaver Lake, to the most southerly point of the lake in the westerly portion of section 7, T. 3 N., R. 20 E., Copper River Meridian;

Thence on an approximate forward bearing of N. 77° W., to the summit of a peak, near the center of section 12, T. 3 N., R. 19 E., Copper River Meridian, approximate elevation 5,600 feet;

Thence southwesterly, along the crest of a ridge and a southwesterly sloping spur between the Chathenda and Bryan Creek drainages, to the right bank of Bryan Creek in the southerly portion of section 18, T. 3 N., R. 19 E., Copper River Meridian;

Thence westerly and northwesterly, along the right bank of Bryan Creek, to the special meander corner on the east and west centerline of section 13, T. 3 N., R. 18 E., Copper River Meridian;

Thence westerly, on the east and west centerlines of sections 13, 14, 15, 16 and 17 to the ¼ section corner of sections 17 and 18, T. 3 N., R. 18 E., Copper River Meridian;

Thence on an approximate forward bearing of N. 69° W., to the summit of a peak, in the easterly portion of section 18, T. 3 N., R. 18 E., Copper River Meridian, approximate elevation 5,545 feet;

Thence on an approximate forward bearing of N. 20° W., to the summit of Euchre Mountain, near the center of section 7, T. 3 N., R. 18 E., Copper River Meridian, approximate elevation 6,862 feet;

Thence on an approximate forward bearing of north, to the center ¼ section corner of section 18, T. 4 N., R. 18 E., Copper River Meridian;

Thence on an approximate forward bearing of N. 48° W., to the summit of a point on a ridge in the southwesterly portion of section 2, T. 4 N., R. 17 E., Copper River Meridian, approximate elevation 4,185 feet;

Thence on an approximate forward bearing of S. 75° W., to the summit of a peak, in the southwesterly portion of section 3, T. 4 N., R. 17 E., Copper River Meridian, approximate elevation 4,830 feet;

Thence northwesterly, southwesterly and northerly, along the crest of the divides between the drainages of Cross Creek, Notch Creek, Nikonda Glacier and Nabesna Glacier, to a point on the east and west centerline of the southeast ¼ of section 14, T. 4 N., R. 14 E., Copper River Meridian;

Thence westerly, on the east and west centerlines of the south ½ of sections 14, 15, 16, 17, 18 and 13, to the south 1/16 section corner of section 13 and 14, T. 4 N., R. 13 E., Copper River Meridian;

Thence northerly, between sections 13 and 14, 11 and 12, 1 and 2, to the closing corner of sections 1 and 2, T. 4 N., R. 13 E., Copper River Meridian;

Thence westerly, on the First Standard Parallel North, to the standard corner of sections 34 and 35, T. 5 N., R. 13 E., Copper River Meridian;

Thence northerly, between sections 34 and 35, 26 and 27, 22 and 23, 14 and 15, 10 and 11, to the corner of sections 2, 3, 10 and 11, T. 5 N., R. 13 E., Copper River Meridian;

Thence westerly, between sections 3 and 10, to the corner of sections 3, 4, 9 and 10, T. 5 N., R. 13 E., Copper River Meridian;

Thence northerly, between sections 3 and 4, 33 and 34, 27 and 28, 21 and 22, 15 and 16, 9 and 10, 3 and 4, 33 and 34, to the meander corner of sections 33 and 34, on the right bank of Jacksina Creek, T. 7 N., R. 13 E., Copper River Meridian;

Thence southwesterly, along the right bank of Jacksina Creek, to a point due south of the confluence of Canyon Creek, near the center of section 5, T. 6 N., R. 13 E., Copper River Meridian;

Thence northerly, across Jacksina Creek and along the left bank of Canyon Creek, to a point on the north and south centerline of section 5, T. 6 N., R. 13 E., Copper River Meridian;

Thence northerly, on the north and south centerline of section 5, to the ¼ section corner of sections 5 and 32, Tps. 6 and 7 N., R. 13 E., Copper River Meridian;

Thence westerly, between Tps. 6 and 7 N., to a point between sections 5 and 32 on the crest of a ridge, Tps. 6 and 7 N., R. 13 E., Copper River Meridian, approximate elevation 3,150 feet;

Thence northwesterly, on the crest of a divide between Jack Creek and Canyon Creek drainages, to the summit of a peak, in the southerly portion of section 11, T. 7 N., R. 12 E., Copper River Meridian, approximate elevation 6,900 feet;

Thence southwesterly, on the crest of the divide between Tanada Lake, Jacksina Creek and Pass Creek drainages, to a point between sections 1 and 36, Tps. 6 and 7 N., R. 11 E., Copper River Meridian;

Thence westerly, between Tps. 6 and 7 N., to a point between sections 6 and 31, on the crest of a ridge, Tps. 6 and 7 N., R. 11 E.,

Copper River Meridian, approximate elevation 6,500 feet;

Thence southwesterly, on the crest of the divide between the drainages of Copper Lake and Goat Creek, to the junction of ridges, in the northerly portion of section 14, T. 6 N., R. 10 E., Copper River Meridian, approximate elevation 9,000 feet;

Thence northwesterly, on the crest of the divide between Copper Lake and Copper River drainages, to a point between sections 7 and 18, T. 7 N., R. 10 E., Copper River Meridian;

Thence westerly, between sections 7 and 18, 12 and 13, to the corner of sections 11, 12, 13 and 14, T. 7 N., R. 9 E., Copper River Meridian;

Thence northerly, between sections 11 and 12, 1 and 2, to the corner of sections 1, 2, 35 and 36, Tps. 7 and 8 N., R. 9 E., Copper River Meridian;

Thence westerly, between Tps. 7 and 8 N., to the corner of sections 3, 4, 33 and 34, Tps. 7 and 8 N., R. 9 E., Copper River Meridian;

Thence northerly, between sections 33 and 34, 27 and 28, 21 and 22, 15 and 16, 9 and 10, 3 and 4, to the closing corner of sections 3 and 4, T. 8 N., R. 9 E., Copper River Meridian;

Thence westerly, on the Second Parallel North, to the closing corner of sections 1 and 2, T. 8 N., R. 5 E., Copper River Meridian;

Thence southerly, between sections 1 and 2, to the corner of sections 1, 2, 11 and 12, T. 8 N., R. 5 E., Copper River Meridian;

Thence westerly, between sections 2 and 11, to the corner of sections 2, 3, 10 and 11, T. 8 N., R. 5 E., Copper River Meridian;

Thence southerly, between sections 10 and 11, to the corner of sections 10, 11, 14 and 15, T. 8 N., R. 5 E., Copper River Meridian;

Thence westerly, between sections 10 and 15, to the corner of sections 9, 10, 15 and 16, T. 8 N., R. 5 E., Copper River Meridian;

Thence southerly, between sections 15 and 16, to the corner of sections 15, 16, 21 and 22, T. 8 N., R. 5 E., Copper River Meridian;

Thence westerly, between sections 16 and 21, to the corner of sections 16, 17, 20 and 21, T. 8 N., R. 5 E., Copper River Meridian;

Thence southerly, between sections 20 and 21, to the corner of sections 20, 21, 28 and 29, T. 8 N., R. 5 E., Copper River Meridian;

Thence westerly, between sections 20 and 29, to the corner of sections 19, 20, 29 and 30, T. 8 N., R. 5 E., Copper River Meridian;

Thence southerly, between sections 29 and 30, to the corner of sections 29, 30, 31 and 32, T. 8 N., R. 5 E., Copper River Meridian;

Thence westerly, between sections 30 and 31, to the corner of sections 25, 30, 31 and 36, T. 8 N., Rs. 4 and 5 E., Copper River Meridian;

Thence southerly, between Rs. 4 and 5 E., to the corner of sections 13, 18, 19 and 24, T. 7 N., Rs. 4 and 5 E., Copper River Meridian;

Thence westerly, between sections 13 and 24, to the corner of sections 13, 14, 23 and 24, T. 7 N., R. 4 E., Copper River Meridian;

Thence southerly, between sections 23 and 24, 25 and 26, to the corner of sections 25, 26, 35 and 36, T. 7 N., R. 4 E., Copper River Meridian;

Thence westerly, between sections 26 and 35, 27 and 34, to the corner of sections 27, 28, 33 and 34, T. 7 N., R. 4 E., Copper River Meridian;

Thence southerly, between sections 33 and 34, 3 and 4, 9 and 10, to a point between sections 9 and 10, and on the left bank of an unnamed creek, T. 6 N., R. 4 E., Copper River Meridian;

Thence southeasterly, along the left bank of the unnamed creek to a point between sections 19 and 24, T. 6 N., Rs. 4 and 5 E., Copper River Meridian;

Thence southerly, between Rs. 4 and 5 E., to the corner of sections 13, 18, 19 and 24, T. 5 N., Rs. 4 and 5 E., Copper River Meridian;

Thence westerly, between sections 13 and 24, to the corner of sections 13, 14, 23 and 24, T. 5 N., R. 4 E., Copper River Meridian;

Thence northerly, between sections 13 and 14, to the ¼ section corner of sections 13 and 14, T. 5 N., R. 4 E., Copper River Meridian;

Thence westerly, on the east and west centerline of section 14, to the ¼ section corner of sections 14 and 15, T. 5 N., R. 4 E., Copper River Meridian;

Thence northerly, between sections 14 and 15, to the corner of sections 10, 11, 14 and 15, T. 5 N., R. 4 E., Copper River Meridian;

Thence westerly, between sections 10 and 15, 9 and 16, 8 and 17, 7 and 18, to the corner of sections 7, 12, 13 and 18, T. 5 N., Rs. 3 and 4 E., Copper River Meridian;

Thence southerly, between Rs. 3 and 4 E., to the corner of sections 13, 18, 19 and 24, T. 5 N., Rs. 3 and 4 E., Copper River Meridian;

Thence westerly, between sections 13 and 24, 14 and 23, 15 and 22, to the corner of sections 15, 16, 21 and 22, T. 5 N., R. 3 E., Copper River Meridian;

Thence southerly between sections 21 and 22, 27 and 28, 33 and 34, to the standard corner of sections 33 and 34, T. 5 N., R. 3 E., Copper River Meridian;

Thence westerly, on the First Standard Parallel North, to the closing corner of sections 4 and 5, T. 4 N., R. 3 E., Copper River Meridian;

Thence southerly, between sections 4 and 5, 8 and 9, 16 and 17, 20 and 21, 28 and 29, 32 and 33, 4 and 5, 8 and 9, 16 and 17, 20 and 21, 28 and 29, 32 and 33, to the corner of sections 4, 5, 32 and 33, Tps. 2 and 3 N., R. 3 E., Copper River Meridian;

Thence easterly, between Tps. 2 and 3 N., to the corner of Tps. 2 and 3 N., Rs. 3 and 4 E., Copper River Meridian;

Thence southerly, between Rs. 3 and 4 E., to the corner of sections 19, 24, 25 and 30, T. 2 N., Rs. 3 and 4 E., Copper River Meridian;

Thence easterly, between sections 19 and 30, 20 and 29, 21 and 28, 22 and 27, to a point between sections 22 and 27, and on the right bank of an unnamed creek, T. 2 N., R. 4 E., Copper River Meridian;

Thence southerly, along the right bank of the unnamed creek, to its confluence with the Dadina River, in the northerly portion of section 27, T. 2 N., R. 4 E., Copper River Meridian;

Thence on an approximate forward bearing of S. 73° E., to the summit of a peak, in the northeasterly portion of section 36, T. 2 N., R. 4 E., Copper River Meridian, approximate elevation 4,520 feet;

Thence on an approximate forward bearing of S. 59° E., to the junction of Chichokna River and Chetaslina River, in the southwesterly portion of section 4, T. 1 N., R. 5 E., Copper River Meridian;

Thence on an approximate forward bearing of S. 20° E., to the summit of a peak, in the southerly portion of section 22, T. 1 N., R. 5 E., Copper River Meridian, approximate elevation 3,660 feet;

Thence on an approximate forward bearing of S. 57° E., to the summit of a peak, in the northwesterly portion of section 36, T. 1 N., R. 5 E., Copper River Meridian, approximate elevation 5,080 feet;

Thence on an approximate forward bearing of S. 24° W., to the summit of a peak, in the northwesterly portion of section 1, T. 1 S., R. 5 E., Copper River Meridian, approximate elevation 4,920 feet;

Thence on an approximate forward bearing of S. 35° E., to the ¼ section corner of sections 7 and 12, T. 1 S., Rs. 5 and 6 E., Copper River Meridian;

Thence southerly, between Rs. 5 and 6 E., to a point between sections 19 and 24, and on the left bank of the Cheshnina River, T. 1 S., Rs. 5 and 6 E., Copper River Meridian;

Thence easterly, along the left banks of the Cheshnina River and a tributary of the Cheshnina River, to a point between sections 21 and 22, T. 1 S., R. 6 E., Copper River Meridian;

Thence southerly, between sections 21 and 22, 27 and 28, to a point between sections 27 and 28, on the right bank of an unnamed creek, T. 1 S., R. 6 E., Copper River Meridian;

Thence southerly and southeasterly, along the right bank of the unnamed creek, to its confluence with an unnamed lake, in the northeasterly portion of section 3, T. 2 S., R. 6 E., Copper River Meridian;

Thence easterly, along the northerly shore of the unnamed lake, to the most northeasterly point of the unnamed lake, in the northwesterly portion of section 2, T. 2 S., R. 6 E., Copper River Meridian;

Thence on an approximate forward bearing of S. 63° E., to a point between sections 1 and 2, and at the confluence of the stream flowing from Long Glacier and Kotsina River, T. 2 S., R. 6 E., Copper River Meridian;

Thence southerly, between sections 1 and 2, 11 and 12, to a point between sections 11 and 12, on the crest of a ridge, T. 2 S., R. 6 E., Copper River Meridian, approximate elevation 4,800 feet;

Thence southeasterly, northeasterly and southerly, along the crest of the divide between Kotsina River, Elliot Creek and Kuskulana River drainages, to the summit of a peak, in the southwesterly portion of section 25, T. 2 S., R. 9 E., Copper River Meridian, approximate elevation 6,330 feet;

Thence on an approximate forward bearing of S. 60° E., to a point between sections 4 and 5, and on a toe of a spur, T. 3 S., R. 10 E., Copper River Meridian;

Thence southerly and southeasterly, between the Kuskulana Glacier and Slatka Creek drainages, to the summit of a peak, in the northerly portion of section 34, T. 3 S., R. 10 E., Copper River Meridian, approximate elevation 6,800 feet;

Thence southwesterly, southerly and westerly, on the crest of a ridge between the drainages of Kuskulana and Chokosna Rivers, to the summit of a peak, in the southeasterly portion of section 16, T. 4 S., R. 9 E., Copper River Meridian, approximate elevation 5,920 feet;

Thence southerly, on a spur ridge, to a point on the line between sections 21 and 28, T. 4 S., R. 9 E., Copper River Meridian;

Thence easterly, between sections 21 and 28, to the intersection with the left bank of an unnamed creek in sections 21 and 28, T. 4 S., R. 9 E., Copper River Meridian;

Thence southerly, along the left bank of the unnamed creek and westerly shore of an unnamed lake, to a point 200 feet from, and parallel to, the centerline of the Chitina-McCarthy Road, in the southeasterly portion of section 4, T. 5 S., R. 9 E., Copper River Meridian;

Thence easterly, along the north side of Chitina-McCarthy Road at a distance of 200 feet from, and parallel to, the centerline, to a point on the north and south centerline of section 10, T. 5 S., R. 9 E., Copper River Meridian;

Thence northerly, on the north and south centerlines of sections 10 and 3, to the center-south 1/16 section corner of section 3, T. 5 S., R. 9 E., Copper River Meridian;

Thence easterly, on the east and west centerline of the southeast 1/4 of section 3, to the south 1/16 section corner of sections 2 and 3, T. 5 S., R. 9 E., Copper River Meridian;

Thence southerly, between sections 2 and 3, 10 and 11, to a point between sections 10 and 11, 200 feet from, and parallel to, the centerline on the northerly side of the Chitina-McCarthy Road, T. 5 S., R. 9 E., Copper River Meridian;

Thence southeasterly, along the easterly side of the Chitina-McCarthy Road 200 feet from, and parallel to, the centerline, to a point on the north and south centerline of the northwest 1/4 of section 13, T. 5 S., R. 9 E., Copper River Meridian;

Thence northerly, on the north and south centerline of the northwest 1/4 of section 13, to the west 1/16 section corner of sections 12 and 13, T. 5 S., R. 9 E., Copper River Meridian;

Thence easterly, between sections 12 and 13, to the 1/4 section corner of sections 12 and 13, T. 5 S., R. 9 E., Copper River Meridian;

Thence southerly, on the north and south centerline of section 13, to the center 1/4 section corner of section 13, T. 5 S., R. 9 E., Copper River Meridian;

Thence easterly, on the east and west centerline of section 13, to the 1/4 section corner of sections 13 and 18, T. 5 S., Rs. 9 and 10 E., Copper River Meridian;

Thence southerly, between Rs. 9 and 10 E., to the corner of sections 13, 18, 19 and 24, T. 5 S., Rs. 9 and 10 E., Copper River Meridian;

Thence easterly, between sections 18 and 19, to a point between sections 18 and 19 at the toe of a spur, T. 5 S., R. 10 E., Copper River Meridian, approximate elevation 2,150 feet;

Thence southeasterly, easterly, northeasterly and southeasterly, on a spur and crest of the Crystalline Hills between Gilahina River and Chitina River drainages, to a point on the east and west centerline of section 24, T. 5 S., R. 11 E., Copper River Meridian;

Thence easterly, on the east and west centerlines of sections 24, 19, 20 and 21, to a point in the western portion of section 21 on the east and west centerline of section 21, and the right bank of an unnamed creek, T. 5 S., R. 12 E., Copper River Meridian;

Thence southerly, along the right bank of the unnamed creek, to the confluence of Lakina River, in the northwesterly portion of section 28, T. 5 S., R. 12 E., Copper River Meridian;

Thence northeasterly, along the left bank of Lakina River, to the confluence with an unnamed creek, in the southwesterly portion of section 10, T. 5 S., R. 12 E., Copper River Meridian;

Thence easterly, along the left bank of the unnamed creek, to a point between sections 11 and 12, T. 5 S., R. 12 E., Copper River Meridian;

Thence northerly, between sections 11 and 12, to a point between sections 11 and 12 and on the crest of a ridge, T. 5 S., R. 12 E., Copper River Meridian, approximate elevation 3,800 feet;

Thence northeasterly, northerly, northwesterly and northeasterly, along the crest of the divide between Fohlin Creek and Fourth of July Creek drainages, and along a spur to the corner of sections 4, 5, 32 and 33, Tps. 3 and 4 S., R. 13 E., Copper River Meridian;

Thence easterly, between Tps. 3 and 4 S., to the corner of sections 4, 5, 32 and 33, Tps. 3 and 4 S., R. 14 E., Copper River Meridian;

Thence on an approximate forward bearing of S. 37° E., to the summit of a peak, near the center of section 4, T. 4 S., R. 14 E., Copper River Meridian, approximate elevation 5,720 feet;

Thence southeasterly and northeasterly, on the crest of the divide between Root Glacier and McCarthy Creek drainages, to the summit of a peak, in the southerly portion of section 35, T. 3 S., R. 14 E., Copper River Meridian, approximate elevation 5,837 feet;

Thence easterly, on a spur, to a point at the confluence of an unnamed creek and McCarthy Creek, in the northerly portion of section 1, T. 4 S., R. 14 E., Copper River Meridian;

Thence northerly, along the left bank of a channel of McCarthy Creek, to a point between sections 1 and 36, Tps. 3 and 4 S., R. 14 E., Copper River Meridian;

Thence easterly, between Tps. 3 and 4 S., to the corner of Tps. 3 and 4 S., Rs. 14 and 15 E., Copper River Meridian;

Thence southerly, between Rs. 14 and 15 E., to a point between sections 1 and 6 on the right bank of Lubbe Creek, T. 4 S., Rs. 14 and 15 E., Copper River Meridian;

Thence northeasterly, along the right bank of Lubbe Creek, to the toe of a spur, in the northwesterly portion of section 6, T. 4 S., R. 15 E., Copper River Meridian;

Thence southeasterly and southwesterly, on a spur, the crest of a ridge and a spur, to the summit of a peak, in the southerly portion of section 7, T. 4 S., R. 15 E., Copper River Meridian, approximate elevation 4,467 feet;

Thence on an approximate forward bearing of S. 25° E., to the summit of a peak in a saddle, in the southwesterly portion of section 17, T. 4 S., R. 15 E., Copper River Meridian, approximate elevation 5,500 feet;

Thence northeasterly, along the crest of the divide between Dimond Creek and East Fork McCarthy Creek drainages, to the summit of a peak, in the southerly portion of section 17, T. 4 S., R. 15 E., Copper River Meridian, approximate elevation 5,655 feet;

Thence on an approximate forward bearing of S. 2° E., to the confluence of an unnamed creek and East Fork McCarthy Creek, in the southeasterly portion of section 20, T. 4 S., R. 15 E., Copper River Meridian;

Thence on an approximate forward bearing of S. 14° E., to the summit of a peak, in the easterly portion of section 29, T. 4 S., R. 15 E., Copper River Meridian, approximate elevation 4,980 feet;

Thence southeasterly and southerly, on the crest of the divide between McCarthy Creek and Nizina River drainages, to the summit of a peak, in the northwesterly portion of section 12, T. 5 S., R. 15 E., Copper River Meridian, approximate elevation 5,560 feet;

Thence on an approximate forward bearing of S. 81° E., to the summit of a hill, in the easterly portion of section 7, T. 5 S., R. 16 E., Copper River Meridian, approximate elevation 1,960 feet;

Thence on an approximate forward bearing of N. 83° E., to the meander corner of sections 8 and 9, on the right bank of Chitistone River, T. 5 S., R. 16 E., Copper River Meridian;

Thence easterly, along the right bank of the Chitistone River, to the meander corner of sections 4 and 5, T. 5 S., R. 17 E., Copper River Meridian;

Thence southerly, between sections 4 and 5, to the meander corner of sections 4 and 5, on the left bank of the Chitistone River, T. 5 S., R. 17 E., Copper River Meridian;

Thence southeasterly, along the right bank of an unnamed creek, to a point on the north and south centerline of the northeast 1/4 of section 9, T. 5 S., R. 17 E., Copper River Meridian;

Thence southerly, on the north and south centerlines of the northeast 1/4 and southeast 1/4 of section 9, to the southeast 1/16 section corner of section 9, T. 5 S., R. 17 E., Copper River Meridian;

Thence easterly, on the east and west centerline of the southeast 1/4 of section 9, to the south 1/16 section corner of sections 9 and 10, T. 5 S., R. 17 E., Copper River Meridian;

Thence southerly, between sections 9 and 10, 15 and 16, to a point between sections 15 and 16, on the right bank of Glacier Creek, T. 5 S., R. 17 E., Copper River Meridian;

Thence southeasterly, along the right bank of Glacier Creek, to a junction with an unnamed creek, in the northwesterly portion of section 25, T. 5 S., R. 17 E., Copper River Meridian;

Thence on an approximate forward bearing of S. 50° W., to the summit of a peak, in the southerly portion of section 26, T. 5 S., R. 17 E., Copper River Meridian, approximate elevation 5,500 feet;

Thence southerly and southeasterly, on the crest of the divide between Glacier Creek, Copper Creek, Canyon Creek and Young Creek drainages, to the summit of a peak, in the southerly portion of section 30, T. 7 S., R. 18 E., Copper River Meridian, approximate elevation 5,350 feet;

Thence on an approximate forward bearing of S. 6° W., to the mouth of an unnamed creek on the most easterly shore of Big Bend Lakes, in the northwesterly portion of section 6, T. 8 S., R. 18 E., Copper River Meridian;

Thence on an approximate forward bearing of S. 26° W., to the corner of sections 1, 6, 7

and 12, T. 8 S., Rs. 17 and 18 E., Copper River Meridian;

Thence southerly, between Rs. 17 and 18 E., to a point between sections 13 and 18 on the crest of a ridge, T. 8 S., Rs. 17 and 18 E., Copper River Meridian;

Thence southeasterly, on the crest of a ridge, to a point between sections 19 and 20, T. 8 S., R. 18 E., Copper River Meridian;

Thence southerly, between sections 19 and 20, 29 and 30, 31 and 32, to the standard corner of sections 31 and 32, T. 8 S., R. 18 E., Copper River Meridian;

Thence easterly, on the Second Standard Parallel South, to the ¼ section corner of section 4 only, T. 9 S., R. 18 E., Copper River Meridian;

Thence southerly, on the north and south centerline of section 4, to the special meander corner on the north and south centerline of section 4, and on the right bank of the Chitina River, T. 9 S., R. 18 E., Copper River Meridian;

Thence southwesterly, along the right bank of the main channel of Chitina River, to the most southwesterly point on the right bank of Chitina River, in the southwesterly portion of section 18, T. 9 S., R. 18 E., Copper River Meridian;

Thence on an approximate forward bearing of S. 56° W., to the mouth of an unnamed creek on the left bank of the Chitina River, in the southwesterly portion of section 18, T. 9 S., R. 18 E., Copper River Meridian;

Thence northwesterly and southerly, along the left bank of the Chitina River and the left bank of the Copper River at the line of ordinary high water, to a point between sections 20 and 29, T. 10 S., R. 4 E., Copper River Meridian;

Thence on an approximate forward bearing of S. 83° E., to the summit of a hill, in the northeasterly portion of section 28, T. 10 S., R. 4 E., Copper River Meridian, approximate elevation 680 feet;

Thence on an approximate forward bearing of N. 84° E., to the most northerly point on the shore of an unnamed lake, at the mouth of an unnamed creek, in the northerly portion of section 27, T. 10 S., R. 4 E., Copper River Meridian;

Thence northerly and northeasterly, along the left bank of an unnamed creek, to a point on the east and west centerline of section 11, T. 10 S., R. 4 E., Copper River Meridian;

Thence easterly, on the east and west centerlines of sections 11 and 12, to the center ¼ section corner of section 12, T. 10 S., R. 4 E., Copper River Meridian;

Thence northerly, on the north and south centerline of section 12, to the ¼ section corner of sections 1 and 12, T. 10 S., R. 4 E., Copper River Meridian;

Thence easterly, between sections 1 and 12, 6 and 7, to the ¼ section corner of sections 6 and 7, T. 10 S., R. 5 E., Copper River Meridian;

Thence northerly, on the north and south centerline of section 6, to the center ¼ section corner of section 6, T. 10 S., R. 5 E., Copper River Meridian;

Thence easterly, on the east and west centerline of section 6, to the ¼ section corner of sections 5 and 6, T., 10 S., R. 5 E., Copper River Meridian;

Thence northerly, between sections 5 and 6, to the corner of sections 5, 6, 31 and 32, Tps. 9 and 10 S., R. 5 E., Copper River Meridian;

Thence easterly, between Tps. 9 and 10 S., to the ¼ section corner of sections 5 and 32, Tps. 9 and 10 S., R. 5 E., Copper River Meridian;

Thence northerly, on the north and south centerline of section 32, to the center ¼ section corner of section 32, T. 9 S., R. 5 E., Copper River Meridian;

Thence easterly, on the east and west centerline of section 32, to the ¼ section corner of sections 32 and 33, T. 9 S., R. 5 E., Copper River Meridian;

Thence northerly, between sections 32 and 33, to the corner of sections 28, 29, 32 and 33, T. 9 S., R. 5 E., Copper River Meridian;

Thence easterly, between sections 28 and 33, to the ¼ section corner of sections 28 and 33, T. 9 S., R. 5 E., Copper River Meridian;

Thence northerly, on the north and south centerline of section 28, to the center ¼ section corner of section 28, T. 9 S., R. 5 E., Copper River Meridian;

Thence easterly, on the east and west centerlines of sections 28, 27 and 26, to a point on the right bank of Mac Creel Creek, T. 9 S., R. 5 E., Copper River Meridian;

Thence southeasterly, to a point on the right bank of Mac Creel Creek, to a point between sections 26 and 35, T. 9 S., R. 5 E., Copper River Meridian;

Thence easterly, between sections 26 and 35, 25 and 36, 30 and 31, to the meander corner of sections 30 and 31, on the left bank of Little Bremner River, T. 9 S., R. 6 E., Copper River Meridian;

Thence northerly, along the left bank of Little Bremner River, to the right bank of an unnamed creek, in the southerly portion of section 30, T. 9 S., R. 6 E., Copper River Meridian;

Thence southeasterly, along the right bank of an unnamed creek and the southerly shore of an unnamed lake, to a point on the north and south centerline of section 32, T. 9 S., R. 6 E., Copper River Meridian;

Thence southerly, on the north and south centerline of section 32, to the ¼ section corner of sections 5 and 32, Tps. 9 and 10 S., R. 6 E., Copper River Meridian;

Thence easterly, between Tps. 9 and 10 S., to a point between sections 3 and 34, on the right bank of an unnamed creek in the western portion of sections 3 and 34, Tps. 9 and 10 S., R. 6 E., Copper River Meridian;

Thence southeasterly, along the right banks of an unnamed creek and Salmon Creek, and the westerly shore of an unnamed lake, to the most southerly point on the unnamed lake, in the easterly portion of section 3, T. 10 S., R. 6 E., Copper River Meridian;

Thence on an approximate forward bearing of S. 16° E., to the left bank of Bremner River at the most northerly point of land in the southeasterly portion of section 3, T. 10 S., R. 6 E., Copper River Meridian;

Thence southwesterly, along the left bank of Bremner River, to the mouth and left bank of Eagle Creek, in the northwesterly portion of section 15, T. 10 S., R. 6 E., Copper River Meridian;

Thence southwesterly, along the left bank of Eagle Creek, to a point between sections 16 and 21, T. 10 S., R. 6 E., Copper River Meridian;

Thence westerly, between sections 16 and 21, 17 and 20, to the ¼ section corner of sections 17 and 20, T. 10 S., R. 6 E., Copper River Meridian;

Thence northerly, on the north and south centerline of section 17, to the center ¼ section corner of section 17, T. 10 S., R. 6 E., Copper River Meridian;

Thence westerly, on the east and west centerline of section 17, to the ¼ section corner of sections 17 and 18, T. 10 S., R. 6 E., Copper River Meridian;

Thence northerly, between sections 17 and 18, to the corner of sections 7, 8, 17 and 18, T. 10 S., R. 6 E., Copper River Meridian;

Thence westerly, between sections 7 and 18, 12 and 13, 11 and 14, 10 and 15, to the corner of sections 9, 10, 15 and 16, T. 10 S., R. 5 E., Copper River Meridian;

Thence southerly, between sections 15 and 16, to the ¼ section corner of sections 15 and 16, T. 10 S., R. 5 E., Copper River Meridian;

Thence westerly, on the east and west centerline of section 16, to the ¼ section corner of sections 16 and 17, T. 10 S., R. 5 E., Copper River Meridian;

Thence southerly, between sections 16 and 17, to the corner of sections 16 and 17, 20 and 21, T. 10 S., R. 5 E., Copper River Meridian;

Thence westerly, between sections 17 and 20, to the ¼ section corner of sections 17 and 20, T. 10 S., R. 5 E., Copper River Meridian;

Thence southerly, on the north and south centerline of section 20, to the center ¼ section corner of section 20, T. 10 S., R. 5 E., Copper River Meridian;

Thence westerly, on the east and west centerline of sections 20 and 19, to the ¼ section corner of sections 19 and 24, T. 10 S., Rs. 4 and 5 E., Copper River Meridian;

Thence southerly, between Rs. 4 and 5 E., to the corner of sections 19, 24, 25 and 30, T. 10 S., Rs. 4 and 5 E., Copper River Meridian;

Thence westerly, between sections 24 and 25, to the corner of sections 23, 24, 25 and 26, T. 10 S., R. 4 E., Copper River Meridian;

Thence southerly, between sections 25 and 26, to the ¼ section corner of sections 25 and 26, T. 10 S., R. 4 E., Copper River Meridian;

Thence westerly, on the east and west centerline of section 26, to the special meander corner on the east and west centerline of section 26, on the left bank of the Bremner River at the line of ordinary high water, T. 10 S., R. 4 E., Copper River Meridian;

Thence southeasterly, along the left banks of Bremner River and Copper River, at the line of ordinary high water, to a point S. 32° W., of the summit of a small hill in the central area of a 1,500 foot contour which spans the section line between sections 2 and 11, T. 12 S., R. 5 E., Copper River Meridian, said point near the southern boundary of section 10, T. 12 S., R. 5 E., Copper River Meridian;

Thence N. 32° E., to crest of a ridge between sections 2 and 35, Tps. 11 and 12 S., R. 5 E., Copper River Meridian, approximate elevation 3,500 feet;

Thence northeasterly and southeasterly, on the crest of the divide between the drainages of Wernicke River and the Bremner River to the summit of a peak in the center of section 26, T. 12 S., R. 9 E., Copper River Meridian, approximate elevation 6,075 feet;

Thence on an approximate forward bearing of S. 10° W., to the summit of a peak in the southeasterly portion of section 27, T. 13 S., R. 9 E., Copper River Meridian, approximate elevation 8,212 feet;

Thence easterly, northerly, southeasterly, southwesterly, and southerly, along the crest of a ridge between Miles Glacier and Fan Glacier, to the summit of Mount Tom White located in sections 18 and 19, T. 14 S., R. 10 E., Copper River Meridian, approximate elevation 11,191 feet;

Thence easterly and northeasterly, on the crest of a ridge, between Martin River Glacier, Fan Glacier, and Bremner Glacier, to the summit of Mount Hawkins in the southeasterly portion of section 4, T. 14 S., R. 11 E., Copper River Meridian, approximate elevation 9,368 feet;

Thence on an approximate forward bearing of S. 15° E., to the summit of a peak located in sections 9 and 10, T. 14 S., R. 11 E., Copper River Meridian, approximate elevation 8,813 feet;

Thence on an approximate forward bearing of S. 45° E., to the summit of a peak in the northwesterly portion of section 23, T. 14 S., R. 11 E., Copper River Meridian, approximate elevation 7,606 feet;

Thence on an approximate forward bearing of S. 7° W., to the summit of a peak in the westerly portion of section 35, T. 14 S., R. 11 E., Copper River Meridian, approximate elevation 6,400 feet;

Thence on an approximate forward bearing of S. 44° E., to the summit of a peak in the easterly portion of section 20, T. 15 S., R. 12 E., Copper River Meridian, approximate elevation 9,200 feet;

Thence southeasterly, along the crest of a ridge, between Steller Glacier, Bering Glacier and Bagley Ice Field, to the summit of a peak in the southerly portion of section 1, T. 16 S., R. 12 E., Copper River Meridian, approximate elevation 8,215 feet;

Thence on an approximate forward bearing of N. 82° E., to the summit of Mount Steller in the northerly portion of section 3, T. 16 S., R. 13 E., Copper River Meridian, approximate elevation 10,515 feet;

Thence easterly, along the crest of Waxell Ridge, between Bering Glacier and Bagley Ice Field, to the summit of a peak in the northeasterly portion of section 31, T. 15 S., R. 16 E., Copper River Meridian, approximate elevation 4,400 feet;

Thence on an approximate forward bearing of S. 64° E., to the summit of a ridge between sections 7 and 8, T. 16 S., R. 17 E., Copper River Meridian, approximate elevation 3,800 feet;

Thence northeasterly, easterly, southeasterly and southwesterly, along the crest of a ridge, between Bering Glacier, Yahtse Glacier, and Bagley Ice Field, to the summit of ridge between sections 25 and 36, T. 16 S., R. 17 E., Copper River Meridian, approximate elevation 8,800 feet;

Thence on an approximate forward bearing of S. 36° E., to the summit of a peak in the southwesterly portion of section 8, T. 18 S., R. 19 E., Copper River Meridian, approximate elevation 6,200 feet;

Thence southeasterly, along the crest of a ridge between the drainages of the Yahtse Glacier and Duktoth River, to the summit of a peak in the northeasterly portion of section 15, T. 18 S., R. 19 E., Copper River Meridian, approximate elevation 6,700 feet;

Thence on an approximate forward bearing of S. 5° W., to the summit of a peak in the northwesterly portion of section 3, T. 19 S., R. 19 E., Copper River Meridian, approximate elevation 7,072 feet;

Thence on an approximate forward bearing of S. 60° E., to the summit of Mount Leeper in the northwesterly portion of section 12, T. 19 S., R. 19 E., Copper River Meridian, approximate elevation 9,603 feet;

Thence southerly, easterly and southeasterly, on the crest of the ridge, between Yakataga Glacier, Guyot Glacier, Leeper Glacier and Yahtse Glacier, to a point between sections 2 and 3, T. 20 S., R. 20 E., Copper River Meridian;

Thence southerly, between sections 2 and 3, 10 and 11, 14 and 15, 22 and 23, 26 and 27, 34 and 35 to the corner of sections 2, 3, 34 and 35, Tps. 20 and 21 S., R. 20 E., Copper River Meridian;

Thence easterly, between Tps. 20 and 21 S., to the corner of Tps. 20 and 21 S., Rs. 20 and 21 E., Copper River Meridian;

Thence southerly, between Rs. 20 and 21 E., to the corner of Tps. 21 and 22 S., Rs. 20 and 21 E., Copper River Meridian;

Thence easterly, between Tps. 21 and 22 S., to the ¼ section corner of sections 6 and 31, Tps. 21 and 22 S., R. 23 E., Copper River Meridian;

Thence southerly, on the north and south centerlines of sections 6 and 7, to the crest of a ridge between Carson Creek and Independence Creek drainages, in the southerly portion of section 7, T. 22 S., R. 23 E., Copper River Meridian, approximate elevation 3,600 feet;

Thence northeasterly, easterly and southeasterly, on the crest of a ridge, between the Carson Creek and Independence Creek drainages, to horizontal control station "Amber" in the southeasterly portion of section 16, T. 22 S., R. 23 E., Copper River Meridian, approximate elevation 2,272 feet;

Thence on an approximate forward bearing of east, to a point at the mouth on the left bank of Independence Creek on the shore of Icy Bay at the line of mean high tide, in the southeasterly portion of section 14, T. 22 S., R. 23 E., Copper River Meridian;

Thence northeasterly, northwesterly, easterly and southeasterly, along the line of mean high tide of Icy Bay, including any coastal islands above the line of mean high tide, to a point between sections 4 and 33, Tps. 21 and 22 S., R. 24 E., Copper River Meridian;

Thence easterly, between Tps. 21 and 22 S., to the corner of Tps. 21 and 22 S., Rs. 25 and 26 E., Copper River Meridian;

Thence southerly, between Rs. 25 and 26 E., to a point between sections 1 and 6, at the line of mean high tide of the Gulf of Alaska, T. 25 S., Rs. 25 and 26 E., Copper River Meridian;

Thence southeasterly, along the line of mean high tide of the Gulf of Alaska, including any coastal islands above the line of mean high tide, to a point on the left bank of the mouth of Alder Stream, in the northeasterly portion of section 6, T. 26 S., R. 30 E., Copper River Meridian;

Thence northwesterly, along the left bank of Alder Stream, to its intersection with the line between Rs. 29 and 30 E., T. 25 S., Rs. 29 and 30 E., Copper River Meridian;

Thence northerly, between Rs. 29 and 30 E., to the corner of sections 13, 18, 19 and 24, T. 25 S., Rs. 29 and 30 E., Copper River Meridian;

*Thence easterly, between sections 18 and 19, 17 and 20, 16 and 21, 15 and 22, 14 and 23, 13 and 24, to the corner of sections 13, 18, 19 and 24, T. 25 S., Rs. 30 and 31 E., Copper River Meridian;

*Thence northerly, between Rs. 30 and 31 E., to a point between sections 1 and 6, on the southwesterly shore of Malaspina Lake, T. 25 S., Rs. 30 and 31 E., Copper River Meridian;

*Thence northeasterly and easterly along the southern shore of Malaspina Lake at the line of mean high water, to the intersection with the line between sections 3 and 32, Tps. 24 and 25 S., R. 31 E., Copper River Meridian;

*Thence easterly along the line between Tps. 24 and 25 S., R. 31 E., to a point at mean high water on the southern shoreline of Malaspina Lake, in section 2, T. 25 S., R. 31 E., Copper River Meridian;

*Thence southerly, southeasterly, easterly and northeasterly, along the southern shore of Malaspina Lake, at the line of mean high water, closing Kame Stream, Sudden Stream and any other streams draining the lake, to a point on the right bank of the most westerly channel of Grand Wash in section 29, T. 24 S., R. 32 E., Copper River Meridian;

Thence northeasterly, along the right bank of the most westerly channel of Grand Wash, traversing sections 29, 20, 17, 16, 9 and 4, to its intersection with the line between Tps. 23 and 24 S., R. 32 E., Copper River Meridian;

Thence easterly, between Tps. 23 and 24 S., to the corner of Tps. 23 and 24 S., Rs. 32 and 33 E., Copper River Meridian;

Thence northerly, between Rs. 32 and 33 E., to the corner of sections 25, 30, 31 and 36, T. 23 S., Rs. 32 and 33 E., Copper River Meridian;

Thence easterly, between sections 30 and 31, to the corner of sections 29, 30, 31 and 32, T. 23 S., R. 33 E., Copper River Meridian;

Thence northerly, between sections 29 and 30, to the corner of sections 19, 20, 29 and 30, T. 23 S., R. 33 E., Copper River Meridian;

Thence easterly, between sections 20 and 29, to the corner of sections 20, 21, 28 and 29, T. 23 S., R. 33 E., Copper River Meridian;

Thence northerly, between sections 20 and 21, 16 and 17, 8 and 9, to the corner of sections 4, 5, 8 and 9, T. 23 S., R. 33 E., Copper River Meridian;

Thence easterly, between sections 4 and 9, 3 and 10, 2 and 11, 1 and 12, 6 and 7, 5 and 8, to the meander corner of sections 5 and 8, at the line of mean high tide on the westerly shore of Disenchantment Bay, T. 23 S., R. 34 E., Copper River Meridian;

Thence northerly, northeasterly, southerly, and southeasterly, along the line of mean high tide of Disenchantment Bay, including any coastal islands above the line of mean high tide, to a point at the line of mean high tide of Disenchantment Bay at 60°00′ N. latitude;

Thence due east along the line of latitude of 60°00′ N., to the International Boundary

between the United States of America and Canada in section 22, T. 22 S., R. 37 E., Copper River Meridian;

Thence northwesterly, northerly, westerly, and northerly, along the International Boundary to the meander corner of section 35 only, on the right bank of the main channel of White River on the International Boundary, T. 1 S., R. 24 E., Copper River Meridian, the place of beginning.

The following described lands containing the Tebay Lakes are excluded from the Wrangell-St. Elias Wilderness:

Beginning at the ¼ section corner of sections 13 and 14, T. 8 S., R. 6 E., Copper River Meridian;

Thence northerly, between sections 13 and 14, to the corner of sections 11, 12, 13 and 14, T. 8 S., R. 6 E., Copper River Meridian;

Thence easterly, between sections 12 and 13, to the ¼ section corner of sections 12 and 13, T. 8 S., R. 6 E., Copper River Meridian;

Thence northerly, on the north and south centerline of section 12, to the center ¼ section corner of section 12, T. 8 S., R. 6 E., Copper River Meridian;

Thence easterly, on the east and west centerline of section 12, to the ¼ section corner of sections 7 and 12, T. 8 S., Rs. 6 and 7 E., Copper River Meridian;

Thence northerly, between sections 7 and 12, to the corner of sections 1, 6, 7 and 12, T. 8 S., Rs. 6 and 7 E., Copper River Meridian;

Thence easterly, between sections 6 and 7, to the ¼ section corner of sections 6 and 7, T. 8 S., R. 7 E., Copper River Meridian;

Thence northerly, on the north and south centerline of section 6, to the center ¼ section corner of section 6, T. 8 S., R. 7 E., Copper River Meridian;

Thence easterly, on the east and west centerline of section 6, to the ¼ section corner of sections 5 and 6, T. 8 S., R. 7 E., Copper River Meridian;

Thence northerly, between sections 5 and 6, to the corner of sections 5, 6, 31 and 32, Tps. 7 and 8 S., R. 7 E., Copper River Meridian;

Thence easterly, between Tps. 7 and 8 S., to the ¼ section corner of sections 5 and 32, Tps. 7 and 8 S., R. 7 E., Copper River Meridian;

Thence northerly, on the north and south centerlines of sections 32 and 29, to the left bank of Tebay River, near the center of section 29, T. 7 S., R. 7 E., Copper River Meridian;

Thence southwesterly, along the left bank of Tebay River, to the right bank of an unnamed creek, in the westerly portion of section 29, T. 7 S., R. 7 E., Copper River Meridian;

Thence northwesterly, along the right bank of an unnamed creek, to a point on the north and south centerline of section 30, T. 7 S., R. 7 E., Copper River Meridian;

Thence southerly, on the north and south centerline of section 30, to the center ¼ section corner of section 30, T. 7 S., R. 7 E., Copper River Meridian;

Thence westerly, on the east and west centerline of section 30, to the ¼ section corner of sections 25 and 30, T. 7 S., Rs. 6 and 7 E., Copper River Meridian;

Thence southerly, between sections 25 and 30, to the corner of sections 25, 30, 31 and 36, T. 7 S., Rs. 6 and 7 E., Copper River Meridian;

Thence westerly, between sections 25 and 36, to the ¼ section corner of sections 25 and 36, T. 7 S., R. 6 E., Copper River Meridian;

Thence southerly, on the north and south centerline of section 36, to the center ¼ section corner of section 36, T. 7 S., R. 6 E., Copper River Meridian;

Thence westerly, on the east and west centerline of section 36, to the ¼ section corner of sections 35 and 36, T. 7 S., R. 6 E., Copper River Meridian;

Thence southerly, between sections 35 and 36, to the corner of sections 1, 2, 35 and 36, Tps. 7 and 8 S., R. 6 E., Copper River Meridian;

Thence westerly, between Tps. 7 and 8 S., to the corner of sections 2, 3, 34 and 35, Tps. 7 and 8 S., R. 6 E., Copper River Meridian;

Thence southerly, between sections 2 and 3, to the ¼ section corner of sections 2 and 3, T. 8 S., R. 6 E., Copper River Meridian;

Thence westerly, on the east and west centerlines of sections 3 and 4, to the center ¼ section corner of section 4, T. 8 S., R. 6 E., Copper River Meridian;

Thence southerly, on the north and south centerline of section 4, to the ¼ section corner of sections 4 and 9, T. 8 S., R. 6 E., Copper River Meridian;

Thence westerly, between sections 4 and 9, 5 and 8, 6 and 7, to the ¼ section corner of sections 6 and 7, T. 8 S., R. 6 E., Copper River Meridian;

Thence southerly, on the north and south centerlines of sections 7 and 18, to the special meander corner on the north and south centerline of section 18, on the left bank of Falls Creek, T. 8 S., R. 6 E., Copper River Meridian;

Thence easterly, southerly and southwesterly, along the left bank of Falls Creek, to the special meander corner on the east and west centerline of section 18, T. 8 S., R. 6 E., Copper River Meridian;

Thence easterly, on the east and west centerline of section 18, to the ¼ section corner of sections 17 and 18, T. 8 S., R. 6 E., Copper River Meridian;

Thence southerly, between sections 17 and 18, to the corner of sections 17, 18, 19 and 20, T. 8 S., R. 6 E., Copper River Meridian;

Thence easterly, between sections 17 and 20, to the corner of sections 16, 17, 20 and 21, T. 8 S., R. 6 E., Copper River Meridian;

Thence northerly, between sections 16 and 17, to the ¼ section corner of sections 16 and 17, T. 8 S., R. 6 E., Copper River Meridian;

Thence easterly, on the east and west centerlines of sections 16, 15 and 14, to the ¼ section corner of sections 13 and 14, T. 8 S., R. 6 E., Copper River Meridian, to the place of beginning.

Yukon-Charley Rivers National Preserve

Section 201(10), Public Law 96–487 (ANILCA):

Yukon-Charley Rivers National Preserve

Yukon-Charley Rivers National Preserve as generally depicted on a map numbered YUCH–90,008, dated October 1978, consists of approximately one million seven hundred and thirteen thousand acres of public lands, as defined in the ANILCA, within the following described boundary:

Beginning at the closing corner of sections 15 and 22, T. 1 N., R. 33 E., Fairbanks Meridian, on the International Boundary between the United States of America and Canada;

Thence northerly, along the International Boundary between the United States of America and Canada, to the closing corner of sections 17 and 20, T. 7 N., R. 33 E., Fairbanks Meridian;

Thence westerly, between sections 17 and 20, 18 and 19, 13 and 24, 14 and 23, to the ¼ section corner of sections 14 and 23, T. 7 N., R. 32 E., Fairbanks Meridian;

Thence southerly, on the north and south centerlines of sections 23 and 26, to the center ¼ section corner of section 26, T. 7 N., R. 32 E., Fairbanks Meridian;

Thence westerly, on the east and west centerlines of section 26, 27 and 28, to the center ¼ section corner of section 28, T. 7 N., R. 32 E., Fairbanks Meridian;

Thence southerly, on the north and south centerlines of sections 28, 33, 4, 9 and 16, to the ¼ section corner of sections 16 and 21, T. 6 N., R. 32 E., Fairbanks Meridian;

Thence westerly, between sections 16 and 21, 17 and 20, 18 and 19, 13 and 24, 14 and 23, 15 and 22, 16 and 21, 17 and 20, 18 and 19, 13 and 24, 14 and 23, to the corner of sections 14, 15, 22 and 23, T. 6 N., R. 30 E., Fairbanks Meridian;

Thence northwesterly, southwesterly and northerly, along the crest of a ridge, to a point at the mouth of an unnamed creek and the line of mean high water on the left bank of the Kandik River, located in the southwesterly portion of section 5, T. 7 N., R. 29 E., Fairbanks Meridian;

Thence westerly, along the left bank of the Kandik River to the meander corner of sections 5 and 6, T. 7 N., R. 29 E., Fairbanks Meridian;

Thence northerly, between sections 5 and 6, to the corner of sections 5, 6, 31 and 32, Tps. 7 and 8 N., R. 29 E., Fairbanks Meridian;

Thence westerly, between Tps. 7 and 8 N., to the crest of a ridge between sections 6 and 31, Tps. 7 and 8 N., R. 29 E., Fairbanks Meridian;

Thence southwesterly, northwesterly, westerly and southwesterly along the crest of the ridge, between the Easy Moose Creek drainage, the Black River drainage and Judge Creek Drainage, to a point between sections 29 and 32, T. 8 N., R. 27 E., Fairbanks Meridian;

Thence westerly, between sections 29 and 32, to the right bank of Judge Creek between sections 29 and 32, T. 8 N., R. 27 E., Fairbanks Meridian;

Thence southerly, along the right bank of Judge Creek, to a point between sections 5 and 32, Tps. 7 and 8 N., R. 27 E., Fairbanks Meridian;

Thence westerly, between Tps. 7 and 8 N., to the corner of Tps. 7 and 8 N., Rs. 20 and 21 E., Fairbanks Meridian;

Thence northerly, between Rs. 20 and 21 E., to the closing corner of T. 8 N., Rs. 20 and 21 E., Fairbanks Meridian;

Thence westerly, along the Second Standard Parallel North, to the standard corner of T. 9 N., Rs. 19 and 20 E., Fairbanks Meridian;

Thence northerly, between Rs. 19 and 20 E., to the corner of Tps. 9 and 10 N., Rs. 19 and 20 E., Fairbanks Meridian;

Thence westerly, between Tps. 9 and 10 N., to the meander corner of sections 5 and 32, on the left bank of the Yukon River at the line of mean high water, Tps. 9 and 10 N., R. 18 E., Fairbanks Meridian;

Thence southeasterly, along the left bank of the Yukon River, to the meander corner of sections 18 and 19, T. 8 N., R. 20 E., Fairbanks Meridian;

Thence westerly, between sections 18 and 19, 13 and 24, 14 and 23, 15 and 22, 16 and 21, to the corner of sections 16, 17, 20, and 21, T. 8 N., R. 19 E., Fairbanks Meridian;

Thence southerly, between sections 20 and 21, 28 and 29, 32 and 33, 4 and 5, 8 and 9, 16 and 17, 20 and 21, 28 and 29, 32 and 33, 4 and 5, 8 and 9, 16 and 17, 20 and 21, 28 and 29, 32 and 33, to a point on the crest of a ridge between sections 32 and 33, T. 6 N., R. 19 E., Fairbanks Meridian;

Thence southwesterly along the crest of a ridge to the summit of a ridge located in section 25, T. 5 N., R. 18 E., Fairbanks Meridian, approximate elevation 4,350 feet;

Thence southeasterly and southwesterly along the crest of a ridge between the drainage of the Yukon Fork South Fork Birch Creek and drainages of Thanksgiving Creek, Webber Creek, Woodchopper Creek, Hanna Creek and Beverly Creek, and along a common boundary with the Steese National Conservation area, to a summit of the ridge in section 16, T. 3 N., R. 19 E., Fairbanks Meridian, approximate elevation 4,130 feet;

Thence southwesterly along the crest of a ridge between drainages of the Salcha River and the drainages of Beverly Creek and Crescent Creek, departing from the common boundary with the Steese National Conservation Area, to the summit of a mountain in section 9, T. 2 N., R. 18 E., Fairbanks Meridian, approximate elevation 4,110 feet;

*Thence southerly along the crest of mountains between the drainages of Last Creek, Serpentine Creek, Paldo Creek, Stone Boy Creek, Slate Creek and Goodpaster River and the drainages of tributaries of the Charley River, to the summit of a mountain in section 18, T, 4 S., R. 19 E., Fairbanks Meridian, approximate elevation 5,125 feet;

*Thence easterly along the crest of mountains between the drainages of the tributaries of the Charley River and the drainages of the Goodpaster River, Joseph Creek and a tributary of the Middle Fork North Fork Fortymile River to the summit of a mountain located in the southeast ¼, section 24, T. 5 S., R. 23 E., Fairbanks Meridian, approximate elevation 4,500 feet;

*Thence northeasterly along the crest of mountains between the drainages of the tributaries of the Charley River and the drainages of tributaries of the North Fork Fortymile River, to a summit at a junction of ridges in section 36, T. 1 S., R. 25 E., Fairbanks Meridian, approximate elevation 6,400 feet;

Thence northeasterly, northwesterly, easterly and northerly, along the crest of mountains between the drainages of Copper River, a tributary of the Charley River and Granite Creek and along the crest of a spur ridge between the drainages of Diamond Fork Seventymile River, Flume Creek, Bonanza Creek, Easter Creek and the drainages of Glacier Creek and Alder Creek, tributaries of the Seventymile River, to a point at the intersection of the right bank of Easter Creek and the right bank of the Seventymile River in the northwesterly portion of section 19, T. 2 N., R. 27 E., Fairbanks Meridian;

Thence northerly and westerly, along the right bank of the Seventymile River to a point between sections 13 and 18, T. 2 N., Rs. 26 and 27 E., Fairbanks Meridian;

Thence northerly, between Rs. 26 and 27 E., to the closing corner of T. 4 N., Rs. 26 and 27 E., Fairbanks Meridian;

Thence easterly, along the First Standard Parallel North, to a point on a spur ridge located in the northwesterly portion of section 2, T. 4 N., R. 27 E., Fairbanks Meridian;

Thence southeasterly and northerly along the crest of a ridge between the drainages of Washington Creek and Seventymile River, and the drainages of Glenn Creek, Logan Creek, Butte Creek, Fourth of July Creek, and Michigan Creek to the summit of a mountain in sections 12 and 13, T. 2 N., R. 29 E., Fairbanks Meridian, approximate elevation 2,820 feet;

Thence southeasterly along the crest of a ridge and spur ridge between the drainages of Seventymile River, and drainages of Trout Creek and other tributaries of the Yukon River, to the meander corner of sections 2 and 35, Tps. 1 and 2 N., R. 31 E., Fairbanks Meridian, on the left bank of the Yukon River;

Thence southeasterly and easterly, along the left bank of the Yukon River closing the mouth of the Seventymile River, to the point for the special meander corner on the north and south centerline of section 8, T. 1 N., R. 32 E., Fairbanks Meridian;

Thence southerly, along the north and south centerlines of sections 8 and 17, to the ¼ section corner of sections 17 and 20, T. 1 N., R. 32 E., Fairbanks Meridian;

Thence easterly, between sections 17 and 20, 16 and 21, 15 and 22, 14 and 23, 13 and 24, 18 and 19, 17 and 20, 16 and 21, 15 and 22, to the closing corner of sections 15 and 22, T. 1 N., R. 33 E., Fairbanks Meridian at the intersection with the International Boundary between the United States of America and Canada, the point of beginning.

*Department of the Interior 1:250,000 scale map issued in 1981 incorrectly depicts segments of this portion of the description.

Units of the National Wild and Scenic Rivers System Within the Yukon-Charley Rivers National Preserve

Section 601, Public Law 96–487 (ANILCA):

"Charley, Alaska.—The entire river, including its major tributaries, Copper Creek, Bonanza Creek, Hosford Creek, Derwent Creek, Flat-Orthmer Creek, Crescent Creek, and Moraine Creek, within the Yukon-Charley Rivers National Preserve; to be administered by the Secretary of the Interior."

Note: Pursuant to section 605(d) of ANILCA and as provided for under section 3(b) of the Wild and Scenic Rivers Act, the necessity for any river corridor boundaries for the Charley Wild River and its tributaries within the Yukon-Charley Rivers National Preserve has been considered during the comprehensive conservation planning process for the preserve. In accordance with the General Management Plan for Yukon-Charley Rivers National Preserve, approved November 7, 1986, no specific river corridor boundaries are deemed necessary for the Charley Wild River in order to protect the river, its tributaries and their immediate environments. Proposed management of the preserve meets and is compatible with management standards established by the Wild and Scenic Rivers Act.

The following U.S. Geological Survey 1:63,360 Series (Topographic) Quadrangle maps were used in preparing the legal boundary description for the Yukon-Charley Rivers National Preserve:

Big Delta, Alaska: (C–1) 1958; (D–1) 1958 mr 1986.

Charley River, Alaska: (A–1) 1956 mr 1973; (A–2) 1956 mr 1972; (A–3) 1956 mr 1972; (A–6) 1956 mr 1972; (B–1) 1956 mr 1970; (B–2) 1956 mr 1977; (B–3) 1956 mr 1976; (B–4) 1956 mr 1972; (B–5) 1956 mr 1974; (B–6) 1956 mr 1973; (C–2) 1956; (C–3) 1956; (C–6) 1956 mr 1971.

Circle, Alaska: (A–1) 1955 mr 1966; (C–1) 1955 mr 1967.

Department of Housing and Urban Development

Office of the Assistant Secretary for Housing

24 CFR Part 201

Increased Maximum Loan Amounts and Terms for Property Improvement Loans Insured Under Title I of the National Housing Act; Final Rule

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of the Assistant Secretary for Housing—Federal Housing Commissioner

24 CFR Part 201

[Docket No. R-92-1613; FR-3087-F-01]

RIN 2502-AF88

Increased Maximum Loan Amounts and Terms for Property Improvement Loans Insured Under Title I of the National Housing Act

AGENCY: Office of the Assistant Secretary for Housing—Federal Housing Commissioner, HUD.

ACTION: Final rule.

SUMMARY: This final rule implements section 340(b) of the National Affordable Housing Act (NAHA). Section 304(b) amended sections 2(b)(1) and 2(b)(3) of the National Housing Act to increase the maximum allowable loan amounts and loan terms for single family and multifamily property improvement loans insured under Title I of the National Housing Act. Section 340(a) of the NAHA required the Secretary of HUD to conduct a study of the need for increased maximum loan amounts and the effect of these increases, and to submit a report to the Congress on the findings and conclusions of the study.

The Secretary's report, transmitted to the Congress on August 8, 1991, concluded that higher maximum loan amounts are needed. However, a decision was made to defer increasing the loan limits and loan terms until the Department's regulatory reforms for the Title I program were in place, and until the Department had the benefit of an analysis of the program being carried out by Price Waterhouse as part of a study of FHA's General Insurance Fund.

On October 18, 1991 (56 FR 52414), the Department published its Title I regulatory reforms, and these reforms became effective on November 18, 1991. Price Waterhouse has now completed its analysis of the Title I program, and has concluded that the program is financially sound and larger loans show no tendency to be riskier than smaller loans. This final rule, therefore, makes effective the increased loan limits and loan terms authorized by section 340(b) of the NAHA.

EFFECTIVE DATES: September 30, 1992. The increased loan amounts and loan terms in the rule apply to any loan for which a credit application is received on or after September 30, 1992.

FOR FURTHER INFORMATION CONTACT: Robert J. Coyle, Director, Title I Insurance Division, room 9158, 451 Seventh Street, SW., Washington, DC 20410. Telephone number (202) 708–2680. Hearing- or speech-impaired individuals may call HUD's TDD number (202) 708–4594. (These are not toll-free numbers.)

SUPPLEMENTARY INFORMATION:

Background

Under title I, section 2 of the National Housing Act, the Department insures approved lending institutions for losses sustained from defaulted property improvement loans and manufactured home loans. The regulations implementing these programs are contained in 24 CFR part 201.

Section 340(b) of the National Affordable Housing Act (NAHA) (Pub. L. 101–625, approved November 28, 1990) amended section 2(b)(1) of the National Housing Act to increase the maximum allowable loan amounts for single family and multifamily property improvement loans insured under title I. The single family loan limit was increased from $17,500 to $25,000; however, the present $17,500 loan limit was retained for property improvement loans in connection with existing manufactured homes. The multifamily loan limits were increased from $43,750 (or an average of $8,750 per family unit) to $60,000 (or an average of $12,000 per family unit).

Section 340(b) of the NAHA also amended section 2(b)(3) of the National Housing Act to increase the maximum allowable loan term for single family and multifamily property improvement loans. The maximum term for both single family and multifamily loans was increased from 15 years and 32 days to 20 years and 32 days; however, the present maximum term of 15 years and 32 days was retained for property improvement loans on existing manufactured homes.

Section 340(b) of the NAHA authorized the Secretary of Housing and Urban Development to apply the increased maximum loan amounts to property improvement loans executed on or after June 1, 1991. However, section 340(a) of that Act specified that the Secretary must first conduct a study of the need for increasing the loan limits and the effect of these increases, and submit a report to the Congress on the findings and conclusions of the study.

Report to the Congress

The Secretary's report, which was transmitted to the Congress on August 8, 1991, found that higher maximum loan amounts are needed to keep pace with the increased cost of home repair and remodeling projects since the loan limits were last increased in 1981. The report concluded that, because of the current loan limits, many homeowners are unable to finance such common home improvements as kitchen remodeling, room additions, and conversions of unfinished space (such as attics) into usable living space. Improvements of this type would enable homeowners to renovate their present homes to improve livability, rather than having to relocate to other housing at a higher cost and possibly less favorable loan terms.

The title I program is also widely used by State and local government agencies, which use their scarce resources along with funds obtained from private lenders to provide housing assistance to low- and moderate-income families. A number of agencies have indicated that the present loan limits place a serious constraint on these public-private partnerships, because the cost of needed improvements often exceeds the loan limits.

To evaluate the probable effect of loan limit increases on the financial soundness of the title I program, the Department conducted an analysis of claim rates for various sizes of single family property improvement loans. However, because of some uncertainties about the results of the claim rate analysis, the Secretary determined that any increase in the loan limits should be deferred until other regulatory changes to reform the title I program had been implemented. The Secretary also decided that implementation of the increased loan limits should be postponed until the results of a Price Waterhouse study of FHA's General Insurance Fund were known, since this study might recommend additional changes to the title I program.

On October 18, 1991, the Department published a final rule in the **Federal Register** (56 FR 52414), implementing its title I reforms. In the final rule, the Department established higher qualifications standards for lenders and dealers, eliminated any role in the program by unregulated and unsupervised third parties, established more objective criteria for lenders to use in approving loans, and tightened loan origination procedures. These changes became effective on November 18, 1991.

On January 9, 1992, Price Waterhouse furnished the Department with a draft of its final report on the General Insurance Fund, including an analysis of the title I property improvement program. Price Waterhouse concluded that, for the loans originated in any particular year, the loan insurance premiums collected by the Department can be expected to exceed the net loss on claim payments.

As a consequence, Price Waterhouse offered no recommendations for improvements to the program.

Price Waterhouse also conducted a special analysis to determine whether the larger loans that would result from an increase in the loan limits would be more risky than smaller loans, and they concluded that larger loans show no tendency to be riskier than smaller loans.

Changes Made by This Rule

Based upon the Department's findings in its report to the Congress and the Price Waterhouse analysis of the title I program, the Secretary has concluded that the maximum loan amounts and maximum loan terms for single family and multifamily property improvement loans should be increased to the levels authorized by the Congress.

First, the Department is amending § 201.2(hh) to clarify the requirements for a manufactured home to qualify as real property in order to obtain a single family property improvement loan. It has been a longstanding policy of the Department that a manufactured home qualifies as real property if the home is placed on a permanent foundation, the home and lot are classified as realty by the State or locality in which the property is located, and any loans on the property are secured by mortgages or deeds of trust covering the home and lot (see HUD Handbook 4700.1, REV–1 dated September 19, 1973, section 2–7). This amendment simply reiterates these existing requirements. In a conforming change, § 201.2(j) is being amended to refer to "a manufactured home that qualifies as real property."

Second, the Department is amending § 201.10(a)(1) to increase the maximum loan amount for a single family property improvement loan to $25,000, except that the loan limit on a manufactured home that qualifies as real property remains at $17,500. The multifamily loan limits are increased to $60,000 or an average of $12,000 per dwelling unit, whichever is less. In addition, the maximum loan amount for nonresidential property improvement loans is increased to $25,000; this loan limit is not prescribed by statute but has traditionally been the same as that for single family property improvement loans.

In a related change, the Department is also amending § 201.10(a)(2) to increase the threshold amount at which a lender must obtain the prior approval of the Secretary before making a property improvement loan. Currently, a lender must obtain prior approval on any loan which will result in the borrower having a total unpaid principal balance exceeding $17,500, or $20,000 where the financing of a solar energy system is involved. The new threshold for prior approval is $25,000.

Finally, the Department is amending § 201.11(a) to increase the maximum term of a single family or multifamily property improvement loan to 20 years and 32 days, except that the maximum loan term on a manufactured home that qualifies as real property remains at 15 years and 32 days. In addition, § 201.11(c)(1) is amended to provide that, in connection with a refinanced loan, the total allowable time period from the date of the original loan to the final maturity on the refinanced loan shall not exceed the maximum term permitted under § 201.11(a) plus 9 years and 11 months, or a total of 30 years for most single family or multifamily property improvement loans.

The Department is not making any change in the maximum loan amount or loan term of a manufactured home improvement loan, which is defined in § 201.2(t) as a loan for the alteration, repair or improvement of an existing manufactured home that is classified as personality by the State or locality in which the home is located. The maximum loan limit for this type of loan remains at $5,000, and the maximum term is limited to 12 years and 32 days.

Justification for Final Rulemaking

It is the Department's general policy to publish a rule for notice and comment before issuing a rule for effect, in accordance with its own rule on rulemaking, 24 CFR part 10. However, part 10 provides for exceptions from that general rule where the agency finds good cause to omit advance notice and public participation. The good cause requirement is satisfied when prior public procedure is determined to be "impracticable, unnecessary, or contrary to the public interest." (24 CFR 10.1)

In this case, the Department finds that the solicitation of public comment before issuing the rule for effect is unnecessary and is contrary to the public interest. This rule implements section 340(b) of the NAHA, which authorizes the Secretary of HUD to increase the maximum loan amounts and maximum loan terms for certain types of property improvement loans. The increase in maximum loan amounts and maximum loan terms convey a substantial benefit on program participants (i.e. Title I borrowers and lenders). The Department has determined that delaying the effectiveness of this rule to await public comment would be unnecessary and contrary to the interest of Title I program participants.

Other Matters

Regulatory Impact

This rule does not constitute a "major rule" as that term is defined in section 1(b) of Executive Order 12291 on Federal Regulations. Analysis of the rule indicates that it will not (1) have an annual effect on the economy of $100 million or more; (2) cause a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; or (3) have a significant adverse effect on competition, employment, investment, productivity, innovation, or the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

Impact on Small Entities

The Secretary, in accordance with the Regulatory Flexibility Act (5 U.S.C. 605(b)), has reviewed and approved this rule, and in so doing certifies that this rule will not have a significant economic impact on small entities. The amendments made by this rule enable Title I lenders, the majority of which are large depository institutions, to increase the loan amounts and loan terms to the levels authorized by the Congress, for eligible borrowers. Increasing the loan amounts and loan terms benefit Title I lenders by making Title I loan terms more favorable, and consequently, more competitive.

Environmental Impact

A Finding of No Significant Impact with respect to the environment has been made in accordance with HUD regulations in 24 CFR part 50, that implement section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332). The Finding of No Significant Impact is available for public inspection during regular business hours in the Office of the General Counsel, Rules Docket Clerk, room 10276, 451 Seventh Street, SW., Washington, DC 20410.

Executive Order 12612, Federalism

The General Counsel, as the Designated Official under section 6(a) of Executive Order 12612, Federalism, has determined that this rule will not have substantial direct effects on States or their political subdivisions, or the relationship between the Federal Government and the States, or on the distribution of power and responsibilities among the various levels of government. Specifically, the requirements of this rule are directed to lenders and borrowers, and will not

impinge upon the relationship between the Federal Government and State and local governments. As a result, the rule is not subject to review under the Order.

Executive Order 12606, The Family

The General Counsel, as the Designated Official under section 6(a) of Executive Order 12606, The Family, has determined that this rule will not have potential for significant impact on family formation, maintenance, or general well-being, and thus, is not subject to review under the Order. No change in existing HUD policies or programs will result from promulgation of this rule, as those policies and programs relate to family concerns.

Regulatory Agenda

This rule is listed as item number 1158 in the Department's Semiannual Agenda of Regulations published on April 27, 1992 (57 FR 16804, 16827) under Executive Order 12291 and the Regulatory Flexibility Act.

Catalog of Federal Domestic Assistance

The Catalog of Federal Domestic Assistance program number is 14.142—Property Improvement Loan Insurance for Improving All Existing Structures and Building of New Nonresidential Structures.

List of Subjects in 24 CFR Part 201

Health facilities, Historic preservation, Home improvement, Mobile homes, Manufactured homes and lots, Reporting and recordkeeping requirements.

Accordingly, 24 CFR part 201 is amended as follows:

PART 201—TITLE I PROPERTY IMPROVEMENT AND MANUFACTURED HOME LOANS

1. The authority citation for 24 CFR part 201 continues to read as follows:

Authority: 12 U.S.C. 1703; 42 U.S.C. 3535(d)).

2. In § 201.2, the introductory text of paragraph (j) and paragraph (hh) are revised to read as follows:

§ 201.2 Definitions.

* * * * *

(j) *Existing structure* means a dwelling, including a manufactured home that qualifies as real property, which was completed and occupied at least 90 days prior to an application for a title I loan, or a nonresidential structure which was a completed building with a distinctive functional use prior to an application for a Title I loan. However, these occupancy and completion requirements shall not apply to:

* * * * *

(hh) *Single family property improvement loan* means a loan to finance alterations, repairs and improvements to or in connection with an existing structure used or to be used as a single family residence, including an existing one-family manufactured home that qualifies as real property in that the home is placed on a permanent foundation, the home and lot are classified as realty by the State or locality in which the property is located, and any loans on the property are secured by mortgages or deeds of trust covering the home and lot.

* * * * *

3. In § 201.10, paragraphs (a)(1)(i)–(iii) and (2) are revised to read as follows:

§ 201.10 Loan amounts.

(a) * * *

(1) * * *

(i) Single family property improvement loans—$25,000, except that a loan for a manufactured home that qualifies as real property shall be limited to $17,500.

(ii) Multifamily property improvement loans—$60,000 or an average of $12,000 per dwelling unit, whichever is less.

(iii) Nonresidential property improvement loans—$25,000.

* * * * *

(2) Notwithstanding the maximum loan amounts in paragraph (a)(1) of this section, the prior approval of the Secretary shall be obtained for any property improvement loan that will result in any borrower having a total unpaid principal obligation under such loans that exceeds $25,000.

* * * * *

4. In § 201.11, paragraphs (a) and (c)(1) are revised to read as follows:

§ 201.11 Loan maturities.

(a) *Property improvement loans.* The term of a property improvement loan shall be not less than six months and not more than 20 years and 32 days from the date of the loan, except that:

(1) The maximum term for a single family property improvement loan on a manufactured home that qualifies as real property shall not exceed 15 years and 32 days from the date of the loan; and

(2) The maximum term for a manufactured home improvement loan shall not exceed 12 years and 32 days from the date of the loan.

* * * * *

(c) * * *

(1) The term of a loan to refinance a borrower's existing insured property improvement or manufactured home loan shall not exceed the maximum term permitted under paragraph (a) or (b) of this section for the particular type of loan. In addition, the total time period from the date of the original loan to the final maturity of the refinanced loan shall not exceed:

(i) In the case of a property improvement loan, the maximum term permitted under paragraph (a) of this section plus 9 years and 11 months; and

(ii) In the case of manufactured home loan, the maximum term permitted under paragraph (b) of this section plus 4 years and 11 months.

* * * * *

Dated: September 15, 1992.

Arthur J. Hill,

Assistant Secretary for Housing—Federal Housing Commissioner.

Part VI

Department of Energy

Office of Environmental Restoration and Waste Management

Surcharge Rebates; Eligibility Criteria and Procedures for the January 1, 1993, Deadline of the Low-Level Radioactive Waste Policy Amendments Act of 1985; Notices

DEPARTMENT OF ENERGY

Office of Environmental Restoration and Waste Management

Surcharge Rebates; Eligibility Criteria and Procedures for the January 1, 1993, Deadline of the Low-Level Radioactive Waste Policy Amendments Act of 1985

AGENCY: Office of Environmental Restoration and Waste Management, Department of Energy.

ACTION: Notice of eligibility criteria and procedures.

SUMMARY: The Low-Level Radioactive Waste Policy Amendments Act of 1985 (the Act) established incentives and milestones for the development of new disposal facilities in compact regions and States that do not currently have operating disposal facilities for low-level radioactive waste (LLW). The Act provides a January 1, 1993, date as a deadline for a State to be able to store, manage or dispose of all its LLW. States or compact regions that meet this milestone are eligible to receive a rebate of surcharges collected between January 1, 1990, and December 31, 1992, and held by the Department of Energy (DOE) with interest earned. A State that fails to meet the January 1, 1993, milestone will forfeit the State's surcharge incentive payments to the LLW generators.

This Notice interprets the statutory criteria the DOE will use for evaluating States, compact regions, and LLW generators that may be eligible for the January 1, 1993, surcharge rebates, and the procedures DOE will use to determine if these entities are eligible to receive surcharge rebates following the January 1, 1993, deadline.

DATES: *Effective Date:* September 30, 1992.

Comment Procedures: While public comments are not required, DOE will accept written comments from interested persons concerning this Notice, if those comments are submitted to DOE within 45 days from the date of this Notice.

FOR FURTHER INFORMATION CONTACT: Terry L. Plummer, Office of Waste Management, Environmental Restoration and Waste Management, U.S. Department of Energy, Washington, DC 20585–0002, (301–903–7176).

SUPPLEMENTARY INFORMATION:

I. Background

The Low-Level Radioactive Waste Policy Amendments Act of 1985 (42 U.S.C. 2021b note), assigns responsibility for LLW disposal to each State in which LLW is generated, but encourages the formation of compact regions to manage LLW disposal sites on a regional basis. States and compact regions without operating disposal facilities were provided specific milestones to meet in 1986, 1988, 1990, and 1992.

States with operating LLW disposal facilities were allowed to assess additional fees or surcharges beginning in 1986. Twenty-five percent of the surcharge fees collected are then transferred monthly into an escrow account held by the Secretary of the Department of Energy. As an incentive for States and compact regions meeting the established milestones of the Act, a rebate of the fee, with interest, is provided by the Secretary of Energy. The Secretary of Energy has provided surcharge rebates from this escrow account to those States and compact regions that complied with the 1986, 1988, and 1990 milestones in the Act.

The Act's final milestone incentive provides that 25 percent of any amount collected for LLW disposed during the period beginning January 1, 1990, and ending December 31, 1992, shall be returned with interest earned, to the State or compact region in which the waste originated if, by January 1, 1993, the State or compact region is able to provide for the disposal of all LLW generated within such State or compact region.

A State that has not provided for disposal of all LLW by the January 1, 1993, deadline may become eligible for surcharge rebates, if the State agrees to take title to the waste, be obligated to take possession of the waste, and be liable for all damages directly or indirectly incurred by the generator or owner as a consequence of the failure of the State to take possession of the waste as soon after January 1, 1993, as the generator or owner notifies the State that the waste is available for shipment.

By a separate *Federal Register* Notice published today, DOE is requesting comments on the proposed exclusion of "mixed waste" from the requirements of the Act's 1993 milestone. Accordingly, this Notice excludes the disposal of "mixed waste" as a requirement.

II. Rebate Eligibility Criteria for Surcharge Rebates

A. Criteria a State or Compact Region Should Meet

1. A. State or compact region should provide documentation of the January 1, 1993, availability of one or a combination of the following options:

a. An operating disposal or storage facility for all LLW; (The storage facilities may be at the point of LLW generation or away from the point of LLW generation);

b. A valid contract with another State or compact region for the disposal or storage of all LLW;

c. If a State or compact region cannot provide for the disposal or storage of low-level radioactive waste under the above options by January 1, 1993, it may be eligible for a proprated portion of the rebate surcharges before January 1, 1996, if it can provide documentation of the availability of one or a combination of:

1. An operating disposal facility for all LLW;

2. A valid contract with another State or compact region for the disposal or storage of all LLW.

2. To comply with the documentation requirements, the State or compact region may either:

a. Transmit to DOE a letter from the Governor or the executive director (chairman) of the compact commission requesting the surcharge rebate; state the capability for disposal or storage and the initial date of operation; and provide the name of a contact person, telephone number, and an address to which the surcharge rebate should be sent; or

b. Transmit to DOE a letter from the Governor or the executive director (chairman) of the compact commission requesting the surcharge rebate; state that a contract for disposal or storage is in place, and transmit a certified copy of the contract, executed by all parties, for disposal or storage with the date of disposal or storage capability. This letter should also include the name of a contact person, telephone number, and an address to which the surcharge rebate should be sent.

3. If the State is using storage of LLW as a means of managing the LLW, then the letter to DOE should include a certification by the Governor that the State takes title to, takes possession of or is obligated to take possession of, and assumes liability for the LLW in storage.

B. Requirements a LLW Generator or Owner Should Meet

1. To be eligible for a surcharge rebate, a LLW generator or owner shall show through documentation:

a. The LLW generator or owner paid surcharges between January 1, 1990 and December 31, 1992;

b. The LLW generator or owner is storing LLW waste between January 1, 1993, and January 1, 1996; and

c. The LLW is available for shipment.

2. To comply with the documentation requirements, the LLW generator or owner must:

a. Submit to DOE a letter requesting a surcharge rebate;

b. Show that he/she made the waste available for shipment to the State (i.e., a notarized copy of a registered letter to the State with reference to an official State position on the lack of disposal or storage capability or a notarized copy of a registered letter to the State that has not been answered within a reasonable period of time would be acceptable proof of compliance);

c. Certify that he/she is storing LLW waste between January 1, 1993, and January 1, 1996;

d. Supply low-level radioactive waste disposal permit number or customer number (issued by the sited State or the LLW disposal facility operator), the total final disposal volume of LLW in cubic feet (excluding volume shipped during a penalty period) shipped to each sited State between January 1, 1990, and December 31, 1992, and the total non-penalty surcharges paid to each sited State for disposal during that period;

e. Supply the name of a contact person, telephone number, and an address to which surcharge rebates should be sent; and

f. Specify whether surcharge rebates should be made monthly, semiannually, or a single lump sum payment on February 1, 1996.

III. Notification Procedure

A. To notify States, compact regions, and LLW generators of their potential eligibility for, and methods of applying for, surcharge rebates, DOE will:

1. Publish this notice in the **Federal Register**;
2. Send notice to the address of record of each LLW generator;
3. Notify appropriate State agencies and the Governors;
4. Notify the compact commissions; and
5. Notify the Host State Technical Coordinating Committee and the Low-Level Radioactive Waste Forum.

B. Additionally, DOE may:

1. Publish a notice in widely circulated State papers;
2. Notify industry and trade organizations; and
3. Publish a notice in trade magazines and newsletters.

IV. Compliance Review

DOE will review the documentation submitted by States, compact regions, and LLW generators and owners in support of requests for surcharge rebates. If DOE determines that the submitted documentation adequately addresses the eligibility and documentation requirements, the State, compact region, or LLW generator or owner will be deemed eligible for a surcharge rebate. Eligibility will be effective for States and compact regions, retroactive to the first of the month in which the documentation is received by DOE. For LLW generators and owners, eligibility will be retroactive to the first of the month in which the LLW was made available for shipment to the State. DOE may request additional information, as necessary, to assist in making an eligibility determination.

V. Distribution of Surcharge Rebates

A. Determination of Eligibility

By February 1, 1993, or within 30 days of making a determination of eligibility for a surcharge rebate, whichever is later, DOE will distribute surcharge rebates to eligible parties. Surcharge rebates will be sent to the address provided in the eligible party's request for a surcharge rebate. LLW generators or owners that are eligible for a surcharge rebate may elect to have DOE send the surcharge rebate in monthly, semiannual, or annual increments. To minimize processing costs, surcharge rebates of less than ten dollars per month will be issued in a single check semiannually with the except of account balances of fifty dollars or less on February 1, 1993, which will be issued as a lump sum payment on February 1, 1996.

B. Determination of Ineligibility

Section 5(d)(2)(F) of the Act requires that any funds not paid to a State, compact region, on LLW generators or owners be returned to the sited State that collected the surcharge. This is to be done no later than 30 days after a determination of ineligibility for a surcharge rebate is made. Determinations of ineligibility will be made within 30 days after January 1, 1996, since States, compact regions, or LLW generators or owners could be eligible for surcharge rebates up to that point.

VI. Information Collection

The information collection and record keeping requirements in this Notice are subject to the provisions of the Paperwork Reduction Act, 44 U.S.C. 3501 *et seq.*, and the Office of Management and Budget's (OMB) implementing regulation, 5 CFR part 1320, and have been cleared by OMB for DOE use under OMB Control Number 1910–0900.

Issued in Washington, DC, on September 15, 1992.

Paul D. Grimm,

Principal Deputy Assistant Secretary, Environmental Restoration and Waste Management.

BILLING CODE 6450–01–M

DEPARTMENT OF ENERGY

Surcharge Rebates; Mixed Waste and the 1993 Deadline of the Low-Level Radioactive Waste Policy Amendments Act of 1985

AGENCY: Office of Environmental Restoration and Waste Management, Department of Energy.

ACTION: Notice of inquiry.

SUMMARY: The Low-Level Radioactive Waste Policy Amendments Act of 1985 (the Act) establishes a deadline for a State or compact region to provide for the disposal of all low-level radioactive waste (LLW) generated within such State or compact region. Those States and/or compact regions that are able to provide on January 1, 1993, for the disposition of all the LLW generated within the State or compact region, will be eligible for a rebate of 25 percent of the surcharge fees collected between January 1, 1990, and December 31, 1992, and held by DOE with interest earned.

The purpose of this Notice of Inquiry (NOI) is to request public comment on DOE's conclusion that no disposal of "mixed waste" is required for the Act's 1993 surcharge rebate.

This NOI will facilitate the gathering of comments prior to publishing the final interpretative NOI.

DATES: Written comments in response to this NOI must be received by DOE by October 30, 1992.

ADDRESSES: Interested persons are invited to submit written comments in response to this NOI statement to Terry L. Plummer, U.S. Department of Energy, Division of Technical Support, Office of Waste Management, Environmental Restoration and Waste Management, EM–351, Washington, DC 20585–0002, (301–903–7176); or Robert Newton, Attorney, Office of General Counsel, GC–12, U.S. Department of Energy, Washington, DC 20585 (202–586–0806).

FOR FURTHER INFORMATION CONTACT: Terry L. Plummer, Office of Waste Management, Environmental Restoration and Waste Management, U.S. Department of Energy, Washington, DC 20585–0002 (301–903–7176).

SUPPLEMENTARY INFORMATION:

I. Background

In 1985, Congress passed the Low-Level Radioactive Waste Policy Amendments Act (Pub. L. 99–240). The Act's purpose is to ensure the safe management and disposal of LLW and to ensure that adequate LLW disposal capacity is available to accommodate all of the Nation's LLW. The Act assigns responsibility for LLW disposal to each State in which LLW is generated, but encourages the formation of compact regions to manage LLW on a regional basis. Among the major provisions in the Act are: (1) In return for continued access to the operating LLW disposal facilities, sited States will not have to accept LLW in excess of the cumulative ceilings established for each site in the legislation; (2) generators in non-sited States and compact regions will be subject to escalating surcharges on their LLW by the sited States during a 7-year time period; (3) to help ensure progress by the non-sited States and compact regions, specific milestones in 1986, 1988, 1990, and 1992 are established; and if those milestones are not met, penalty surcharges may be imposed by the sited States, along with possible denial of access to operating LLW disposal facilities; and (4) generators or owners who are assessed the surcharges will be eligible for repayment, with interest, if the State in which the waste was generated refuses to take title and possession of the LLW.

II. "Mixed Waste" Issue

This section provides a discussion of the disposal of the category of low-level radioactive waste defined as "mixed waste" and whether disposal of "mixed waste" is required for eligibility for the 1993 surcharge rebates.

Section 5(d)(2)(B)(iv) of the Act establishes a January 1, 1993, deadline for a State or compact region to provide for the disposal of all low-level radioactive waste generated within such State or compact region. Low-level radioactive waste has generally been grouped into four classifications according to the concentration of certain radionuclides in the waste; Class A, Class B, Class C, and Greater-Than-Class-C. Some low-level radioactive waste regardless of classification is referred to as "mixed waste" because it contains both radioactive and hazardous constituents. Under the Resource Conservation and Recovery Act (RCRA), the hazardous wastes in mixed waste are regulated by the Environmental Protection Agency (EPA), while the radioactive wastes are subject to Nuclear Regulatory Commission (NRC) regulations.

DOE has tentatively concluded that excluding mixed waste from the categories of low-level radioactive waste that must meet the 1993 deadline requirement is an appropriate and reasonable interpretation of the Act.

In reaching this conclusion, DOE considered the legislative history of the 1985 Amendments which suggests that Congress clearly recognized the unique requirements of "mixed waste" and intended to omit "mixed waste" from the milestone requirements of the Act. The Senate Committee on Energy and Natural Resources Report, (Report 99–199, page 4) discusses some of the unique problems of "mixed waste" as follows:

> Mixed-wastes designated for disposal at low-level radioactive waste disposal facilities are currently subject to conflicting regulatory requirements. Mixed wastes are those waste materials that contain low-level radiation as well as hazardous substances. Less than 1 percent of the waste disposed of at low-level radioactive waste disposal facilities falls in the category of mixed wastes. Nevertheless, disposal of these mixed wastes is in jeopardy because of the conflicting regulatory requirements of the Nuclear Regulatory Commission (under 10 CFR part 61) and the Environmental Protection Agency (under the Solid Waste Disposal Act). A facility operator dealing with such wastes may find that if he complies with one set of regulations, he may risk violation of the other set, unless these inconsistencies are resolved. Furthermore, the current system of dual permitting and enforcement authorities resulting from these two sets of regulations makes the disposal of mixed waste a needlessly complex and difficult process.

Despite recognizing some of the unique problems involving "mixed waste," and although both House and Senate versions of the Act contained "mixed waste" provisions, the "mixed waste" provision was omitted prior to passage of the Act when no agreement could be reached by Congressional sponsors. (See, House Report, 99–314, Part I, p. 13, "Sec. 15. Mixed Wastes." Senate Report 99–199, p.17, "Section 7—Mixed Wastes.")

Because of the NRC and EPA continued dual jurisdiction over mixed waste, the development of mixed waste regulations, policy, and technical guidance from the NRC and EPA has taken longer than expected. There are no commercial LLW disposal facilities presently accepting mixed waste for disposal, nor are there any facilities under construction for the disposal of mixed waste. Moreover, generators have not paid States or compact regions any surcharge fees for any mixed waste disposal, not is it anticipated that generators are likely to pay surcharges for mixed waste disposal before December 31, 1992.

Thus, based on the foregoing discussion, DOE is tentatively concluding that disposal of mixed waste is not required by the Act's 1993 surcharge rebate requirement.

Comment Procedures

All interested persons are invited to submit written comments to DOE by the date mentioned in the **DATE** section of this notice.

Issued in Washington, DC, on September 15, 1992.

Paul D. Grimm,

Principal Deputy Assistant Secretary for Environmental Restoration and Waste Management.

Part VII

Department of the Interior

Bureau of Indian Affairs

25 CFR Part 67

Preparation of a Roll of Independent Seminole Indians of Florida; Proposed Rule

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

25 CFR Part 67

RIN 1076-AC48

Preparation of a Roll of Independent Seminole Indians of Florida

AGENCY: Bureau of Indian Affairs, Interior.

ACTION: Proposed rule.

SUMMARY: The Bureau of Indian Affairs (BIA) is proposing to add a new part 67 to title 25 of the Code of Federal Regulations to provide procedures to govern the preparation, certification, and approval of a descendancy roll of Independent Seminole Indians of Florida. The Act of April 30, 1990, provides for the use and distribution of funds awarded the Seminole Indians in dockets 73, 151, and 73–A of the Indian Claims Commission. Section 7 directs the Secretary of the Interior under regulations prescribed by the Secretary to compile a roll of Independent individuals of Seminole Indian descent. The descendancy roll of Independent Seminole Indians of Florida will be used as the basis for compiling a list of persons eligible for a per capita distribution of a portion of the Seminole judgment funds.

DATES: Written comments must be received on or before October 30, 1992.

ADDRESSES: Written comments should be directed to the Chief, Branch of Tribal Relations, Bureau of Indian Affairs, Eastern Area Office, 3701 North Fairfax Drive, Mailstop 260, Arlington, VA 22201.

FOR FURTHER INFORMATION CONTACT: Kaye Armstrong Vann, Branch of Tribal Relations, Bureau of Indian Affairs, Eastern Area Office, 3701 North Fairfax Drive, Mailstop 260, Arlington, VA 22201, telephone number: (703) 235–2572 (FTS2000: 703–235–2575).

SUPPLEMENTARY INFORMATION: This proposed rule is published in exercise of the authority delegated by the Secretary of the Interior (Secretary) to the Assistant Secretary—Indian Affairs in the Departmental Manual at 209 DM 8.

Section 7 of the Act of April 30, 1990 (Act), Public Law 101–277, 104 Stat. 143, which provides for the use and distribution of funds awarded the Seminole Indians in dockets 73, 151, and 73–A of the Indian Claims Commission, directs the Secretary to compile a roll of certain individuals of Seminole Indian descent under regulations prescribed by the Secretary. To be eligible for enrollment, Seminole Indian descendants must have been living on April 30, 1990, must be listed on or be lineal descendants of persons listed on the annotated Florida Seminole Agency Census of 1957 as independent Seminoles, and must not be members of a federally recognized tribe.

To establish eligibility for enrollment the proposed rule requires persons to file or have filed on their behalf an application form with the Superintendent, Seminole Agency, Bureau of Indian Affairs, by the deadline specified in proposed § 67.4(b). The proposed deadline is 150 days from the date of publication of the Final Rule in the **Federal Register**. An application filed more than 150 days after the date of publication of the Final Rule will be rejected for failure to file on time regardless of whether the applicant otherwise meets the qualifications for enrollment.

Section 7(d) of the Act provides that except for persons who apply for enrollment and are determined eligible and who apply for and accept a per capita share of the payment, "distribution of the award in accordance with this Act shall not be construed to impair, diminish or affect in any manner any rights and claims of the independent Seminole Indians, either as a group or individually, to any lands or natural resources in the State." Because acceptance of a per capita share of the judgment funds may impair, diminish or affect the claims of the Independent Seminole Indians to lands or natural resources in the State of Florida, the BIA has determined that individual applicants must be made aware of this before accepting a per capita share of the judgment funds.

The proposed rule provides for the applicant to make an election on the application form as to whether he or she wishes to share in the per capita payment. In other words, individuals will not only be applying to establish that they qualify for enrollment, but will also be electing whether they wish to receive a per capita payment of the judgment funds if they are determined to meet the qualifications for enrollment.

Because of the serious potential impact of such an election, the proposed rule restricts the making of the election to accept the per capita payment to adult applicants or to legal guardians of incompetent adults or in the case of minors, such election is restricted to the parents or legal guardians. Therefore, those who fail to elect to share in the payment will not be eligible to share in the payment even though they have qualified for enrollment.

In most cases where the BIA is preparing a roll of Indians, general public notice and actual notice to potentially eligible individual beneficiaries is provided. Actual notice to potentially eligible individuals is possible because of the existence, in most cases, of a previously prepared roll or a tribal membership roll. In this instance, there exists no previously prepared or tribal membership roll because the Independent Seminole Indians of Florida have not been affiliated with any other group or tribe of Indians.

The census roll prepared in 1957 does not show addresses for the persons named on the roll. Even if there were addresses shown, after the elapse of more than 30 years the addresses would be so out-of-date that it would be impractical to use them. Consequently, no general mailings of notices to potentially eligible beneficiaries is anticipated. Reasonable effort will be made to place notices for public display in community buildings, tribal buildings, and Indian centers as well as publishing notices in newspapers in appropriate localities throughout the State of Florida. It is also anticipated that public meetings will be held in appropriate localities in the State of Florida to explain the provisions of the Act and the need to apply for enrollment by the deadline specified.

The primary author of this document is Kaye Armstrong Vann, Area Tribal Relations Specialist, Bureau of Indian Affairs, Eastern Area Office.

The policy of the Department of the Interior is, whenever practical, to afford the public an opportunity to participate in the rulemaking process. Accordingly, interested persons may submit written comments, suggestions or objections regarding this proposed rule to the office listed in the "**ADDRESSES**" section of this document.

The information collection requirement contained in this proposed rule does not require the approval of the Office of Management and Budget under 44 U.S.C. 3501 *et seq.*

The Department of the Interior has determined that this is not a major rule under E.O. 12291 because only a limited number of individuals will be affected. Those individuals who are enrolled will be eligible to participate in the distribution of a portion of a relatively small judgment award granted the Seminole Indians.

The Department of the Interior has determined that this rule will not have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*).

The Department of the Interior has determined that this rule is not a major Federal action significantly affecting the quality of the human environment and that neither an environmental assessment nor an environmental impact statement is required pursuant to the National Environmental Policy Act of 1969.

List of Subjects in 25 CFR Part 67

Indians—claims, Indians—enrollment.

For the reasons set out in the preamble, a new part 67 of title 25, chapter I of the Code of Federal Regulations is proposed to be added as set forth below.

PART 67—PREPARATION OF A ROLL OF INDEPENDENT SEMINOLE INDIANS OF FLORIDA

Sec.

67.1 Definitions.
67.2 Purpose.
67.3 Information collection.
67.4 Qualifications-for enrollment and the deadline for filing application forms.
67.5 Notices.
67.6 Application forms.
67.7 Filing of application forms.
67.8 Burden of proof.
67.9 Action by Superintendent.
67.10 Appeals.
67.11 Decision of the Area Director on appeals.
67.12 Exhaustion of administrative remedies.
67.13 Preparation, certification and approval of the roll.
67.14 Preparation of per capita payment roll.
67.15 Special instructions.

Authority: 5 U.S.C. 301; 25 U.S.C. 2 and 9; and Pub. L. 101–277, 104 Stat. 143.

§ 67.1 Definitions.

As used in these regulations:

Act means the Act of Congress approved April 30, 1990, Public Law 101–277, 104 Stat. 143, which authorizes the use and distribution of funds awarded the Seminole Indians in dockets 73, 151, and 73–A of the Indian Claims Commission.

Adopted person means a person whose natural parents' parental rights have been terminated by court order and persons other than the natural parents have exercised or do exercise parental rights with regard to the adopted person.

Applicant means a person who is making application for inclusion on the roll prepared by the Secretary pursuant to the Act of April 30, 1990, by either personally filing an application or by having a sponsor complete and file an application on his or her behalf.

Assistant Secretary means the Assistant Secretary for Indian Affairs or authorized representative.

Bureau means the Bureau of Indian Affairs, Department of the Interior.

Commissioner means the Commissioner of Indian Affairs or authorized representative.

Director means the Area Director, Eastern Area Office, Bureau of Indian Affairs or authorized representative.

Lineal descendant(s) means those persons who are the issue of the ancestor through whom enrollment rights are claimed; namely, the children, grandchildren, etc. It does not include collateral relatives such as brothers, sisters, nieces, nephews, cousins, etc., or adopted children, adopted grandchildren, etc.

Living means born on or before and alive on the date specified.

Secretary means the Secretary of the Interior or authorized representative.

Sponsor means any person who files an application for enrollment or an appeal on behalf of another person.

Superintendent means the Superintendent, Seminole Agency, Bureau of Indian Affairs or authorized representative.

§ 67.2 Purpose.

The regulations in this part govern the compilation of a roll of persons who meet the requirements specified in section 7 of the Act who will be eligible to share in the distribution of a portion of the judgment funds awarded the Seminole Indians in Dockets, 73, 151, and 73–A of the Indian Claims Commission.

§ 67.3 Information collection.

The information collection requirement contained in this part does not require approval by the Office of Management and Budget under 44 U.S.C. 3501 *et seq.*

§ 67.4 Qualifications for enrollment and the deadline for filing application forms.

(a) The roll shall contain the names of persons of Seminole Indian descent who:

(1) Were born on or before, and living on April 30, 1990;

(2) Are listed on or who are lineal descendants for persons listed on the annotated Seminole Agency Census of 1957 as Independent Seminoles; and

(3) Are not members of an Indian tribe recognized by the Secretary on the most recent list of such Indian tribes published in the **Federal Register**.

(b) To qualify for enrollment, all persons must file application forms with the Superintendent, Seminole Agency, Bureau of Indian Affairs, 6075 Stirling Road, Hollywood, Florida 33024 by (*insert date 150 days from the date of publication of the Final Rule in the* **Federal Register**). An application filed more than 150 days after the date of publication of the Final Rule will be rejected for failure to file on time regardless of whether the applicant otherwise meets the qualifications for enrollment.

§ 67.5 Notices

(a) The Director shall give notice to all Area Directors of the Bureau and all Superintendents within the jurisdiction of the Director, of the preparation of the roll for public display in Bureau field offices. Notices shall be placed for public display in community buildings, tribal buildings, and Indian centers.

(b) The Superintendent shall, on the basis of available residence data, publish and republish when advisable, notices of the preparation of the roll in appropriate localities utilizing media suitable to the circumstances.

(c) Notices shall advise of the preparation of the roll and the relevant procedures to be followed including the qualifications for enrollment and the deadline for filing application forms to be eligible for enrollment. The notices shall also state how and where application forms may be obtained, as well as the name, address, and telephone number of a person who maybe contacted for further information.

§ 67.6 Application forms.

(a) Application forms to be filed by or for applicants for enrollment shall be furnished by the Area Director, Superintendent, or other designated persons upon written or oral request. Each person furnishing application forms shall keep a record of the names of individuals to whom forms are given, as well as the control numbers of the forms and the date furnished. Instructions for completing and filing application forms shall be furnished with each form. The form shall indicate prominently the deadline date for filing application forms.

(b) Among other information, each application form shall contain:

(1) Certification as to whether the application form is for a natural child or an adopted child of the parent through whom eligibility is claimed.

(2) If the application form is filed by a sponsor, the name and address of the sponsor and the sponsor's relationship to the applicant.

(3) A control number for the purpose of keeping a record of forms furnished to interested individuals.

(4) Certification that the information given on the application form is true to the best of the knowledge and belief of the person filing the application.

Criminal penalties are provided by statute for knowingly filing false information in such applications (18 U.S.C. 1001).

(5) An election by the applicant as to whether the applicant, if determined to meet the qualifications of enrollment, wishes to share in the per capita payment.

(c) Application forms may be filed by sponsors on behalf of other persons. However, the election as to whether the applicant wishes to share in the per capita payment must be made by the applicant, if an adult, or by the legal guardian of an incompetent adult or if the applicant is a minor, by the minor's parent or legal guardian. Where an application form has been filed by a sponsor, the sponsor will be furnished a copy of the application form to forward to the applicant for the applicant to elect whether, if determined to meet the qualifications for enrollment, he or she wishes to share in the per capita payment. The Superintendent shall also make a reasonable effort to furnish a copy of the sponsored application form directly to the applicant for completion of the election.

(d) Every applicant or sponsor shall furnish the applicant's mailing address on the application form. Thereafter, the applicant or sponsor shall promptly notify the Superintendent of any change in address, giving appropriate identification of the applicant. Otherwise, the mailing address as stated on the application form shall be accepted as the address of record for all purposes under the regulations in this part.

§ 67.7 Filing of application forms.

(a) Application forms filed by mail must be postmarked no later than midnight on the deadline date specified in § 67.4(b). Where there is no postmark date showing on the envelope or the postmark date is illegible, application forms mailed from within the United States, including Alaska and Hawaii, received more than 15 days after the specified deadline, and application forms mailed from outside of the United States received more than 30 days after the specified deadline in the office of the Superintendent, will be rejected for failure to file in time.

(b) Application forms filed by personal delivery must be received in the office of the Superintendent no later than close of business on the deadline date specified in § 67.4(b).

(c) If the deadline date for filing application forms falls on a Saturday, Sunday, legal holiday, or other nonbusiness day, the deadline will be the next working day thereafter.

§ 67.8 Burden of proof.

The burden of proof rests upon the applicant to establish eligibility for enrollment. Documentary evidence such as birth certificates, death certificates, baptismal records, copies of probate findings, or affidavits, may be used to support claims of eligibility for enrollment. Records of the Bureau of Indian Affairs may be used to establish eligibility.

§ 67.9 Action by Superintendent.

(a) The Superintendent shall notify each individual applicant or sponsor, as applicable, upon receipt of an application. The Superintendent shall consider each application and all documentation. Upon determining an individual's eligibility, the Superintendent shall notify the individual, parent, or guardian having legal custody of a minor, or sponsor, as applicable.

(1) Notification of the decision by the Superintendent shall be in writing by certified mail, to be received by the addressee only, return receipt requested.

(2) If a decision by the Superintendent is sent out of the United States, registered mail will be used. If a certified or registered notice is returned as "Unclaimed" the Superintendent shall remail the notice by regular mail together with an acknowledgment of receipt form to be completed by the addressee and returned to the Superintendent. If the acknowledgment of receipt is not returned, computation of the period specified for changes in election and for appeals shall begin on the date the notice was remailed. Certified or registered notice returned for any reason other than "Unclaimed" need not be remailed.

(3) If an individual files an application on behalf of more than one person, one notice of eligibility or adverse action may be addressed to the person who filed the applications. However, the notice must list the name of each person to whom the notice is applicable. Where an individual is represented by a sponsor, notification to the sponsor of eligibility or adverse action shall be considered notification to the individual.

(b) If the Superintendent determines that an applicant is eligible for enrollment as an Independent Seminole Indian of Florida, the applicant will be notified of that decision.

(1) On the basis of an applicant's election with regard to whether he or she wishes to share in the per capita payment, the Superintendent's decision shall also state whether the applicant's name will be included on the per capita payment roll. If no election has been made by the applicant, parent, or legal guardian on the application form, the individual applicant's name will not be included on the per capita payment roll.

(2) The eligible individual will have 30 days from notification of his or her eligibility in which to request a change in the election of whether to share in the per capita payment. Computation of the 30 day period will be in accordance with § 67.9(a)(2) and § 67.9(d). Upon written request received within the 30 day period, to avoid hardship or gross injustice, the Superintendent may grant additional time not to exceed 30 days in which to submit a request for a change in election.

(3) A change in the election of whether to share in the per capita payment can only be made by adult applicants or by the legal guardian of an incompetent adult, or in the case of minors, by the parents or legal guardians of such minors.

(c) If the Superintendent determines that an applicant is not eligible for enrollment as an Independent Seminole Indian of Florida, the Superintendent shall notify the applicant of the decision and shall fully explain the reasons for the adverse action and explain the rejected applicant's right to appeal to the Area Director. The decision of the Area Director shall be final and conclusive.

(d) Except as provided in paragraph (a)(2) of this section, a notice of adverse action concerning an individual's enrollment eligibility or the inclusion or exclusion of an individual's name on the per capita payment roll is considered to have been made and computation of the period for appeal shall begin on the earliest of the following dates:

(1) Delivery date indicated on the return receipt;

(2) Date of acknowledgment of receipt;

(3) Date of personal delivery; or

(4) Date of return by the post office of an undelivered certified or registered letter.

(e) To avoid hardship or gross injustice, the Area Director or the Superintendent may waive technical deficiencies in application forms or other submittals. Failure to file by the deadline date does not constitute a technical deficiency.

§ 67.10 Appeals.

(a) Appeals from or on behalf of applicants who have been rejected for enrollment must be in writing and must be filed pursuant to part 62 of this chapter. When the appeal is on behalf of more than one person, the name of each person must be listed in the appeal.

(b) A copy of part 62 of this chapter shall be furnished with each notice of adverse action. All sections of part 62 shall be applicable to appeals filed under this part except §§ 62.10, 62.11 and 62.12.

§ 67.11 Decision of the Area Director on appeals.

(a) The Area Director will consider the record as presented together with such additional information as may be considered pertinent. Any additional information relied upon shall be specifically identified in the decision.

(b) The decision of the Area Director on an appeal shall be final and conclusive and written notice, which shall state that the decision is final and conclusive, shall be given the individual applicant, parent, legal guardian, or sponsor, as applicable.

(c) If an individual files an appeal on behalf of more than one applicant, one notice of the Area Director's decision may be addressed to the person who filed the appeal. The Area Director's decision must list the name of each person to whom the decision is applicable. Where an individual applicant is represented by a sponsor, notification to the sponsor of the Area Director's decision is sufficient.

(d) If an applicant who was rejected for enrollment by the Superintendent is determined by the Area Director on appeal to meet the qualifications for enrollment, written notice of the decision shall be by certified mail, to be received by the addressee only, return receipt requested.

(1) On the basis of the individual's election with regard to whether he or she wishes to share in the per capita payment, the Area Director's decision shall also state whether the individual's name will be included on the per capita payment roll. If no election is made by the individual applicant, parent, or legal guardian, the individual's name will not be included on the per capita payment roll.

(2) The eligible individual will have 30 days from notification of his or her eligibility in which to request a change in the election of whether to share in the per capita payment. Computation of the 30-day period will be in accordance with § 67.9(a)(2) and § 67.9(d). Upon written request received within the 30-day period, to avoid hardship or gross injustice, the Area Director may grant additional time not to exceed 30 days in which to submit a request for a change in election.

(3) The change in the election of whether to share in the per capita payment can only be made by adult applicants, or by the legal guardian of an incompetent adult, or in the case of minors, by the parents or legal guardian of such minors.

§ 67.12 Exhaustion of administrative remedies.

The decision of the Area Director on appeal which shall be final for the Department, is subject to judicial review under 5 U.S.C. 704.

§ 67.13 Preparation, certification and approval of the roll.

(a) The Superintendent shall prepare a minimum of three (3) copies of the roll of those persons determined to be qualified for enrollment as an Independent Seminole Indian of Florida. The roll shall contain for each person a roll number or identification number, name, address, sex, date of birth, date of death (when applicable), and the name and relationship of the ancestor on the annotated Seminole Agency Census of 1957 through whom eligibility for enrollment was established.

(b) A certificate shall be attached to the roll by the Superintendent certifying that to the best of his or her knowledge and belief, the roll contains only the names of those persons who were determined to meet the qualifications for enrollment.

(c) The Area Director shall approve the roll.

§ 67.14 Preparation of a per capita payment roll.

(a) The Superintendent shall, based on the roll approved under § 67.12(c), prepare a per capita payment roll. The payment roll shall be comprised of those persons whose name appears on the approved roll and who have elected to share in the per capita payment.

(b) The per capita payment roll shall contain for each person a roll number or identification number, name, and address.

(c) The Area Director shall authorize the distribution of the judgment funds to those persons named on the per capita payment roll.

§ 67.15 Special instructions.

To facilitate the work of the Superintendent and Area Director, the Assistant Secretary may issue special instructions not inconsistent with the regulations in this Part.

Dated: July 15, 1992.

Eddie F. Brown,

Assistant Secretary—Indian Affairs.

Part VIII

Department of the Interior

Bureau of Indian Affairs

25 CFR Part 248

Use of Columbia River In-Lieu Fishing Sites; Proposed Rule

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

25 CFR Part 248

RIN 1076 AC79

Use of Columbia River In-Lieu Fishing Sites

AGENCY: Bureau of Indian Affairs, Department of the Interior.

ACTION: Proposed rule.

SUMMARY: The Bureau of Indian Affairs proposes to amend the regulation at 25 CFR 248.6 consistent with the decision of the Ninth Circuit Court of Appeals and the final Judgment in *Sohappy* v. *Hodel*, Ninth Circuit No. 88–3531, 911 F.2d 1312 (9th Cir. 1990). The court declared invalid that portion of the regulation prohibiting permanent occupancy of the five Columbia River in-lieu fishing sites. This proposed amendment revises the rule to delete the prohibition against construction of permanent dwellings and structures on the five in-lieu sites.

DATES: Comments must be received on or before November 30, 1992.

ADDRESSES: Comments should be sent to: Ron Eggers, Branch of Fisheries, Portland Area Office, Bureau of Indian Affairs, 911 NE. 11th Ave., Portland, Oregon 97232–4169.

FOR FURTHER INFORMATION CONTACT: Ron Eggers, Branch of Fisheries, Portland Area Office, Bureau of Indian Affairs, 911 NE. 11th Ave., Portland, Oregon 97232–4169; Telephone No. (503) 231–6749; or by mail at the address listed above.

SUPPLEMENTARY INFORMATION: Several Pacific Northwest Indian tribes hold treaty rights to fish on the Columbia River. In the 1930's the construction of Bonneville Dam submerged some of the Indians' usual and accustomed fishing sites along the river. In 1945 Congress authorized acquisition of replacement sites to be held by the Secretary of the Interior for the use and benefit of the Indians. Act of March 2, 1945, 59 Stat. 10, 22, *as amended*, Act of June 8, 1955, 69 Stat. 85. The five sites acquired under that Act are managed by the Bureau of Indian Affairs pursuant to regulations at 25 CFR part 248.

25 CFR 248.6 provides in part that "no dwellings or structures shall be erected, placed, or maintained upon the sites, except that camping facilities may be placed thereon only as herein described and fish drying facilities and fishing platforms may be erected by Indians for use during the fishing season." The intent of the regulation was to prohibit permanent occupancy of the sites in order to provide a rational and reasonable means for ensuring health and safety on the sites and for providing a fair opportunity to all eligible Indians to use the sites for fishing purposes.

Sohappy v. *Hodel*, Civil No. 86–715–FR (D. Or.), was filed by individual Indians and a group called "Chiefs and Council of the Columbia River Indians" in order to challenge the Bureau of Indian Affairs' eviction of several Indians living in permanent dwellings on the sites. The Federal district court held that the regulation prohibiting permanent occupancy is consistent with rights reserved by treaty and with the 1945 statute authorizing acquisition of the five sites. The Ninth Circuit Court of Appeals reversed, holding that the 1945 act and the tribes' treaties do not preclude construction of permanent dwellings at the sites. *Sohappy* v. *Hodel*, 911 F.2d 1312 (9th Cir. 1990). The case was remanded to the district court where final Judgment was entered on August 30, 1991.

The Judgment declares 25 CFR 248.6 invalid insofar as it prohibits permanent occupancy of the five sites and provides that the Bureau of Indian Affairs "shall take good faith steps" to amend the regulation consistent with the Ninth Circuit's decision and the final Judgment. The Judgment does not preclude the Bureau from taking reasonable actions necessary to enforce applicable health and safety laws. Therefore, the Bureau of Indian Affairs proposes to revise § 248.6 to delete the prohibition against construction of permanent dwellings and structures on the sites and to retain the requirement that the sites be used in a manner that conforms to applicable health, sanitation and safety laws.

The Judgment in *Sohappy* v. *Hodel* does not affect the Indian tribes' right, title or interest in the sites or the nature and extent of the tribes' sovereign authority to use or manage the sites for fishing purposes under their treaties. See *Settler* v. *Lameer*, 507 F.2d 231 (9th Cir. 1974). It is also important to note that the regulations in 25 CFR part 248 do not apply to the fishing access sites designated in section 401 of the Act of November 1, 1988, 102 Stat. 2944. The Indian tribes, the Bureau of Indian Affairs, and the U.S. Army Corps of Engineers are working together on plans for development, management and regulation of those sites.

This proposed rule is published in exercise of authority delegated by the Secretary of the Interior to the Assistant Secretary—Indian Affairs by 209 DM 8.

The Department has certified to the Office of Management and Budget that these proposed regulations meet the applicable standards provided in sections 2(a) and 2(b)(2) of Executive Order 12778.

In accordance with E.O. 12630, the Department has determined that this rule does not have significant takings implications.

The Department has determined that this rule does not have significant Federalism effects.

The primary author of this document is Ron Eggers, Branch of Fisheries, Portland Area Office, Bureau of Indian Affairs.

The policy of this Department is, whenever practicable, to afford the public an opportunity to participate in the rulemaking process. Accordingly, interested person may submit their written comments, suggestions, or objections regarding the proposed rule to the location identified in the "**ADDRESSES**" section of this preamble.

The Department of the Interior has determined that this document is not a major rule under Executive Order 12291 because it simply amends a regulation governing Indian use of the Columbia River in-lieu fishing sites consistent with a Federal district court judgment. The rule will not have any significant effects on the economy or result in increases in costs or prices for consumers, individual industries, Federal, State, or local governments, agencies or geographical regions. The rule will not have any adverse effects on competition, employment, investment, productivity, innovation, or the export/import market.

The Department of the Interior has determined that this rule will not have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) because of the limited applicability as stated above.

The Department of the Interior has determined that this proposed rule does not constitute a major Federal action significantly affecting the quality of the human environment and that no detailed statement is required pursuant to the National Environmental Policy Act of 1969. It is of an administrative, financial, legal, technical, and procedural nature, and therefore neither an environmental assessment nor an environmental impact statement is warranted.

There are no information collection requirement(s) contained in this rule that require the approval of the Office of Management and Budget Under 44 U.S.C. 3501 et seq.

List of Subjects in 25 CFR Part 248

Fisheries, Fishing, Indians.

For reasons set out in the preamble, § 248.6 of part 248 of subchapter J of chapter I of volume 25 of the Code of

Federal Regulations is proposed to be amended as follows:

PART 248—USE OF COLUMBIA RIVER IN-LIEU FISHING SITES

1. The authority citation for 25 CFR part 248 continues to read as follows:

Authority: 5 U.S.C. 301; 25 U.S.C. 2, 9.

2. Section 248.6 is revised to read as follows:

§ 248.6 Structures.

Dwellings, camping facilities, and other structures such as fish drying facilities and fishing platforms may be erected, placed or maintained on the sites for use in the conduct of treaty fishing and related activities. Sites must be used in a manner that conforms to the health, sanitation, and safety requirements of the State or local law, or, in the absence of appropriate State or local laws, to the health, sanitation, and safety recommendations of the U.S. Public Health Service. The privileges or right of access to or use of the sites of any individual may be suspended or withdrawn, in the discretion of the Area Director, when such individual having violated such health, sanitation, and safety requirements repeats such violation after having been given notice to cease and desist therefrom.

Dated: July 31, 1992.

William D. Bettenberg,

Acting Assistant Secretary—Indian Affairs.

LIST OF PUBLIC LAWS

This is a continuing list of public bills from the current session of Congress which have become Federal laws. It may be used in conjunction with "PLUS" (Public Laws Update Service) on 202–523–6641. The text of laws is not published in the **Federal Register** but may be ordered in individual pamphlet form (referred to as "slip laws") from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402 (phone, 202–512–2470).

H.R. 4551/P.L. 102–371

Civil Liberties Act Amendments of 1992. (Sept. 27, 1992; 106 Stat. 1167; 3 pages) Price: $1.00

Last List September 29, 1992

Public Laws

102d Congress, 2nd Session, 1992

Pamphlet prints of public laws, often referred to as slip laws, are the initial publication of Federal laws upon enactment and are printed as soon as possible after approval by the President. Legislative history references appear on each law. Subscription service includes all public laws, issued irregularly upon enactment, for the 102d Congress, 2nd Session, 1992.

(Individual laws also may be purchased from the Superintendent of Documents, Washington, DC 20402-9328. Prices vary. See Reader Aids Section of the Federal Register for announcements of newly enacted laws and prices).

FEDERAL REGISTER SUBSCRIBERS: IMPORTANT INFORMATION ABOUT YOUR SUBSCRIPTION

After 6 years without an adjustment, it has become necessary to increase the price of the **Federal Register** in order to begin recovering the actual costs of providing this subscription service. Effective October 1, 1992, the price for the **Federal Register** will increase and be offered as follows:

(1) FEDERAL REGISTER COMPLETE SERVICE—Each business day you can continue to receive the daily **Federal Register**, plus the monthly **Federal Register Index** and **Code of Federal Regulations List of Sections Affected (LSA)**, all for **$415.00** per year.

(2) FEDERAL REGISTER DAILY ONLY SERVICE—With this subscription service, you will receive the **Federal Register** every business day for **$375.00** per year.

HOW WILL THIS AFFECT YOUR CURRENT SUBSCRIPTION?

You will receive your current complete **Federal Register** service for the length of time remaining in your subscription.

AT RENEWAL TIME

At renewal time, to keep this important subscription coming—you can continue to receive the complete **Federal Register** service by simply renewing for the entire package, or you can select and order only the parts that suit your needs:

- renew your entire **Federal Register Service** (complete service)

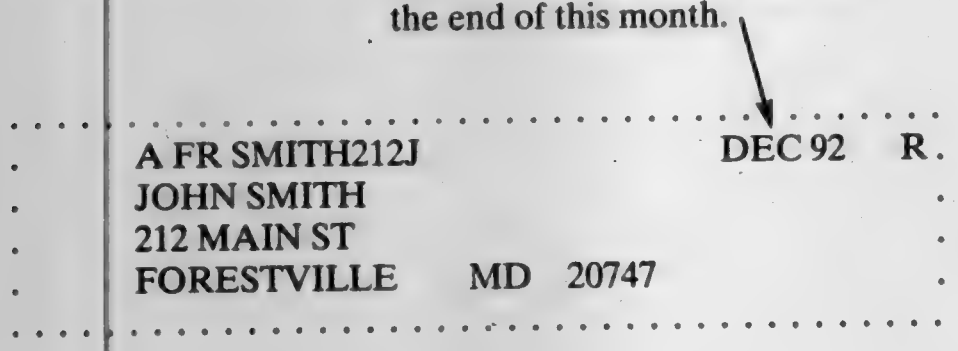
or select. . .

- the daily only **Federal Register** (basic service)
- and complement the basic service with either of the following supplements: the monthly **Federal Register Index** or the monthly **LSA**

When your current subscription expires, you will receive a renewal notice to continue the complete **Federal Register** service. At that time, you will also receive an order form for the daily **Federal Register** basic service, the **Federal Register Index**, and the **LSA**.

To know when to expect the renewal notice, check the top line of your subscription mailing label for the month and year of expiration as shown in this sample:

A renewal notice will be sent approximately 90 days before the end of this month.



Would you like to know...

if any changes have been made to the Code of Federal Regulations or what documents have been published in the Federal Register without reading the Federal Register every day? If so, you may wish to subscribe to the *LSA (List of CFR Sections Affected),* the *Federal Register Index,* or both.

LSA • List of CFR Sections Affected

The LSA (List of CFR Sections Affected) is designed to lead users of the Code of Federal Regulations to amendatory actions published in the Federal Register. The LSA is issued monthly in cumulative form. Entries indicate the nature of the changes—such as revised, removed, or corrected.
$21.00 per year

Federal Register Index

The index, covering the contents of the daily Federal Register, is issued monthly in cumulative form. Entries are carried primarily under the names of the issuing agencies. Significant subjects are carried as cross-references.
$19.00 per year.

A finding aid is included in each publication which lists Federal Register page numbers with the date of publication in the Federal Register.

Note to FR Subscribers:
FR Indexes and the LSA (List of CFR Sections Affected) are mailed automatically to regular FR subscribers.

Guide to Record Retention Requirements

in the Code of Federal Regulations (CFR)

GUIDE: Revised January 1, 1992

The GUIDE to record retention is a useful reference tool, compiled from agency regulations, designed to assist anyone with Federal recordkeeping obligations.

The various abstracts in the GUIDE tell the user (1) what records must be kept, (2) who must keep them, and (3) how long they must be kept.

The GUIDE is formatted and numbered to parallel the CODE OF FEDERAL REGULATIONS (CFR) for uniformity of citation and easy reference to the source document.

Compiled by the Office of the Federal Register, National Archives and Records Administration.

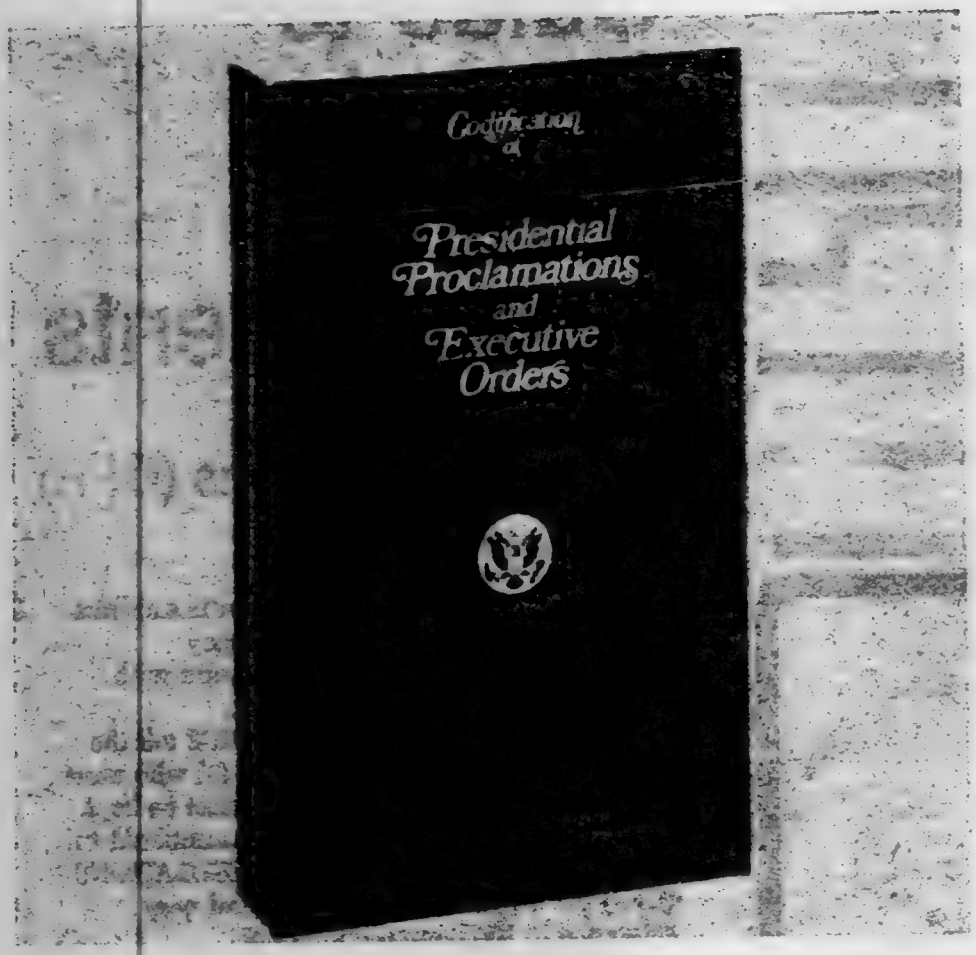
.... Order now ! ....



For those of you who must keep informed about **Presidential Proclamations and Executive Orders,** there is a convenient reference source that will make researching these documents much easier.

Arranged by subject matter, this edition of the *Codification* contains proclamations and Executive orders that were issued or amended during the period April 13, 1945, through January 20, 1989, and which have a continuing effect on the public. For those documents that have been affected by other proclamations or Executive orders, the codified text presents the amended version. Therefore, a reader can use the *Codification* to determine the latest text of a document without having to "reconstruct" it through extensive research.

Special features include a comprehensive index and a table listing each proclamation and Executive order issued during the 1945–1989 period—along with any amendments—an indication of its current status, and, where applicable, its location in this volume.

Save this issue for Titles 28–41 (Annual)

Editor's Note:
The revision for the 1992 edition of title 38 will be delayed until September 1, 1992. The 1992 revision will include amendments promulgated during the period of July 1, 1991 through September 1, 1992. For the convenience of the user, this **LSA** contains all amendments promulgated since the July 1, 1991 revision.

LSA—LIST OF CFR SECTIONS AFFECTED

The LSA (List of CFR Sections Affected) is a monthly publication designed to lead users of the Code of Federal Regulations (CFR) to amendatory actions published in the Federal Register (FR). It should be shelved with current CFR volumes. Entries are by CFR title, chapter, part, and section. Proposed rules are listed at the end of appropriate titles.

HOW TO USE THIS FINDING AID

The CFR is revised annually according to the following schedule:

Titles 1-16—as of Jan. 1
17-27—as of April 1
28-41—as of July 1
42-50—as of Oct. 1

To bring these regulations up to date, consult the most recent LSA for any changes, additions, or removals published after the revision date of the volume you are using. Then check the CUMULATIVE LIST OF PARTS AFFECTED appearing in the Reader Aids of the latest Federal Register for less detailed but timely changes published after the final date included in this publication.

Boldface page numbers under a particular title indicate that the page numbers span 2 years. **Boldface** is used to distinguish the current year from the previous year.

Cite a page reference from this publication using the volume number (i.e. 57 FR for 1992) and the page number. Example: 24727 cite as 57 FR 24727. For your convenience, the volume number has been included in the Table of Federal Register Issue Pages and Dates.

ISSUES TO BE SAVED

There is no single annual issue of the LSA. Four ANNUAL ISSUES must be saved; the DECEMBER issue is the ANNUAL for Titles 1-16; the MARCH issue is the ANNUAL for Titles 17-27; the JUNE issue is the ANNUAL for Titles 28-41; the SEPTEMBER issue is the ANNUAL for Titles 42-50. ANNUAL ISSUES to be saved are clearly designated on the cover.

PARALLEL TABLE OF AUTHORITIES AND RULES

Following Title 50 is an update to Table I—Parallel Table of Authorities and Rules found in the CFR Index and Finding Aids. This table contains authority citations added to or removed from Table I as a result of documents published in the Federal Register since January 1, 1992.

TABLE OF FEDERAL REGISTER ISSUE PAGES AND DATES

A table is included at the end of this publication which identifies the volume number, the inclusive page numbers, and the corresponding Federal Register issue dates for the period covered.

INDEXES

An INDEX to the daily Federal Register is published monthly and is cumulated for 12 months. A separate volume, the CFR Index and Finding Aids to the entire Code of Federal Regulations, is revised as of January 1 each year.

INQUIRIES AND SUGGESTIONS

Jim Wickliffe was Chief Editor of the LSA. The LSA was prepared under the direction of Richard L. Claypoole, assisted by Laurice Clark. INQUIRIES, telephone 202-523-5227.

SUGGESTIONS concerning this and other publications of the Office are welcomed. Please send your suggestions to Martha L. Girard, Director, Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408.

Footnotes at end of table.

[1]Because title 3 is an annual compilation, this volume and all previous volumes should be retained as a permanent reference source.

[2]The July 1, 1985 edition of 32 CFR parts 1—189 contains a note only for parts 1—39 inclusive. For the full text of the Defense Acquisition Regulations in parts 1—39, consult the three CFR volumes issued as of July 1, 1984, containing those parts.

[3]The July 1, 1985 edition of 41 CFR chapters 1—100 contains a note only for chapters 1 to 49 inclusive. For the full text of procurement regulations in chapters 1 to 49, consult the three CFR volumes issued as of July 1, 1984 containing those chapters.

[4]No amendments to this volume were promulgated during the period January 1, 1987 through December 31, 1991. The CFR volume issued as of January 1, 1987 should be retained.

[5]No amendments to this volume were promulgated during the period April 1, 1990 through March 30, 1991. The CFR volume issued as of April 1, 1990 should be retained.

[6]No amendments to this volume were promulgated during the period July 1, 1989 through June 30, 1991. The CFR volume issue as of July 1, 1989 should be retained.

[7]No amendments to this volume were promulgated during the period July 1, 1990 through June 30, 1991. The CFR volume issued as of July 1, 1990 should be retained.

Order from Superintendent of Documents, Attn: New Orders, PO Box 371954, Pittsburgh, PA 15250-7954. Charge orders (VISA, MasterCard, or GPO Deposit Account) may be telephoned to the GPO order desk at (202) 783-3238 from 8:00 a.m. to 4:00 p.m. eastern time, Monday-Friday (except holidays).

Additions to Table I, June 1992

This table lists the sections of the U.S. Code, U.S. Statutes at Large, Public Laws, and Presidential documents which are being added to Table I as a result of authority citations carried in the **Federal Register** during January through June 1992. Recent legislation is carried by public law number.

Table I is in the CFR Index and Finding Aids revised as of January 1, 1992. Additions during 1991 are in the December 1991 LSA (List of CFR Sections Affected).

In order to determine the **Federal Register** page number of a parallel CFR citation, consult this LSA and the appropriate Annual Issue of the LSA for that CFR title.

Removals from Table I, June 1992

This table lists the sections of the U.S. Code, U.S. Statutes at Large, Public Laws, and Presidential documents which are being removed from Table I as a result of documents published in the **Federal Register** during January through June 1992.

Table I is in the CFR Index and Finding Aids revised as of January 1, 1992. Removals during 1991 are in the December 1991 LSA (List of CFR Sections Affected).

In order to determine the **Federal Register** page number of a parallel CFR citation, consult this LSA and the appropriate Annual Issue of the LSA for that CFR title.

LSA—LIST OF CFR SECTIONS AFFECTED

The LSA (List of CFR Sections Affected) is a monthly publication designed to lead users of the Code of Federal Regulations (CFR) to amendatory actions published in the Federal Register (FR). It should be shelved with current CFR volumes. Entries are by CFR title, chapter, part, and section. Proposed rules are listed at the end of appropriate titles.

HOW TO USE THIS FINDING AID

The CFR is revised annually according to the following schedule:

Titles 1-16—as of Jan. 1
17-27—as of April 1
28-41—as of July 1
42-50—as of Oct. 1

To bring these regulations up to date, consult the most recent LSA for any changes, additions, or removals published after the revision date of the volume you are using. Then check the CUMULATIVE LIST OF PARTS AFFECTED appearing in the Reader Aids of the latest Federal Register for less detailed but timely changes published after the final date included in this publication.

Boldface page numbers under a particular title indicate that the page numbers span 2 years. **Boldface** is used to distinguish the current year from the previous year.

Cite a page reference from this publication using the volume number (i.e. 57 FR for 1992) and the page number. Example: 24727 cite as 57 FR 24727. For your convenience, the volume number has been included in the Table of Federal Register Issue Pages and Dates.

ISSUES TO BE SAVED

There is no single annual issue of the LSA. Four ANNUAL ISSUES must be saved; the DECEMBER issue is the ANNUAL for Titles 1-16; the MARCH issue is the ANNUAL for Titles 17-27; the JUNE issue is the ANNUAL for Titles 28-41; the SEPTEMBER issue is the ANNUAL for Titles 42-50. ANNUAL ISSUES to be saved are clearly designated on the cover.

PARALLEL TABLE OF AUTHORITIES AND RULES

Following Title 50 is an update to Table I—Parallel Table of Authorities and Rules found in the CFR Index and Finding Aids. This table contains authority citations added to or removed from Table I as a result of documents published in the Federal Register since January 1, 1992.

TABLE OF FEDERAL REGISTER ISSUE PAGES AND DATES

A table is included at the end of this publication which identifies the volume number, the inclusive page numbers, and the corresponding Federal Register issue dates for the period covered.

INDEXES

An INDEX to the daily Federal Register is published monthly and is cumulated for 12 months. A separate volume, the CFR Index and Finding Aids to the entire Code of Federal Regulations, is revised as of January 1 each year.

INQUIRIES AND SUGGESTIONS

Jim Wickliffe was Chief Editor of the LSA. The LSA was prepared under the direction of Richard L. Claypoole, assisted by Laurice Clark. INQUIRIES, telephone 202-523-5227.

SUGGESTIONS concerning this and other publications of the Office are welcomed. Please send your suggestions to Martha L. Girard, Director, Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408.

Footnotes at end of table.

[1]Because title 3 is an annual compilation, this volume and all previous volumes should be retained as a permanent reference source.

[2]The July 1, 1985 edition of 32 CFR parts 1—189 contains a note only for parts 1—39 inclusive. For the full text of the Defense Acquisition Regulations in parts 1—39, consult the three CFR volumes issued as of July 1, 1984, containing those parts.

[3]The July 1, 1985 edition of 41 CFR chapters 1—100 contains a note only for chapters 1 to 49 inclusive. For the full text of procurement regulations in chapters 1 to 49, consult the three CFR volumes issued as of July 1, 1984 containing those chapters.

[4]No amendments to this volume were promulgated during the period January 1, 1987 through December 31, 1991. The CFR volume issued as of January 1, 1987 should be retained.

[5]No amendments to this volume were promulgated during the period April 1, 1990 through March 30, 1991. The CFR volume issued as of April 1, 1990 should be retained.

[6]No amendments to this volume were promulgated during the period July 1, 1989 through June 30, 1991. The CFR volume issue as of July 1, 1989 should be retained.

[7]No amendments to this volume were promulgated during the period July 1, 1990 through June 30, 1991. The CFR volume issued as of July 1, 1990 should be retained.

Order from Superintendent of Documents, Attn: New Orders, PO Box 371954, Pittsburgh, PA 15250-7954. Charge orders (VISA, MasterCard, or GPO Deposit Account) may be telephoned to the GPO order desk at (202) 783-3238 from 8:00 a.m. to 4:00 p.m. eastern time, Monday-Friday (except holidays).

TITLE 48—FEDERAL ACQUISITION REGULATIONS SYSTEM

Chapter 1—Federal Acquisition Regulation (Parts 1—99)

Chapter 1 Federal Acquisition Circular (FAC) 90-9.....67126
Federal Acquisition Circular (FAC) 90-10.....67412
Summary presentation.....20372
5.207 (b)(4) amended.....67128
5.303 (a) amended.....67128
7.305 (c) amended.....55372
8.401 (b) revised.....55372
8.702 (a) amended.....67129
8.705-2 Amended.....67136
8.705-4 (a) amended.....67136
9.104-1 (e) revised.....55374
9.104-3 (c) revised.....55378
9.107 Added.....67129
9.406-1 (a) revised.....67129
9.407-1 (b) redesignated as (b)(1); (b)(2) added.....67130
9.502 (d) revised.....55377
9.504 (e) amended.....55377
9.505 (b)(1) and (2) revised.....55377
9.505-4 (a) revised.....55377
9.507-1 (d) added.....55377
10.001 Amended; interim.....67131
10.002 (d) redesignated as (e) and amended; interim.....67131
10.006 (a) revised; interim.....67131
14.201-7 (a), (b)(1) and (c)(1) amended; interim.....67413
15.804-2 (a) revised; interim.....67413
15.804-3 (c)(7) and (i) amended; (e) introductory text revised; interim.....67414
15.804-4 (h) amended; interim.....67414
15.804-6 Heading and (a) revised; (b)(2) Table 15-2 amended; interim.....67414
15.806-1 (b) amended; interim.....67414
15.806-2 (a)(2) amended; interim.....67414
15.808 (a)(6) and (7) amended; interim.....67414

CHANGES OCTOBER 1, 1991 THROUGH JULY 31, 1992

TITLE 48 Chapter 1—Con. Page

19.202-1 (e) added....67132
19.402 (c)(2) through (5) redesignated as (c)(3) through (6); new (c)(2) added....67132
19.804-3 (c)(2) amended....55380
19.808-1 (b) amended....55378
22.102-1 Introductory text revised....55374
22.102-2 (c) added....55374
22.1003-5 (k) amended....67136
22.1500—22.1509 (Subpart 22.15) Added; interim....20373
23.301 Revised....55374
23.302 Heading, (b) and (c) revised; (d) and (e) added....55374
23.303 Revised....55374
23.601—23.602 (Subpart 23.6) Added....55374
25.108 (d)(1) amended....67133
25.109 (a) and (d) revised....55379
25.201 Amended; interim....20375
25.701 Removed....20376
25.702 (a)(3) amended; (b) removed; (c) redesignated as (b)....20376
25.703 (a) paragraph designation and (b) removed....20376
25.1000—25.1005 (Subpart 25.10) Removed....67416
26.103 (b) amended....20377
31.101 Amended....67133
31.205-46 (a)(2)(i) and (6) concluding text amended....20377
33.103 (b)(1) amended....67136
33.201 Amended; interim....67417
33.202 Revised....67417
33.204 Revised; interim....67417
33.207 (a) introductory text revised; interim....67417
33.214 Redesignated as 33.215; new 33.214 added; interim....67417
33.215 Redesignated from 33.214; interim....67417
36.513 Existing text designated as (a); (b) and (c) added....55375
37.112 Added....55380
38.201 (b) amended....55372
42.1205 (a)(3) revised....67134
45.608-8 (b) amended....67136
49.101 (f) added....67134
49.105-2 Revised....67134
49.110 Heading and (a) revised....67135
50.203 (b)(4) revised....67135
51.103 (b) amended....55372

Additions to Table I, July 1992

This table lists the sections of the U.S. Code, U.S. Statutes at Large, Public Laws, and Presidential documents which are being added to Table I as a result of authority citations carried in the **Federal Register** during January through July 1992. Recent legislation is carried by public law number.

Table I is in the CFR Index and Finding Aids revised as of January 1, 1992. Additions during 1991 are in the December 1991 LSA (List of CFR Sections Affected).

In order to determine the **Federal Register** page number of a parallel CFR citation, consult this LSA and the appropriate Annual Issue of the LSA for that CFR title.

Removals from Table 1, July 1992

This table lists the sections of the U.S. Code, U.S. Statutes at Large, Public Laws, and Presidential documents which are being removed from Table I as a result of documents published in the **Federal Register** during January through July 1992.

Table I is in the CFR Index and Finding Aids revised as of January 1, 1992. Removals during 1991 are in the December 1991 LSA (List of CFR Sections ɔcted).

In order to determine the **Federal Register** page number of a parallel CFR citation, consult this LSA and the appropriate Annual Issue of the LSA for that CFR title.

List of CFR Sections Affected

August 1992

Save this issue for Title 38 (Annual)

Editor's Note:
Please retain this issue of the **LSA** until you receive the 1992 editions of title 38 (parts 0–17 and parts 18–end) of the Code of Federal Regulations. The 1992 revision will include amendments promulgated during the period of July 1, 1991 through September 1, 1992. This **LSA** contains all amendments promulgated since the July 1, 1991 revision. These amendments will not be included in the September, 1992 issue of the **LSA**.

LSA—LIST OF CFR SECTIONS AFFECTED

The LSA (List of CFR Sections Affected) is a monthly publication designed to lead users of the Code of Federal Regulations (CFR) to amendatory actions published in the Federal Register (FR). It should be shelved with current CFR volumes. Entries are by CFR title, chapter, part, and section. Proposed rules are listed at the end of appropriate titles.

HOW TO USE THIS FINDING AID

The CFR is revised annually according to the following schedule:

Titles 1-16—as of Jan. 1
17-27—as of April 1
28-41—as of July 1
42-50—as of Oct. 1

To bring these regulations up to date, consult the most recent LSA for any changes, additions, or removals published after the revision date of the volume you are using. Then check the CUMULATIVE LIST OF PARTS AFFECTED appearing in the Reader Aids of the latest Federal Register for less detailed but timely changes published after the final date included in this publication.

Boldface page numbers under a particular title indicate that the page numbers span 2 years. **Boldface** is used to distinguish the current year from the previous year.

Cite a page reference from this publication using the volume number (i.e. 57 FR for 1992) and the page number. Example: 24727 cite as 57 FR 24727. For your convenience, the volume number has been included in the Table of Federal Register Issue Pages and Dates.

ISSUES TO BE SAVED

There is no single annual issue of the LSA. Four ANNUAL ISSUES must be saved; the DECEMBER issue is the ANNUAL for Titles 1-16; the MARCH issue is the ANNUAL for Titles 17-27; the JUNE issue is the ANNUAL for Titles 28-41; the SEPTEMBER issue is the ANNUAL for Titles 42-50. ANNUAL ISSUES to be saved are clearly designated on the cover.

PARALLEL TABLE OF AUTHORITIES AND RULES

Following Title 50 is an update to Table I—Parallel Table of Authorities and Rules found in the CFR Index and Finding Aids. This table contains authority citations added to or removed from Table I as a result of documents published in the Federal Register since January 1, 1992.

TABLE OF FEDERAL REGISTER ISSUE PAGES AND DATES

A table is included at the end of this publication which identifies the volume number, the inclusive page numbers, and the corresponding Federal Register issue dates for the period covered.

INDEXES

An INDEX to the daily Federal Register is published monthly and is cumulated for 12 months. A separate volume, the CFR Index and Finding Aids to the entire Code of Federal Regulations, is revised as of January 1 each year.

INQUIRIES AND SUGGESTIONS

Jim Wickliffe was Chief Editor of the LSA. The LSA was prepared under the direction of Richard L. Claypoole, assisted by Laurice Clark. INQUIRIES, telephone 202-523-5227.

SUGGESTIONS concerning this and other publications of the Office are welcomed. Please send your suggestions to Martha L. Girard, Director, Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408.

Footnotes at end of table.

[1] Because title 3 is an annual compilation, this volume and all previous volumes should be retained as a permanent reference source.

[2] The July 1, 1985 edition of 32 CFR parts 1—189 contains a note only for parts 1—39 inclusive. For the full text of the Defense Acquisition Regulations in parts 1—39, consult the three CFR volumes issued as of July 1, 1984, containing those parts.

[3] The July 1, 1985 edition of 41 CFR chapters 1—100 contains a note only for chapters 1 to 49 inclusive. For the full text of procurement regulations in chapters 1 to 49, consult the three CFR volumes issued as of July 1, 1984 containing those chapters.

[4] No amendments to this volume were promulgated during the period January 1, 1987 through December 31, 1991. The CFR volume issued as of January 1, 1987 should be retained.

[5] No amendments to this volume were promulgated during the period April 1, 1990 through March 30, 1991. The CFR volume issued as of April 1, 1990 should be retained.

[6] No amendments to this volume were promulgated during the period July 1, 1989 through June 30, 1991. The CFR volume issue as of July 1, 1989 should be retained.

[7] No amendments to this volume were promulgated during the period July 1, 1990 through June 30, 1991. The CFR volume issued as of July 1, 1990 should be retained.

Order from Superintendent of Documents, Attn: New Orders, PO Box 371954, Pittsburgh, PA 15250-7954. Charge orders (VISA, MasterCard, or GPO Deposit Account) may be telephoned to the GPO order desk at (202) 783-3238 from 8:00 a.m. to 4:00 p.m. eastern time, Monday-Friday (except holidays).

5.20 (f) redesignated as (g); new (f) added.....12875
5.38 Added.....18823
5.80 (c)(1) and (2)(i) amended....17980

TITLE 21 Chapter I—Con. Page

10.30 (e)(2) introductory text amended; (e)(4) added....17980
10.45 (d) introductory text revised....17980
14.100 (c)(15) heading and (ii) revised....14350
(a) revised....35461
73.1 (a)(3) table amended....32175
81.1 Regulation at 57 FR 10616 effective date corrected....11797
155 Technical correction....37591
155.120 (a)(3)(xiii) and (a)(3)(xiv) redesignated as (a)(3)(xiv) and (a)(3)(xv); new (a)(3)(xiii) added; (b)(2)(i) revised....34245
169 Technical correction....37591
169.140 (a) and (e) revised....34246
172.225 Revised....12711
172.270 Added....12711
176.170 Regulation at 57 FR 10616 effective date corrected....11797
(b)(2) table amended....20200
(a)(5) table amended....23949, 34867
176.210 (d)(3) amended....31313
177.1520 Regulation at 57 FR 10616 effective date corrected....11797
177.1312 Added....32422
178 Technical correction....37867
178.1010 (b)(39) and (c)(34) added....11682
178.1005 (e)(1) table amended....32423
178.1010 (b)(40) and (c)(35) added....35463
178.2010 (b) table amended....10992, 18081
178.3690 (a) revised; (b)(1) amended....18082
178.3910 (a)(2) table amended....23952
184.1505 Regulation at 57 FR 10616 effective date corrected....11797
310.305 (a) revised; (b)(2), (c)(4) and (d)(1) amended....17980
310.537 Added....29173
312 Technical correction....19458
312.34 (a) amended....13248
312.35 (a) amended....13249
312.42 (b)(3)(iii) and (4) added....13249
312.44 (b)(1)(xi) added; (b)(2)(i) revised....13249
314.1 (a)(1) and (2) amended....17981
314.3 (b) revised....17981
314.50 (a)(2) and (c)(1) amended; (g)(3) added....17982
314.54 Added....17982
314.55 Removed....17983
314.56 Removed....17983
314.60 Existing text designated as (a) and amended; (b) added....17983
314.70 (e) added....17983
314.71 (b) amended....17983
314.80 (a), (c)(1)(ii) and (d)(1) amended; (b) revised....17983
314.81 (b)(3)(iii) added....17983
314.92—314.99 (Subpart C) Added....17983
314.94 (a)(9)(iii) corrected....29353
314.100—314.170 (Subpart C) Redesignated as subpart D....17983
Heading revised....17987
314.100 Revised....17987
314.101 Revised....17987
(d)(3) and (4) corrected....29353
314.102 Revised....17988
(b) corrected....29353
314.103 (a) revised; (b) and (c)(2) amended....17989
314.104 Revised....17989
314.105 Revised....17989
314.110 Revised....17989
314.120 Revised....17990
314.122 Added....17990
(b) corrected....29353
314.125 Heading, (a) introductory text, (b) introductory text, (7), (9), (10), (12), (14), (15), (16) and (17) revised; (b)(18) added....17991

9.502 (d) revised 55377
9.504 (e) amended 55377
9.505 (b)(1) and (2) revised 55377
9.505-4 (a) revised 55377
9.507-1 (d) added 55377
10.001 Amended; interim 67131
10.002 (d) redesignated as (e) and amended; interim 67131
10.006 (a) revised; interim 67131
14.201-7 (a), (b)(1) and (c)(1) amended; interim 67413
15.804-2 (a) revised; interim 67413
15.804-3 (c)(7) and (i) amended; (e) introductory text revised; interim 67414
15.804-4 (h) amended; interim 67414
15.804-6 Heading and (a) revised; (b)(2) Table 15-2 amended; interim 67414
15.805-3 (d) amended 39586
15.806-1 (b) amended; interim 67414
15.806-2 (a)(2) amended; interim 67414
15.808 (a)(6) and (7) amended; interim 67414
15.812-1 (a) amended 39587
19.202-1 (e) added 67132
19.402 (c)(2) through (5) redesignated as (c)(3) through (6); new (c)(2) added 67132
19.804-3 (c)(2) amended 55380
19.808-1 (b) amended 55378
22.102-1 Introductory text revised 55374
22.102-2 (c) added 55374
22.1003-5 (k) amended 67136
22.1500—22.1509 (Subpart 22.15) Added; interim 20373
23.301 Revised 55374
23.302 Heading, (b) and (c) revised; (d) and (e) added 55374
23.303 Revised 55374
23.601—23.602 (Subpart 23.6) Added 55374
25.108 (d)(1) amended 67133
25.109 (a) and (d) revised 55379
25.201 Amended; interim 20375
25.701 Removed 20376
25.702 (a)(3) amended; (b) removed; (c) redesignated as (b) 20376
25.703 (a) paragraph designation and (b) removed 20376

Additions to Table I, August 1992

This table lists the sections of the U.S. Code, U.S. Statutes at Large, Public Laws, and Presidential documents which are being added to Table I as a result of authority citations carried in the **Federal Register** during January through August 1992. Recent legislation is carried by public law number.

Table I is in the CFR Index and Finding Aids revised as of January 1, 1992. Additions during 1991 are in the December 1991 LSA (List of CFR Sections Affected).

In order to determine the **Federal Register** page number of a parallel CFR citation, consult this LSA and the appropriate Annual Issue of the LSA for that CFR title.

Removals from Table I, August 1992

This table lists the sections of the U.S. Code, U.S. Statutes at Large, Public Laws, and Presidential documents which are being removed from Table I as a result of documents published in the **Federal Register** during January through August 1992.

Table I is in the CFR Index and Finding Aids revised as of January 1, 1992. Removals during 1991 are in the December 1991 LSA (List of CFR Sections Affected).

In order to determine the **Federal Register** page number of a parallel CFR citation, consult this LSA and the appropriate Annual Issue of the LSA for that CFR title.

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The seal of the National Archives and Records Administration authenticates this issue of the **Federal Register** as the official serial publication established under the Federal Register Act. 44 U.S.C. 1507 provides that the contents of the **Federal Register** shall be judicially noticed.

The **Federal Register** is published in paper, 24x microfiche format and magnetic tape. The annual subscription price for the **Federal Register** paper edition is $375, or $415 for a combined **Federal Register**, Federal Register Index and List of CFR Sections Affected (LSA) subscription; the microfiche edition of the **Federal Register** including the Federal Register Index and LSA is $353; and magnetic tape is $37,500. Six month subscriptions are available for one-half the annual rate. All prices include regular domestic postage and handling. International customers please add 25% for foreign handling. Remit check or money order, made payable to the Superintendent of Documents, or charge to your GPO Deposit Account, VISA or MasterCard. Mail to: New Orders, Superintendent of Documents, P.O. Box 371954, Pittsburgh, PA 15250-7954.

There are no restrictions on the republication of material appearing in the **Federal Register**.

How To Cite This Publication: Use the volume number and the page number. Example: 57 FR 12345.

Rules and Regulations

Federal Register
Vol. 57, No. 191
Thursday, October 1, 1992

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

OFFICE OF PERSONNEL MANAGEMENT

5 CFR Part 630

RIN 3206-AE53

Absence and Leave; Voluntary Leave Transfer and Voluntary Leave Bank Programs

AGENCY: Office of Personnel Management.

ACTION: Final rule.

SUMMARY: The Office of Personnel Management (OPM) is issuing final regulations that amend the use of annual leave by leave recipients under the voluntary leave transfer or leave bank programs. The regulations provide that donated annual leave used by a leave recipient under the voluntary leave transfer program or annual leave received from a leave bank under the voluntary leave bank program may be used only for the purpose of the medical emergency for which the leave recipient was approved. In addition, the regulations permit an employee's leave bank membership to transfer to another leave bank within the same agency. This eliminates the need for employees who move to another position within their employing agency to make an additional contribution to a leave bank for the year in which the move occurs.

EFFECTIVE DATE: November 2, 1992.

FOR FURTHER INFORMATION CONTACT: Lee Kara, (202) 606-2858.

SUPPLEMENTARY INFORMATION: Public Law 100-566, the "Federal Employees Leave Sharing Act of 1988," directed OPM to establish by regulation a 5-year experimental voluntary leave transfer and leave bank program. OPM published final regulations governing these programs on December 28, 1989, in the **Federal Register** (54 FR 53303). On November 27, 1991, OPM published proposed regulations in the **Federal Register** (56 FR 60075) to make clear that annual leave under this program may be used only for the purpose of the medical emergency for which the leave recipient was approved and to permit an employee's leave bank membership to transfer to another leave bank within the same agency. The original 30-day public comment period was extended administratively on March 24, 1992, for an additional 30 days because Federal Personnel Manual Bulletin 630-64, which notified agencies of the proposed regulations, did not reach agencies in a timely manner. The additional 30-day comment period ended on April 24, 1992.

OPM received a total of 10 comments from Federal agencies and departments. All of the comments from Federal agencies and departments expressed general support for the proposed changes. However, one agency expressed concern about additional recordkeeping and tracking requirements resulting from the proposed change to require that annual leave received by leave recipients be used only for the purpose of the medical emergency for which the leave recipient was approved. We do not believe the proposed change poses a serious administrative problem for agencies. Indeed, many agencies have indicated that the proposed change was already incorporated into their programs.

Two other concerns were expressed. One agency suggested changing "the" medical emergency to "a" medical emergency in 5 CFR 630.909(a) and 630.1009(a). The agency believes this change would cover situations that involve contiguous emergencies of an approved leave recipient. OPM agrees, and the final regulations have been revised accordingly.

Finally, one agency suggested that OPM revise the definitions of "medical emergency" in 5 CFR 630.902 and 630.1002 to include "normal" maternity situations. The agency believes this change would assure uniform treatment of employees by all agencies. While we do not believe it would be appropriate to make such a change at this time, we plan to comment on this suggestion in our final report to Congress on the 5-year experimental leave transfer/leave bank program, which will be submitted by April 30, 1993.

E.O. 12291, Federal Regulation

I have determined that this is not a major rule as defined under section 1(b) of E.O. 12291, Federal Regulation.

Regulatory Flexibility Act

I certify that these regulations will not have a significant economic impact on a substantial number of small entities because they will affect only Federal employees and agencies.

List of Subjects in 5 CFR Part 630

Government employees.

U.S. Office of Personnel Management
Douglas A. Brook,
Acting Director.

Accordingly, OPM amends part 630 of title 5, Code of Federal Regulations, as follows:

PART 630—ABSENCE AND LEAVE

1. The authority citation for part 630 continues to read as set forth below:

Authority: 5 U.S.C. 6311; section 630.303 also issued under 5 U.S.C. 6133(a); section 630.501 and subpart F also issued under E.O. 11228; subpart G also issued under 5 U.S.C. 6305; subpart H issued under 5 U.S.C. 6326; subpart I also issue under 5 U.S.C. 6332 and Public Law 100-566; subpart J also issued under 5 U.S.C. 6362 and Public Law 100-566; subpart K also issued under Public Law 102-25.

2. In § 630.909, paragraph (a) is revised to read as follows:

§ 630.909 Use of transferred annual leave.

(a) A leave recipient may use annual leave transferred to his or her annual leave account under § 630.906 of this part only for the purpose of a medical emergency for which the leave recipient was approved.

* * * * *

3. In § 630.1004, paragraph (h) is amended by removing the word "or" at the end of paragraph (h)(1), removing the period at the end of paragraph (h)(2) and substituting ", or" in its place, and adding a new paragraph (h)(3) to read as follows:

§ 630.1004 Application to become a leave contributor and leave bank member.

* * * * *

(h) * * *

(3) Eliminate the requirement for a minimum contribution under paragraph (g) of this section when a leave bank member transfers within his or her

employing agency to an organization covered by a different leave bank.

* * * * *

4. In § 630.1009, paragraph (a) is revised to read as follows:

§ 630.1009 Use of annual leave withdrawn from a leave bank.

(a) A leave recipient may use annual leave withdrawn from a leave bank only for the purpose of a medical emergency for which the leave recipient was approved.

DEPARTMENT OF AGRICULTURE

Commodity Credit Corporation

7 CFR Part 1494

Export Bonus Programs

AGENCY: Commodity Credit Corporation, USDA.

ACTION: Final rule.

SUMMARY: The Commodity Credit Corporation (CCC) is issuing this final rule which establishes program operations regulations governing the payment of bonuses in connection with the export of dairy products under the Dairy Export Incentive Program (DEIP). This final rule is intended to simplify the administration of the DEIP, enhance clarity, eliminate duplication, and facilitate the use of the regulations.

EFFECTIVE DATE: October 1, 1992.

FOR FURTHER INFORMATION CONTACT: L.T. McElvain, Director, CCC Operations Division, USDA, FAS, room 4503-S, 1400 Independence Avenue, SW., Washington, DC, 20250-1000, telephone (202) 720-6211.

SUPPLEMENTARY INFORMATION:

Regulatory Requirements

This final rule has been reviewed under USDA procedures established in accordance with Executive Order 12291 and Departmental Regulation No. 1512-1 and had been designated as "nonmajor." It has been determined that this rule will not result in: (1) An annual effect on the economy of $100 million or more; (2) a major increase in costs or prices for consumers, individual industries, Federal, State or local governments or geographical regions; or (3) significant adverse effects on competition, employment, investment, productivity, innovation or the ability of United States based enterprises to compete with foreign-based enterprises in domestic or export markets.

It has been determined that the Regulatory Flexibility Act is not applicable to this final rule since CCC is not required by 5 U.S.C. 553 or any other provision of law to publish a notice of proposed rulemaking with respect to the subject matter of this rule.

The paperwork requirements which would be imposed by this final rule were contained in the interim rule and approved by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1980. The OMB assigned number for those requirements is OMB No. 0551-0029. The public reporting burden imposed by this rule is estimated to average 26 minutes per response, including time for reviewing instructions, searching existing sources, gathering and maintaining the data needed, and completing and reviewing the response. Send comments regarding this burden estimate or any other aspects of the paperwork requirements, including suggestions for reducing the burden, to Department of Agriculture, Clearance Officer, OIRM, room 404-W, Washington, DC 20250; and to the Office of Management and Budget, Paperwork Reduction Project (OMB No. 0551-0029), Washington, DC 20503.

This program is not subject to the provisions of Executive Order 12372, which requires intergovernmental consultation with state and local officials. See the Notice related to 7 CFR part 3015, subpart V, published at 48 FR 29115 (June 24, 1983).

This final rule has been reviewed under Executive Order 12778, Civil Justice Reform. This rule is intended to have preemptive effect with respect to any state or local laws, regulations or policies which conflict with its provisions or which would otherwise impede its full implementation. This rule is not intended to have retroactive effect. Prior to any judicial challenge to the provisions of this rule or the application of its provisions, the administrative appeal procedures established in 7 CFR 1494.901 must be exhausted.

Background

In the **Federal Register** of June 7, 1991 (56 FR 26323), CCC published an interim rule which established program operations regulations for the DEIP in 7 CFR part 1494, subpart D. This interim rule also published as regulations the criteria considered in evaluating and approving proposals for country and commodity initiatives under the EEP and the DEIP. The criteria for the EEP and the DEIP, as set forth in this interim rule, are found in subparts A and C, respectively, of 7 CFR part 1494. Program operations regulations for the EEP have already been codified in subpart B and published as a final rule on June 3, 1991 (56 FR 25005).

In the **Federal Register** of June 19, 1991 (56 FR 28037), CCC suspended the effective date for subpart D from June 7, 1991 to July 3, 1991. The suspension of subpart D allowed CCC time to re-qualify exporters for program participation before it implemented the new program operations regulations. In addition, subpart D was based upon the EEP operations regulations in subpart B, which were published in the **Federal Register** as a final rule on June 3, 1991 but did not become effective until July 3, 1991.

By the issuance of this final rule, CCC is acting only to finalize the portions of the interim rule published on June 7, 1991 which change the authority citation for 7 CFR part 1494 and add subpart D. Subparts A and C remain interim rules. CCC will issue a final rule with respect to subparts A and C in the future.

The DEIP is administered by the Foreign Agricultural Service (FAS), on behalf of CCC. Like the EEP, the DEIP had been administered through the issuance of "Announcements" and "Invitations for Offers" (Invitations). It has been determined that the DEIP shall be operated in a manner consistent with the published regulations for the EEP. Therefore, § 1494.1200 provides that, except as otherwise stated in subpart D, the program operations regulations set forth in subpart B for the EEP will also apply to the DEIP.

Three provisions relating specifically to the DEIP were set forth in §§ 1494.1201, 1494.1202, and 1494.1203 of the interim rule. Section 1494.1201 contained a definition of "eligible commodity" for the purposes of the DEIP which superseded the definition in § 1494.201(p). Upon further review, it has been determined that the definition of "eligible commodity in § 1494.201(p) is appropriate for the DEIP as well as for the EEP. CCC will specify in each DEIP Invitation the particular dairy product which will be the eligible commodity for the purposes of such Invitation. Because § 1494.1201 of the interim rule was unnecessary, it has been removed in the final rule.

Section 1494.1202 of the interim rule was included as the result of section 153 of the Food Security Act of 1985, as amended, which provides that, if CCC certificates furnished to an exporter as a bonus under the DEIP are exchanged for CCC-owned dairy products, regulations issued by the Secretary of Agriculture shall ensure that the exporter must sell for export such dairy products or an equal quantity of other dairy products. It

is not expected that CCC will make dairy products available to be exchanged for CCC certificates in the foreseeable future. Therefore, § 1494.1202 of the interim rule was unnecessary and it has been removed in the final rule.

Section 1494.1203 of the interim rule dealt with the Paperwork Reduction Act as it pertains to the DEIP. This section has been re-numbered as § 1494.1201 in the final rule.

FAS will continue to maintain the system of issuing Invitations for targeted countries under the DEIP. Any terms or conditions applicable to a particular DEIP Invitation, beyond those terms and conditions set forth in subparts B or D of part 1494, will be specifically provided for in such Invitation.

Comments on the interim rule which established the DEIP operations regulations were to be submitted by August 6, 1991. However, no comments pertaining to the DEIP operations regulations in Subpart D were received. Therefore, CCC has determined to make no significant changes to the DEIP operations regulations and is publishing subpart D of 7 CFR part 1494 as a final rule.

List of Subjects in 7 CFR Part 1494

Administrative practice and procedure, Agricultural commodities, Exports, Reporting and recordkeeping requirements.

Accordingly, part 1494 of 7 CFR chapter XIV, is amended as follows:

Subpart B—Export Enhancement Program Operations

1. Subpart D is revised to read as follows:

Subpart D—Dairy Export Incentive Program Operations

Sec.
1494.1200 Program operations.
1494.1201 Paperwork Reduction Act.

Subpart D—Dairy Export Incentive Program Operations

Authority: 15 U.S.C. 713a–14, 714c.

§ 1494.1200 Program Operations.

This subpart contains the regulations governing the operation of the Dairy Export Incentive Program (DEIP) of the Commodity Credit Corporation (CCC). Under the DEIP, CCC facilitates the export of U.S. dairy products by paying bonuses to exporters which export U.S. dairy products to targeted markets in accordance with the terms and conditions of an Agreement entered into between the exporter and CCC. Except as otherwise provided in this subpart, the program operations provisions of subpart B of this part, relating to the Export Enhancement Program, will also apply to the DEIP. Any terms or conditions applicable to a particular Invitation for Offers (Invitation) under the DEIP, beyond those terms or conditions set forth in this subpart or subpart B of this part, will be specifically provided for in such Invitation.

§ 1494.1201 Paperwork Reduction Act.

The information collection requirements contained in this subpart have been approved by the Office of Management and Budget (OMB) in accordance with the provisions of 44 U.S.C. chapter 35 and have been assigned OMB control No. 0551–0029.

Signed this 25th day of Sept., 1992 at Washington, DC.

Christopher E. Goldthwait,

Acting General Sales Manager, Foreign Agricultural Service and Acting Vice President, Commodity Credit Corporation.

BILLING CODE 3410–10–M

FEDERAL DEPOSIT INSURANCE CORPORATION

12 CFR Part 327

RIN 3064–AA37, 3064–AA96, 3064–AB14

Assessments

AGENCY: Federal Deposit Insurance Corporation.

ACTION: Final rule.

SUMMARY: The Board of Directors (Board) of the Federal Deposit Insurance Corporation (FDIC) is amending its regulations on assessments to: Adopt a recapitalization schedule for the Bank Insurance Fund (BIF); increase the deposit insurance assessment rate for certain members of the BIF during the first semiannual period of calendar year 1993 and thereafter; increase the deposit insurance assessment rate for certain members of the Savings Association Insurance Fund (SAIF) during the first semiannual period of 1993 and thereafter; and adopt a transitional risk-based deposit insurance assessment system. The intended purposes of this final rule are to establish a schedule according to which the BIF will be recapitalized within 15 years, to increase the assessment rates for certain BIF and SAIF members, respectively, to recapitalize the BIF and SAIF within the respective time frames prescribed by the applicable provisions of the Federal Deposit Insurance Act (FDI Act), and to provide for a transition from a uniform rate to a risk-based insurance assessment system.

DATES: *Effective date:* The final rule is effective November 2, 1992.

Applicability dates: The respective assessment rate increases for BIF and SAIF members, as well as the risk-based assessment system, will apply to assessments that become due in the first semiannual period of 1993 and thereafter.

FOR FURTHER INFORMATION CONTACT: William R. Watson, Director, Division of Research and Statistics, (202) 898–3946, Jennifer L. Eccles, Senior Financial Analyst, Division of Research and Statistics, (202) 898–8537; on the risk-based assessment system: George French, Chief, Financial Markets Section, Division of Research and Statistics, (202) 898–3929, or William Farrell, Chief, Receipts Section, Division of Accounting and Corporate Services, (703) 516–5546; on legal issues involving the BIF recapitalization schedule and the transitional risk-based assessment system, Martha L. Coulter, Counsel, Legal Division, (202) 898–7348; on legal issues involving the BIF and SAIF rate increases, Joseph A. DiNuzzo, Senior Attorney, Legal Division, (202) 898–7349. The address for all these individuals is: Federal Deposit Insurance Corporation, 550—17th Street NW., Washington, DC 20429.

SUPPLEMENTARY INFORMATION:

Paperwork Reduction Act

No collections of information pursuant to section 3504(h) of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*) are contained in any of the four components of the final rule. Consequently, no information has been submitted to the Office of Management and Budget for review.

Regulatory Flexibility Act

The Board hereby certifies that the final rule will not have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). It will not impose burdens on depository institutions of any size and will not have the type of economic impact addressed by the Act. Moreover, to the extent the final rule relates to the assessment rates to be paid by BIF and SAIF member institutions, the Act does not apply to a rule of particular applicability relating to rates, wages, corporate or financial

structures or reorganizations thereof. *Id.* at 601(2).

Particularly, in connection with the transitional risk-based assessment system, the assessment obligations that will result from the system will be determined by an institution's deposit base and the risk posed to the FDIC. The first element as a matter of course fulfills the primary purpose of the Regulatory Flexibility Act, which is to make sure that agencies' rules do not impose disproportionate burdens on small businesses. The second element—the risk posed to the deposit insurance fund of which the institution is a member—is clearly one intended by Congress, as evidenced by the mandate in the FDIC Improvement Act of 1991 for implementation of a risk-based assessment system.

Accordingly, the Act's requirements regarding an initial and final regulatory flexibility analysis (*Id.* at 603 & 604) are not applicable here.

The Final Rule

Background

On May 21, 1992, the Board published separately in the **Federal Register** proposed amendments to part 327 of the FDIC's regulations (12 CFR part 327) (part 327) to: (1) Increase the deposit assessment rate to be paid by BIF members from 0.23 percent to 0.28 percent starting with the first semiannual period of 1993 and thereafter (57 FR 21623 (1992)); (2) increase the SAIF deposit assessment rate to be paid by SAIF members from 0.23 percent to 0.28 percent starting with the first semiannual period of 1993 and thereafter (*Id.* at 21627); and (3) provide for a transitional assessment system under which BIF and SAIF member institutions would, beginning in January 1993, pay assessments at rates based on certain risk-related factors. (*Id.* at 21617). The comment period on the SAIF assessment rate increase and transitional risk-based assessment proposals ended on July 20, 1992. Because of an extension in the comment period provided for the BIF assessment rate increase proposal (57 FR 28810, June 29, 1992), the comment period for that proposal ended on August 13, 1992.

On June 29, 1992, the Board published in the **Federal Register** a proposed schedule according to which the BIF designated reserve ratio of 1.25 percent would be achieved within the statutory period of 15 years. 57 FR 28810. The comment period on that proposal also ended on August 13, 1992.

Explanation of the Final Rule; Approach Taken by the Board

The approach used by the Board in taking final action on the four proposed rules was to amend part 327 by adopting a BIF recapitalization schedule and a transitional risk-based assessment system. The amendments to part 327 implementing the transitional risk-based assessment system include risk-based assessment schedules reflecting increased rates for certain BIF and SAIF members, respectively. The Board's approach entailed selecting and implementing a transitional risk-based assessment schedule for each fund (as described below), instead of a target average assessment rate, as had been proposed. The actual assessment rate applicable to each institution will depend on the risk assessment classification assigned to that institution by the FDIC and reflected in the assessment rate schedules adopted by the Board for BIF and SAIF members.

The Board's goal in considering the four assessment-related proposals was to adopt a final rule that is fair and easily understood, that is not unduly burdensome to weak institutions, that maintains adequate revenue to recapitalize the funds, and that increases the financial incentive for insured institutions to maintain safety and soundness. The consolidated approach, therefore, incorporates all of the features and achieves all of the goals of the previous four proposals. It also draws upon the public comments received on the four individual proposals.

Primarily, the final rule seeks to strengthen both the BIF and the SAIF by recapitalizing each fund to the designated reserve ratio within 15 years. While the final rule will raise assessment rates for some institutions, the transitional risk-based assessment system is intended to make the deposit insurance system fairer to well-run institutions and encourage weaker institutions to improve their condition. Thus, the rule promotes safety and soundness in the banking and thrift industries.

Under a risk-based assessment system, changing conditions in the banking and thrift industries and in individual institutions will result in shifts among the rate cells of the assessment schedules. Over time, the result will be a variation in assessment revenue. For example, in the first two quarters of calendar year 1992, insured institutions have generally improved their capital ratios; under a risk-based assessment system, these improvements would have caused a migration away from higher-rate cells in the rate schedule to lower rate cells. As a result, revenues anticipated under the originally proposed schedule would have been less than the revenue anticipated using year-end 1991 data. To the extent insured institutions have increased capital and retained earnings, the risk of loss to the deposit insurance funds is reduced and it is consistent with the concept of risk-based premiums that somewhat less assessment revenue be collected. Because the assessment rate applicable to any institution will be determined by the risk-based assessment amendments and because of shifts in rate cells over time, the Board decided that it was unnecessary and confusing to issue separate regulations providing industry average assessment rates.

While assessment revenue will vary over time, it should remain consistent with the BIF recapitalization schedule and the projected recapitalization of SAIF within a reasonable period of time. As noted in the preceding example, when banking and thrift industry conditions improve, banks and thrifts will shift toward the lower-paying end of the assessment schedule, thereby generating less assessment revenue to the BIF and SAIF. Concurrently, improved conditions lower the exposure of the funds, thereby requiring a lower outflow of fund resources. The reverse is true when conditions deteriorate: Institutions pay higher assessment rates as they move into higher-paying cells, thereby supporting the greater needs of the fund. The Board will monitor and reevaluate the assessment rates and assessment revenues at six-month intervals while measuring the progress of recapitalization of both insurance funds. The Board intends to review assessment rates for BIF and SAIF members in November of this year.

As discussed below, under the transitional risk-based assessment system, the FDIC will place each insured institution in one of nine assessment risk categories based on certain capital and supervisory measures. While the proposed rule provided for a spread of six basis points between the highest and lowest rates, most of the comment letters argued for a wider premium spread. Upon consideration of this overwhelming preference, the final rule includes a spread between the highest and the lowest premiums of eight basis points. While this spread does not adequately reflect the difference in risk to the FDIC between the weakest and strongest institutions, the Board is concerned that a larger spread could create sufficient disruption and hardship

to weak institutions as to be inconsistent with the spirit of a transition rule. A wider spread may be recommended with the permanent risk-based assessment system.

Also, as discussed below, the Board is adopting a revised BIF recapitalization schedule which has been amended to incorporate mid-year BIF results and to adjust the timing of failed bank losses over the 15-year period.

Based on the applicable statutory requirements and the analyses discussed below, and in consideration of the comments received on the respective proposals, the Board is issuing this final rule.

The following is a discussion of the four separate proposals, including a discussion of the specific background of each proposal, the comments received on the proposal, and the Board's action with respect to each.

Subpart A. The BIF Recapitalization Schedule

I. The Proposed Rule

Section 7(b)(1)(C)(ii) of the FDI Act (12 U.S.C. 1817(b)(1)(C)(ii)), as amended by section 104 of the Federal Deposit Insurance Corporation Improvement Act of 1991 (Pub. L. 102-242, 105 Stat. 2239) (FDIC Improvement act) provides:

> If the reserve ratio of the Bank Insurance Fund is less than the designated reserve ratio, the FDIC Board of Directors shall set the semiannual assessment rates—that are sufficient to increase the reserve ratio to the designated reserve ratio not later than one year after such rates are set; or in accordance with a BIF recapitalization schedule promulgated by the FDIC.

Under section 7(b)(1)(B) of the FDI Act, the BIF designated reserve ratio is 1.25 percent. BIF's actual reserve ratio (based on a mid-year 1992 fund balance of approximately negative $5.5 billion) is approximately negative 0.28 percent. Because of the extent of the difference between BIF's current reserve ratio and the designated reserve ratio, the Board determined that it would be infeasible to set an assessment rate sufficient to increase the reserve ratio from its current level to 1.25 percent within one year. Thus, pursuant to clause (II) of section 7(b)(1)(C)(ii), the Board proposed a BIF recapitalization schedule "in accordance with" which to determine semiannual assessment rates for BIF member institutions. As noted above, the Board's proposed rule was published in the **Federal Register** on June 29, 1992.

Section 7(b)(1)(C)(iii) of the FDI Act, as also amended by section 104 of the FDIC Improvement Act, requires that the BIF recapitalization schedule promulgated by the Board specify, at semiannual intervals, target reserve ratios for the Bank Insurance Fund, culminating in a reserve ratio that is equal to the designated reserve ratio no later than 15 years after the date on which the schedule becomes effective.

The recapitalization schedule proposed by the Board was designed to achieve the designated reserve ratio by the end of a 15-year period that began at year-end 1991.

Public comment on the proposed recapitalization schedule was invited for a 45-day period ending August 13, 1992. Also ending the same day was the 84-day comment period for the Board's proposal to increase the BIF assessment rate to 28 basis points per annum effective January 1, 1993. (The original 60-day comment period for the proposed rate increase was extended to provide for an overlap with the comment period for the proposed recapitalization schedule. 57 FR 28810, June 29, 1992. In proposing the rate increase, the Board relied on the same assumptions and underlying date on which the proposed recapitalization schedule was based. Because the assessment rates in effect in the early part of the period covered by the recapitalization schedule would necessarily play an important role in the revenue projections to be used in developing the schedule, it was determined that the Board should address the rate issue before completing the proposed recapitalization schedule.

As described in some detail in the **Federal Register** notice addressing the proposed recapitalization schedule, the proposal was based on a set of financial assumptions regarding the three primary factors affecting the long-term condition of the BIF: The number and size of future bank failures, the costs of resolving these failures, and the amount of assessment income received from BIF member institutions. Because future economic conditions impacting these factors cannot be predicted with certainty, for each factor the FDIC assumed values ranging from reasonably optimistic to reasonably pessimistic. Various scenarios representing a combination of values across the range were examined for each of the factors, and each scenario was assigned a probability based on the combination of the respective probabilities estimated for each of the values individually. Applying the proposed assessment rate of 28 basis points as of January 1, 1993, composite projections were derived from the various scenarios and probabilities. The proposed recapitalization schedule, which showed a positive reserve ratio beginning in the year 2000, was developed from these projections.

The Board has now adopted a recapitalization schedule which has been amended to incorporate mid-year BIF results and to adjust the timing of failed bank assets over the 15-year period. The Board has also adopted increased assessment rates for certain BIF members as indicated in the assessment rate schedule provided as part of the transitional risk-based deposit assessment system, under which institutions posing a greater risk of loss to the BIF or to the SAIF will pay deposit premiums at a higher rate than will lower-risk institutions. However, because this new system is designed to produce assessment revenue in line with the fund's needs, the recapitalization schedule is consistent with this new assessment system. The revised assumptions underlying the recapitalization schedule are listed below in Table 1.

II. Discussion of Comments Received

The FDIC received 15 letters commenting on the proposed BIF recapitalization schedule, 10 of which were submitted by bankers and 5 by trade groups. Two of the bankers and one trade group commenting on the proposed recapitalization schedule expressly favored the proposal, citing the need to ensure the financial stability of the BIF. Eight commenters implicitly rejected the proposal. Five commenters questioned the FDIC's assumptions underlying the schedule. One banker commented that the assumptions were not the same as those of a major trade association, which, according to the trade association, demonstrated that the designated reserve ratio could be achieved within 15 years at the present 23 basis point assessment rate. Several bankers and trade groups suggested that the FDIC's projections for the failure of BIF member institutions were too high, especially given the recent performance of the banking industry, and furthermore that the large reserve set aside for the BIF in 1991 was more than sufficient to handle a more realistic set of failure projections.

The Board agrees that recent economic conditions have contributed to improvements in banking industry profitability, especially net interest margins. However, it is not clear how long these conditions will be sustained. Moreover, weakness in real estate markets could lead to additional failures beyond those consistent with the most conservative public forecasts.

As indicated in its proposal, the Board is well aware of the uncertainty regarding future economic conditions and their impact on the long-term condition of the BIF. To deal with this uncertainty, FDIC staff utilized a range of values for each of the major factors affecting the fund, including the size and number of future failures. For each factor, values ranged from optimistic to pessimistic. Given these assumptions, the FDIC staff projected the BIF over 15 years and determined that an increase in assessment revenue was needed to cover expenses and to recapitalize the fund within 15 years.

In its proposal, the Board clearly recognized that "[f]uture insurance losses or other conditions affecting the BIF may turn out differently than assumed for purposes of developing the proposed schedule." 57 FR 28813, June 29, 1992. For this reason, the Board further indicated that once a recapitalization schedule was adopted, it "plans to monitor relevant developments and, if circumstances warrant, to consider revision of the schedule, or assessment rate adjustments, based on such developments." *Id.* The Board reiterates this intent.

Two bankers and 4 trade groups also commented that the assessment rate increase would have a negative impact on the banking industry. It was suggested that the higher premiums would lower earnings, thereby decreasing a bank's ability to fund loans. Combined with the added expenses associated with other new regulations, the bankers believed that it would be harder to compete with non-insured institutions, and that banks in a weaker capital position would be more likely to fail.

As discussed below in connection with the BIF assessment rate increase, the FDIC staff performed an analysis of the impact of such an increase on bank capital and earnings. While the Board is concerned about the need to recapitalize the BIF without unduly burdening the industry, it believes that the impact analysis demonstrates that the schedule adopted will not result in an undue burden. Furthermore, the Board believes that the banking industry will continue to compete successfully against non-insured financial institutions by virtue of the fact that deposit insurance is valued by consumers.

Several alternatives to the proposed recapitalization schedule were suggested by commenters. One banker recommended that the BIF be recapitalized immediately through a one-time special assessment, rather than over the proposed 15-year period. As indicated in the proposal, the Board believes that, while it does have the authority under section 7(b) of the FDI Act to set the assessment rate high enough to recapitalize the BIF within one year, the difference between the current negative reserve ratio and the required 1.25 percent is so substantial that immediate recapitalization is not a feasible alternative. 57 FR 28811, June 29, 1992. The Board is concerned that such action would potentially have a significantly adverse effect on the banking industry.

Finally, one trade group recommended that the recapitalization schedule begin in 1993 with a 23 basis point assessment rate due to questions surrounding projection assumptions and the potential negative side effects of a rate increase. However, the Board has determined that an increase in assessment revenue is necessary in order to bring current revenues in line with current expenses and to begin the statutorily mandated recapitalization of BIF.

Subpart B. The BIF Member Assessment Rate Increase

I. Increase in the BIF Member Assessment Rate

As noted above, on May 21, 1992, the Board published in the **Federal Register** a proposed amendment to part 327 of the FDIC's regulations to increase the deposit assessment rate to be paid by BIF members from 0.23 percent to 0.28 percent starting with the first semiannual period of 1993 and thereafter. The comment period on the proposed rule ended on August 13, 1992.

As noted above, the Board now is increasing the BIF-member assessment rate from a uniform rate of 0.23 percent to the rates indicated in the transitional risk-based assessment schedule provided and discussed below. As explained below, the actual assessment rate to be paid by each BIF member will be based on the institution's assessment risk classification. The new rates will apply to assessments that become due in the first semiannual period of 1993 and thereafter.

As required by section 7(b) of the FDI Act (12 U.S.C. 1817(b)(1)(C)(ii)(II)) the BIF member assessment rate increase imposed by the final rule is being set in accordance with the BIF recapitalization schedule discussed above.

II. Statutory Provisions and Economic Analyses

A. Designated Reserve Ratio

Section 7(b) of the FDI Act (12 U.S.C. 1817(b)), as implemented by part 327, requires that all FDIC-insured depository institutions pay to the FDIC semiannual assessments based on the types and dollar amounts of deposits held at such institutions.

Section 7(b) of the FDA Act states, in relevant part, that if the reserve ratio of the Bank Insurance Fund is less than the designated reserve ratio, the FDIC Board of Directors shall set the semiannual assessment rates that are sufficient to increase the reserve ratio to the designated reserve ratio not later than one year after such rates are set; or in accordance with a BIF recapitalization schedule promulgated by the FDIC. *Id.* at 1817(b)(1)(C).

Section 7(b)(1)(B) of the FDI Act sets the BIF designated reserve ratio at 1.25 percent (Designated Reserve Ratio) *Id.* at 1817(b)(1)(B).

The BIF's reserve ratio (Actual Reserve Ratio) at mid-year 1992 was substantially below the 1.25 percent Designated Reserve Ratio. Because of the negative impact on the banking industry, it would be infeasible and undesirable to increase the assessment rate to achieve the Designated Reserve Ratio within one year. Thus, as required by section 7(b), the Board is hereby increasing the BIF assessment rate in accordance with the BIF recapitalization schedule discussed above.

B. Need for the Increase

As noted above, the Designated Reserve Ratio is currently set by statute at 1.25 percent, to be achieved within a fifteen-year period. *Id.* at 1817(b)(1)(B). The Actual Reserve Ratio is substantially below that level. The Actual Reserve Ratio has not approached 1.25 percent since 1981, when it was 1.24 percent. The BIF's balance peaked in 1987 at $18.3 billion, but even at that time was only 1.10 percent of insured deposits. Since 1987, the Actual Reserve Ratio has continued to decline, falling to 0.21 percent at year-end 1990 (when the BIF balance was $4.4 billion). Both the BIF reserve ratio and the BIF balance were significantly below zero at mid-year 1992.

The long-term condition of the BIF depends directly on the amount of assessment income provided by BIF members, the number and size of future bank failures and the costs of resolving failures. The level of failed bank assets combined with the assumed resolution cost rate determines insurance losses over the prescribed fifteen-year period in which to achieve the Designated Reserve Ratio. Furthermore, growth assumptions affect the analysis in three ways: Through BIF revenue, which increases for a given assessment rate as the assessment base grows; through failed bank assets, which are assumed to grow with industry assets; and by increasing the fund balance necessary to achieve the Designated Reserve Ratio as insured deposits grow.

Given a set of assumptions about these factors, it is relatively straightforward to project the BIF's balance over a fifteen-year period. However, analysis based on a single set of assumptions ignores the considerable uncertainty surrounding these factors. To deal with this uncertainty, the FDIC staff examined a range of values for failed bank assets, resolution costs, and industry growth, ranging from optimistic to pessimistic values. Each value was assigned a probability based on historical relationships and the informed judgment of staff, rather than on explicit statistical techniques applied to selective historical data.

The staff projected the BIF reserve ratio over a fifteen-year period under numerous scenarios, each scenario representing a combination of the values for each of the factors with a probability based on the combination of probabilities for each of the factors. As a result, it was possible to identify the scenarios under which the BIF would reach the Designated Reserve Ratio of 1.25 percent of insured deposits within the prescribed fifteen years. Furthermore, by adding the probabilities assigned to each scenario, it was possible to calculate the subjective probability that, for a given assessment level, the fund would meet the Designated Reserve Ratio within fifteen years.

More detail regarding this analysis is provided in the **Federal Register** notice on the proposed BIF capitalization schedule published on June 29, 1992; however, the analysis suggested that an increased assessment rate was necessary for recapitalizing the fund.

Accordingly, consistent with the assumptions underlying the BIF recapitalization schedule, the Board is raising the BIF assessment rate for the first semiannual period of 1993 and thereafter from a uniform rate of 0.23 percent to the rates provided in the transitional risk-based assessment schedule. The increase in assessment revenue is needed as part of an overall effort to bring the Actual Reserve Ratio up to the statutorily required Designated Reserve Ratio of 1.25% within fifteen years. Because of the inherent uncertainties involved in determining the appropriate assessment rate, the Board anticipates that it will reconsider the adequacy and appropriateness of the BIF assessment rate as conditions warrant.

Many of the comment letters received questioned the FDIC's assumptions given the recent improvement in banking industry profitability. While earnings results so far this year represent significant gains over recent years, it is debatable whether these short-term trends should form the basis for longer-term projections such as those used in the schedule for recapitalizing the BIF. Much of the improvement that has occurred has stemmed from favorable interest rate conditions that may not persist. Despite some encouraging signs of easing asset-quality problems, the industry remains burdened by a large inventory of nonperforming assets, and some key borrowing sectors (particularly commercial real estate) remain economically distressed. Banks on the FDIC's "Problem List" continue to comprise a historically large share of the industry.

Commerical bank earnings have shown considerable improvement in the twelve months ended June 30. One of the main factors contributing to the improvement has been the favorable interest rate conditions that have prevailed during that period. The decline in interest rates has produced wider spreads between the rates banks earn on their assets and the rates they pay for their liabilities. Low interest rates have also increased the market values of fixed-rate assets and allowed banks to realize some of these gains through sales of investment securities. Together, the wider margins and increased contributions of securities gains have produced 75 percent of the $5.5-billion year-to-year improvement in industry net income.

It is likely that the favorable interest rate conditions have also provided a temporary boost to noninterest income and have limited increases in noninterest expense; therefore, most of the recent net income gain can be traced to interest rate conditions. However, the interest rate conditions that have made these improvements possible are unprecedented in recent years, and will not persist indefinitely. This suggests that much of the recent rise in profitability may prove to be temporary, absent more fundamental improvements in asset quality and lending growth. Furthermore, the wide spread between long- and short-term interest rates have prompted a shift in bank balance sheets that could lead to narrower-than-usual

margins in the event of a sharp rise in interest rates.

At commercial and BIF-insured savings banks, noncurrent loans and other real estate owned as a percent of total assets have declined for four consecutive quarters, but the current proportion (3.68 percent at June 30, 1992) is still significantly above the levels preceding December 1990. The proportion remains high in spite of the volume of troubled assets that have been removed from the industry by the resolutions of failed commercial and savings banks, which have averaged more than 150 per year since the beginning of 1984.

For example, the 66 banks that failed during the first six months of 1992 reported troubled assets of about $2 billion. On a regional basis, the proportion of troubled assets at banks in the West has worsened over the past two years, from 2.31 percent in June 1990 to 3.65 percent in June 1992. In the Northeast, where troubled assets have improved recently, the proportion (4.19 percent) still exceeds all other regions.

Reserve coverage was 73 cents for each dollar of noncurrent loans at June 30, 1992 for commercial and BIF-insured savings banks. However, the Northeast (at 62 cents) and the West (75 cents) are the only regions below 94 cents. These two regions also have the highest proportions of noncurrent loans among the six regions: 5.06 percent for the Northeast and 3.93 percent for the West, the only regions above 2.50 percent.

Troubled real estate asset ratios—noncurrent real estate loans and other real estate owned (OREO) as a percent of total real estate loans plus OREO—at commercial banks have exceeded 7 percent nationally since December 1990.

Recent improvement in the Southwest has been offset by deterioration in the West, and the Northeast (currently 11.76 percent) has remained above the 10 percent level since late 1990.

Total assets of institutions on the FDIC's "Problem List" remain at near-record levels. While problem bank assets have declined this year (to $567.5 billion at the end of June, down from $610 billion at the end of 1991), they remain well above the levels of recent years. As of June 30, 1992, fifteen percent of the assets held by BIF-insured institutions were in "problem" banks. Problem bank assets remain at high levels despite the resolution of more than 1,200 institutions with more than $200 billion in assets since 1984, when assets of "problem" banks comprised 8.5 percent of the industry's assets.

There is considerable uncertainty regarding the health of commercial banks in the Western United States. As of March 31, 1992 the West had the second highest percentage of assets held by banks rated either a CAMEL "4" or "5" (19 percent), after the Northeast (27 percent). The percentage of assets held by banks rated CAMEL "3" has shown the first twelve-month decline since the end of 1988. In the West, however, the percentage of assets held by "3"-rated banks has increased dramatically—from 8 percent as of June 1988 to 47 percent as of March 31, 1992. Over the same period, the percentage of assets held by banks in the West rated CAMEL "4" or "5" has grown from 6 percent to 19 percent. If the economy in the Western states does not improve, the number and assets of "problem" banks are likely to continue to increase, especially in California.

The preceding discussion suggests that it would be premature to conclude that there has been a significant and permanent reduction in risks to the insurance funds. While forecasts are uncertain, recapitalization of the funds requires first that current revenues cover current expenses, and second that additional funds be set aside for recapitalization. In order to accomplish these tasks, an increase in assessment revenue is necessary.

C. Impact on Bank Capital and Earnings

1. In general.

Increases in deposit insurance assessment rates add to insured banks' operating costs. These cost increases will have a measurable effect upon banks' profitability and capitalization. Increases in deposit insurance assessment expenses do not, however, necessarily lead to equally proportionate declines in bank profits. There are at least two factors which can reduce the adverse impact of increased assessments upon banks' profits and capital.

First, some portion of the assessment increase may be passed on to customers in the form of higher borrowing rates, increased service fees, and lower deposit rates. The extent of cost sharing will be dependent upon the level of competition faced by banks. Banks facing little competition should be able to pass a larger portion of the increase in assessment costs on to customers than would banks facing greater competition. Under a risk-related assessment system, banks paying higher risk-related rates may face competition from banks paying lower risk-related rates, as well as from non-insured competitors. Such competition may reduce the ability of banks paying the higher risk-related rates to pass on costs to customers. For the purposes of this analysis, it was assumed that banks would not pass on any of the assessment increase to customers.

Second, deposit insurance assessments are a tax-deductible operating expense for banks. Therefore, the increase in assessment expenses can be used to lower taxable income, thereby reducing the effective after-tax cost of BIF assessments.[1]

The impact of the indicated assessment increase upon banks' book capital is also dependent upon assumptions about dividend policies and new capital issues. If banks maintain dividend levels, despite the increase in operating costs, book capital will decline by the full amount of the after-tax cost of the assessment borne by banks (assuming no new capital issues). That is to say, if dividends are not reduced, then increased operating costs will be reflected in lower retained earnings. For these projections, it was assumed that banks' dividend rates remained unchanged from those reported in December 1991. However, if a bank's projected equity capital was 4 percent or less, the bank was assumed to retain all earnings. It was further assumed that the only source of new capital would be additions to retained earnings.

The FDIC staff used two approaches to assess the impact of the increased deposit insurance assessment rate upon BIF-insured banks. The first approach was to project bank earnings and capital through 1996. Such projections make it possible to consider the impact of increased assessment costs in light of individual banks' projected earnings, asset quality, and tax status. Short-term projections, however, will not capture the full impact such cost increases may have upon the banking industry. In order to address this shortcoming, a second analysis was done which looked at the potential long-term implications of reductions in bank profitability.

The long-term profitability analysis revealed a number of banks which had large estimated changes in return on equity due to the rate increase. This occurred because at any point there are a number of banks earning near zero profits (or very small losses). In these situations, moderate increases in the

[1] In the event a bank is incurring losses before assessment costs, the additional assessment expense may be used to offset prior-period or future income (loss carry back or loss carry forward), thereby reducing taxes. For simplicity, this analysis assumed no loss carry forward nor loss carry back. This assumption results in a more conservative estimate of the tax benefits from higher assessments. In addition, the average tax rate paid by a bank in 1991 was assumed to apply in future periods for the purposes of projecting bank profits.

assessment rate (for example, 0.05 percent) will result in large percentage changes in profitability.[2] It is reasonable to expect, however, that banks earning near zero returns on equity will, in time, either fail or move toward higher levels of profitability. For these reasons, one should focus on the impact on the majority of banks' profitability when analyzing Table 2 (below).

2. Projected Capital and Earnings: Short-term Impact

FDIC staff estimated the impact of increasing the average assessment rate from the existing uniform rate of 0.23 percent to the rates in the transitional risk-based assessment schedule, beginning with the first assessment period in 1993. The projections indicate that the impact upon industry capital will be small.

Tangible equity capitalization of BIF-insured banks as of December 31, 1991 was approximately $232 billion.[3] FDIC staff estimates that year-end 1996 industry tangible equity capitalization would be nearly $275.7 billion if the 0.23 percent rate remained in place, and would drop by about $1,536 million—to approximately $274.1 billion—when the uniform rate is raised to the rates in the transitional risk-based assessment schedule. Under the rates in the transitional risk-based assessment schedule the $2,801 million in increased assessment costs projected over 1993 through 1996 resulted in a $1,536 million decline in capital and a $637 million total reduction in dividends. The remaining portion of the assessment costs were offset by the tax benefit of deducting assessment expenses from taxable income.

Equally important to these overall reductions in industry capital is the distribution of these reductions across banks. Projections of individual banks' tangible capitalization through 1996 indicated a small increase in the number of poorly capitalized banks under the proposed assessment rates. During 1996, the rates in the transitional risk-based assessment schedule were projected to raise the number of poorly capitalized banks—those with less than 3 percent tangible capital—by 25 banks (with average tangible assets of $288 million).

3. Long-term Changes in Profitability

If higher assessments result in a long-term reduction in bank profitability, capital will flow out of the banking industry, by way of lower retained earnings and a reduction in new stock offerings. If the flight of capital is substantial, it would result in shrinkage of the industry and have implications for credit availability.

In order to assess the impact of higher assessments upon bank profitability, estimates were made of the changes in returns on the book value of equity capital which might result under the rates in the transitional risk-based assessment schedule. Specifically, banks' 1991 returns on book value equity capital were adjusted to reflect the increase in operating costs (after-taxes) which might result from increased assessment rates. These adjustments assumed that banks would bear the full after-tax cost of the assessment increase.

The analysis indicates that an increase in the BIF assessment rate to the rates in the transitional risk-based assessment schedule will reduce bank profitability slightly. Estimates presented in Table 2 (below) show that approximately 84 percent of BIF-insured banks, with 65.2 percent of industry assets, experienced a 0 to 5 percent reduction in their return on equity. In addition, 7.4 percent of BIF-insured banks with 15 percent of industry assets were estimated to incur a 5 to 10 percent reduction in return on equity. The median percentage change in return on equity was −1.23 percent.

While it is difficult to estimate the final impact upon industry capital, a moderate amount of industry shrinkage (relative to a situation without higher assessments) may result. Consolidation in the banking industry can occur, however, without increased bank failures. Indeed, the results of this analysis indicate that the impact of the assessment rate increase upon bank earnings and capital will not be so severe as to result in a substantial increase in bank failures.

TABLE 2.—PERCENTAGE CHANGES IN RETURN ON EQUITY, BASED UPON THE TRANSITIONAL RISK-BASED ASSESSMENT SCHEDULE

[BIF-Insured Banks, $ Millions]

Percentage change in ROE[1]	Number	Assets
Below −50	192	$204,018
−25 to −50	204	78,724
−15 to −25	277	296,818
−10 to −15	346	133,675
−5 to −10	910	545,056
0 to −5	10,322	2,371,525
Missing data	37	4,495
All	12,288	$3,634,312

[1] The percentage change in ROE was defined as the adjusted ROE minus the original ROE, divided by the original ROE; (ROE'-ROE) /ROE.

III. Comments

A. Overview

The FDIC received 176 letters regarding the proposed increase in the BIF-member assessment rate. Thirteen of the letters were from banking industry trade groups, 1 was from an individual, and 162 were from financial institutions.

Seventeen of the letters favored the assessment rate increase. Of this total, 13 letters were from bankers, 3 from trade groups and 1 from an individual. Most of those favoring the increase cited the need to replenish the BIF in order to restore depositor confidence in the insurance system. Five bankers and 1 trade group favored the increase if it were necessary to keep the fund healthy.

One-hundred eight of the letters received expressly opposed the premium increase. Five of these letters came from industry trade groups; the rest were from bankers. Approximately 25 percent of those opposing the increase opposed the rate increase in general, arguing that it was unfair. Most of those citing a reason to oppose the increase doubted that the facts supported the need for an increase; instead, they believed that the 1.25 percent Designated Reserve Ratio could be achieved within 15 years at the current rate of 0.23 percent. Several bankers commented that although they recognized the importance of maintaining the fund, they opposed raising the assessment rate further in light of the current recession and other recent increases in the assessment rate. Others believed that the increase would have a serious negative effect on the banking industry.

[2] To see this, consider the example of a bank with 5 percent equity capital and a 1 percent return on equity. In addition, assume that the bank had an average tax rate of 25 percent and had assessable deposits equal to 80 percent of bank assets. In this situation, a 5 basis point increase in the assessment rate would result in a 60 percent reduction in return on equity.

[3] This excludes 15 federal savings banks and 128 commercial and mutual savings banks with combined tangible capital of about $2.1 billion at year-end 1991. The 15 federal savings banks were excluded because of differences between bank and thrift financial reports. The 128 commercial banks were excluded from the analysis due to incomplete financial information. Tangible capital was defined as total equity capital minus all intangible assets.

B. Major Issues Raised

1. Need for the Increase

Eighty bankers and 9 trade groups questioned the assumptions used by the FDIC in analyzing the need for an assessment rate increase. Comments ranged from questioning the use of specific assumptions to suggesting that FDIC assumptions were "politically inspired." Two bankers suggested that the assumptions were overall too conservative. As shown above, the FDIC staff utilized a range of assumptions for each factor which influences the long-term condition of the BIF specifically because the future cannot be predicted with accuracy. The assumptions were based on historical statistics, publicly available forecasts, and informed judgments. The FDIC acknowledges, as others must, that assumptions regarding the future are fraught with uncertainty. What is certain, however, is that for every year since 1983 the FDIC failed to take in assessment revenue sufficient to cover insurance losses. Recapitalization will not begin until this is reversed.

Most of the bankers who questioned the FDCI's assumptions argued that recapitalizing the BIF within 15 years should be achievable at a 0.23 percent assessment rate given the recent improvement in banking industry profitability. While the Board is encouraged by the recent improvements in the banking industry much of the improvement has been the direct result of the current interest rate environment, and that changing economic factors could reverse this trend. As discussed above, the industry remains burdened by a large inventory of nonperforming assets, and some key borrowing sectors remain economically distressed. Furthermore, the Board feels that it would be inappropriate for the resurgence in bank earnings to be accompanied by the continued deterioration of the insurance fund which would result if assessment revenue continues to fall short of insurance losses.

With respect to future insurance losses, 38 bankers and 4 trade groups specifically questioned the failure projections used in the FDIC's analysis. One trade group specifically questioned the long-term failed bank assumptions used, believing that the FDIC might have considered thrift loss data for its range of values. As noted above, long-term failed bank asset assumptions are based on the experience post-deregulation, and are not based on lower experiences of the earlier period. The Board does not believe that it would be prudent to be overly optimistic about continued improvements in the banking industry. As a result, analytical assumptions for the rate increase incorporated both optimistic and pessimistic values. As noted above in Table 1, however, the timing of failed bank assets over the next six years has been adjusted to reflect recent favorable market conditions which have delayed the failure of certain institutions.

A related point involved the Board's decision to reserve over $15 billion for estimated losses to the BIF in 1991. Consequently, while the BIF ended 1991 in a deficit position, the fund was not in a negative cash position. Given this level of reserves, 5 bankers believed that a rate of 0.23 percent would be sufficient to recapitalize the BIF within 15 years. The FDIC's analysis included the 1991 reserves in projecting the BIF balance over 15 years. Similarly, several letters noted that the FDIC Improvement Act increased the FDIC's borrowing authority from the Treasury. This cash flow consideration was factored into the analysis as well.

Three trade groups and 1 banker questioned that 17 percent weighted average loss ratio used in the FDIC's projections. This value approximates the fund's loss experience since the mid-1980's. A lower value, 14 percent, was included to reflect continued success in lowering resolution costs, but a higher value, 20 percent, also was included to incorporate potential negative factors. While certain provisions of the FDIC Improvement Act may result in lower future losses to the fund, the Board believes it would not be prudent to weigh these positive expectations too heavily before results are available.

A related issue was the question of whether the assessment rate should be increased now, given that the recapitalization period is 15 years. As discussed above, the results of the analysis indicated that an increase in the BIF assessment rate is necessary now to attain the Designated Reserve Ratio within the prescribed period. Two bankers believed that the 1.25 percent ratio was arbitrary and meaningless, as was the 15-year period. However, the Designated Reserve Ratio and the term of the recapitalization period are both prescribed by statute and cannot be changed without additional legislation.

As noted above in the analysis of the need for the assessment rate increase, there is considerable uncertainty surrounding each of the assumptions used in the FDIC's analysis. Future conditions affecting the BIF may turn out differently than assumed. For this reason, the Board plans to monitor relevant developments and to consider revising the BIF member assessment rate as conditions warrant.

2. Negative Effects of the Increase on the Industry

Of the 125 letters citing the negative effects of the increase on the industry, most noted that a rate increase will decrease individual bank and overall banking industry profitability. Declining profitability could hinder internal capital generation, and limit the ability of institutions to raise capital in the market. Specifically, 11 bankers and 1 trade group extended this thought to add that this potential impact would most affect those institutions least able to handle the added expense; those banks already in weak financial condition.

As discussed in the proposed rule, the FDIC analyzed the impact of a rate increase, and found that the number of poorly capitalized banks—those with tangible capital ratios below 3 percent—increased by 25 by year-end 1996. Furthermore, most banks experienced less than a 5 percent decline in return on equity as a result of the rates in the transitional risk-based assessment schedule. While the Board is concerned about the need to recapitalize the BIF without unduly burdening the industry, it believes that this impact analysis demonstrates that the banking industry can tolerate an increase of this magnitude. If current economic and profitability trends continue, the impact of this increase on the industry could be lower than projected.

Twenty-three bankers and 4 trade groups noted that premium increases are passed on to consumers in the form of lower deposit rates or higher borrowing costs. Such a cost transfer, to the extent allowed by competitive factors, would lower the impact on individual bank profitability. Competition may not allow the rates to be passed along to consumers, however. Non-competitive rates, it is feared, would cause depositors to flee commercial banks. Therefore, many bankers and 5 trade groups feared that an increase in the deposit premium rate would further decrease the ability of commercial banks to compete against non-insured financial institutions.

Financial institutions compete on a number of factors, including rate and services offered. While it seems that the recent interest rate environment may have caused some depositors to withdraw funds from commercial banks in search of higher-yielding investments, this may not be a long-term disintermediation. Each depositor will decide where to place funds based on individual preferences for product

features. Insured depository institutions pay an insurance premium for the privilege of offering depositors a federal guarantee behind their deposits. Federal deposit insurance is a feature that is valued by depositors when choosing to place funds with an insured depository institution.

Several bankers and 1 trade group extended the disintermediation argument by noting that an outflow of deposits could limit a bank's ability to fund loans. Similarly, a number of bankers suggested that lower profitability could hinder loan-making. Such a result, it was argued by 62 bankers and 8 trade groups, would be counterproductive to stimulating the economy. While these are all potential effects of the rate increase, the Board believes that the rate increase is not likely to have a significant effect on bank lending activities.

A related issue raised by a banker concerning the ability to compete was the fact that larger banks have a greater variety of funding sources than smaller banks. As a result of this difference in liability structure, smaller banks pay a higher effective assessment rate than larger banks. It was argued that this was an unfair competitive advantage for larger banks. However, other funding sources are not necessarily less expensive for a bank than core deposits, regardless of insurance premiums. (A related issue, discussed below with other proposed alternatives, is whether to broaden the assessment base, and thereby eliminate this issue.)

Finally, 20 bankers and 2 trade groups commented that the assessment rate increase will be an additional regulatory burden on banks. The Board is sensitive to the fact that the FDIC Improvement Act has created additional regulations for bankers, and that each new regulation leads to increased compliance costs. However, the Board is required by statute to recapitalize the BIF within 15 years, and as part of this recapitalization it is deemed necessary now to increase the BIF-member assessment rate.

C. Other Issues

Another issue raised by numerous bankers concerned the fact that a uniform assessment rate resulted in a subsidization of weaker institutions by healthy, well-capitalized banks. In particular, bankers in certain states felt that they had been subsidizing weak institutions in other regions of the country. The Board is aware of this historical inequity. The FDIC Improvement Act requires the FDIC to establish and implement a permanent risk-related premium system no later than January 1, 1994. The Board believes that the implementation of the transitional risk-based assessment system will begin to diminish the subsidization problem.

Nine bankers and 2 trade groups believed it was unfair for commercial banks to subsidize the failures of savings banks. One trade group argued that the premium increase was not necessary, that savings bank losses represent "a disproportionate drain on the BIF," and these losses "should not be used as a justification for continued increases in BIF premiums." In recent years, losses from bank failures have been concentrated geographically, and the FDIC has covered the losses of agriculture banks in the Farm Belt and energy banks in the Southwest. The recent real estate related problems of the Northeast have further strained the resources of BIF. The BIF peaked in 1987 and its balance has declined since then to a deficit at year-end 1991 as a result of these combined losses. The purpose of insurance is to pool risk, and there will be times when losses are concentrated in one banking sector, as illustrated above. The need for the BIF rate increase is related to the statutory requirement that the fund be recapitalized within 15 years, and is not the result of a loss in only one sector of the banking industry.

Separately, 3 bankers argued that commercial banks should not pay for the past mistakes of savings associations. In addition, 2 trade groups believed it was important to keep BIF-member assessment rates equal to SAIF-member assessment rates in order to preserve a "healthy balance" among financial institutions with different federal insurers. Thrifts are insured by the Savings Association Insurance Fund (SAIF), which derives its assessment revenue from thrifts and not commercial banks. Commercial banks are not paying for savings association losses via deposit premiums into the BIF. The savings-and-loan problem had no bearing on the Board's decision to increase BIF-member rates. Also, it is essential to note that section 7(b)(1)(A) of the FDI Act (*Id.* at 1817(b)(1)(A)) is entitled "Rate For Each Fund To Be Set Independently" and states that "[t]he [FDIC] shall fix the assessment rate of Bank Insurance Fund members independently from the assessment rate for Savings Association Insurance Fund members." Thus, the Board is statutorily required to set the SAIF and BIF assessment rates independently of each other and may not consider parity factors in establishing the respective rates.

Several bankers commented that one reason the BIF was in a deficit position was because of the "too-big-to-fail" policy. As noted above, the banking industry has sustained significant losses over the past decade because of economic and banking difficulties in different regions of the United States. The magnitude of those losses has depleted the BIF. Section 141 of the FDIC Improvement Act provides that the FDIC may not take any action, directly or indirectly, after January 1, 1995, with respect to any insured institution that would have the effect of increasing losses to any insurance fund by protecting depositors for more than the insured portion of deposits or creditors other than depositors. This provision was intended to prevent continuation of the so-called "too-big-to-fail" treatment of depository institutions.

D. Alternatives Proposed

Eleven bankers and 2 trade groups suggested that the assessment rate be broadened, particularly to include foreign deposits. Smaller banks and one regional bank commented that larger money center banks are in effect subsidized because they pay a lower effective assessment rate due to their different liability structure. Conversely, a large bank argued that it was unduly penalized by having to pay a premium on certain uninsured deposits. The deposit insurance assessment base is currently prescribed by section 7(b) of the FDI Act (12 U.S.C. 1817(b) (4), (5) and (6)). The Board believes that the nature and scope of the assessment base should be reviewed, but currently does not have the authority to change the statutorily required components of that base. As provided for in section 302(a) of the FDIC Improvement Act, however, upon the establishment of a permanent risk-based assessment system (which must be in place no later than January 1, 1994), section 7(b) of the FDI Act will be amended to exclude a statutorily prescribed assessment base. Thus, at that time the Board will be authorized to establish an assessment base different from that currently found in section 7(b) of the FDI Act.

Also, section 312 of the FDIC Improvement Act provides, in general, that the FDIC (among other federal entities) may not make any payment or provide any assistance in connection with any insured depository institution which would have the effect of satisfying any claim against the institution for obligations of foreign deposits.

Thirty-three bankers and 3 trade groups recommended that the BIF

assessment increase be delayed or raised to either 0.26 percent or 0.27 percent, rather than 0.28 percent. The delay was suggested in order to await the results of the risk-related premium system and/or an economic recovery. Section 7(b) of the FDI Act requires that the Board recapitalized the BIF within 15 years. In order to meet that statutory obligation, the Board believes that an increase in the BIF assessment rate cannot be delayed. The increased rate was chosen for reasons detailed above, and as mentioned above, the Board will continue to monitor developments and propose changes to the assessment rate (including decreases) as appropriate.

Several bankers offered suggestions on improving the current insurance system. Two bankers were concerned about the level of insurance coverage. One was concerned that the level not be lowered, while the other specifically recommended that the ceiling on coverage be lifted. Several bankers debated the mandatory nature of deposit insurance. While one banker recommended that depositors should be able to purchase insurance to the extent desired by the individual, another banker thought that deposit insurance should be eliminated. Finally, one banker suggested that deposit insurance be privatized in order to eliminate the regulatory burden. Any changes to the deposit insurance system would require amendments to the insurance-related provisions of the FDI Act. However, the FDIC Improvement Act mandates that the FDIC undertake several studies, including an analysis of private reinsurance, to determine, if the present deposit insurance system can be modified and improved.

One banker suggested that the line of credit with the Treasury established by the FDIC Improvement Act be restricted solely to use by the BIF, thereby eliminating the line of credit for the SAIF. Section 14(a) of the FDI Act (12 U.S.C. 1824(a)), as amended by the FDIC Improvement Act, provides the FDIC with a $30 billion line of credit with the United States Treasury. Section 14(a) specifies that this credit is available for "insurance purposes" and the FDIC may employ any such funds for purposes of the BIF or the SAIF. Any amendments to section 14(a) must be made by the Congress.

One final recommendation involved moving deposit reserves held by the Federal Reserve into the BIF. Such resources are not statutorily authorized as a funding resource for the BIF. Legislation would be required to use Federal Reserve deposit reserves for BIF purposes.

Subpart C. The SAIF Member Assessment Rate Increase

I. Increase in the SAIF Member Assessment Rate

On May 21, 1992, the Board published in the **Federal Register** a proposed amendment to part 327 to increase the deposit assessment rate to be paid by SAIF members from 0.23 percent to 0.28 percent starting with the first semiannual period of 1993 and thereafter. In the proposed rule the Board considered the factors required to be considered by section 7(b) of the FDI Act in connection with such an increase in the SAIF assessment rate; those are, SAIF's expected operating expenses, case resolution expenditures and income, the effect of the assessment rate on SAIF members' earnings and capital, and such other factors as the Board deems appropriate. 12 U.S.C. 1817(b)(1)(D)(ii). The Board also noted the requirement that the reserve ratio for the SAIF be increased to the "designated reserve ratio" of 1.25 percent of estimated insured deposits "within a reasonable period of time." Id. at 1817(b)(1)(D)(i). The comment period on the proposed rule ended on July 20, 1992.

As noted above, the Board is increasing the SAIF-member assessment rate to the rates provided in the transitional risk-based assessment schedule provided and discussed below. As explained below, the assessment rate to be paid by each SAIF member will be based on the institution's assessment risk classification. The new rates will apply to assessments that become due in the first semiannual period of 1993 and thereafter.

II. Statutory Provisions and Economic Analyses

As noted above, under section 7(b) of the FDI Act the Board is required to consider the following factors in setting the SAIF assessment rate: The SAIF's expected operating expenses, case resolution expenditures, and income; the effect of the assessment rate on SAIF members' earnings and capital; and such other factors as the Board deems appropriate. 12 U.S.C. 1817(b)(1)(D)(ii). The following is a discussion of those factors.

A. Designated Reserve Ratio

Section 7(b) of the FDI Act (12 U.S.C. 1817(b)), as implemented by part 327, requires that all FDIC-insured depository institutions pay to the FDIC semiannual assessments based on the types and dollar amounts of deposits held at such institutions.

Section 7(b) also states that the assessment rate for Savings Association Insurance Fund members shall be the greater of 0.15 percent or such rate as the FDIC Board of Directors, in its sole discretion, determines to be appropriate—to maintain the reserve ratio at the designated reserve ratio; or if the reserve ratio is less than the designated reserve ratio, to increase the reserve ratio to the designated reserve ratio within a reasonable period of time. *Id.* at 1817(b)(1)(D)(i).

In addition, section 7(b)(1)(D)(iv) of the FDI Act provides that from January 1, 1991, through December 31, 1993, the assessment rate shall be less than 0.23 percent. *Id.* at 1817(b)(1)(D)(iv).

The SAIF's designated reserve ratio (Designated Reserve Ratio) is 1.25 percent of estimated insured desposits. *Id.* at 1817(b)(1)(B). SAIF's current reserve ratio (Actual Reserve Ratio) is approximately zero. In accordance with the following discussion, the Board is increasing the SAIF member assessment rate from a uniform rate of 0.23 percent to the rates provided in the transitional risk-based assessment schedule discussed and provided below.

B. Need for the Increase

An noted above, the Designated Reserve Ratio is currently set by statute at 1.25 percent of estimated insured deposits. The Actual Reserve Ratio is significantly below that level. As noted above, section 7(b) requires that the SAIF reserve ratio be increased to equal the Designated Reserve Ratio within a reasonable period of time.

Under section 21 of the Federal Home Loan Bank (FHLB) Act, the Financing Corporation (FICO) has a claim of SAIF assessment income to fund the interest payments on bonds issued by FICO. 12 U.S.C. 1441(f).[4] At present, satisfying this claim requires approximately 40 percent of the FDIC's SAIF assessment income.

Section 11A(b) of the FDI Act (*Id.* at 1821a(b)) requires that, "to the extent funds are needed", the sources of funds for the FSLIC Resolution Fund (FRF)

[4] FICO was established by the Competitive Equality Banking Act of 1987 (Pub. L. 100–86, 101 Stat. 552 (1987)) (CEBA) for the purpose of providing funds to the FSLIC Resolution Fund. Assessments on SAIF members is one source of funding for certain of FICO's financial obligations. See section 21 of the FHLB Act. (12 U.S.C. 1441). Section 7(b)(1)(E) of the FDI Act (12 U.S.C. 1817(b)(1)(E)) states that notwithstanding any other provision of this paragraph, amounts assessed by the Financing Corporation and the Funding Corporation under sections 21 and 21B of the Federal Home Loan Bank Act against SAIF members, shall be subtracted from the amounts authorized to be assessed by the Corporation under this paragraph.

shall, during the period beginning on the date of enactment of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989, Public Law 101–73, 103 Stat. 183 (FIRREA), on December 31, 1992,[5] include amounts assessed against SAIF members by the FDIC pursuant to section 7 of the FDI Act that are not required by FICO or the Resolution Funding Corporation.[6] *Id.* at 1821a(b).

Through 1992, FICO and FRF will continue to claim all SAIF assessment income, except assessments paid on SAIF deposits by banks that have engaged in a transaction under section 5(d)(3) of the FDI Act (*Id.* at 1815(d)(3)) (Section 5(d)(3) Banks). Consequently, the only assessment income to be added to SAIF prior to the beginning of 1993 will be the assessments paid by Section 5(d)(3) Banks on approximately $60 billion in SAIF deposits. At that time, SAIF will need approximately $9.5 billion to meet the Designated Reserve Ratio, given an estimated insured deposit base of $760 billion as of year-end 1991.

In order to examine the issue of recapitalization over a period of time, staff developed projections for the SAIF balance based solely on assessments from SAIF-member institutions. As discussed below in response to comments received on this issue, although certain Treasury payments are mandated by statute to supplement the SAIF, the Board believes that Congress imposed such conditional obligations on the Treasury (and thus, the taxpayer) in order to provide a back-up in the event that the SAIF-insured industry was incapable of fulfilling its obligation to recapitalize the SAIF. Furthermore, appropriations for these supplemental funds have yet to be made, and the likelihood and timing of such appropriations are uncertain, particularly given that funding for continued operations of the Resolution Trust Corporation (RTC) is currently uncertain. Consequently, staff projections are based solely on contributions from the thrift industry, and do not consider potential Treasury contributions.

The length of time necessary for SAIF to reach the Designated Reserve Ratio depends on the performance of the thrift industry, which is uncertain for several reasons. First, despite recent improvements in aggregate thrift industry profitability, there is evidence that the industry is becoming increasingly bipolar with respect to capital adequacy. Second, the recovery of real estate markets nationwide will affect the number and timing of future thrift failures. Third, there is uncertainty surrounding the long-term competitive ability of thrifts. Finally, it is not clear what the state of the thrift industry will be once SAIF resumes resolution responsibility on October 1, 1993.[7]

The long-term condition of the SAIF depends directly on the number, size and timing of future thrift failures, the costs of resolving failures, and the amount of assessment income provided by thrifts. Given a set of assumptions about these factors, it is relatively straightforward to project the SAIF over a multi-year period. However, analysis based on a single set of assumptions ignores the considerable uncertainty surrounding these factors.

To deal with this uncertainty, the FDIC staff examined a range of values for failed thrift assets, resolution costs, total failed thrift assets resolved by the RTC (as opposed to SAIF), and deposit growth. For each of these factors, the assumptions range from what was considered to be reasonably optimistic to reasonably pessimistic values. For each value, the staff assigned a probability based on historical relationships and the informed judgment of staff rather than on explicit statistical techniques applied to historical data. The assumptions and probabilities for each factor are summarized below in Table 3.

For analytical purposes, staff projected the SAIF over a fifteen-year period under numerous scenarios. As discussed below in response to comments received on this issue, the Board believes 15 years is an appropriate time frame in which to analyze and project a SAIF recapitalization to 1.25 percent. As discussed below, under section 7(b) of the FDI Act, the Board has the combined obligations to achieve a designated reserve ratio of 1.25 percent for the SAIF within a reasonable period and to consider the statutory factors (of section 7(b) of the FDI Act) in establishing the SAIF rate, particularly the impact of the assessment rate on SAIF members. The Board believes that any significantly shorter period for achieving the designated reserve ratio would require a higher assessment rate, thereby imposing an immediate additional cost on the industry. Conversely, any period significantly longer than 15 years would delay, unnecessarily, the recapitalization of the SAIF. Thus, in line with the discretion specifically afforded to the Board under section 7(b) of the FDI Act, the Board deems 15 years to be a reasonable period of time to achieve the designated reserve ratio for the SAIF.

Each scenario chosen by the staff for purposes of this analysis represented a combination of the values for each of the factors and was assigned a probability based on the combination of probabilities for each of the factors. Staff performed this exercise for different assessment rates ranging from 23 to 35 basis points over the next 15 years.

TABLE 3.—ASSUMPTIONS FOR SAIF PROJECTIONS

[I. Failed Thrift Assets, Billions of Dollars (1992–1995)]

1992	1993	1994	1995	Total	Probability (percent)
25	15	5	5	50	15
50	35	10	5	100	20
50	50	30	20	150	30
60	60	50	30	200	20
70	70	60	50	250	15

(Assumes that SAIF assumes resolution responsibility on October 1, 1993.)

[II. Failed Thrift Assets (1996–2006)]

Percent of Total Assets	Probability (percent)
0.2	30
0.4	45
0.6	18
0.9	5
1.2	2

[III. Ratio of Resolution Costs to Failed Thrift Assets]

Ratio (percent)	Probability (percent)
14	25
17	50

[5] This date was extended from December 31, 1991 to December 31, 1992 by section 202 of the Resolution Trust Corporation Refinancing, Restructuring, and Improvement Act of 1991, Public Law 102–233, 105 Stat. 1761.

[6] Section 21B(e)(7) of the FHLB Act requires that SAIF assessment income be used, if necessary, to fund REFCORP's "principal fund." *Id.* at 1441b(e)(7). Because REFCORP's principal fund is fully funded, SAIF assessment income is no longer required for REFCORP purposes.

[7] As amended by section 103 of the Resolution Trust Corporation Refinancing, Restructuring, and Improvement Act of 1991 (Pub. L. 102–233, 105 Stat. 1761), section 21A(b)(3) of the FHLB Act (*Id.* at 1441a(b)(3) requires, in relevant part, that the Resolution Trust Corporation resolve savings associations (including those insured by the FSLIC prior to the date of enactment of FIRREA) for which a conservator or receiver is appointed after December 31, 1988 and before October 1, 1993. In general, the SAIF will be responsible for savings association failures that occur on or after October 1, 1993.

[III. Ratio of Resolution Costs to Failed Thrift Assets]

Ratio (percent)	Probability (percent)
20	25

[IV. Deposit Growth]

Rate (percent)	Probability (percent)
6	40
2	40
−2	20

The analysis identified the scenarios under which the SAIF would reach the designated ratio of 1.25 percent of insured deposits by year-end 2006. By adding the probabilities assigned to each scenario, staff calculated the subjective probability that the fund would meet the designated ratio for a given assessment level within 15 years, and determined that additional revenue was required to recapitalize the fund.

Thus, in essence, there are two reasons for increasing the SAIF member assessment rate. First, under reasonable assumptions, a 0.23 percent assessment rate has an unlikely probability of achieving a 1.25 percent reserve ratio within 15 years. The Board believes that this is not consistent with the statutory requirement to achieve the Designated Reserve Ratio "within a reasonable period of time." Second, given the uncertainty regarding the industry, it is prudent to ensure that SAIF grows toward its Designated Reserve Ratio as soon as reasonably possible, subject to the statutory considerations discussed above. In order to do so, the Board is increasing the assessment rate from a uniform rate of 0.23 percent to the rates provided in the transitional risk-based assessment schedule starting with the first semiannual period of 1993. Based on the FDIC's analysis, with these assessment rates there will be a sufficient likelihood of reaching the Designated Reserve Ratio within 15 years. In light of the aforesaid uncertainties, however, the Board anticipates that it will reconsider the adequacy and appropriateness of the SAIF assessment rate as conditions warrant.

In particular, the Board has reexamined the issue of an assessment rate increase given recent trends in thrift industry profitability. While earnings results so far this year represent significant gains over recent years, it is debatable whether these short-term trends should form the basis for longer-term projections. Much of the improvement that has occurred has stemmed from favorable interest rate conditions that may not persist.

Consequently, it would be premature to conclude that there has been a significant and permanent reduction in risks to the SAIF. While forecasts are uncertain, recapitalization of the SAIF requires first that current revenues cover current expenses (and while the SAIF is not responsible for thrift resolutions until October 1, 1993, revenues to cover such projected expenses will be limited), and second that additional funds be set aside for recapitalization. In order to accomplish these tasks, an increase in the assessment rate is necessary.

C. Impact on Industry Capital and Earnings

1. In General

Increases in deposit insurance assessment rates necessarily add to insured thrifts' operating costs. These cost increases will have a measurable effect upon thrifts' profitability and capitalization; however, there are at least two factors which can reduce the adverse impact of increased assessments.

First, some portion of the assessment increase may be passed along to customers in the form of higher borrowing rates, increased service fees, and lower deposit rates. The extent of cost sharing will be dependent upon the level of competition faced by thrifts; those facing little competition should be able to pass a larger portion of the increase in assessment costs on to customers than would thrifts facing greater competition. Under a risk-based structure, thrifts face enhanced intra-industry competition.

Institutions paying higher premiums face additional competition from other institutions paying lower premiums, further reducing the thrifts' ability to pass on costs to customers. For the purposes of this analysis, however, it was assumed that thrifts would not pass on any of the assessment increase to customers.

Second, deposit insurance assessments are a tax-deductible operating expense for thrifts. Therefore, the increase in assessment expenses can be used to lower taxable income, thereby reducing the effective after-tax cost of SAIF assessments.[8]

[8] In the event a thrift is incurring losses before assessment costs, the additional assessment expense may be used to offset prior-period or future income (loss carry back or loss carry forward), thereby reducing taxes. For simplicity, this analysis assumed no loss carry forward nor loss carry back. This assumption results in a more conservative estimate of the tax benefits from higher assessments. In addition, the average tax rate paid by a thrift in 1991 was assumed to apply in future periods for the purposes of projecting thrift profits.

The impact of the assessment increase upon thrifts' book capital will also depend upon assumptions about dividend policies and new capital issues. If thrifts maintain dividend levels despite the increase in operating costs, book capital will decline by the full amount of the after-tax cost of the assessment borne by thrifts (assuming no new capital issues). That is to say, if dividends are not reduced, increased operating costs will be reflected in lower retained earnings.

For the projections presented here, it is assumed that the thrifts' average dividend rates remained unchanged from those reported for calendar year 1991.[9] However, if a thrift's projected post-dividend tangible capital was 2 percent or less, the thrift was assumed to pay dividends up to an amount that would allow it to remain at 2 percent tangible capital. Dividends were not included in the projections unless post-dividend capitalization was greater than 2 percent.

To provide meaningful results from an impact analysis, the FDIC analyzed the effect of the insurance assessment increase on the institutions that will compose the thrift industry following the completion of the RTC's mandated resolution responsibilities. To accomplish this, the projections estimated the reduction in net income and capital for a "core group" of 1,897 thrifts holding $721 billion in assets. These institutions were identified using the OTS Regulatory Monitoring System (ROMS) and supervisory evaluations.[10]

The FDIC staff used two approaches to assess the impact of the increase in deposit insurance assessment rate on SAIF-insured thrifts. The first approach was to project thrift earnings and capital through 1995 under two deposit insurance assessment rates: The present rate of 0.23 percent and the other based on the rates in the transitional risk-based assessment schedule starting in January 1993.

[9] For institutions paying more than 100 percent of 1991 net income in dividends the average rate was set to 98 percent of net income for the purpose of the projections.

[10] This core group is an estimate of the institutions that will not be placed into conservatorship or otherwise be resolved before October 1, 1993, the statutory deadline for the RTC's acceptance of failed savings associations. The core group is composed of SAIF-insured thrifts that are not in one of the following categories: Conservatorship, insolvent, ROMS–IV, ROMS–III: Critically Undercapitalized or Potentially Critically Undercapitalized or lowest composite supervisory rating.

Such projections make it possible to consider the impact of increased assessment costs in light of individual thrifts' projected earnings and tax status. Short-term projections, however, will not capture the full impact such cost increases may have upon the thrift industry. To address this shortcoming, a second analysis was performed that analyzed the potential long-term implications of reductions in thrift profitability, which involved an analysis of changes in return on equity.

If investors felt the reductions in profitability were long term, several results can be anticipated. First, stock market prices on thrift equity would fall as investors revise estimates of anticipated earnings. Consequently, any thrift/thrift holding company attempting to raise capital through new issues could receive less in invested capital. Assuming no other significant changes in thrift earnings or risk, share prices would have to fall in proportion to the decline in returns in order to maintain market value based profit rates (returns on market value of equity). Second, shareholders might also have less incentive to reinvest capital within the thrift, given the reduced profitability. Reduced retention rates will result in less growth in book capital over time, compared to an economy without higher SAIF assessment rates.

While it is difficult to estimate the final impact upon industry capital, a moderate amount of industry shrinkage due to a flight of capital (relative to a situation without higher assessments) may result, and credit availability may be impacted. Consolidation in the thrift industry can occur, however, without increased thrift failures. Indeed, the results from the analysis discussed below indicate that the impact of the assessment rate increase upon the core group of thrifts' earnings and capital will not result in a substantial increase in thrift failures.

In interpreting the results of the long-term impact analysis, one point must be noted. The staff's long-term profitability analysis revealed a number of thrifts which had large estimated changes in return on equity due to the assessment increase. This occurred because at any point there are a number of thrifts earning near zero profits (or very small losses). In these situations, moderate increases in the assessment rate (for example, 5 to 7 basis points) will result in large percentage changes in profitability.[11] It is reasonable to expect, however, that thrifts earning near zero returns on equity will, in time, either fail or more toward higher levels of profitability. For these reasons, one should focus on the impact on the majority of thrifts' profitability when analyzing Table 4 (below).

2. Projected Capital and Earnings: Short-term Impact

For purposes of this analysis, FDIC staff developed short-term projections on "core group" thrift earnings and capital between 1992 and 1995 under the assumptions concerning cost-sharing, tax deductibility and dividend rates described above. The analysis used 1991 data on net income, dividends and tax rates as the basis for these projections. To test the sensitivity of the results from the projection analysis to the use of 1991 as the benchmark for thrift industry returns, the staff repeated the analysis using 1990 data on the same institutions.[12]

The tangible capitalization of all SAIF-insured thrifts as of December 31, 1991 was approximately $38.7 billion.[13] FDIC staff estimates that by year-end 1995 the core thrift industry tangible capitalization will be just over $55.3 billion if the 0.23 percent rate remains in place. The FDIC staff estimates that under the rates in the transitional risk-based assessment schedule industry tangible capitalization will fall to approximately $55.0 billion, representing a 0.5 percent reduction. Under this scenario, core industry net income will fall over the period by $0.36 billion, approximately 2.0 percent of the pre-increase net income of $18.0 billion.

Under the rates in the transitional risk-based assessment schedule the FDIC staff projects the number of thinly capitalized core thrifts (defined as those with less than 2 percent tangible capital) to increase by 2 institutions through 1995. The number of core thrifts holding more than 3 percent tangible capital is projected to decrease by 3 institutions.

3. Sensitivity of the Earnings and Capital Projections to 1991 Return Data

As indicated above, there was considerable improvement in the return on average assets (ROAA) for the SAIF-insured thrift industry between 1990 and 1991. This improvement may be attributable to various factors, including the advantageous interest rate environment, the resolution of marginally solvent competitors and increased capital levels for the industry.[14]

To test the sensitivity of the thrift industry's 1991 ROAA results to reduced thrift operating margins, staff repeated the projections using the ROAAs for the core thrifts in 1990. Using 1990 ROAA as the benchmark return, FDIC staff estimates that by year-end 1995 the core thrift industry tangible capitalization will decline to approximately $50.4 billion under the rates in the transitional risk-based assessment schedule. This would reduce core industry capital by approximately 0.6 percent. Under this scenario, core thrift industry net income will fall over the period by $0.38 billion, approximately 3.1 percent of the pre-increase net income of $12.4 billion.

By the end of 1995, under the rates in the transitional risk-based assessment schedule the number of thinly capitalized core thrifts is projected to increase by 4 institutions. The number of core thrifts with more than 3 percent tangible capital is projected to decrease by 9 institutions.

4. Long-term Changes in Profitability

In order to assess the long-term impact of higher assessments on thrift profitability, estimates were made of the changes in returns on the book value of equity capital which might result under the rates in the transitional risk-based assessment schedule. Specifically, thrifts' 1991 returns on book value equity capital were adjusted to reflect the increase in operating costs (after-taxes) which might result from increased assessment rates.[15]

---

[11] To see this, consider the example of a thrift with a 5 percent equity capital and a 1 percent return on equity. In addition, assume that the thrift had an average tax rate of 25 percent and had assessable deposits equal to 60 percent of thrift assets. In this situation, a 7 basis point increase in the assessment rate would result in an 84 percent reduction in return on equity.

[12] For this core group of thrifts, the post-tax return on average assets (ROAA) was approximately 33 percent greater in 1991 than it was in 1990. On average, the institutions with the lowest capital-to-asset ratios showed the greater increase in ROAA over this time period.

[13] Tangible capital is reported on a consolidated basis. The number includes RTC conservatorship ROAA.

[14] Another factor that may influence ROAA is any deviation from a normal level of reserving for loan losses. However, the ratio of average loan loss provisions on interest bearing assets to assets did not change significantly between 1990 and 1991 for most core institutions.

[15] A simple expression can be derived to show how these factors will affect profitability.

(1) ROA' = [ROA—(Rate Increase)×(Assessment Base/Assets)×(1—T)]

where ROA' = adjusted return on assets, reflecting an increased assessment rate

ROA = thrift's original return on assets (net income/assets)

Rate Increase = new assessment rate—old assessment rate

T = thrift's average tax rate

The resulting impact on the return on equity will vary with thrifts' financial leverage.

(2) ROE' = [(ROA') × (assets/equity)]

Equation two states that the adjusted return on equity (ROE') is the product of the adjusted return

Continued

Using 1991 return on equity (ROE) as the benchmark, moving from the current assessment rate of 0.23 to the rates in the transitional risk-based assessment schedule is expected to lower the average institution's ROE by less than 5 percent. A total of 1,516 thrifts holding $560 billion in assets would have their ROEs reduced by less than 5 percent. An additional 181 institutions with $73 billion in assets would suffer a reduction in ROE of between 5 and 10 percent. The remaining 200 institutions with $87 billion in assets would have their ROE reduced by more than 10 percent. These results are presented in Table 4.

TABLE 4.—PERCENTAGE CHANGES IN RETURN ON EQUITY ASSOCIATED WITH THE RATES IN THE TRANSITIONAL RISK-BASED ASSESSMENT SCHEDULE

[SAIF-insured Thrifts, $ Millions]

Percentage change in ROE [1]	No.	Assets
Below −50 [2]	31	$6,583
−25 to −50 [2]	35	14,070
−15 to −25	50	20,505
−10 to −15	84	46,410
−5 to −10	181	73,367
0 to −5	1,516	560,134
All	1,897	721,069

[1] The percentage change in ROE was defined as the adjusted ROE minus the original ROE, divided by the absolute value of the original ROE; (ROE'-ROE)/abs(ROE).

[2] As noted above, thrifts with near zero earnings will experience a large percentage change in return on equity.

[3] *Id.*

III. Comments

A. Overview

The FDIC received 15 comments on the proposed rule, 7 from savings associations and 8 from industry trade groups. Four of the trade groups expressed support for the proposed increase. Two cited the need to maintain an adequately funded insurance system in order to ensure public confidence in the system. One group cited the need to recapitalize the SAIF within a reasonable period of time, as required statutorily. None of the thrifts supported the increase.

Five of the letters received opposed the assessment rate increase. Of this total, there were 3 savings associations and 2 trade groups. One of the thrift executives noted that while he opposed the increase he thought the logic behind the proposal was understandable.

B. Major Issues Raised

1. Need for the Increase

Based on the case presented in the proposed rule, 3 trade groups and 5 thrifts questioned the need for an assessment rate increase. The assumptions used by the FDIC staff were debated in these comment letters. One trade group noted that the FDIC assumptions were overall too conservative. One thrift asked where SAIF premiums had gone since the fund's inception. As noted in the proposed rule and as discussed above, as required by statute, since the creation of the SAIF in August 1989, with minor exception, all SAIF assessment revenue has been diverted to the FRF, the FICO, and the REFCORP.

Beginning January 1, 1993, SAIF assessment revenue will remain in the SAIF, except for the claims on that revenue required to fund the interest payments on bonds issued by the FICO. Given current projections, satisfying such interest payments will require approximately 35 percent of the SAIF's assessment income. Growth in assessment income is not projected to be sufficient to lower this burden significantly over the next few years.

In questioning the short-term failure projections used by the FDIC staff in determining the need for increasing the SAIF assessment rate, two thrifts noted that the thrift industry continues to improve, while another echoed this comment and added that provisions in recent legislation (*i.e.*, The Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (FIRREA) and the FDIC Improvement Act should result in lower projected failures. Given these improvements, and given the continued clean-up of the thrift industry by the Office of Thrift Supervision (OTS), it was argued that the SAIF should inherit a "clean" industry.

The Board acknowledges the improvements noted above and is hopeful that provisions in the applicable federal statutes will help mitigate the anticipated financial obligations of the SAIF. However, as discussed above, recent improvements in thrift industry profitability have been facilitated by lower interest rates which have increased thrift net interest margins. Changing economic conditions could mitigate this effect, slow the recovery of the thrift industry, and lead to additional thrift failures.

As noted in the proposed rule and above, while the FDIC cannot predict accurately the level of thrift failures, the only certainty in the future is that there will continue to be thrift failures, which eventually will be funded by the SAIF. As a result, the FDIC analysis utilized a variety of short-term and long-term thrift failure projections, ranging from a relatively "clean" industry by the time SAIF assumes resolution responsibility in October 1993 to a depressed scenario in which a larger number of thrifts require SAIF resolution. Thus, the failure projections used by the FDIC in the proposed rule (and above) included the positive factors mentioned in these comment letters, but also allow for the recurrence of negative factors.

A related question concerned inclusion of projected 1992 thrift failures in the FDIC's analysis, when the SAIF does not assume resolution responsibility until late in 1993. Thrift failures for 1992 were included in the FDIC's analysis in order to provide a benchmark for future failure projections. They were not used to support the need for an increase in the SAIF assessment rate.

The resolution costs assumed in the analysis also were questioned. Three resolution costs were used in the FDIC's analysis: 14, 17, and 20 percent. The lowest value reflects lower resolution costs associated with the OTS's Accelerated Resolution Program. The middle value approximates the expected future experience, given current trends. The high value reflects the experience of many resolutions post-FIRREA and assumes a continued downturn in economic conditions. The Board believes that these varied assumptions provide a reasonable basis on which to analyze future resolution costs.

One trade group disagreed with the statement that the long-term condition of the SAIF depends on the "number, size and timing of future thrift failures," but depends instead on the "number and size of future surviving institutions." The SAIF depends on future thrift failures in that losses from such failures will be deducted from the fund's balance. However, the trade group is correct in stating that the SAIF depends on survivor institutions, because assessment revenue is derived from this source. Hence, FDIC projections incorporated assumptions regarding growth in the assessment base.

One trade group questioned the 15-year recapitalization period used by the FDIC in determining the current need for an assessment rate increase. The letter specifically asked: "Where is the statutory phase-in language for SAIF-

---

on assets (ROA) and the equity multiplier (assets/equity).

Data on individual thrifts' 1991 average tax rates were used to adjust for the tax deductibility of assessments. In the event a thrift incurred losses in 1991 and/or received a tax credit, its tax rate was set to zero. although thrifts' earnings and hence capitalization will be reduced with higher assessments, for the purposes of this analysis, the adjusted ROEs were estimated using year-end 1991 assets-to-equity ratios in equation 2.

insured institutions?" It also inquired whether the Congress provided "additional flexibility for FDIC–SAIF premiums?" As noted above, section 7(b)(1)(D)(i) of the FDI Act (12 U.S.C. 1817(b)(1)(D)(i)) states that the assessment rate for SAIF members shall be such rate as the Board of Directors, in its sole discretion, determines to be appropriate—to increase the reserve ratio to the designated reserve ratio of 1.25 percent of estimated insured deposits within a reasonable period of time.

This provision of the FDI Act expressly authorizes the Board to use its sole discretion to determine the SAIF assessment rate in order to increase the SAIF reserve ratio to the designated reserve ratio within a reasonable period of time.

Section 7(b)(1)(D)(ii) of the FDI Act (12 U.S.C. 1817(b)(1)(D)(ii)) requires, however, that the Board consider certain factors in setting the SAIF assessment rate: the SAIF's expected operating expenses, case resolution expenditures, and income; the effect of the assessment rate on SAIF members' earnings and capital; and such other factors as the Board deems appropriate. Within these parameters the Board has significant flexibility in establishing the SAIF assessment rate. Based on its combined obligations to increase the SAIF reserve ratio to the designated reserve ratio within a reasonable period of time and to consider the above-noted statutory factors when establishing the SAIF member assessment rate, the Board believes that it is reasonable to use a 15-year period to project and achieve the designated reserve ratio of 1.25 percent. The assumptions and analyses for the projected achievement of the designated reserve ratio were discussed in the proposed rule and also are discussed above.

In a related comment letter, one thrift questioned the need for a 1.25 percent reserve ratio in a healthy industry. As noted above, in section 7(b)(1)(B)(ii) of the FDI Act (12 U.S.C. 1817(b)(1)(B)(ii)) Congress established the designated reserve ratio of 1.25 percent of estimated insured deposits.

Finally, 2 trade groups asked why the FDIC had not "demanded" the supplemental Treasury funding mandated by FIRREA. Section 11(a)(6)(E) of the FDI Act (12 U.S.C. 1821(a)(6)(E)) states that the Secretary of the Treasury shall pay to the SAIF, for each of the fiscal years 1993 through 2000, the amount, if any, by which $2,000,000,000 exceeds the amount deposited in such Fund (during such fiscal year). Section 11(a)(6)(F) of the FDI Act (*Id.* at 1821(a)(6)(F)) states that the Secretary of the Treasury shall pay to the Savings Association Insurance Fund, for each fiscal year from 1991 through 1999 any additional amount which may be necessary, as determined by the FDIC and the Secretary of the Treasury to ensure that such Fund has the minimum net worth referred to in the table provided as part of this subparagraph of the FDI Act.

Thus, under the FDI Act the Treasury is required to make available to the FDIC funds to supplement SAIF in two ways: first, as revenue supplements to SAIF annual assessments (net of FICO contributions) to ensure annual revenues of $2 billion for each of the fiscal years 1993 through 2000; and second, as payments to maintain the net worth of the SAIF according to the schedule in section 11(a) of the FDI Act. Also, section 11(a)(6)(J) of the FDI Act (*Id.* at 1821(a)(6)(J)), states that there are authorized to be appropriated to the Secretary of the Treasury, such sums as may be necessary to carry out the provisions of this paragraph 11(a)(6) of the FDI Act; however, section 11(a)(6)(J) also limits the Treasury net worth payments to $2 billion in each of the fiscal years 1992 and 1993 and to a cumulative total of $16 billion for fiscal years 1992 through 2000.

As stated in the proposed rule and discussed above, the Board believes that the Treasury funding requirements for the SAIF in section 11(a)(6) of the FDI Act are conditional upon the inability of SAIF members to pay sufficient assessments to fund the SAIF. In other words, Congress imposed these conditional funding obligations on the Treasury (and thus, the United States taxpayers) in order to provide a back-up if the SAIF-insured industry is incapable of fulfilling its obligation to recapitalize the SAIF. Section 11(a)(6)(E) of the FDI Act states that the supplemental payments must be made in an amount "if any" by which net assessments do not equal $2 billion. Likewise, section 11(a)(6)(F) of the FDI Act defines the minimum net worth maintenance funding amount as "any additional amount which may be necessary." The Board believes that this specific language in section 11(a)(6) supports the conclusion that the Treasury's funding obligations are contingent upon the amount of funding available through assessments paid by SAIF members.

As discussed above, the Board is obligated to establish SAIF assessment rates based on the requirement to achieve a designated reserve ratio within a reasonable period of time and in consideration of the factors enumerated in section 7(b) of the FDI Act, including the ability of the SAIF industry to pay the established assessment rate.

2. Negative Effects of the Increase on the Industry and Individual Thrifts

A majority of the letters received commented on the potential impact of the proposed increase on the thrift industry. Several letters suggested that the current 23 basis point assessment rate was already too burdensome for thrifts. One thrift noted that the rate should not be increased during a recession. Two trade groups suggested that the increase may hinder the lending ability of the thrift industry.

Most letters addressed the impact of an increase on thrift industry profitability, and several thrifts projected the impact on their financial statements. Earnings will be impacted, which is turn affects capital and dividend policies. A reduction in profitability and dividends could impact the ability to raise capital. Furthermore, one thrift suggested that more thrifts would fail as a result of the increased assessment rate.

The Board has considered the implications of these potential effects. As discussed in the proposed rule, the FDIC staff projected the impact of increased assessment rates on industry capital and earnings and found that an increase to the rates in the transitional risk-based assessment schedule will raise the number of thinly capitalized institutions (under 2 percent tangible capital) by 2 thrifts through 1995. These results also found that the increase will lower the average institution's return on equity by less than 5 percent. Given continued improvement in thrift industry profitability, the actual impact of the rate increase could be lower. Thus, the Board believes that the proposed rate increase will not place an undue burden on the thrift industry.

In addition to noting the possibility of reduced industry profitability, several letters commented on the competitive impact of the proposed increase. One trade group commented that the overall increase in regulatory burden puts thrifts at a competitive disadvantage. It was generally felt that the added expense from the premium increase would further erode the thrift industry's competitive position with non-insured financial institutions such as money market funds. One thrift suggested that 28 basis points approximates the total operating costs of an efficient mutual fund. Also, several letters stated that the additional costs associated with the increase could not be passed along to consumers due to competition from non-insured funds.

While it is likely that the rate increase will not be passed along to consumers in competitive markets, insured depository institutions offer a product that non-insured funds cannot offer: A federal guarantee behind depositors' money. Each investor will decide where to place funds based on individual preferences concerning factors such as the interest rate offered, additional services provided by the financial institution, and other features of the investment product, including deposit insurance. Insured depository institutions will continue to compete based on all features of their products.

C. Other Issues

One thrift and one trade group argued that banks have a competitive advantage over thrifts in the form of a lower effective assessment rate. This rate advantage exists because banks typically have a different liability structure, relying less on assessable deposits than thrifts. For this reason, three trade groups argued that the assessment rate for SAIF members should be no higher than the assessment rate for BIF members. A different liability structure does not necessarily put thrifts at a competitive disadvantage. Other funding sources are not always less costly for financial institutions than core deposits inclusive of premium expense. (A related issue, discussed below, is whether to broaden the assessment base and therefore eliminate this issue.)

In the same vein, two thrifts requested that the Board ensure that the decision to increase the SAIF premium be determined independent of the need to recapitalize the BIF. Conversely, a bank trade group argued that thrifts should pay at least as much as BIF members, because of the extensive use of taxpayers funds in covering thrift insurance losses.

In response to these comments on correlating the SAIF assessment rate with the assessment rate paid by BIF members, it is essential to note that section 7(b)(1)(A) of the FDI Act (*Id.* at 1817(b)(1)(A)) is entitled "Rate For Each Fund To Be Set Independently" and states that the FDIC shall fix the assessment rate of Bank Insurance Fund members independently from the assessment rate for Savings Association Insurance Fund members. Thus, the Board is statutorily required to set the SAIF and BIF assessment rates independently of each other and may not consider parity factors in establishing the respective rates. The SAIF and BIF assessment rates must each be set based on the respective applicable statutory requirements.

Finally, 2 thrifts asked to see a plan outlining the cost and timetable for cleaning up failed thrifts and banks. Recent legislation has provided the federal depository institution regulatory agencies with enhanced powers to facilitate the early closure of seriously weakened institutions. Resolution teams are in place, and have internal timetables. However, such confidential information is not available publicly. The costs of clean-up activities are made available to the public after resolution transactions have occurred.

D. Alternatives Proposed

The majority of letters received suggested that the assessment base be expanded to include all deposits, including foreign deposits. It was also recommended that the assessment base include off-balance sheet items and all liabilities. The reasoning behind these suggestions was that some commercial banks sustain a lower effective assessment rate because of their different liabilities structure, as discussed above. It was also suggested that by assessing all deposits the competitive advantage of institutions that are "too big to fail" would be eliminated.

The assessment base is currently prescribed by section 7(b) of the FDI Act (*Id.* at 1817(b) (4), (5) & (6)). The Board believes that the nature and scope of the assessment base should be reviewed, but currently does not have the authority to change the statutorily required components of that base. As provided for in section 302(a) of the FDIC Improvement Act of 1991, however, upon the establishment of a permanent risk-based assessment system (which must be in place no later than January 1, 1994) section 7(b) of the FDI Act will be amended to exclude a statutorily prescribed assessment base. Thus, at that time the Board will be authorized to establish an assessment base different from that currently found in section 7(b) of the FDI Act.

Also, section 141 of the FDIC Improvement Act provides that beginning January 1, 1995, the FDIC may not take any action, directly or indirectly, with respect to any insured institution that would have the effect of increasing losses to any insurance fund by protecting depositors for more than the insured portion of deposits or creditors other than depositors. This provision was intended to prevent the so-called too-big-to-fail treatment of depository institutions.

In addition, section 312 of the FDIC Improvement Act provides, in general, that the FDIC (among other federal entities) may not make any payment or provide any assistance in connection with any insured depository institution which would have the effect of satisfying any claim against the institution for obligations of foreign deposits.

Another issue raised was the extra burden shouldered by SAIF members with respect to Federal Home Loan Bank (FHLB) payments to the REFCORP. It was argued that this payment creates a competitive disadvantage for thrifts against non-FHLB member commercial banks. However, membership in the FHLB system does offer certain competitive advantages not available to non-members, such as access to long-term funding at relatively attractive rates. When the Board considered the impact of the assessment increase on overall thrift industry earnings, the Board recognized the effects of the FHLB payments. While the Board was cognizant of the need to prevent an undue burden on the industry, the assessment rate proposed was chosen in order to recapitalize the SAIF, and therefore is independent of the FHLB payments.

One thrift suggested that each thrift contribute what would amount to 1.25 percent of its deposits. Payments would be made monthly over five years. Monthly assessments would require a change in legislation. Furthermore, because the fund balance changes with time to reflect outflows due to insurance losses, 1.25 percent of thrift industry insured deposits today may not be sufficient to keep the SAIF in compliance with the designated reserve ratio five years from now.

One trade group recommended that since it questioned the FDIC staff assumptions, it would be wise to wait before raising premiums further. Statutorily, the Board is required to set premium rates in order to maintain the 1.25 percent ratio or increase the fund to this ratio within a reasonable amount of time. To be prudent in setting the SAIF on a path toward recapitalization (and, therefore, to comply with section 7(b) of the FDI Act), the Board is raising the SAIF-member assessment rate from a uniform rate of 0.23 percent to the rates listed in the transitional risk-based assessment schedule.

Subpart D. Transitional Risk-Based Assessment System

I. Statutory Background

As noted above, section 7(b) currently provides for a single, uniform assessment rate established by the FDIC for all BIF member institutions and a single, uniform rate for all institutions

that are members of the SAIF.[16] The assessment rate now in effect for members of both BIF and SAIF is 0.23 percent per annum.

Section 302(a) of the FDIC Improvement Act requires that the FDIC Board establish, by regulation, a risk-based assessment system. Section 302 of the FDIC Improvement Act also requires that regulations establishing the risk-based assessment system be published by the FDIC no later than December 31, 1992, promulgated no later than July 1, 1993, and become effective no later than January 1, 1994. Sections 302(c) and (g).

In addition to the risk-based assessment regulations required by section 302(a) of the FDIC Improvement Act, section 302(f) of that statute authorizes the FDIC to promulgate regulations governing the transition from the assessment system in effect on the date of enactment of the statute to the assessment system required under section 302(a) of the statute. Pursuant to its authority under section 302(f), the FDIC proposed regulations providing for a transitional assessment system. As noted above, that proposal was published in the **Federal Register** on May 21, 1992, for a 60-day public comment period ending July 20, 1992.

The transitional system was proposed as a preliminary step toward the risk-based system the Board is required to implement by January 1, 1994 (hereinafter referred to as the "permanent" risk-based assessment system). As proposed, the transitional system would become effective January 1, 1993, and remain in effect until implementation of the permanent risk-based assessment system one year later. Under this approach, the FDIC and other interested parties would have an opportunity to evaluate the impact and effectiveness of the various components of the transitional system prior to the statutory deadlines for finalizing and implementing the permanent risk-based assessment system.

II. Description of the Proposed Transitional System

Under the transitional system as proposed by the Board, the rate at which FDIC-insured institutions—both BIF and SAIF member institutions—would pay assessments and would be determined on the basis of capital and supervisory measures. For the capital measure, institutions would be assigned to one of three capital groups—"well capitalized", "adequately capitalized", or "less than adequately capitalized". The first two groups would be defined by application of the capital-ratio standards (consisting of total risk-based, Tier 1 risk-based, and leverage capital ratios) proposed for prompt corrective action (PCA) purposes under section 131 of the FDIC Improvement Act. The third group would consist of those institutions not qualifying for one of the first two groups.[17]

On July 6, 1992, the Board issued its proposed PCA regulation which included definitions of the capital categories for PCA purposes. 57 FR 29663. Based on those definitions (which were, pursuant to the Board's transitional risk-based assessment proposal, automatically incorporated into that proposal) the capital categories for transitional risk-based assessment purposes would be as follows:[18]

1. *Well Capitalized.* Total risk-based ratio, 10.0 percent or greater; AND Tier 1 risk-based ratio, 6.0 percent or greater; AND Tier 1 leverage ratio, 5.0 percent or greater.

2. *Adequately Capitalized.* Institutions that do not meet the standards for well capitalized but which do meet the following standards: Total risk-based ratio, 8.0 percent or greater; AND Tier 1 risk-based ratio, 4.0 percent or greater; AND Tier 1 leverage ratio, 4.0 percent or greater.

3. *Less Than Adequately Capitalized.* Total risk-based ratio, less than 8.0 percent; OR Tier 1 risk-based ratio, less than 4.0 percent; OR Tier 1 Leverage ratio, less than 4.0 percent.

Within each capital group, institutions would be assigned to one of three supervisory subgroups—"healthy", "supervisory concern", or "substantial supervisory concern". "Healthy" institutions would be those that are financially sound with only a few minor weaknesses. Institutions raising "supervisory concern" would be those with weaknesses which, if not corrected, could result in significant deterioration of the institution and increased risk to the BIF or SAIF. Institutions raising "substantial supervisory concern" would be those that pose a substantial probability of loss to the BIF or SAIF unless effective corrective action is taken. The proposal indicated that the FDIC would assign institutions to supervisory subgroups on the basis of supervisory evaluations provided by the institutions's primary federal supervisor and, if applicable, state supervisor, and such other information as the FDIC determines to be relevant to the institution's financial condition and the risk posed to the BIF or SAIF, including such information as call report data and analysis and debt ratings.

Under the proposal, there would be nine combinations of groups and subgroups (or assessment risk classifications), to which varying assessment rates would be applicable. The rates were expressed in the proposal in terms of deviations from an "average" rate (that is, the rate achieved by dividing total assessment income by the total assessment base), which is essentially the conceptual equivalent of what is now the uniform rate. Under the proposed schedule, set out below, institutions qualifying as both "well capitalized" and "healthy" would pay assessments at a rate 3 basis points below the "average" rate, while institutions falling into the "less than adequately capitalized" group and the "substantial supervisory concern" subgroup would pay 3 basis points above the "average" rate.

PROPOSED RISK-RELATED ASSESSMENT SCHEDULE

	Healthy	Supervisory concern	Substantial supervisory concern
Well Capitalized	a−3	a	a+2
Adequately Capitalized	a	a+2	a+2
Less than Adequately Capitalized	a+2	a+2	a+3

For the transitional risk-based assessment system, the Board proposed that the FDIC provide each institution notice of its assessment risk classification and rate for the next semiannual assessment period no later than one month before the beginning of that period. Thus, for the semiannual

[16] At present, section 7(b)(1)(D) of the FDI Act imposes on SAIF members an assessment rate of not less than 0.23 percent. However, the FDIC is authorized to increase the rate beyond this level.

[17] The use of the terms "well capitalized" and "adequately capitalized" for risk-based premium purposes are not intended as, and should not be viewed as implying, an endorsement by the FDIC of an institution's safety and soundness. There may be institutions that meet the standards for inclusion in these capital categories that are not operating in a safe and sound manner.

[18] These assessment definitions reflect only the capital-ratio standards from the proposed PCA definitions, which include other elements as well. In particular, the proposed PCA definitions include a condition that in order to be considered "well capitalized", an institution cannot be subject to any order or final capital directive to meet and maintain a specific capital level. Similarly, under the proposed PCA definitions, CAMEL-1 rated institutions not experiencing or anticipating significant growth are permitted to have a leverage capital ratio as low as 3.0 percent and, potentially, still qualify as "adequately capitalized". These elements are not incorporated in the definitions of the capital groups for risk-based assessment purposes. In the risk-based assessment context, these elements are more appropriately considered with regard to supervisory subgroup determinations.

period beginning January 1, 1993, notice would be given no later than December 1, 1992. The institution would be assigned to a capital group based on data reported in its Report of Income and Condition as of the preceding June 30 (for the assessment notice due December 1) or December 31 (for the notice due June 1) or in the Thrift Financial Report with the closest date to June 30 or December 31 that includes the relevant capital data.

The proposal contemplated an informal process by which an institution disagreeing with the assessment risk classification assigned to it by the FDIC could seek review of that classification. The contemplated procedure involved review, first at the FDIC regional level and then (if the dispute remained unresolved) at the headquarters level, within the FDIC's Division of Supervision, at least to the extent the matters in dispute involved FDIC determinations rather than determinations of the institution's primary regulator(s). Until the completion of any review, the institution would be expected to make timely assessment payment at the rate assigned, with any adjustments to be made once the review process was completed.

It was similarly proposed that, in the event an institution did not receive notice of its assessment risk classification by the first day of the assessment period, its premium would be payable at the "average" rate and any necessary adjustment would be made after notice of the institution's assessment risk classification was provided by the FDIC.

The proposal also stated that the Board was considering the imposition of broad restrictions on the disclosure of information pertaining to an institution's assessment risk classification, and required bridge banks and institutions in FDIC or Resolution Trust Corporation conservatorships to pay the "average" assessment rate.

In addition to providing for a transitional risk-based assessment system, the proposal included other, unrelated amendments to the FDIC assessment regulations. These revisions would update subpart D of part 327 to conform it to the "Oakar" provisions of section 501 of the FDIC Improvement Act, and update § 327.7 of the regulations to conform it to current Treasury Department value-of-funds policies.

The public comment period for the proposal has expired and the comments have been reviewed and analyzed. Taking into account these comments and other relevant considerations, the Board has decided to adopt the proposal largely unchanged except for a two basis-point increase in the rate spread and a revision of the review process. The comments received and the FDIC's responses are summarized below.

III. Discussion of Comments Received

The FDIC received 209 letters commenting on the proposal. Among the commenters were 133 banks, 25 thrift institutions, 23 depository institution holding companies, and 22 associations. Other commenters included state banking regulators, individuals, and law firms.

The principal issues raised in the comment letters fell into the following broad categories: The risk measures to be used; the risk classifications; the rate schedule; timing issues; disclosure restrictions; and the review process.

Each of these subjects is addressed below, together with other relevant issues.

A. Risk Measures

In its proposal, the FDIC requested comment regarding the use of capital and supervisory factors as risk measures, and on the specific measures proposed, including comment on whether premium rates should be based on solely objective factors instead of, or in addition to, the proposed capital ratios and supervisory evaluations.

A large number of commenters addressed this topic. Most of this group agreed with the use of capital to measure risk. Although many suggested other indicators—such as asset quality, earnings, asset concentration, interest rate risk, credit risk, and excessive growth—to be used in lieu of or in addition to capital ratios, no clear preference for any particular non-capital indicators emerged. The primary supervisory factors identified in the letters were CAMEL or MACRO ratings and examination reports.

A number of letters commented on whether premium rates should be based on solely objective factors. The appropriate balance between objective and subjective standards was an issue addressed by 124 commenters. Of these, 74 favored some combination of the two elements, including 20 that suggested greater emphasis on objective factors and four that preferred more emphasis on subjective factors. The remaining 51 of the 74 commenters seemed satisfied with the balance reflected in the proposal. Out of the universe of 124 commenters addressing this topic, 49 stated a preference for objective measures exclusively. The primary reason indicated for preferring a combination of objective and subjective factors was that neither one alone could be relied upon to present a full picture of the institution's condition.

A majority of commenters recommended greater reliance on objective factors. Among this group, the principal concerns expressed regarding the use of subjective measures included perceived inconsistencies among examiners; the need for clear, well-defined standards to which institutions can respond in order to reduce their premiums; the increased tension that could develop between examiners and institutions; the perception that examiners are slow to upgrade their evaluations of troubled institutions on the mend; and the relative infrequency of examinations. A number of commenters noted that if assessment rates were based on objective factors alone, the need for an appeals procedure and disclosure restrictions would be reduced or eliminated.

Among those commenters recommending a secondary role for subjective measures, a few offered specific suggestions regarding an appropriate balance. For example, several letters urging that risk classifications be determined primarily on objective measures further recommended that supervisory evaluations be taken into account only for institutions of supervisory concern. In another vein, several commenters argued that both the proposed capital and supervisory measures are lagging indicators, and recommended use of leading indicators such as asset quality, concentration, and interest rate risk.

The Board appreciates that the use of supervisory factors as a measure or risk has certain aspects. The Board also appreciates that there are negative aspects to the use of objective factors. Like a number of the commenters addressing this matter, the Board believes that a combination of the two elements is a better approach than the use of either objective or subjective measures alone.

The Board continues to believe that the ongoing supervisory monitoring process, which encompasses a variety of formal and informal contacts with insured institutions, produces more and better information concerning an institution's risk exposure than can be obtained solely from financial reports. A risk measurement system that relies solely on data stated in bank Reports of Income and Condition or Thrift Financial Reports (collectively referred to hereinafter as "financial reports") would in many cases not adequately capture important risk factors, such as loan underwriting standards,

management quality, or other operational elements that can substantially affect the FDIC's risk exposure. Accordingly, the Board believes that a risk-based insurance system in which supervisory factors play an important role is likely to lead to less inequity in the pricing of risk than one based exclusively, or almost exclusively, on reported financial data.

At the same time, the Board recognizes the value of more objective measures. As noted by some of the commenters, a desirable attribute of a risk-based premium system is to give weak institutions an immediate financial reward for improving their condition, as reflected by a quantitative, well-defined indicator. Such an immediate, financial reward is provided by a system that bases premiums in part on the institutions' capital ratios as derived from data on their financial reports; by meeting specific capital-ratio standards, weak institutions will be able to reduce their deposit insurance premiums. Greater capital increases the cushion against loss, both for the institution and for the FDIC, and increases the owners' stake in a sound operation. Thus, the Board continues to believe that capital ratios should play an important role in a risk-based premium system.

Accordingly, the Board has adopted, without revision, the risk measures used for the proposed system.

B. Risk Classifications

In its proposal, the FDIC invited comment regarding the definitions to be used for the respective assessment risk groups and subgroups included in the proposal, and on whether a separate category should be added for institutions posing minimal risk to the deposit insurance funds. With regard to the latter issue, comment was requested as to how such a category should be defined, including comment regarding the use of ratings assigned to an institution's debt by nationally recognized private firms and on any additional role appropriately played by capital ratios.

There was virtually no comment directly addressing the definitions proposed for the various assessment risk classifications. One comment letter expressed concern that there were gaps between the definitions of the three supervisory subgroups; another noted that other pending or upcoming regulatory proposals could alter an institution's capital position and that the capital definitions finally adopted could affect bankers' views of the proposed assessment system.

The Board has decided to adopt the definitions stated in the proposal.[19] However, it has also decided to redesignate as "undercapitalized" the capital group titled "less than adequately capitalized" under the proposed system. This change is intended to make the nomenclature for the risk-based insurance system more closely coincide with the capital categories for PCA purposes under the FDIC Improvement Act. In addition, the Board has decided to rename as subgroups "A", "B", and "C" the supervisory categories previously denoted respectively as "healthy", "supervisory concern", and "substantial supervisory concern". This change should simplify both oral and written references to these categories.

On September 15, 1992 (the same date on which the Board adopted this final rule), the Board adopted the final PCA rule. As indicated above in the description of the transitional risk-based assessment proposal, the PCA capital-ratio standards for "well capitalized" and "adequately capitalized" have been incorporated into this final rule on the transitional risk-based assessment system.

In addition to drawing upon capital-ratio standards and nomenclature from the PCA provisions, the Board is also incorporating into the final risk-based assessment rule a provision from the PCA regulation prohibiting the use of PCA capital-category assignments for non-PCA purposes. The primary purpose of the PCA provision is to prohibit an institution's use of its PCA capital-category assignment for advertising or other promotional purposes. The reason for the prohibition is that this information alone, when used out of context, can be easily misunderstood. For example, a prospective depositor might interpret an institution's advertisement that it is considered "well capitalized" by the FDIC as an endorsement by the FDIC of the soundness of the institution. The same risk arises with regard to capital categories assigned by the FDIC for risk-based assessment purposes.

In contrast to the definitions of the various risk classifications, the question concerning the addition of a minimal-risk category received a significant level of attention. Of the 32 commenters addressing the issue, 30 generally indicated agreement with the creation of such a category, and most opined that it should be defined in terms of capital. It was suggested by one commenter that an "extremely well capitalized" group could be established, defined in terms of capital in excess of a two percent differential above the "well capitalized" levels. Another commenter suggested defining the minimal risk group as those institutions with ten percent leverage capital and 20 percent risk-based capital.

Among those who thought a minimal-risk category should be established, seven indicated that private debt ratings could appropriately play a role in its definition, either as the sole defining factor or in conjunction with a capital threshold. Details regarding the role to be played by private debt ratings were generally not provided.

The possible use of private debt ratings as a risk factor generated a number of negative responses. A concern noted by several commenters was that such ratings are available for relatively few FDIC-insured institutions. Other concerns expressed by commenters included the incompatibility of the incentives of, and the information bases available to, the FDIC and private rating firms. Inconsistencies in the purposes of private debt ratings and federal deposit insurance were also noted. However, one commenter suggested that the value of private debt ratings was that they provide an alternative view to that of the institution's regulators.

In short, the commenters addressing this issue exhibited a clear preference for establishing a category of minimal-risk institutions based on capital measures.

While the Board recognizes the merits of this view, it believes that the establishment of such a category is more appropriately considered in connection with the permanent risk-based assessment system to be proposed by the FDIC in the near future, rather than as an element of the transitional system. Establishing a lower premium for minimal-risk institutions would require increasing premiums for riskier institutions in order to maintain adequate revenue. The Board believes such an increase could have an unduly harsh effect on weak institutions, especially in connection with the wider range of rates the Board has decided to adopt for the assessment rate schedule, as discussed below.

In light of the many negative comments concerning the use of debt ratings as a measure for defining a minimal-risk category, the Board has also decided to eliminate debt ratings as a factor to be considered in determining supervisory subgroup assignments.

[19] For purposes of assigning capital categories, risk-based ratios will be estimated by the FDIC using the method agreed upon by the Federal Financial Institutions Examination Council.

C. The Rate Schedule

In its proposal, the Board invited comment on the risk-related rate schedule, including the degree of rate gradations among the assessment risk classifications. A large portion of the comment letters received addressed the proposed six basis-point rate spread.

Of the 95 commenters that addressed the rate spread, 89 indicated that the proposed spread was too narrow—that is, that the rate differences across the various classifications are an insufficient reflection of the differences in the level of risk. It was suggested that the proposed rate spread did not provide sufficient incentives, that the differences between various classifications should be widened, or that the number of classifications should be reduced.

A variety of suggestions for widening the schedule were offered. For example, widening the schedule at both ends, by lowering the rate for the lowest risk classification and raising it for the highest risk classification, was suggested. Specific rate spreads varying from a 10 basis-point range to a 20 basis-point range were mentioned, and a number of letters suggested that the rate paid by the lowest-risk institutions should not be increased above 23 basis points or should be reduced. Several commenters suggested that the spread should be widened over time, indicating that this could be accomplished in the permanent risk-based assessment system.

The possibility of incorporating annual or semi-annual incremental increases, or "ratcheting", of premium rates for high risk institutions that do not improve their condition over time was the subject of several comments. In general, those commenting were not in favor of ratcheting. It was suggested that establishing wider spreads in the rate schedule would be a viable alternative.

Upon consideration of the overwhelming preference of commenters for a wider spread between the rates paid by the weakest and the strongest institutions, the Board has decided to increase from six to eight basis points the difference between the highest and lowest premium rates. While the Board recognizes that an eight basis-point spread does not adequately reflect the difference in risk to the FDIC between the weakest and strongest institutions, it believes that a relatively modest rate spread is appropriate at this time. Widening the spread beyond eight basis points while still maintaining adequate assessment revenue would require that the highest premium rates be very high indeed. The Board is concerned that imposing even greater rate increases for weaker institutions could, at this early stage in the development of a risk-based assessment system, cause a degree of disruption and hardship for such institutions that is inconsistent with the spirit of a transitional system. The Board anticipates that it will give serious consideration to wider increments between insurance categories, as well as ratcheting of premium rates for high-risk institutions that do not improve their condition, when it addresses a proposal for a permanent risk-based assessment system later this year.

In addition to increasing the spread between the highest and lowest premium rates, the Board has decided to adopt a rate schedule that expresses rates in terms of an actual number of basis points, rather than in deviations from an "average" rate. The shifting distribution of institutions among the various cells in the schedule (due to changes in their condition and, thus, assessment risk classifications) would tend to make a schedule stated in terms of an "average" rate internally inconsistent; it could yield in one assessment period the amount of income that would have been derived from the "average" rate, but yield a different amount in another period.

The final schedule adopted by the Board separately for both BIF and SAIF members, expressed in terms of actual basis points, is set out below.

FINAL SCHEDULE

Capital group	Supervisory subgroup		
	A	B	C
Well Capitalized	23	26	29
Adequately Capitalized	26	29	30
Undercapitalized	29	30	31

D. Timing Issues

1. Timing of Implementation of the Proposed System

Under the proposal, the transitional risk-based assessment system would take effect for the assessment period beginning January 1, 1993. The proposal requested comment as to whether the system should be put into place at a different time or, alternatively, not be implemented at all and action deferred until implementation of the permanent system.

Responses on this topic were received from 92 commenters. Of this number, 73 favored proceeding with the transitional system on the timetable proposed. Among the remaining responses, a few commenters suggested that the intervening time be spent in more thorough planning or to undertake a "dry run" in the form of a "hands-on simulation" without assessments actually being affected. Others suggested a six-month delay until July 1993.

The Board agrees with the majority of the commenters addressing the issue that a transitional system should be implemented and that it should be effective for the assessment period beginning January 1, 1993. The Board believes that there are significant benefits to be realized from having a preliminary, operational system in place while the elements of the permanent system are under consideration. One benefit which the commenters addressing the issue seem very clearly to realize, and endorse, is that the current high levels of deposit insurance premiums make desirable the timely implementation of an assessment system, even a preliminary system, with risk-related pricing.

2. Date of Determination of Risk Classification

Under the proposal, a bank's capital group would be determined on the basis of data reported in its Report of Income and Condition as of June 30 (for the assessment period beginning the next January) or December 31 (for the assessment period beginning the next July), and, for thrifts, the Thrift Financial Report data as of the date closest to June 30 or December 1 that includes the necessary capital data. Comment was requested regarding these dates and on the possibility of having a general cut-off date for all information to be considered in assigning assessment risk classifications.

Of the 21 commenters addressing these issues, 16 opined that the cut-off dates for the capital data are too early. Among these commenters, the consensus view appeared to be that the capital cut-off dates should be moved up one quarter, to September 30 and March 31, respectively. The desirability of using capital information that is as timely as possible was the principal argument cited for using later financial reports. Another argument was that if June 30, 1992, data were the basis for the capital group assignments applicable to the semiannual assessment period beginning January 1, 1993, then institutions would not have had a meaningful opportunity before June 30, 1992, to increase capital in order to reduce insurance premiums for that first assessment period.

There was less of a consensus on a general cut-off date for new information

to be considered in assigning assessment risk classifications. However, a general preference for the use of the most recent data possible was indicated.

The reasons cited in the proposal for the relatively early cut-off dates for capital data were the time needed for receiving, processing, editing, and analyzing the requisite data, and the importance of providing institutions with reasonable notice of their assessment risk classifications. Indeed, some commenters suggested that such notice should be provided earlier than proposed, in one instance up to three months before the beginning of the semiannual assessment period.

The Board is mindful that the proposed dates may present problems in some instances. This is particularly the case for institutions whose capital position will have substantially improved between July 1 and September 30 of 1992, since their capital group will be determined on the basis of June 30, 1992, data.

However, the timing constraints affecting the cut-off dates have not changed and, after consideration of the comments received, the Board continues to believe that its proposed cut-off dates reflect a reasonable balance between the desirability of considering the most recent information, properly edited and analyzed, and the importance of providing timely assessment notices. The decision to use June 30, 1992, capital data for the assessment period beginning January 1, 1993, should have no impact on the majority of institutions, which are expected to qualify for the lowest assessment rate, nor should it affect most other institutions.

E. Review Process

Another matter on which the Board requested comment involved a process by which institutions disagreeing with their assessment risk classification assignment might request review of the classification. The proposal indicated that the FDIC was contemplating an informal procedure under which institutions could first seek FDIC review at the regional level and then, provided certain standards were satisfied, by the Division of Supervision in Washington, DC.

Many of the 40 comment letters that addressed the review process outlined in the proposal expressed some concern regarding the impartiality of a review undertaken by the same offices responsible for determining the institutions' assessment risk classification assignments, with whether there would be consistency in the review process, or with the proposed standards for review at the national level. In contrast, some commenters approved of the process described or questioned whether a review procedure was needed. A number of commenters suggested that bankers or some other "independent" person(s) be involved in reviewing disputed assessment classification assignments.

In response to the comments received, the Board has decided to revise the procedure outlined in the proposal. Under the final rule, institutions disagreeing with their assessment risk classification assignment may submit a request for review of their classification directly to the FDIC Division of Supervision in Washington, DC. Requests for review must be submitted in writing within 30 days of the date of the notice informing the institution of its assessment risk classification. A request for review may include a request for an informal hearing. Institutions submitting timely requests for review will be informed in writing by the FDIC of its decision on the review.

A statement describing the review procedures will be provided by the FDIC to each institution along with its assessment risk classification notice. Also provided with the notice will be an outline of the FDIC's procedure for determination of assessment risk classifications.

The Board notes that the review process is not intended to address an institution's disagreement with the supervisory evaluations provided by its primary federal regulator. Any such disagreement should be taken up with the primary federal regulator under the appropriate procedure for reviewing such evaluations.

F. Disclosure Restrictions

In its proposal, the Board noted that because of the sensitive nature of the supervisory information underlying an institution's assessment risk classification, the Board was considering the imposition of broad restrictions on the disclosure of such information. 57 FR 21620, May 21, 1992. However, in order to avoid unnecessary regulation, the Board sought comment as to the nature and extent of appropriate disclosure restrictions, including what exemptions should be permitted.

The topic was addressed by 67 letters. Eight commenters opined that public disclosure of an institution's risk classification or premium rate was acceptable. However, the overwhelming majority of those commenting on the issue expressed the opposite view. Fifty-nine of the 67 letters indicated that confidentiality regarding risk classifications and rates should be maintained. Even so, a number of commenters expressed concern regarding the likelihood of success in attempting to keep the information confidential. Twenty of the 59 commenters who were against disclosure argued for reduced reliance on supervisory factors in determining assessment risk classifications. Only a couple of commenters offered somewhat specific suggestions regarding possible exemptions from broad disclosure restrictions.

The Board acknowledges the concerns raised in the comments regarding confidentiality and recognizes the possibility of third parties undermining such confidentiality through efforts to determine institutions' assessment risk classifications. At least for purposes of the transitional system, the Board has decided that the imposition of broad restrictions on disclosure of an institution's supervisory subgroup assignment is an appropriate course of action. However, the Board expects to consider this matter further in connection with the permanent risk-based assessment system.

Thus, with regard to the transitional system, the Board has determined that the supervisory subgroup to which an institution is assigned for assessment rate purposes is confidential information and falls within the scope of section 309.5(c)(8) of the FDIC's regulations, 12 CFR 309.5(c)(8), which generally exempts from public disclosure:

> [r]ecords contained in or related to examination, operating, or condition reports by or on behalf of, or for the use of, the FDIC or any agency responsible for the regulation or supervision of financial institutions.

As exempt information under this provision, such information would also be subject to the provisions of 12 CFR 309.6, which, except in certain specified circumstances, prohibits disclosure of the information not only by the FDIC but also by any entity to whom the information is made available, including an FDIC-insured institution or any director, officer, employee, or agent thereof.

G. Other Issues

1. Payment of "Average" Rate When Assessment Notice Not Received, and Payment of Assigned Rate Pending Appeal

Under the proposal, institutions that have not received assessment notices would be required to pay the "average" assessment rate until they receive notice of their assigned rate. Similarly, institutions seeking review of their classification assignments would be

required to pay the assigned rate until the review is completed and a determination made that the institution is eligible for a lower rate. Several commenters addressed at least one of these elements, in large part questioning the fairness of requiring institutions initially to pay what might be a higher rate, rather than permitting them to pay the lower rate first and, if necessary, make additional payment later.

Also included in the proposal was the provision that in the situations cited above, if it were determined that the institution was in fact eligible for a lower rate, the amount of overpayment would be returned by the FDIC with interest. In the Board's view, this provision substantially mitigates any unfairness that might be associated with the requirement for initial payment of a higher rate.

Accordingly, as to these matters, the Board has decided to adopt the relevant provisions of the rule as they were initially proposed, except with regard to the use of the term "average" rate. In lieu of that term, the final rule identifies the relevant rate as the rate applicable to institutions classified as adequately capitalized "A" institutions. Under the proposal, the rate applicable to such institutions was in fact the "average" rate; thus, the change in terminology does not reflect any change in the Board's approach regarding payment of assessments by institutions that have not received timely assessment notices. Instead, it reflects the Board's decision to adopt an assessment rate schedule stated in terms of specified rates rather than in terms of deviations from an "average" rate.

2. Treatment of Bridge Banks and Conservatorships

Under the Board's proposal, bridge banks (banks provided for in section 11(n) of the FDI Act, 12 U.S.C. 1821(n)) and insured institutions in FDIC or Resolution Trust Corporation (RTC) conservatorships would be required to pay the "average" assessment rate. Comments were requested on this proposed treatment of such institutions.

Seven of the 209 comment letters addressed this issue. Six of these felt that these institutions should be charged the highest assessment rate. One commenter suggested that these institutions be required to pay assessments at the last rate charged before government intervention.

While the Board recognizes that these government-controlled institutions compete for deposits with private sector firms, competitive equity considerations do not fully warrant that they pay the highest premium. Government-controlled institutions are not expected to incur any new losses arising from loans made during the period of such control. Indeed, on this account, it could be argued that they should pay the lowest premium applicable to insured institutions. In addition, resolutions of institutions under RTC conservatorship are financed by taxpayers. For the insurance funds to charge the highest premium rate to taxpayer-supported institutions would seem to the Board to be inappropriate.

Accordingly, the Board adopts the approach reflected in the proposed rule. However, as discussed above, the final rule identifies the relevant rate in terms of the rate applicable to adequately capitalized "A" institutions rather than in terms of an "average" rate.

3. Treatment of Banks in a Multi-Bank Holding Company

An issue raised by several commenters concerned the application of a single rate to all banks within a multi-bank holding company, based on consolidated holding company data. Some commenters cited the cross-guarantee provisions of the FIRREA in support of this position, arguing that because of these provisions the consolidated holding company is the most appropriate unit of analysis for measuring the FDIC's risk exposure.

This approach has certain appealing features. In order to implement this suggestion, however, the FDIC would have to become involved in evaluating the strength of holding companies. This would involve a considerable philosophical departure from the FDIC's traditional role of monitoring and insuring individual institutions. In addition, there are concerns about the practical aspects of applying a lower premium based on a holding company's obligation instead of its actual performance. If a holding company is in fact strong, then that strength should be reflected in the balance sheets and condition of its subsidiary institutions. For these reasons, the Board declines to act on the suggestion at this time, but may revisit the issue in the context of the permanent risk-based assessment system.

4. Differentiation by Size

In its proposal, the Board requested comment as to whether separate risk-related systems based on size distinctions should be established under section 302(e) of the FDIC Improvement Act with regard to the permanent risk-based assessment system, as expressly authorized by that statute. Twenty-two commenters addressed this issue. Of these, 12 indicated that separate systems based on size were not appropriate. Of the 10 commenters indicating that separate systems should be created, 9 suggested using size differences and one suggested a separate system for rural institutions. The establishment of separate systems based on affiliation in a holding company was also suggested.

At this time, the Board is not convinced of the need to establish separate systems based on size. It is not clear why two institutions with the same capital ratios and the same supervisory evaluations should pay potentially different premium rates solely because of their respective sizes.

5. Redefinition of the Assessment Base

A number of commenters made suggestions regarding the assessment base upon which BIF and SAIF assessment payments are calculated. This issue also was raised in connection with the proposed increase in the BIF member assessment rate and is addressed above.

6. Other Proposed Amendments

In its proposed amendments to the assessments regulations, the Board included revisions unrelated to the transitional risk-based assessment system. These revisions would update § 327.7 and subpart D of part 327 of the regulations.

No comment was received on these changes. Accordingly, the Board has adopted the relevant amendments as proposed, with the exception of a technical change in § 327.32(b)(1)(i) to further clarify that the transitional risk-based assessment system applies with respect to "Oakar" institutions.

List of Subjects in 12 CFR Part 327

Assessments, Bank deposit insurance, Financing Corporation, Savings associations.

For the reasons set forth in the preamble, part 327 of chapter III of title 12 of the Code of Federal Regulations is amended to read as follows:

PART 327—ASSESSMENTS

1. The authority citation for part 327 continues to read as follows:

Authority: 12 U.S.C. 1441, 1441b, 1817–1819.

2. Section 327.3 is amended by adding paragraphs (d), (e), (f), (g) and (h) to read as follows:

§ 327.3 Payment of semiannual assessments.

* * * * *

(d) *Annual assessment rate*—(1) *Assessment risk classification.* For the

purpose of determining the annual assessment rate for BIF members under § 327.13(c) and the annual assessment rate for SAIF members under § 327.23(d), each insured institution will be assigned an "assessment risk classification". By the first day of the month preceding each semiannual period, each institution will be provided notice of its assessment risk classification for that period. Each institution's assessment risk classification, which will be composed of a group and a subgroup assignment, will be based on the following capital factors and supervisory evaluations:

(i) *Capital factors.* Institutions will be assigned to one of the following three capital groups on the basis of data reported in the institution's Report of Income and Condition, or Thrift Financial Report containing the necessary capital data, for the report date that is closest to the last day of the seventh month preceding the current semiannual period.

(A) *Well capitalized.* For assessment risk classification purposes, the short-form designation for well-capitalized institutions is "1".

(*1*) Except as provided in paragraph (d)(1)(i)(A) (*2*) of this section, this group consists of institutions satisfying each of the following capital ratio standards: Total risk-based ratio, 10.0 percent or greater; Tier 1 risk-based ratio, 6.0 percent or greater; and Tier 1 leverage ratio, 5.0 percent or greater.

(*2*) For purposes of assessment risk classification, an insured branch of a foreign bank shall be deemed to be well capitalized if the insured branch maintains the pledge of assets required under 12 CFR 346.19, and the eligible assets prescribed under 12 CFR 346.20 at 108 percent or more of the preceding quarter's average book value of the insured branch's third-party liabilities.

(B) *Adequately capitalized.* For assessment risk classification purposes, the short-form designation for adequately capitalized institutions is "2".

(*1*) Except as provided in (d)(1)(i)(B)(*2*) of this section, this group consists of institutions that do not satisfy the standards of "well capitalized" under this paragraph but which satisfy each of the following capital ratio standards: Total risk-based ratio, 8.0 percent or greater; Tier 1 risk-based ratio, 4.0 percent or greater; and Tier 1 Leverage ratio, 4.0 percent or greater.

(*2*) For purposes of assessment risk classification, an insured branch of a foreign bank shall be deemed to be adequately capitalized if the insured branch:

(*i*) Maintains the pledge of assets required under 12 CFR 346.19;

(*ii*) Maintains the eligible assets prescribed under 12 CFR 346.20 at 106 percent or more of the preceding quarter's average book value of the insured branch's third-party liabilities; and

(*iii*) Does not meet the definition of a well capitalized insured branch of a foreign bank.

(C) *Undercapitalized.* For assessment risk classification purposes, the short-form designation for this group is "3". This group consists of institutions that do not qualify as either "well capitalized" or "adequately capitalized" under paragraphs (d)(1)(i) (A) and (B) of this section.

(ii) *Supervisory evaluations.* Within its capital group, each institution will be assigned to one of three subgroups on the basis of supervisory evaluations by the institution's primary federal supervisor and, if applicable, state supervisor; and such other information as the Corporation determines to be relevant to the institution's financial condition and the risk posed to the BIF or SAIF. The three supervisory subgroups are:

(A) *Subgroup "A".* This subgroup consists of financially sound institutions with only a few minor weaknesses;

(B) *Subgroup "B".* This subgroup consists of institutions that demonstrate weaknesses which, if not corrected, could result in significant deterioration of the institution and increased risk of loss to the BIF or SAIF; and

(C) *Subgroup "C".* This subgroup consists of institutions that pose a substantial probability of loss to the BIF or SAIF unless effective corrective action is taken.

(2) *Classification notice not provided; applicable assessment rate.* Any institution to which notice of its assessment risk classification for the current semiannual period is not provided by the first day of the period shall preliminarily compute its assessment based on the rate applicable to the classification designated "2A" in the rate schedule set forth in § 327.13(c)(2), if the institution is a BIF member, or the schedule in § 327.23(d)(2), if the institution is a SAIF member. If such institution is subsequently assigned for that period an assessment risk classification other than that designated in the schedule as "2A", any excess assessment paid by the institution pursuant to the preceding sentence shall promptly be refunded by the Corporation, with interest, and any additional assessment owed shall promptly be paid by the institution, with interest. Interest payable under this paragraph shall be at the rate provided for in § 327.7(b).

(e) *Classification for certain types of institutions.* The annual assessment rate applicable to institutions that are bridge banks under 12 U.S.C. 1821(n) and to institutions for which either the Corporation or the Resolution Trust Corporation has been appointed conservator shall in all cases be the rate applicable to the classification designated as "2A" in the schedules set forth in §§ 327.13(c)(2) and 327.23(d)(2).

(f) *Requests for review.* An institution may submit a written request for review of its assessment risk classification. Any such request must be submitted within 30 days of the date of the assessment risk classification notice provided by the Corporation pursuant to paragraph (d)(1) of this section. The request shall be submitted to the Corporation's Director of the Division of Supervision in Washington, DC, and shall include documentation sufficient to support the reclassification sought by the institution. If additional information is requested by the Corporation, such information shall be provided by the institution within 21 days of the date of the request for additional information. A request for review may include a request for an informal hearing. Any institution submitting a timely request for review will receive written notice from the Corporation regarding the outcome of its request. Notice of the procedures applicable to reviews and hearings will be included with the assessment risk classification notice to be provided pursuant to paragraph (d)(1) of this section.

(g) *Limited use of assessment risk classification.* The assignment of a particular assessment risk classification to a depository institution under this part 327 is for purposes of implementing and operating a transitional risk-based assessment system. Unless permitted by the Corporation or otherwise required by law, no institution may state in any advertisement or promotional material the assessment risk classification assigned to it pursuant to this part.

(h) *Disclosure restrictions.* The supervisory subgroup to which an institution is assigned by the Corporation pursuant to paragraph (d)(1) of this section is deemed to be exempt information within the scope of § 309.5(c)(8) of this chapter and, accordingly, is governed by the disclosure restrictions set out at § 309.6 of this chapter.

3. Section 327.7 is amended by revising paragraphs (a)(1)(ii)(A), (a)(2), (b)(1), and (b)(2) to read as follows:

§ 327.7 Payment of interest on delinquent assessment payments and assessment overpayments.

(a) * * *

(1) * * *

(ii) * * *

(A) In the case of an assessment to be paid by the bank, the assessment is postmarked after the time for payment specified in § 327.13;

* * * * *

(2) *Payment by Corporation.* The Corporation will pay interest to an insured depository institution for any timely overpayment of an assessment from the time the assessment payment is due, as specified in § 327.13 or § 327.22, to the date of disbursement by the Corporation of the overpayment amount.

(b) * * *

(1) *Current year.* The rate as determined by the most recent, published TFRM rate.

(2) *Prior years.* The interest will be calculated based on the rate issued under the TFRM for each applicable period and compounded annually. For the initial year, the rate will be applied to the gross amount of the underpayment or overpayment. For each additional year or portion thereof, the rate will be applied to the net amount of the underpayment or overpayment after that amount has been reduced by the assessment credit, if any, for the year.

4. Section 327.13 is amended by revising paragraph (c) and adding a new paragraph (d) to read as follows:

§ 327.13 Payment of assessment.

* * * * *

(c) *Assessment rate; rate schedule.* (1) The annual assessment rate for each BIF member shall be, for the semiannual periods of calendar year 1992, 0.23 percent; and

(2) Subject to § 327.3(e), the annual assessment rate for each BIF member, shall be, for the first semiannual period of calendar year 1993 and for subsequent semiannual periods, the rate designated in the following rate schedule applicable to the assessment risk classification assigned by the Corporation under § 327.3(d)(1) to that BIF member. (The schedule utilizes the group and subgroup designations specified in § 327.3(d)(1).)

SCHEDULE

Capital Group	Supervisory Subgroup		
	A	B	C
1	23	26	29
2	26	29	30
3	29	30	31

(d) *Recapitalization schedule.* The following schedule, which begins with the semiannual assessment period ending December 31, 1991, indicates the stages by which the Corporation seeks to achieve the BIF designated reserve ratio of 1.25 percent by the end of the year 2006:

Semi-annual period	Target reserve ratio (percent)
1991.2	−0.36
1992.1	−0.28
1992.2	−0.37
1993.1	−0.44
1993.2	−0.50
1994.1	−0.52
1994.2	−0.53
1995.1	−0.53
1995.2	−0.53
1996.1	−0.51
1996.2	−0.49
1997.1	−0.45
1997.2	−0.40
1998.1	−0.34
1998.2	−0.28
1999.1	−0.21
1999.2	−0.14
2000.1	−0.06
2000.2	0.03
2001.1	0.13
2001.2	0.22
2002.1	0.32
2002.2	0.41
2003.1	0.51
2003.2	0.61
2004.1	0.72
2004.2	0.82
2005.1	0.93
2005.2	1.04
2006.1	1.15
2006.2	1.25

5. Section 327.23(d) is revised to read as follows:

§ 327.23 Manner of payment.

* * * * *

(d) *Assessment rate; rate schedule.* (1) The annual assessment rate for each SAIF member shall be, for the semiannual periods of calendar year 1992, 0.23 percent; and

(2) Subject to § 327.3(e), the annual assessment rate for each SAIF member shall be, for the first semiannual period of calendar year 1993, and for subsequent semiannual periods, the rate designated in the following schedule applicable to the assessment risk classification assigned by the Corporation under § 327.3(d)(1) to that SAIF member. (The schedule utilizes the group and subgroup designations specified in § 327.3(d)(1).)

SCHEDULE

Capital group	Supervisory subgroup		
	A	B	C
1	23	26	29
2	26	29	30
3	29	30	31

6. Subpart D of Part 327 is revised to read as follows:

Subpart D—Insured Depository Institutions Participating in Section 5(d)(3) Transactions

Sec.

327.31 Scope.

327.32 Computation and payment of assessment.

327.33 Form of certified statement..

Subpart D—Insured Depository Institutions Participating in Section 5(d)(3) Transactions

§ 327.31 Scope.

(a) *Affected institutions.* This subpart D applies to any insured depository institution that:

(1) Is either a BIF or SAIF member; and

(2) Is the assuming, surviving, or resulting institution in a transaction undertaken pursuant to section 5(d)(3) of the Federal Deposit Insurance Act.

(b) *Duration.* This subpart D shall cease to apply to an insured depository institution if:

(1) On or after August 9, 1994, the Corporation approves an application by an insured depository institution to treat the transaction described in paragraph (a) of this section as a conversion transaction; and

(2) The insured depository institution pays the amount of any exit and entrance fee assessed by the Corporation with respect to such transaction.

§ 327.32 Computation and payment of assessment.

(a) *Responsibility for computation.* Each insured depository institution subject to this subpart D shall compute its own assessment.

(b) *Rate of assessment*—(1) *BIF and SAIF member rates.* (i) Except as provided in paragraphs (b)(2)(i) and (b)(2)(ii) of this section, and consistent with the provisions of § 327.3 of this part, the assessment to be paid by a BIF member subject to this subpart D shall be computed at the rate applicable to BIF members and the assessment to be paid by a SAIF member subject to this subpart D shall be computed at the rate applicable to SAIF members.

(ii) Such applicable rate shall be applied to the insured depository

institution's assessment base less that portion of the assessment base which is equal to the institution's adjusted attributable deposit amount.

(2) *Rate applicable to the adjusted attributable deposit amount.* (i) Notwithstanding paragraph (b)(1)(i) of this section, that portion of the assessment base of any acquiring, assuming, or resulting institution that is a BIF member which is equal to the adjusted attributable deposit amount of such institution shall:

(A) Be subject to assessment at the assessment rate applicable to SAIF members pursuant to subpart C of this part; and

(B) Not be taken into account in computing the amount of any assessment to be allocated to BIF.

(ii) Notwithstanding paragraph (b)(1)(i) of this section, that portion of the assessment base of any acquiring, assuming, or resulting institution that is a SAIF member which is equal to the adjusted attributable deposit amount of such institution shall:

(A) Be subject to assessment at the assessment rate applicable to BIF members pursuant to subpart B of this part; and

(B) Not be taken into account in computing the amount of any assessment to be allocated to SAIF.

(3) *Adjusted attributable deposit amount.* An insured depository institution's "adjusted attributable deposit amount" for any semiannual period is equal to the sum of:

(i) The amount of any deposits acquired by the institution in connection with the transaction (as determined at the time of such transaction) described in § 327.31(a);

(ii) The total of the amounts determined under paragraph (b)(3)(iii) of this section for semiannual periods preceding the semiannual period for which the determination is being made under this section; and

(iii) The amount by which the sum of the amounts described in paragraphs (b)(3)(i) and (b)(3)(ii) of this section would have increased during the preceding semiannual period (other than any semiannual period beginning before the date of such transaction) if such increase occurred at a rate equal to the annual rate of growth of deposits of the acquiring, assuming, or resulting depository institution minus the amount of any deposits acquired through the acquisition, in whole or in part, of another insured depository institution.

(4) *Deposits acquired by the institution.* As used in paragraph (b)(3)(i) of this section, the term "deposits acquired by the institution" means all deposits that are held in the institution acquired by such institution on the date of such transaction; provided, that if the Corporation or the Resolution Trust Corporation (RTC) has been appointed as conservator or receiver for the acquired institution, such term:

(i) Does not include any deposit held in the acquired institution on the date of such transaction which the acquired institution has obtained, directly or indirectly, by or through any deposit broker;

(ii) Does not include that part of any remaining deposit held in the acquired institution on the date of such transaction that is in excess of $80,000; and

(iii) Is limited to 80 per centum of the remaining portion of the aggregate of the deposits specified in paragraph (b)(4)(ii) of this section.

(5) *Deposit broker.* As used in paragraph (b)(4) of this section, the term "deposit broker" has the meaning specified in section 29 of the Federal Deposit Insurance Act (12 U.S.C. 1831f).

(c) *Procedures for computation and payment.* An insured depository institution subject to this subpart D shall follow the payment procedure that is set forth in subpart B of this part.

§ 327.33 Form of certified statement.

The certified statement to be filed by an insured depository institution subject to this subpart D shall be in the form prescribed by the Corporation.

By order of the Board of Directors.

Dated at Washington, DC, this 15th day of September, 1992.

Federal Deposit Insurance Corporation.

Robert E. Feldman,

Deputy Executive Secretary.

SECURITIES AND EXCHANGE COMMISSION

17 CFR Parts 210, 240, 249, 259 and 274

[Release Nos. 33-6958A; 34-31197A; 35-25833A; IC-18960A; FR-40A; File No. S7-4-89]

Amendments to Rules and Forms

AGENCY: Securities and Exchange Commission.

ACTION: Final rules.

SUMMARY: The Commission announces amendments to various rules and forms under the Securities Act of 1933, the Securities Exchange Act of 1934, the Public Utility Holding Company Act of 1935, and the Investment Company Act of 1940. These amendments are being adopted to conform such rules and forms to recently adopted accounting standards.

EFFECTIVE DATE: November 2, 1992.

Registrants, however, are permitted to comply immediately after publication of this Release in the Federal Register.

FOR FURTHER INFORMATION CONTACT: John W. Albert, Office of the Chief Accountant (202-272-2130), or Robert Bayless or Teresa Iannaconi, Division of Corporation Finance (202-272-2553), Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549.

SUPPLEMENTARY INFORMATION: The Securities and Exchange Commission is adopting amendments to Rules 3-02,[1] 3-03,[2] 3-09,[3] 3-12,[4] 3-18,[5] 3-19,[6] 3-21,[7] 4-08,[8] 4-10,[9] 7-04,[10] 10-01,[11] 12-04,[12] and 12-16 [13] of Regulation S-X (S-X) [14] and revisions to Schedules 13E-3 [15] and 13E-4,[16] Rule 14a-3(b)(1),[17] and Forms X-17A-5,[18] 20-F,[19] and 10-K [20] under the Securities Exchange Act of 1934 (Exchange Act), Form U5S [21] under the Public Utility Holding Company Act of 1935 (Utility Act), and Form N-4 [22] under the Investment Company Act of 1940 (Investment Company Act).

I. Executive Summary

At the request of the Office of the Federal Register, the Commission has made certain revisions to this release. Accordingly, the copy issued by the Commission on September 17, 1992 should not be relied upon. The Commission historically has looked to the private sector standard setting bodies designated by the accounting profession to establish and improve accounting principles, subject to Commission oversight.[23] The

Commission's rules require compliance with generally accepted accounting principles (GAAP), and the requirements of the Commission's rules and forms generally are used to interpret, supplement, or expand upon the basic GAAP requirements. The purpose of these amendments is to eliminate duplicative and obsolete disclosures and to conform reporting requirements as necessary to achieve consistency between the Commission's rules and forms and existing accounting principles.[24]

The following chart summarizes the significant amendments and provides the rationale for such changes.

Summary of Amendments

The table that follows is presented as a guide to assist the reader in understanding the amendments by presenting a brief description of the changes together with an explanation of the rationale for each change. This table should be used as a supplement to the discussion provided in later sections of this release. As used in this table, SFAS refers to Statements of Financial Accounting Standards issued by the Financial Accounting Standards Board (FASB).

Topic	Amendment	Rationale
Cash Flows/SFAS 95 as amended by SFAS 102 & 104.	Amend S–X, Rule 10–01 to permit the statement of cash flows to be provided in abbreviated form for interim reporting.	This is consistent with the previous requirement that permitted the statement of changes in financial position to be provided in abbreviated form for interim reporting.
	Amend S–X, Rule 3–19, and Items 17 and 18 of Form 20–F for foreign private issuers to substitute a requirement to present a statement of cash flows, or disclosure which is substantially similar, for the previous requirement to provide a statement of changes in financial position.	This conforms the requirements for foreign private issuers to reflect the adoption of SFAS 95.
	Amend various rules in Regulation S–X and forms filed under the Securities Act, Exchange Act, Utility Act, and Investment Company Act to revise references to "changes in financial position" and "funds flow" to refer to "cash flows."	To update technical references to be consistent with SFAS 95.
	Amend S–X, Rule 3–18, and Investment Company Act Form N–4 to require registered investment companies to provide a statement of cash flows in filings with the Commission whenever necessary to comply with GAAP.	SFAS 95, as amended by SFAS 102, requires certain investment companies to present a statement of cash flows as a component of a set of basic financial statements.
Income Taxes/SFAS 109	For companies which have adopted SFAS 109, amend S–X, Rule 4–08(h), as follows:	
	(1) delete requirement to disclose the net effects on income tax expense of significant timing differences, and	(1) A separate rule is unnecessary since paragraph 43 of SFAS 109 requires disclosure of the tax effects of principal temporary differences.
	(2) delete reconciliation between the amount of reported total income tax expense and the amount computed by multiplying the income (loss) before tax by the applicable statutory Federal income tax rate, and	(2) A separate rule is unnecessary since paragraph 47 of SFAS 109 requires a reconciliation that is similar to the reconciliation currently required by 4–08(h).
	(3) amend paragraph (j) of S–X, Rule 4–10, which applies to registrants engaged in oil and gas producing activities, to revise references to the "deferred method" of accounting for income taxes and to delete the reference to accounting for excess statutory depletion.	(3) The guidance on accounting for tax effects of excess statutory depletion is deleted since it would be either (1) redundant of the existing requirements under GAAP for applying the deferred method of income tax allocation or (2) not applicable once SFAS 109 is adopted.
Premium and other Consideration and Realized Investment Gains and Losses of Insurance Companies/FAS 97.	Amend S–X, Rule7–04, to: (a) reflect net realized investment gains and losses on a pretax basis as a separate line item and a component of pretax income from continuing operations rather than inclusion on a net of tax basis below income from operations and	(a) Conform S–X classification of realized gains and losses to classification requirements adopted in SFAS 97.
	(b) require disclosure of the manner in which investment income and realized gains and losses allocable to policyholders and separate accounts are reported in the financial statements; disclose the quantified effects of such reporting on financial statements.	(b) Accounting practices differ and therefore disclosure should enhance comparability of registrants' financial statements.
Oil and Gas Disclosure Requirements/SFAS 69	Delete paragraph (k) of S–X, Rule 4–10, since the phase-in period, during which optional application of SFAS 69 was permitted for certain prior periods, has expired.	Amendment deletes rules no longer necessary.
Accounting for the Effects of Certain Types of Regulation/ SFAS 71.	Delete paragraph (j) of S–X, Rule 4–08, that requires rate regulated enterprises which are not required to account for capital leases in accordance with SFAS 13, *Accounting for Leases*, to disclose certain balance sheet and income statement information with respect to such leases.	SFAS 71 requires rate regulated enterprises to reflect the application of the provisions of SFAS 13 in all financial statements issued for years beginning after December 15, 1986. The amendment deletes the rule which is no longer necessary.

[24] The Commission also notes that although its mandatory peer review proposal, published in Securities Act Release No. 6695 (April 1, 198?; [52 FR 11665], is being withdrawn, it continues to believe that the peer review process contributes significantly to improving the quality control systems of accounting firms auditing Commission registrants and enhances the consistency and quality of practice before the Commission. The Commission, therefore, encourages accounting firms practicing before the Commission who have not joined a peer review program to do so, and the staff will continue to monitor enrollment in and the peer review activities of the SEC Practice Section (SECPS) of the American Institute of Certified Public Accountant's Division of CPA Firms with a view to whether there is need for a direct Commission requirement.

Topic	Amendment	Rationale
Computer Software Development Costs/ SFAS 86.....	Delete S–X, Rule 3–21, which specifies the accounting to be followed with respect to capitalization of costs of internal development of computer software to be sold, leased, or otherwise marketed to others.	SFAS 86 addresses the accounting issue to which Rule 3–21 relates. Therefore, the amendment deletes the rule which is no longer necessary.

II. Proposing Release

On February 17, 1989, the Commission proposed for public comment the amendments discussed herein.[25] The Commission received 46 comment letters on the proposed amendments. The majority of letters (38) were received from representatives of industry. Letters were also received from five accounting firms and one accounting association, a law firm, and an individual. Commentators generally expressed support for the Commission's objective of conforming its rules with the requirements of GAAP; however, many commentators also expressed reservations about certain of the proposed amendments which would call for financial reporting disclosures that exceed those required under GAAP. Comments are summarized in the relevant sections of this release.

III. Statement of Cash Flows

In November 1987 the FASB issued SFAS 95, Statement of Cash Flows. SFAS 95 requires presentation of a statement of cash flows as a component of a set of basic financial statements and supersedes the previous requirement to present a statement of changes in financial position.

A. Interim Reporting

1. Abbreviated Format of Statement

Rule 10–01 of S–X is being amended as proposed to permit the use of an abbreviated form of the statement of cash flows for interim financial statements. This is consistent with the previous rule which permitted the use of an abbreviated form of the statement of changes in financial position.

Several commentators questioned the use of cash flows from operations as the criterion to trigger disclosure of cash flows from investing and financing activities. The amended rule requires such disclosure when individual types of cash flows exceed 10% of average net cash flows from operating activities for the most recent three years. Several commentators suggested use of beginning cash balances rather than the average cash flows from operating activities as the measurement criterion for disclosure of significant investing and financing activities. However, as one commentator noted, many companies do not maintain significant cash balances and any percentage test applied to cash balances could result in excessively detailed disclosure. Therefore, the amended rule is based on average operating cash flows as the appropriate measure of significance for this disclosure.

2. Disclosure of Cash Interest and Taxes Paid

The proposing release would have required that cash payments for interest and income taxes be separately disclosed in the abbreviated statement or in a footnote thereto since such information was believed to be valuable for financial statement analysis.

Opponents of this aspect of the proposed rules cited the cost and time burden required to develop the data on an interim basis. Some commentators specifically noted the difficulties that would be encountered by multinational companies where data collection on a worldwide basis and the effects of exchange rates and foreign currency hedging transactions may compound the difficulty of developing these data for interim disclosure.

Respondents argued that these data would not be particularly meaningful outside of the context of a full cash flow statement. Specifically they pointed out that disclosures about significant cash payments for interest and taxes are intended to provide comparability between cash flow statements prepared under the direct and indirect methods, and that comparability is not a factor within the interim reporting rules which do not distinguish between use of the direct versus indirect methods of reporting. It was also argued that as incremental information, such a requirement would be inconsistent with the concept of an abbreviated statement.

The rules as adopted do not require interim cash flow statements to include separate disclosure of the amounts of cash interest and taxes paid.

B. Foreign Private Issuers

The Commission is amending Regulation S–X, Rule 3–19, and Items 17 and 18 of Form 20–F[26] (which contains the general financial statement requirements applicable to foreign private issuers) to adopt a requirement to provide a statement of cash flows or substantially similar information as a component of the financial statements included in filings with the Commission in place of the previous requirement to provide a statement of changes in financial position.

The Commission's requirements provide that, while foreign issuers' financial statements may be prepared according to a comprehensive body of accounting principles other than those generally accepted in the United States, they must disclose an informational content substantially similar to financial statements that comply with United States GAAP.

Thus, the amendment requires that financial statements that are prepared in accordance with a comprehensive body of principles that does not require a statement of cash or funds flow must include a statement of cash flows that complies with the requirements of SFAS 95. If the financial statements are prepared in accordance with a body of principles that requires a cash or funds flow statement in a format that differs from the U.S. required statement, the amendment permits presentation of substantially similar information in financial statement or footnote form.

Of the respondents who commented on this proposal, a substantial majority supported the proposed amendments citing among other reasons the desirability of maintaining a "level playing field" in terms of financial reporting requirements for U.S. and foreign registrants. Opposing commentators cited the potential time and cost burden for some foreign registrants, specifically addressing the hardship of applying the SFAS 95 cash flow reporting requirements to certain foreign depository financial institutions.[27] Respondents also

[26] Form 20–F (17 CFR 249.220f) is both the registration form and the annual report form which may be filed by foreign private issuers pursuant to the requirements of the Exchange Act.

[27] In December 1989 the FASB issued SFAS 104 which amends SFAS 95 to expand the circumstances under which depository financial

Continued

detailed differences in the manner of operations of British versus U.S. depository financial institutions which compound the hardship of strict compliance with the SFAS 95 cash flow reporting requirements. However, the subsequent amendment of the U.S. cash flow standard and the recent adoption of a new U.K. standard have substantially eliminated this hardship.[28]

Both proponents and opponents recommended that flexibility be allowed in the adoption and implementation of any cash flow reporting requirement.

The Commission believes that the disclosures prescribed by SFAS 95 are useful,[29] and it is appropriate to adopt this amendment, which will continue the Commission's existing requirement that foreign issuers should provide basic financial statements that reflect information that is substantially similar to that which is required by U.S. GAAP. As adopted, the Commission's requirement for cash flow reporting by foreign private issuers is flexible in that it permits presentation of the cash flow information in alternative formats in circumstances where a registrant's home country has a cash flow or funds flow reporting requirement that differs from the U.S. requirement. Further, the Commission emphasizes that, as with other accounting issues, the Commission's staff is willing to work with individual foreign registrants to resolve any unusual difficulty or burden imposed by the Commission's rules.

C. Other Technical Amendments

Many of the amendments being adopted are "housekeeping" matters, which result from the issuance of SFAS 95. All rules and forms that contain references to the previously required statement of changes in financial position are being amended to refer to the newly adopted statement of cash flows.

SFAS 95, as amended by SFAS 102, requires certain investment companies to include a statement of cash flows as a component of a set of basic financial statements. Rule 3–18 is being amended to adopt a requirement that investment companies provide a cash flow statement as a component of a set of basic financial statements to the extent required by GAAP.

The proposing release requested comments on whether the Commission should expand the summary financial information requirements in Rule 1–02(aa) of Regulation S–X to include summary cash flow data. Commentators did not express support for inclusion of cash flow data because such information was not deemed useful or relevant in all circumstances under which the data prescribed by Rule 1–02(aa) are required. A requirement that these data be routinely provided is not being adopted.

IV. Reporting on Income Taxes

SFAS 96, Accounting for Income Taxes, established financial accounting and reporting standards for the effects of income taxes on reporting entities.[30] Subsequent to the rule proposal and attendant public comment, the FASB initiated a project to amend SFAS 96 with a standard that would, among other things, revise the criteria by which deferred tax assets are recognized and measured. In February 1992, the FASB issued SFAS 109 which is effective for fiscal years beginning after December 15, 1992. Similar to the standard it amends, SFAS 109 assumes an asset and liability approach to accounting and reporting for income taxes. Rule 4–08(h) of Regulation S–X contains the Commission's income tax disclosure requirements. Some of the disclosure requirements of Rule 4–08(h) were adopted by SFAS 109 in either the original or a modified form. Rule 4–08(h) is being amended to delete those requirements that are now duplicated for registrants complying with SFAS 109. Other income tax accounting requirements are discussed below.

A. Disclosures Relating to Significant Temporary Differences

SFAS No. 109 requires disclosure of the tax effects of the principal temporary differences that give rise to deferred tax assets and liabilities. This represents a change from the approach initially taken in SFAS 96 under which companies would be required to disclose only the nature of the temporary differences that give rise to deferred tax assets and liabilities. The proposing release focused on the lack of quantified disclosure requirements under SFAS 96. Rules were proposed to require disclosure of the amount of each significant component of deferred tax assets and liabilities based on the view that quantified disclosure would be meaningful to financial statements users in assessing the potential timing and degree of management control over the reversal of timing differences.

A separate rule is no longer considered necessary as a result of the adoption of quantified disclosures under SFAS 109.

B. Other Technical Amendment

Rule 4–10(j) of Regulation S–X, captioned Income taxes, requires registrants engaged in oil and gas producing activities to apply comprehensive interperiod tax allocation by the deferred method. Reference to the deferred method of income tax allocation is being deleted in recognition of the change to the liability method required under SFAS 109. Also, the existing guidance on the income tax accounting treatment of excess statutory depletion is being deleted since it would be either (1) Redundant of the existing requirements under GAAP for applying the deferred method of income tax allocation or (2) not applicable once SFAS 109 is adopted. The rule is revised to refer to the requirements of GAAP generally since registrants that have not already voluntarily adopted SFAS 109 presently have the option of continuing to apply the deferred method until the effective date of SFAS 109.

V. Loan Origination Fees

In December 1986, the FASB issued SFAS 91, Accounting for Nonrefundable Fees and Costs Associated with Originating or Acquiring Loans and Initial Direct Costs of Leases. Rule 9–03 of Regulation S–X, which governs the form and content of balance sheets of bank holding companies, currently requires presentation of the total loan portfolio balance with separate disclosure of related loan loss allowances and unearned income. The Commission proposed an amendment of

---

institutions' cash flows from deposit and lending activities may be presented on a net, rather than gross, basis. This amendment will reduce but not eliminate some of the cash flow reporting burdens of depository financial institutions.

[28] In September 1991 the recently created Accounting Standards Board of the United Kingdom published Financial Reporting Standard 1, *Cash Flow Statements*. The staff has indicated to U.K. registrants that the U.K. statement (with a few incremental disclosures) substantially satisfies the cash flow statement requirement in filings with the Commission. Additionally, FASB issued a new standard that modified the U.S. cash flow statement requirement to permit disclosures of certain cash flow items on a net basis. This revision largely addresses the concern expressed by U.K. commentators.
